

THE NEW MILITIA.

Company K, Third Regiment, Oregon National Guard, to be Organized on Tuesday.

Company K, Third Regiment, Oregon National Guard, is now an assured fact, and the organization will, if nothing unforeseen prevents, be mustered into the service of the state on next Tuesday evening.

The present plan is to perfect an organization on Tuesday evening, when it is expected that Gen. B. B. Tuttle, the adjutant general, will be present to muster in the company.

TO PLAY FOOTBALL.

The Organization of an Intercollegiate League Consummated and Officers Elected.

Delegates from the several colleges held an adjourned meeting in this city yesterday morning, when the organization of the Oregon Intercollegiate Football League was consummated with the following officers:

The annual business meeting of the league will be held in this city on the day before the intercollegiate field day meet, when the election of officers for the ensuing year will take place.

The executive committee, which consists of a member from each of the colleges included in the league, and the president as ex-officio member, will meet in this city on the last Saturday of September each year, when the schedule of intercollegiate games will be arranged.

The membership of the league now includes four colleges, viz: Oregon Agricultural College, of Corvallis; Willamette University, of Salem; State University, of Eugene; and Pacific University, of Forest Grove.

PROBATE ORDERS.

The Final Account of the Administrator of the Elizabeth Holden Estate Approved Yesterday.

The final account of Horace Holden, administrator of the estate of Harriet Holden, deceased, came up for hearing in the probate court yesterday, and the account was allowed and approved and the administrator discharged.

TO-NIGHT AND TO-MORROW NIGHT.

And each day and night this week you can get at any drugist's Kemp's Balsam for the throat and lungs, acknowledged to be the most successful remedy ever sold for Coughs, Croup, Bronchitis, Asthma and Consumption.

THE HORTICULTURISTS.

The second day's session of the midsummer meeting of the Oregon state horticultural society, in this city yesterday, was attended by probably 150 persons, the greater portion of whom are directly interested in the growing of fruit of different varieties.

THREE NEW MEN.

At the Oregon penitentiary, yesterday, three men were added to the number in custody of the officers. On the 11 a. m. train Deputy United States Marshal Roberts brought up Martin L. Dobson and Edward Hammon, convicted in the United States court, of having counterfeited coin in their possession.

PIANO BOXES.

Having sold over four dozen pianos in the last three months, I am entirely over-stocked in piano boxes, and in order to clear them out will sell them at \$1.50 each.

WHY DO YOU BLUSH?

The Latest Theory is That There Are Two Closely Allied Causes.

The general idea that blushing is due to fullness of blood in the brain is incorrect, according to the new theory of a French expert. It arises from the relaxation of the arteries of the face, neck and breast, thus allowing an extra quantity of blood to rush to the skin.

Flushers are more liable to redden in damp or stormy weather than in the cold days of winter or the hot days of summer. If this glowing of the face were the result of emotion, why this difference? It is due to weakness, the fact assumes the appearance of probability.

There are two closely allied causes of blushing, one is named "erythrophobia," that is the ordinary cause—weakness, and the extreme sensitiveness and other conditions caused by it. The other is designated "erythro-phobia," and is the fear that one will blush unconsciously at awkward moments.

The latter is a peculiar form of the disease. The individual in question, although not given to blushing, becomes gradually possessed with a fear that he will do so at some inopportune time, and this fear grows upon him until it completely masters him and makes him grow red in the face when there is not the slightest reason for it.

At the most simple question the color rises and he is placed in the most absurd situation. He is looked upon with suspicion, because other people accept his confusion as consciousness of guilt; he recognizes the fact, and of course his condition grows worse. Weakness is responsible in this case also for the deplorable state of things, for when the sufferer is taken in hand and gets "braced up," he smiles at his former fears.

A Thousand Tongues.

Could not express the rapture of Annie E. Springer, of 1125 Howard St., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden.

SUN BONNETS ON THE LIK.

The ladies of Kansas wear sun bonnets and calico dresses when they go out on their wheels. They look comical in that sort of a costume, but it is the most appropriate and comfortable that could be devised for this kind of country.

Strawberries contain a larger percentage of iron than any other fruit.

For this reason they are particularly excellent to enrich and purify the blood.

A Wonderful Medicine. BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling of the Liver, Dizziness and Drowsiness, Cold Chills, Flashes of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Blisters on the Skin, Disturbed Sleep, Frightful Dreams, and all Nerves and Trembling Sensations, etc. These pills are the most perfect and the most reliable of any medicine ever discovered for the cure of the above and all other ailments of the stomach and liver.

THE EUGENE UNIVERSITY WINS THE CHAMPIONSHIP.

