FIRE CALLS!

Nyssa Firemen were summoned to a call Friday at the Don Strickland home but were unable to assist as the house was out of the Nyssa District. Adrian was summoned but the house was totally destroyed.

Firemen answered two calls Sunday. One Sunday morning to the Stringer Sheep Company on Enterprise where a pile of sheep manure was on fire. Later Sunday evening a call was answered at 814 North 3rd Street where the electrical entrance into the house was shorting out. No damage was done.

Fire Calls In Adrian

Adrian Firemen have been summoned to ten fires since the middle of March through the middle of April. No dates of the fire calls were available but the firemen answered calls to: The Earl Campbell residence where there was a weed burning operation on some ditches and the wind carried the fire over to some hay storage. However the blaze was put out before it did any damage.

Tony Ocamica in the Big Bend area was also burning ditches earlier this month and a large tree caught fire, threatening power and telephone lines. Firemen also got this fire under control.

Mrs. Charles Bowers lost three outbuildings when some trash she was burning fell out of the trash barrel and caught some grass on fire.

Gladys Swigert of Big Bend also summoned Adrian Firemen to help extinguish a grass fire.

The house on the old Phil Clucas place in Big Bend was extensively damaged by fire caused by an electrical short in the attic.

Firemen were also summoned to help with a hay fire, but the address of the persons requesting help wasn't available at presstime. They answered a call to the David Beebe residence where the pump house burned down.

An ensilage fire at the Dennis Martins was the result of another weed burning operation that was done while the wind was blowing.

The most recent fire in the Adrian Fire District was last week at the Don Strickland home. Mrs. Strickland was burning weeds and the garage caught fire, thus spreading to the house,

which was totally destroyed. Nyssa also answered the call, but it was outside of their district, and the BLM pumper was there too. The Adrian crew finally brought the blaze under control.

The last summons last week was again a weed fire on the White place in Big Bend where some burning weeds caught the corrals and

posts on fire. The Adrian Fire Department with its crew of volunteer fire fighters has indeed had a busy time these past few weeks.

New Executive

"Malheur Council On Aging," is pleased to announce the newly appointed Executive Director, Mr. Waldene Sparks.

Mr. Sparks, (he prefers to be called Sparky) and his wife Ellen moved into the Ontario area over a year ago. They were living in Los Angeles, where Mr. Sparks was the director of Labor Relations for the Monolith Portland Cement Company. After living in L.A. for five years, the big city life did not leave much to be desired for the interest of both he and his wife.

We asked, what brought him into the Ontario area? He went on to say about a couple of years ago, he and his wife visited friends who retired in the Fruitland area. The area was very appealing to both Sparky and Ellen. It was agricultural, small town, and

reminded Sparky of his home town in central Kansas.

When they both returned to L.A., the thought of retiring in the Ontario area seemed to grow more appealing as the time went on. He and Ellen decided to buy a house with some acreage and it took him five visits to Ontario within a year to find his new home.

The plans were to work seven more years in L.A. then retire in Ontario. Sparky and Ellen couldn't wait any longer. Sparky resigned from his job, moved, and settled in his Ontario home.

M.C.O.A. has definitely benefited from his decision to move to Ontario before retirement.

We are very proud and lucky to have Mr. Sparks to head the M.C.O.A. staff. We are looking forward to working together to develop and expand the senior citizen programs in Malheur County.
