C. A. Wernick, former Nyssa resident, has been transferred back to Nyssa from Twin Falls by the Amalgamated Sugar Company. His family is expected to arrive here soon.

George Dohner's cat was a good mouser, but he certainly was a poor electrician.

The cat recently climbed a high tension power line pole three miles north of Howard's Corner on the Idaho side of the Snake River. He apparently crawled between

the braces that hold the cross-arms and fell between the terminals of the transformer, with his front paws "froze" to the ground wire and one rear foot on the anchor cable. Bernard Frost of the Idaho Power Company removed the body from the pole.

In spite of lower priced eggs due to the mild open winter in this country and high priced feed production this year will show a considerable increase judging from the number of baby chicks, according to the

county agent. Mr. Shovel is highly enthused over the possibilities for poultry raising in this county and believes that without exception every farm in this section is adapted to poultry flocks of a hundred or more laying hens. The only limiting factor is the individuality of the farmer himself, whether or not he cares to raise poultry.
