

FROM THURSDAY'S DAILY

NEARING THE END.

The Canning of Peas and Cherries Will Probably Be Concluded This Week.

The canning season, at the Salem cannery, in this city, so far as cherries and peas are concerned, will probably end with the present week. During the past five days the Salem cannery has been disposing of all the cherries and peas that have been offered.

The amount of cherries that had been canned up to yesterday was 25,000 quarts. The supply of quart cans being exhausted, that fruit is now being put up in gallon cans and the total output of the plant, in cherries, will be about 40,000 quarts. Mr. Allen, manager of the plant, said yesterday that his firm had purchased about three times the quantity of cherries they had expected to handle, presaging that the yield would not be so large as it proved to be.

The pea crop is very short, the dry weather reducing the yield by one half. Several hundred cases of this vegetable, however, will be canned for the market. It is not known just how many peas have been canned thus far, but all the fruit that is being canned is being stored in the cannery's warehouse.

When the remainder of the pea and cherry crops have been canned, the cannery will probably suspend operations until about September 1st when the pea and tomato crops will be handled, the management expecting to preserve a great quantity of each.

The evaporating plant, operated in connection with the cannery, will be started up as soon as there is fruit with which to supply the plant.

DEMANDED A JURY.

Alfred Feller Puts the City To Additional Expense in His Case—Fined \$15.

Alfred Feller, who was arrested on Tuesday evening for assault and battery upon one Robert Stetson, was yesterday found guilty by a jury in the city police court, which recommended him to the leniency of the court. City Recorder N. J. Judah imposed a fine of \$15 on Feller, in default of which he went to jail.

When Feller's case was called at 1 o'clock yesterday afternoon, the prisoner demanded a jury trial. A jury was summoned consisting of E. H. Eliaz, G. G. Gans Sr., Harry Prior and A. F. Mcatee and at 3:30 o'clock the case went to trial. In the absence of a city attorney, Recorder Judah employed District Attorney S. L. Hayden to appear for the city, the defendant being represented by D. W. Tarpley. The jury was not long in rendering a verdict.

This is the first instance for several years, and may possibly be the first time in the history of the city, that a city case, a simple assault and battery trial, has been heard before a jury in the recorder's court. The instances are very rare, as no fund exists for the payment of bills incurred in this relation, the claim of District Attorney Hayden for legal service and that of the members of the jury will be presented and audited at the regular meeting of the council Tuesday evening.

Robert Stetson, against whom there is also a charge of assault and battery and his hearing continued until 1 o'clock this afternoon.

AN UNSAFE BRIDGE.—County Judge G. P. Terrell yesterday received a letter from Judge George D. Barton, of the Linn county court, advising him that he had just received word of the dangerous condition of the bridge across the Santiam at Green's Ferry, a few miles above Jefferson. The report stated that the cribbing under the rock enclosing the center pier of the bridge had been knocked loose, leaving the bridge in an absolutely dangerous condition. As the bridge is owned jointly by the two counties, Judge Barton asked Judge Terrell to meet

him at that point tomorrow (Friday) morning at 9 o'clock, for the purpose of making an examination of the structure and arranging for prompt repairs. Judge Terrell will leave for that point at 6 o'clock tomorrow morning, and the two officials will doubtless take steps to make immediate repairs, should the structure be found to be as badly damaged as reported to the Linn county court.

TO HIS FARM.—Gov. T. T. Geer left for his farm home in the Waldo hills last evening, going a wheel. He will remain at home until Friday morning, and will today occupy his accustomed position during harvest time—on a seat on the hurricane deck of a self-linder. Governor Geer is not neglecting his farm, having, in spite of his official cares and duties, sufficient time to direct operations on his broad acres, and is looking closely after every detail of the work at his rural home. He yesterday expressed himself as greatly pleased to spend a few days in the harvest field, hoping to be benefited by the change. The governor is a practical farmer, and naturally loves the surroundings and duties of a tiller of the soil.

THE "HOTTEST" DAY.—Yesterday was unquestionably the hottest day of the season, locally speaking. The oppressiveness of the heat was scarcely relieved by the afternoon sea breeze, which seemed even warmer than usual. Shortly before noon A. N. Moores reported that the thermometer in the office of the Capital Lumber Company on Front street, registered 88 degrees in the shade, while at 3 p. m., the thermometer stationed at the rear of Willis Bros.' store indicated 90 degrees. Several thermometers that were exposed to the sun's rays, in different sections of the city, are reported to have registered over 100 degrees.

