

A LADIES LUNCHEON

For springtime luncheons with the girls, serve a molded salad that you make the day before. You'll be able to spend time with your guests because you'll only need a few minutes for garnishing. This chicken and vegetable salad will be a colorful dish for your table, and is sure to make a hit at a shower or other special occasion. To complete your meal, serve with RITZ Crackers, Cheddar cheese and apple slices.

MOLDED CHICKEN-VEGETABLE SALAD

Your County Agent Says

Weeds along our irrigation ditches can be a real problem as the summer progresses. This nuisance can be controlled by a spray program when these weeds are small. There are several excellent knock down sprays on the market that knock down all annual growth when applied. Diesel oil in itself does a good job on these weeds, but some contact herbicides are cheaper per mile of ditch. These herbicides aren't designed to control perennial weeds or grasses. Specific problems need special treatment, but all of them are more satisfactorily controlled if sprayed when small except some perennial weeds which are more susceptible in the bud stage of growth.

Safety Considerations For Pesticide Use

- All pesticides are poisonous to warm-blooded animals to some degree. They should be handled cautiously to prevent poisoning pets, livestock, wildlife, and humans. When using any chemical, observe the following safe use procedures:
1. Always read the label before using any chemical, and carefully follow the directions given. Each time before opening the container note warnings and cautions.
 2. Keep insecticides out of the reach of children and pets. Pesticides should be kept in their original containers, outside the home, in a locked storage.
 3. Do not spill concentrates or sprays on the skin or clothing. If they are spilled, remove the contaminated clothing immediately and wash body and clothing thoroughly.
 4. Never smoke while spraying.
 5. Avoid inhaling insecticide mists and vapors; and when directed on the label wear protective clothing and a face mask. A handkerchief fitted to the face, coveralls, and gloves will help prevent excessive inhalation and contact with the insecticide.
 6. Wash hands and face and change to clean clothing immediately after spraying. Always wash clothing before re-use.
 7. Cover food and water containers when treating around livestock or pet areas. Do not contaminate fish ponds.
 8. Use separate equipment for applying hormone-type herbicides in order to avoid accidental injury to susceptible plants from contaminated spray equipment.
 9. Always dispose of empty containers in trash or by burning or burying so that they pose no hazard to humans, animals, or plants. When burning containers, avoid inhaling smoke.
 10. Observe label directions and cautions to avoid undesirable residues.

To You We Sing is a pageant written and adapted by Wayne and Eleanor Phillips to celebrate the Bicentennial. It depicts the history of this country through words, music, and dance. Starting with a jazz ballet to "Hawthorn's Wedding Feast", the pageant continues using music that is associated with the period it represents rather than being historically accurate. Examples are: Jerome Kern's "Old Man River", written in this century depicts the era of slavery, and "Money, Money Money", written only recently, certainly epitomizes the great depression.

Parts of this pageant were presented at the Malheur County Fair. The entire pageant will be presented on May 6, 7, and 8 at 8:00 p.m. in the Administration Building. Soloists include Linda Dame, Ernie Stone, Leonard Burns, Clint Bellows, Hope Kawashima, Bob Hellinga, Ann Fulton, and Teddi Skousen. Chorus members include: Jerri Banner, Silvy
