About Catarrh.

It is caused by a coid or succession of colds, combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing poises in the ears. It is cured by Hood's Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tistues and relieves all the disagreeable sensations.

Hood's Pills cure all liver ills. Ma'led for 25c by C. I. Hood & :Co., Lowell, 15,000,00

> One of the daily trials of the United States treasury is to listen to the complaints of people who are paid in gold. It is the only form of calamity that can be charged to republican rule. There is not sufficient of paper money, or paper representatives of money, to gc around. The government should order the printing of more paper money; more gold notes. There is no sense in forcing gold onto people who do not want it. Let the government keep the gold, and issue representatives of it, to be redeemed with the yellow metal at any time it may be called for. It would not be called for.

L'ANGERS OF THE GRIP. The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Lunn & Brooks, druggists.

Religious News and Gossip of Interest to Laymen as Well as Ministers.

For their jubilee year the Disciples of Christ are seeking 100,000 conversions during 1899. Upon the matter a good deal of discussion is going on among their leaders. Were they to attain their object their gain would be -0 per cent, a gain not equaled by any religious body in many years under ordinary conditions. Disciples gained last year ."1/2 per cent. Only Eaptists, Methodists and Roman Catholics exceeded 100,000 gain last year, but their percentages were only 3, 3 and 31/2 respectiveyly. Disciples are laying the fault for slow growth in the past upon pastors, people, financial, conditions and all sorts of causes. They are also bringing forward remedies in great numbers for reaching their high aim of the current year.

The American Sunday-school Union has been joined by the Sunday school societies of practically all of the leading religious bodies in an endeavor to cover the island of Porto Rico with denominational Sunday schools. The union, which has its headquarters in Philadelphia, is undenominational, and has been the picacer in the founding of thousands of schools throughout the West and Southwest. It works only within the limits of the United States, and hence does not go to Cuba. Since the island of Porto Rico is under military control these organizations have asked Maj. Gen. O. O. Howard to cooperate in this work of planting Sunday schools it being believed that he combines both the military and religious training required to prosecute the work with energy and yet avoid friction. There is to be named, in addition to Gen. Howard, a superintendent for the union. Under him there are to be employed at least twenty of the best Sunday school workers to be secured. These twenty workers are to take active charge of the schools, securing when possible local assistance. Hence it is deemed possible, by securing local assistance and by increasing the force as demands may justify, to plant at least half a hun-fred schools during the coming spring and summer. They are to be located at strategic points. and English will be taught in all of them as well as the Bible. Gen Howard has given his promise to go and inaugurate the work as soon as he shall raise a small balance for the endowment of Lincoln Memorial university, located at Cumberland Gap, Tenn. The funds for this vast work have been guaranteed, not alone to pay salaries, but to erect where needed rooms in which schools will meet. Thesfunds come from Christian people all over the country, and from Sunday school children in the United States and Canada, without regard to denom-

Business men who are interested in foreign missions have under contemplation the sending of one of their number around the world for the purlose of making a study of the condition of missions and reporting direct to them. These men are not in touch in this movement with the secretaries of the missionary societies, but are acting independently. There have been several deputations gone out to examine conditions of missions, but they have all done so under the societies themselves. In this latest movement the business men have their own motives. For one thing, they want to find out how many mission stations are run on business principles, and how many are not. Some mission stations have become self-supporting. These men want to find out why others have not done so. They make no charges of incompetency. They merely think it possible that Christian people of this country are giving money to mission stations that ought to maintain themselves after all these years of outside aid. The business men represent every denomination, and their appointee will start early this spring if it be decided to send him

From every state, but more particularly from California, Arizona, New Mexico Texas and others where there has long been contact with Spanishspeaking people, applications are going by the hundreds from preachers and lay workers to the missionary toard secretaries demanding appointment to serve in Cuba and Porto Rico. One secretary, whose society represents one of the largest denominations, had above 300 applications in a single day recently. Another announced that it would appoint two district secretaries. Aplications from 102 persons came in response. Another planned to send out twenty men, some of them to Manila, and for days together it received as many aplications each mail as it intended to appoint men altogether. These applicants are known not to be men who desire to combine business with church work. They are men who ignore business considerations entirely. and ask simply their maintenance.

Religious workers who go to our new territorial possessions are sure to want Bibles, tracts and other printed matter. Bibles are furnished by the American Bible society. That society has a Spanish list of about 300 books and tracts. These consist of Bible dictionary, hymnals both with and without music. Bible lesson helps, Bible commentaries, and just now \$3000 is needed to publish in Spanish a concordance of the Bible. The belief of the society is that these territories, and especially Porto Rico, will at an early date be English-speaking, but they realize that, until they are, such printed matter in Spanish will be needed, else little progress among the common people can be made. The American Tract society is non-sectarian, and is supported by funds from Congregationalists, Methodists and Reformed church people chiefly. Presbyterians give it some money and Episcopalians a very little. It is just now making strenuous efforts to meet the unprecedented demands upon it-demands which are already felt, and are sure to

be felt more when all these missionarles get into the field

The oldest newspaper in the United States, the Philadelphia North American, changed hands last week. It is the direct descendant of the Pennsylvania Packet and General Advertiser, a weekly first Issued October 28, 1771. No other living American newspaper existed through the revolution. In :784 the title of the paper was changed to the American Datt Advertiser. A consolidation in 1839 gave it a new name, the United States Gazette, and extended its lineage back to 1742. Upon merging with another contemporary in 1847 the title became the North American and United States Gazette, shortened in 1876 to the North Amerian. One of its noted news feats, jointly with the New York Tribune. was to send a pilot boat across the Atlantic in 1846, beating the regular acket several days.

Roobed the Grave. A startling incident, of which Mc. ohn Oliver of Philadelphia, was the subject is narrated by him as follows: was in a most dreadful condition ly skin was almost yellow, eyes sunkn, tongue coated, pain continually in ack and sides, no appetite gradually rowing weaker day by day. Three chysicians had given me up. Fortuntely a friend advised trying 'Electric litters'; and to my great joy and surprise, the first bottle made a decided inprovement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 0 cents per bottle at Dr. S. C. Stone's drug store.

THE PRISON LIBRARY.-During penitentiary was liberally patronized by the prisoners, as shown by the librarian's report. There were 558 library books used, three bibles and nine school books. These volumes were used by 180 prisoners. Over 100 magazines, and 300 papers were also read by the various wards of the state within the walls.