Corvallis and Newberg Teams Tied for Second Place—Four Records Were Broken.

(From Daily June 11th)

Table with 5 columns: Events, U.O., O.A.C., W.U., P.C. Rows include 800-yard run, 100-yard dash, Broad jump, Mile walk, Shot put, Pole vault, 220 yard hurdle, Hammer throw, 440-yard run, High jump, Mile run, 230-yard dash, 2-mile bike race, 120 yard hurdle.

Four new records were established at the fifth annual field day meet of the Oregon Intercollegiate Amateur Athletic Association held in this city yesterday afternoon.

The weather yesterday was good, but the track was slow. The race course was in poor condition and not favorable to record breaking. A stiff north breeze prevailed during the afternoon, which discouraged and rendered difficult the making of new records.

The Eugene delegation was no less demonstrative and their opportunities for college yells and vociferous applause were more frequent.

The Eugene delegation was no less demonstrative and their opportunities for college yells and vociferous applause were more frequent. The delegation evidently anticipated a victory for when the state university team had enough points to its credit to insure the ultimate success and the championship, the young ladies suspended from the grand stand a banner with the following inscription: "Champions of Oregon."

Although the contests were advertised to begin at 1:30 o'clock the first event was not called until 2:45 p. m., and it was 6:50 o'clock when the final contest had been decided. The delay in starting the contests was occasioned by the improper assignment of numbers to the several contestants, necessitating the entire re-arrangement thereof, which required considerable time.

Probably the prettiest race of the day was the 100 yard dash, which was won by Davis (U. of O.), who ran under protest. The time was slow, the distance being covered in 10.4-5 seconds, while the intercollegiate record is 10.2-5 seconds.

The mile walk was a spirited contest from start to finish. It is one of the most severe tests of endurance known to athletes, as was demonstrated yesterday, from the fact that nine entered the contest, of which number only three completed the course.

The 220 yard hurdle was run by Heater. The first heat was made in 23.3-5 seconds and was won by Buckingham (W. U.). The second heat was captured by Palmer (O. A. C.) in 29 seconds flat. The final heat was run in 29.1-5 seconds and was won by

Palmer (O. A. C.), Davison (O. S. N.S.) second, with Buckingham (W. U.) a close third.

The 440 yard run was a splendid exhibition. Russell (W. U.) won the race in 51.2-5 seconds, Redd (O. A. C.) taking second place, with Angell (U. of O.) a good third. The time was exceptionally good considering the condition of the track.

Reed (U. of O.) captured the mile run after a lively race with Wilkins (W. U.) covering the distance in 4.50-2-5, which is 2-5 of a second slower than the standing intercollegiate record.

The performance of Russell (W. U.) in the 230 yard dash was even more phenomenal than in the 440 yard dash. Russell's position on the start was on the extreme right beside Bishop, (U. of O.), but when the runners were off, he speedily crossed to the inner side of the track and by a magnificent effort won the race.

A summary of the fourteen events is as follows: 800 yard run—Kenworthy (P. C.) won; Whipple (U. of O.) second; Wilkins (W. U.) third; time, 2:13. Broad jump—Smith (U. of O.) won; distance, 19 feet 10 1/2 inches; Heater (P. C.) second, 19.5 feet; Davison (O. S. N. S.) third, 19 feet 1/2 inch.

100 yard dash—Davis (U. of O.) won; Redd (O. A. C.) second; Bishop (U. of O.) third; time, 10.4-5. Shot put—Smith (U. of O.) won; distance 26 feet 11 inches; Wagner (U. of O.) second, 32 feet 11 inches; Willson (U. of O.) third, 32 feet 8 inches.

Mile walk—Huffman (O. A. C.) won; Garland (W. U.) second; O. E. Hemenway (U. of O.) third; time, 8 minutes 14 seconds. Pole vault—Heater (P. C.) won; height, 10 feet 7 inches; Mills (P. U.) second, 9 feet; Haley (O. S. N. S.) third, 3 feet 9 inches.

220 yard hurdle—Palmer (O. A. C.) won; Davison (O. S. N. S.) second; Buckingham (W. U.) third; time, 29.1-5. Hammer throw—Smith (U. of O.) won; distance 125 feet 8 inches; Wagner (U. of O.) second, 97 feet; Elgin (O. A. C.) third, 94 feet 6 inches.

440 yard run—Russell (W. U.) won; Redd (O. A. C.) second; Angell (U. of O.) third; time, 51.2-5 seconds. High jump—Davis (U. of O.) won; height 5 feet 5 inches; Buckingham (W. U.) and Newbill (O. S. N. S.) tied at 5 feet 3 inches for second place and as per decision of judges, divided the third dash.