WAS ACQUITTED.—Deputy Prosecuting Attorney Charles L. McNary and J. A. Carson, the attorney, were in Gervais yesterday afternoon, being interested in a criminal action before Justice of the Peace L. H. Poulade. E. D. Cass had been arrested charged with larceny in a building, the alleged crime consisting of the theft of a quantity of grain. The case was tried before a jury which returned a verdict of acquittal. Mr. McNary appeared for the prosecution and J. A. Carson conducted the defense.

'PROVE ALL THINGS.

In the name of the great and electric age, let us prove all things, counting nothing too sacred for our testing, and hold fast only the good.—Rev. B. Fay Mills, Evangelist, Boston, Mass.

"Do Not Grasp at the Shadow and Lose the Substance."

Many people are but shadows of their former selves; due to neglect of health. Look out for the blood, the fountain of life, the actual substance; keep that pure by regular use of Hood's Sarsaparilla and robust health will be the result. Dyspepsia, weakness, and other ailments will be things of the past and life will be worth living.

Hacking Cough.—"I was troubled with dry, hacking cough. One bottle of Hood's Sarsaparilla helped me and three bottles cured me and made me strong." George W. Bennum, Coolspring, Del.

Hood's Sarsaparilla
Never Disappoints

Hood's Pills cure liver bile; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

RETURN IN A BODY

COMPANY K WILL BE PROPERLY RECEIVED.

Captain Worrick Says the Organization Will Come Home Intact with Few Missing.

(From Daily July 27th.)

Recently, Frank Davey, secretary of the general committee on arrangements for the reception of the Marion county volunteers, wrote to Capt. Elmer O. Worrick, of company K, requesting him, if possible, to hold his company together after the muster out, and bring the men home in a body, so that the citizens of Salem would be enabled to give them the reception and welcome home to which all have looked forward to with great anticipations, ever since the regiment was ordered home from the Philippines. Yesterday Mr. Davey received an answer from Captain Worrick, which gives assurance that the members of company K will return to Salem in a body, and that at an early date. Following is the text of the letter:

"Company K, with a very few exceptions, will come home in a body. The company desired to be mustered out in San Francisco on account of the extra pay, which amounts to something over \$30,000 to the regiment.

"The boys are all well except Corporal Bert Low, who is slowly improving, and Privates Durette and Clary, not seriously ill.

"I left no one in Manila except Private (Bud) Chapman, who was discharged there. He expected to secure work at his trade in the quartermaster's department, United States army.

"The mustering officer informs me that we are to be mustered out about August 7th. Will write you further in a few days."

This decision of the members of the Salem company will be pleasing news to the citizens, and the various committees will promptly renew their work toward perfecting a suitable program for the reception of the veterans, who defended the country's flag in the far-away islands of the sea, fighting valiantly, and winning golden laurels for their heroic work, and earning the admiration of the entire world.

Sufficient funds for the expenses of the reception have been subscribed, and all that is required for the success of the entertainment, is the perfection of the details of the program, which will be attended to in a timely manner. There is little doubt but the Salem volunteers will receive as hearty and enthusiastic a welcome, as any of the returning troops, and the boys may well feel proud of the high estimation in which they are held by the citizens of their home city.

A NOVEL IDEA.

SENATOR STEWART'S IDEA OF PREVENTING DEATHLOCKS

In the Election of United States Senators—His Proposed Relief Legislation.

WASHINGTON, July 26.—Senator Stewart, of Nevada, said today that, in order to obviate the apparent necessity of an amendment to the constitution, to insure that all the states in the United States senate, at the next meeting of congress, he would offer relief by legislation, which, the senator says, may prove satisfactory. He proposes that the following paragraph be added at the end of section 15, title 3, chapter 1, of the revised statutes:

"If, on the third Tuesday after organization of the legislature no person has received such a majority, then, on that day, or any succeeding day, any person receiving a plurality of the votes cast, a majority of all members elected to both houses being present and voting, shall be declared elected."

This, he believes, will meet the necessities of the case, and insure the election of a United States senator in every state at the time specified by law.

TO BE CREMATED.

