

FROM WEDNESDAY'S DAILY

BURIED IN SALEM.

Remains of Frank Crawford Given Interment In Rural Cemetery Yesterday Afternoon.

The remains of Frank Crawford, son of Mayor and Mrs. J. W. Crawford, of Corvallis, arrived in Salem on the Roseburg mail yesterday afternoon and at 7 o'clock last evening were given interment in the family lot in Rural cemetery. The deceased was 21 years, 8 months, and 4 days old.

A brief funeral service was held at the family home in Corvallis yesterday morning, conducted by E. J. Thompson, D. D., at the conclusion of which the body was taken in charge by the members of Valley Lodge, No. 11, Knights of Pythias, to which the deceased belonged, having become a member only last February. The funeral party boarded a special car and started for this city. It was intended to have the procession form at the depot and march thence to the cemetery, but owing to an unfortunate mistake that occurred in locating the grave, the burial was necessarily deferred until 7 o'clock in the evening.

The funeral party was met at the depot by the members of Central Lodge No. 18, K. of P., of this city, and many of the friends of the bereaved family. The body was taken to Central castle, in the State Insurance building, where it was attended until 7 o'clock when the procession to the cemetery was formed. At the graveside the impressive funeral service of the Knights of Pythias was presented by the Corvallis Knights, and the body was interred.

The floral tributes were many and of beautiful designs, bespeaking the popularity of the deceased among a large circle of acquaintances. The grave itself was literally buried with flowers.

The body was accompanied to Salem by the family, consisting of Mayor and Mrs. Crawford, Misses Emma and Mamie Crawford, and Ed. Crawford. The following friends of the family also came on the same car: Dr. E. J. Thompson, Mrs. J. A. Spangler, Miss Lulu Spangler, Miss Eda Jacobs, Miss Helen Holgate, Raymond Hinkle, S. N. Wilkins, B. F. Burnett, and Mrs. Taylor Porter.

Thirty-four members of Valley Lodge, No. 11, K. of P., in which the deceased held membership escorted the remains to Salem. They were: Jesse Spencer, Thos. Whitcomb, E. H. Smith, D. A. Osburn, Moses Craig, E. H. Beach, Emil Zeig, U. B. Vogle, Lee Hill, Bowen Lester, James Horning, W. D. Prichard, Chas. G. Porter, Will Horning, E. P. Griffith, J. M. Porter, Joe Smith, Asa Alexander, D. D. Beriman, Geo. Bowers, F. L. Miller, B. W. Johnson, G. H. Barringer, J. R. Cooley, Walter Keady, J. F. Yates, J. H. Gibson, T. H. Davis, M. P. Burnett, N. L. Raber, Geo. W. Denman, A. W. Rose, E. R. Bryson, and Robert Johnson. The party returned to Corvallis in the special car attached to the overland train last evening.

UNPAID TAXES.

State Treasurer Chas. S. Moore Holds Large Balances Against Several of the Counties.

In the state treasury there are few taxes coming in from the various counties of the state, on account of the levy of 1898, although several of the counties owe considerable balances on this account. Twenty-three counties have paid up in full, and one (Jackson) has paid all its state tax, except the amount involved in the law suit, now pending in the supreme court, which was brought for the purpose of testing the validity of the valuation, by the county assessor of Jackson county, of the property of the Southern Pacific company in that county. This balance, owed by Jackson county, bears no interest, for the reason that the legislature, at its last session, passed a resolution, providing that, during the pending of the appeal case in the supreme court, no interest should accrue on that portion of Jackson county's state tax, involved in the suit. The amount owing by the nine delinquent counties are:

Gilliam.....	20
Grant.....	405 01
Jackson.....	3 921 70
Linn.....	11,484 87
Malheur.....	2,581 44
Multnomah.....	73
Tillamook.....	6,230 03
Wallowa.....	3,605 60
Yamhill.....	4,825 50

The counties paying their taxes in full are:

Baker.....	\$14,655 06
Benton.....	14,714 74
Clackamas.....	23,424 89
Clatsop.....	13,785 89
Columbia.....	7,957 66
Coos.....	14,597 50
Crook.....	9,941 63
Curry.....	2,966 23
Douglas.....	27,389 26
Harne.....	12,434 58
Josephine.....	6,508 77
Klamath.....	8,698 91
Lake.....	8,376 17
Lane.....	36,963 81
Lincoln.....	4,249 42
Marion.....	45,928 22
Morrow.....	8,238 80
Polk.....	24,792 49
Sherman.....	7,020 43
Union.....	19,572 37
Umatilla.....	37,438 36
Wasco.....	17,512 10
Washington.....	25,568 89

INSPECTING BRIDGES.

County Court Has Returned from the Parkersville Section—Repairs Urgently Needed.