230 yard dash—Russell (W. U.) won; Bishop (U. of O.) second; Edmunds (P. U.) third; time 23.3-5 seconds. Two mile bicycle race—Scott (U. of O.) won; Bradley (U. of O.) second; Kruse (O. A. C.) third; time, 5 minutes 17 seconds.

230 yard hurdle—Heater (P. C.) won; Palmer (O. A. C.) second; Thayer (U. of O.) third; time, 18 seconds. Mile run—Reed (U. of O.) won; Wilkins (W. U.) second; Pickett (P. C.) third; time, 4:50-2-5.

The adjourned meeting of the executive committee of the association was held at the Y. M. C. A. rooms last evening after the games had been concluded, when the business affairs of the meet were attended to. By a vote of four to three, the president of the association casting the deciding vote, the committee dismissed charges of professionalism that had been filed against Davis, a member of the state university team.

The receipts for the meet were \$355, not nearly sufficient to defray the actual expenses. The several teams participating, practically had to pay their own expenses in coming to this city, and while here. It is believed the aggregate of the receipts would have been greater had the price of admission been 25 cents instead of 50 cents, which was considered rather high.

Robbed the Grave. A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c., guaranteed, at Stone's drug stores.

DIVISION OF LABOR.

Close-fisted Parent—I tell you, my son, it is a great deal harder to spend money with good judgment than it is to make it. The Young Man (not so close-fisted)—Well, father, let me take half the burden off your hands. You make it and I'll spend it.—Chicago Tribune.

Trembling hands, weak limbs and unsteady gait. Hudyay cures. All druggists, 50 cents.

GREAT DISSATISFACTION WITH COUNTY COURT'S ACTION

In Declaring the Unpaid Portions of the Taxes Delinquent—Small Owners Will Suffer.

(From Daily June 11th.)

Sheriff F. W. Durbin and his deputies had a busy day of it yesterday, many people appearing to settle their taxes, many of the larger taxpayers being among those calling at the office and making settlement. The day's collections amounted to over \$6,000, and the office force were kept busy in attending to the work of receiving for the payments. The sheriff will make the delinquent roll as quick as possible and return it to the county clerk.

The order of the county court, declaring the unpaid taxes delinquent, which will add costs to the already heavy burden of taxation, is meeting with general disapproval throughout the county, and the murmuring is becoming more pronounced as the news becomes more generally known. In every portion of Marion county, owners of small tracts of land, and small homes in general, are incensed at the action of the court, as they are, in most cases, unable to pay the taxes at this time, having been prevented from earning the means on account of the unusually backward spring. The fact that the taxes have been declared delinquent under these circumstances, and adding heavy costs to the amounts due, will be especially burdensome on the smaller taxpayers, for the reason that the cost of advertising the property will be as much for a small tract as for a larger one, as the description in one case will be, therefore, be larger in proportion to the smallness of the original valuation. In former hard years, when money was scarce, and owners of small homes were unable to earn the necessary funds to pay the taxes, more time was given the public in which to pay, without adding costs, and it was fondly hoped by many, that like clemency would be shown this year, and the sudden action of the court, at a time when these persons are unable to earn the money to save their homes from being closed out at a tax sale, is therefore extremely embarrassing, and hence the unfavorable comment.

Sheriff Durbin received a peculiar communication, yesterday, from John S. Ananias, a former resident of this county, but now at work in San Pedro, California, offering to pay his poll tax of \$1, so as to save paying double that amount to the California officers, and he winds up his letter by making a peculiar proposition. Following is the text of the letter in full:

"I enclose \$1 for which please send me a poll tax receipt for the year 1899, and date it April 12, 1899, if you can manage it, so that I can show it to the tax collector here, who is trying to collect \$2 for poll tax."

"I would also like to know if I could send you, say, \$100 next spring, and you send me 100 poll tax receipts for Oregonians who will be working here; if so, please state the earliest time I can send the money next year." The proposition is a novel one, and it would seem as if Mr. Ananias expected to speculate in poll tax receipts in California, by selling Oregon receipts at a less rate than the amount collected by California officers.

COLORS IN SUMMER MILLINERY

Violet Has Retired in Favor of Blues and Variations of Yellow.