COLONEL INGERSOLL'S BODY IS STILL IN HIS HOME.

Funeral Party Will Accompany the Remains to Place of Incineration—A Private Affair.

NEW YORK, July 26.—Watson, the beautiful home at Debary, where Robert G. Ingersoll died, was a quiet place today. The body of the dead agnostic lay on his flower covered bier. Only the widow and daughters sat near, all others kept away.

Three hundred letters were received today from all over the country.

Colonel Ingersoll's body will be cremated tomorrow. The incineration will be strictly private. The funeral party will wait during the hours, while the body is being consumed, to take the ashes back with them. Mrs. Ingersoll is determined that the ashes shall not be away from her for a single moment.

A BOY KILLED.

Chicago, July 26.—A special to the Chronicle from Hartford City, Ind., says: Coroner M. M. Clapper, of this city, has filed with the county clerk his findings in the inquest of Ralph Shelby, a 3-year-old Montpelier boy who died from the effects of a thrashing at the hands of four playmates July 15th. The coroner found that death was due to a blood clot and inflammation of the spinal cord at the base of the brain as the result of the injuries. Cliff Haskins, Orville Bowman, Herman and Will Payne and Mrs. M. Payne have been arrested as his murderers. The parties implicated are well-known people of Montpelier. Preliminary hearings will be held today.

The brain woman never interests us like the heart woman; white roses please less than red.—Holmes.

SEE OUR GOODS AND PRICES.

In our effort to make the dull season our busy season we are knocking the profits off all our goods.

Last week we advertised goods that are now all sold; so this week we will astonish you by selling Men's Pants, well worth \$1.00, for 50c a pair
Linen Lawn, well worth 12c a yard, for 8c a yard
Dress Gingham, well worth 12c a yard, for 8c a yard
Good Outing Flannels 5c a yard
New Lines of Percal Dress Patterns, 10 yards each, at 60c a pattern
Ladies' Fast Black Hose, the 20c grade; for 12c a pair
Boys' Crash Suits 50c a suit
Boys' Knee Pants 25c a pair

We received lots of new goods this week, among which is another line of those Men's Suits, which we are selling for \$5.00 a suit; other stores ask \$7.50 for them. So if you are looking for good values go to

Friedman's New Racket

Cor. State and Commercial Sts., Salem, Oregon.

A DECISION MADE

PROVISIONS FOR ISSUING TEACHERS' CERTIFICATES.

Circular Letter Sent Out by State Superintendent Ackerman to All Counties Yesterday.

(From Daily July 27th.)

Prof. J. H. Ackerman, state superintendent of public instruction, has recently been flooded with letters, asking questions regarding methods of procedure in issuing county certificates, and yesterday he sent out, in reply to these inquiries, the following circular letter, addressed to all county superintendents, which, it is expected, will settle vexed questions in nearly all the counties:

"Replying to many inquiries, will say (a) that, in my judgment, it would be illegal for the county board of examiners to issue a second or third grade certificate to an applicant who has previously held a second or third grade certificate, unless the applicant has not had the requisite teaching experience for the next higher certificate, in which case it would be legal for the county board of examiners to issue such certificate; (b) that it would be legal for the county board of examiners to issue a first grade certificate to applicants who have previously held first grade certificates; and (c) that that part of the school law, reading as follows: 'Provided, that when an applicant has upon two successive examinations received 90 per cent or more in one or more branches, said applicant may, in the next examination thereafter, be excused from examination upon such branches, and be credited with the standing so earned,' applies to any examination held prior to August 9, 1909, and, hence, applicants may be credited with standings received prior to said date."

SERIOUS CHARGES MADE

SEATTLE, Wash., July 26.—Advices received today, on the steamer Elihu Thomson, from St. Michaels, indicate that the miners of Cape Nome and Anvil City are wrought up to a high pitch on account of the action of United States Commissioner Shepard backed by United States soldiers.

A miners' meeting of nearly 1,000 men was dispersed on the night of July 10th, by a lieutenant and a squad of soldiers on the ground that they were not property-owners. The meeting had been called regularly after a three days' notice, to protest against a practice that had been followed in locating claims. The miners declared that a clique or ring had been formed to gobble up all the good properties in the country. It is charged by the miners who came on the Thomson today, that the machinery of the federal government, on the Yukon has turned to these illegal practices. They say that some of the Laplanders, who were sent up there under a five-year's contract by the government, have been naturalized and claims staked in their names. Even reindeer, which these Laplanders were hired to take care of, have been used for hauling stakes into the country, to mark claim boundaries for members of the ring.

