APPLE VALLEY - Last week was a slow one with the weather contributing to the pace. Many were thankful for the generous downpours of rain-many were not but the sun is out again this week so things should be picking up. Children started back to school today to the relief of many mothers who will welcome the return of the routines that have been shoved in the background for most of the summer. We wish the school-goers well and pray God's blessings upon their young lives.

On a personal note, I will be starting another year at college this week, so that it will not be possible for me to continue writing the news. I have enjoyed talking to all of you this summer and hope to meet everyone someday. If you know of anyone who might be interested in taking the news, please have them contact the Gate City Journal right away.