Within the last month some modifications have been made in the order assigned to colors, says the Millinery Trade Review. Violet has retired quite into the background, with the exception of a reddish violet, one of the old-time shades. And deep blue has come forward, new tints bordering on lavender, but more especially blue, but not the most brilliant dye. But the most important change is the great favor shown for beige, almond, brown, maize, blue and golden yellow, evinced chiefly in the choice of straws and tulle of these shades. Light blues and hyacinths tints maintain their old position, and the same may be said of rose pinks and reds, showing particularly in floral trimmings though pink and red straws are still in fair demand. A deal of green appears in the decoration, mostly in the shape of leaves, and green straws are looking up. Light gray is still in favor, both for morning and dressy hats, trimming and straw being often of the same shade. If a color is chosen for the decoration, blue is considered most applicable.

There is certainly a larger demand for black straws than there was earlier in the season, and black enters into the ornamentation of much of the very newest millinery—black lace, black velvet bows, and also flowers with black velvet or black gauze petals and natural colored stamens.

Ringlet in ears, noises in head, twitching of eyelids. Hudyay cures. Fifty cents. All druggists.

Fill a bottle or common glass with your water and let it stand twenty-four hours: A sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents or one dollar.

You may have a sample bottle and a book that tells more about it, both sent absolutely free by mail, if you send your address to Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention that you read this generous offer in the Oregon Statesman.

THE HAM SMELLER.

A Strange Occupator, in Which a Man's Nose Is His Best Friend. One of the curious businesses that men engage in is ham smelling in packing houses. It is a business allied with that of tea tasting or wine testing and the like. The ham smeller is technically known as a ham tester. It is his business to inspect meat products and judge of their soundness. This is done before the meats leave the house or when they are brought from other concerns to fill a shortage.

The ham smeller's only tools are a long steel trier and his nose. It is often necessary to test hams after they come out of the sweet pickle and before they go into the smoke house. The ham smeller stands in a barrel to keep his clothes from being soiled by the dripping brine and the hams are brought to him by the workmen. A ham is laid before him and he plunges his sharp pointed trier into it, withdraws it and jesses it swiftly beneath his nose. The trier always goes down to the knuckle joint. In testing meat in that manner the man with the trier judges by the slightest shade of difference between the smell of one piece of meat and another. The smell of the meat is almost universally sweet and that is what he smells; the slightest taint or deviation from the sweet smell is therefore appreciable. It is not the degree of taintedness that he expects to find, but the slightest odor that is not sweet. When he detects an odor he throws the meat aside, and if it is not unwholesome it is sold as "reflected" meat, but if it is tainted it goes to the rendering tanks. The ham tester smells meat from 7 o'clock in the morning until 5 o'clock at night, and his sense must never become jaded or inexact, or his usefulness would be at an end.

Ham testing is not a pursuit dangerous to the health, as tea tasting is supposed to be, but the ham smeller with a cold in his head is like a piano player who loses his arms in a railroad wreck.

Street Incident.

"My Dear Sir," exclaimed Lawyer Bartholomew Livingston, meeting the Rev. Dr. Archibald Wingham on the village street, "What does this mean? I thought you were laid up with all sorts of bad diseases?" "And so I was," replied the reverend gentleman, "I had an attack of indigestion and from that time on my whole system has been in a disordered condition until I began taking Hood's Sarsaparilla which has put me on my feet and cured all my stomach troubles."

"I don't doubt it," said the lawyer. "This same medicine cured my wife of rheumatism and my little girl of scrofula. When they say it's the best medicine money can buy, they only tell the truth." "Yes, yes, so they do," replied the minister, and the two passed on.

TO REMOVE FRECKLES.

The following lotion is highly recommended: One ounce of lemon juice, one-quarter drachm of pound-d borax, and one-half drachm of sugar, mix in a bottle and allow them to stand a few days, when the liquor should be rubbed occasionally on the hands and face. Another application is: Friar's balsam (benzoin), one part; rose water, twenty parts. Powdered niter, moistened with water and applied to the face night and morning, is said to remove freckles without injury to the skin.

Also, a tablespoonful of freshly grated horseradish, stirred into a cupful of sour milk; let it stand for twelve hours, then strain and apply often. This bleaches the complexion also, and takes off tan.

Use Allen's Foot-Ease in your Shoes.

A lady writes: "I shake Allen's Foot-Ease into my gloves and rub a little on my hands. It saves my gloves by absorbing perspiration. It is a most dainty toilet powder." We invite the attention of physicians and nurses to the absolute purity of Allen's Foot-Ease. Dr. W. C. Abbott, editor of the Chicago Clinic says: "It is a grand preparation; I am using it constantly in my practice." All drug and shoe stores sell it, 25 cents. Sample sent FREE. Address Allen S. Christy, Le Roy, N. Y.

Racking headaches, bleary eyes, weakness, noises in head. Hudyay cures. All druggists, 50 cents.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of J. C. Ayer & Co. Boston, Mass.