The miners were signing a protest, which is to be forwarded, one copy to Sitka to the federal authorities, and another copy to Washington. The protest alleges that the officials at St. Michaels are conducting the affairs of the government to their own selfish ends.

THE BOUNDARY LINE.

Seattle, July 26.—United States Senator George C. Perkins, who returned here today from a trip to Alaska, thinks there is nothing to arbitrate in connection with the Alaska boundary. He said: "It would certainly be just as reasonable for us to insist on taking up the boundary question between the United States and Canada again, and declare our dissatisfaction with the

49th degree of latitude. England long ago recognized the boundary for which we are contending. She did this when the Hudson Bay Company, which at that time was practically Canada, executed a ten years' lease of territory from Russia, for which she is now contending. She leased it from Russia and renewed the lease for a second ten years. What better proof could we ask of Great Britain's attitude as outlined in that contract?

"The Portland canal is ours, and we should see that the line is extended along the summit as long as the range does not lie to exceed ten marine leagues from the sea."

THE GOLD OUTPUT.

Washington, July 26.—Information from the Klondike, up to June 26th, has reached the state department from United States Consul McCook, at Dawson. The consul says that \$10,000,000 instead of \$20,000,000 in gold will cover the gold product for the past twelve months, and adds that the reports from Alaska indicate that more gold will be found there than ever will come out of Klondike.

Typhoid has broken out six weeks earlier than last year, and there are several hundred destitute persons in Dawson without means to get out. The gambling fraternity is reaping a rich harvest.

AN ASSASSINATION.

PRESIDENT HEUREAUX OF THE DOMINICAN REPUBLIC.

Foully Murdered Yesterday Afternoon—The Vice President Assumes Direction of Affairs.

FORT DE FRANCE, Martinique, July 26.—General Ulises Heureaux, president of the Dominican republic, was assassinated at Moca, Santo Domingo, at half past 4 o'clock today. The name of the murderer is Ramon Caceres. He succeeded in making his escape.

The vice president of the republic, General Wenceslao Figueroa, immediately, upon the announcement of the president's assassination, assumed the direction of affairs. At present calmness prevails in the republic.

KLAMATH WOOL.

Republican: I. D. Applegate last week, sold his wool, 8,000 pounds, to Thos. Kay, of Salem, for 14c cents per pound.

BORN

FLETCHER.—At the home on South Commercial street, Friday, July 21, 1899, to Mr. and Mrs. D. C. Fletcher, a son.

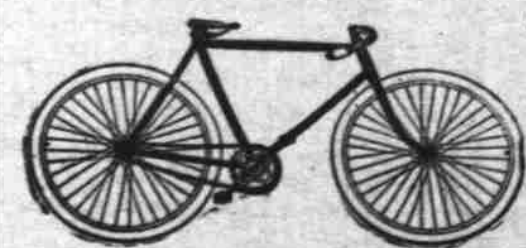

DIED.

LEWELLEN.—At the home of H. F. Smith, south of Salem, Monday, July 24, 1899, Margaret J. Lewellen, aged 82 years.

Deceased was the mother of six children, viz: Helen J. Parrott, of The Dalles; J. G. Down, of Vancouver, Wash.; Mrs. A. McCoy, of Portland; Mrs. B. F. Moore, of Eugene; Mrs. W. D. McGee and Mrs. H. F. Smith, of Salem.

The cause of her death was pneumonia.

The '99 Victor...

is no warned over patched up old model. It is entirely new and up-to-date, bristling with new features at every point.

HANDSOME? in every detail, NOISELESS? listen when they pass. SERVICEABLE? beyond comparison.

DURABLE? ask Victor riders.

No better wheel made by any firm at any price. Call and see the VICTOR SPIN-ROLLER CHAINLESS. The latest and best thing in cycle construction. It is the poetry of motion, "rolls rolling upon rolls." The rolling motion of the foot is picked up by rolls, and rolled on to the rolling wheel. Everything Rolls. VICTORS or VICTORIAS—chain—\$40. VICTORS or VICTORIAS—Spin-roller—\$75.
