Motorists Waste Money On Underinflated Tires

Motorists may waste more than \$100 million in needless tire wear this summer unless they pay more attention to proper inflation than usual, the Tire Industry Safety Council said today.

Estimates by the U.S. Department of Commerce are that tires underinflated by four pounds of air pressure have tread life cut by ten per cent, and underinflation by 12 pounds can cut 40 per cent. The Department also has estimated tire consumers spend \$4.9 billion a year on new replacement tires.

"Even with only five per cent excess wear, underinflation would cost tire users

\$250 million this year," Malcolm R. Lovell, Jr., Chairman of the Tire Industry Safety Council pointed out.

This means at least \$62.5 million would be lost during a quarter-year. But, turnpike records show that passenger car travel doubles or even triples in peak summer driving months compared with winter.

"Underinflated tires waste gasoline, too, because they use more energy," Lovell said.

Government surveys have shown that more than one out of four cars has at least one seriously underinflated tire.

Garden Club Hears Grant Baugh

Seventeen Owyhee Garden Club members and three guests, Florence Pettet, Lulu Lambert of Ontario and Grant Baugh, Vale, enjoyed a lively and interesting meeting, May 14, at the home of Mrs. Ray Strickland.

Anticipation of an enjoyable afternoon began with a drive to the Strickland home, miles off busy Highway 20-26. Whichever route one chooses, there are miles of winding country road and interesting farms and homes. When you think you can go no further without going over roadless mountains, there is the Strickland home. The only house visible in the area, nestled against a hill, surrounded by a spacious lawn, dominated by a huge and picturesque cottonwood. Raised flowerbeds surround the house, adding color and interest to the yard. From the living room windows, the view of the distant mountains to the south and the west, ever changeable and renewable, give a feeling of beauty, stability and tranquility to the visitor.

Following the business meeting, informal reports were given on the April 10 district meeting at Baker, attended by Polly Holub, Jansie Stam, Eve Stubstad, Bertha Atagi, Betty Nielsen and Luella Smith. Comments were also heard on the April 24 outing to Hell's Canyon.

Grant Baugh from the BLM showed slides of wild flowers of the area, which will better help members identify the blooms and plants during next month's scheduled trip to Bogus Basin, Idaho, June 11.

A Chinese Auction climaxed the days events. Some

of the items brought for sale were: bright "watermelon" pot holders, a large bag of succulent asparagus, two complete-meal chicken dinners, special recipe dried fruits, homebaked bread and family favorite cookies, wrapped mystery gifts, antiques and unusual potted plants.

Bids with names attached were placed underneath the objects desired and the highest bidder won. The fun began when identical bids were found and rebidding began again. The treasury was enriched painlessly, quickly and with much merriment.

If the weather cooperates the Owyhee Garden Club will again have a Memorial Day Sale, May 29 at the corner of the M&W parking lot at 10 a.m. until sold out. Members are asked to bring flowers and meet at the Wilbur Holcomb home at 9 a.m.
