Pilot and Aircraft Registration Applications Being Received

Both pilot and aircraft registration applications for calendar year 1978 are being received and processed by the State Aeronautics Division, it was announced, today by Paul E. Burket, administrator of the Oregon State Aeronautics Division.

Burket said that all pilots who operate general aviation aircraft in Oregon must register their federal certificates with the Oregon Aeronautics Division in accordance with ORS 493.040. Nonresidents must register within 60 days of arrival within the state, unless commercial operations are to be involved. Any pilot planning to engage in a commercial operation must register prior to any such operation.

The annual fee for pilot registration is \$2 for those who are registering for the

first time, while the fee for the renewal of pilot registration is \$4 for a two-year period. All fees accrue to the Air Search and Rescue Fund, and can be used only for Air Search and Rescue or administration of that program.

Burket said that owners and operators of all general aviation aircraft must be registered with the Oregon State Aeronautics Division prior to February 28, 1978, to be relieved of personal property taxes. This registration is in addition to the federal registration.

The fee for registration, which is mandatory for each aircraft before it can be flown, goes into the Aeronautics Fund, and helps provide for improvement of airports and services to the aviation community, as well as the operation and administration of the agency.
