The next regular meeting will be Tuesday, October 19 at the Hall at 8 p.m.

Loan Officer Bud Worley discussing the cost-saving advantages of insulation with Ken Nyce, manager of Stunz Lumber Company.

# FirstLoan. It's a great housewarming idea.

Saving energy is something we're all concerned about, especially as colder weather approaches. But, by properly winterizing your home now, you can make the efficient use of energy return a tremendous savings.

Proper insulation, storm doors and windows, caulking, weatherstripping, a new roof and a modern furnace are just several housewarming ideas that can make a substantial difference in your heating

costs. In fact, with the energy they save, these improvements will pay for themselves over the years, while adding value and comfort to your home now.

Just as important, First National Bank can show you an efficient way to finance these housewarming needs. It's called FirstLoan. A simple interest consumer loan, FirstLoan can return a savings on interest every time you make an early payment. If you pay off the entire loan ahead of schedule, you can really save money.

Late payments, on the other hand, do not incur a penalty fee with FirstLoan. Instead, you pay only slightly more interest for holding the money longer.

And to make certain your records are always up-to-date, we'll send you detailed monthly statements.

FirstLoan. Anyway you look at it, it's a better way to borrow money. And it's available at every branch of First National Bank of Oregon.

**In the business of life there's a 1st time for everything.**