County Judge G. P. Terrell and Commissioners J. N. Davis and Wm. Miller returned yesterday afternoon from a tour of inspection through the northern and eastern parts of the county, where a number of bridges and roads demanded the attention of the court. The gentlemen found some bridges and culverts in bad condition, and ordered repairs, while in some instances new bridges were decided upon, and for the construction of which bids will be called. The court will meet this morning and, after taking action, looking to-

ward immediate repairs and building where the same is required, will complete the work of this term and adjourn.

The Ben Herding road to Woodburn, a new county road, has been opened, and two small bent bridges have been constructed on it, where the road crosses small streams. One of these proposed bridges will be 14 feet in length, and the other 10 feet.

The Joe Engel bridge across the Pudding river, near Bell Pass, was found in very bad condition, and will require prompt action in making repairs. The wagon bridge across Lake Labish on the road from the old site of Crossan's sawmill to Brooks, was found in very bad condition, as it is subjected to a very heavy strain, by reason of the many heavy loads, farm products and wood, being hauled over it, and immediate repairs will have to be made in order to save the structure.

Several culverts were found in need of repairs, but these will be attended to by the local road supervisors.

At Parkersville the court inspected a piece of new road, recently built by the residents of that section, assisted by the county court, across a marshy tract of land. This road, in past years, has been in very bad condition, and at times was impassable. It has now been thoroughly graded and covered with gravel, and is one of the best roads in the county. The court furnished \$25 for this work, and the residents of that section furnished labor equaling that amount.

The members of the court found that the rainfall east of Brooks had been considerably heavier than in this city, and that all harvesting and threshing operations had been stopped on account of the downpour.

A DISLOCATION.—On Monday afternoon Mrs. Sarah Trimble, who resides at No. 403 Summer street, met with a very painful accident that was fortunately not attended by more serious consequences. This venerable resident, who celebrated her eighty-eighth birthday on May 31st, last, miscalculated her position on the rear porch and by a mis-step, fell to the ground, sustaining a lateral dislocation of the right wrist, besides being quite severely shaken up. Dr. C. H. Hall was called and treated the very painful dislocation, and the aged patient, other than experiencing the inconvenience resulting from the injury, had recovered from the shock incident to the fall.

A SELECTION MADE.—Professor and Mrs. M. E. Baker have arrived in the city from Portage, Wisconsin, and are registered at the Cottage. Prof. Baker has accepted the chair of English in Willamette University, to which chair he was recently elected by the board of trustees of "Old Willamette." Prof. Baker attended Harvard where the degree of M. A. was conferred on him. He afterwards attended the University of Wisconsin, where he received the degree of Ph. D. in 1898. In this institution he served as instructor for a number of years.

GRADUALLY SINKING.—The condition of J. L. Bennett, who suffered a paralytic stroke early yesterday morning, remained unchanged throughout the day and at a late hour last night no improvement was noted, but if anything the patient's strength was gradually declining. Grampa Bennett, as he was familiarly known, was seventy-four years old last January, and is a veteran of the Civil and Mexican wars.

WAS GIVEN TEN DAYS.—C. H. Parrish, the bolshoirow fellow from Silverton whose arrest was made early Monday evening, was yesterday given ten days for drunkenness. The team that the intoxicated man drove at a dangerous rate of speed about Salem's streets, was yesterday restored to their owner, the proprietor of a Silverton livery stable.

A SUCCESS.—Dr. C. V. Barr, of Lebanon, who arranged the excursion over the Southern Pacific to San Francisco, on the 1st inst., writes that it was a success in every way, 118 persons making the trip.

A LUCKY YOUNGER SON.

The case of a younger son is usually pitied in England, but there was a notable exception in the case of the family of the late Earl of Mansfield, who died worth some \$5,700,000. Viscount Stowman, the father of the Earl of Mansfield, the great judge, was one of the poorest lords in Scotland, and "as poor as a Scottish lord" has been a by-word in England. This younger son, William Murray, born in 1705, one of a family of twelve penniless children, rode off to London on his pony, to attend Westminster school, and never, it is said, saw his native land again, but he left an earldom and a vast fortune to his eldest brother's heir. The earl who recently died was the fifth of the title, and the sixth earl in his brother.

Torturing Disfiguring Humors

Itching, Burning, and Scaly Eruptions of the Skin and Scalp with Loss of Hair

CURED BY CUTICURA.

The treatment is simple, direct, agreeable, and economical, and is adapted to the young, old, and infirm as well as adults of every age. Bathe the affected parts with Hot Water and CUTICURA Soap to cleanse the skin of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply CUTICURA Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and lastly take the CUTICURA RESOLVENT to cool and cleanse the blood. This treatment affords instant relief, permits rest and sleep, and points to a speedy, permanent, and economical cure when all other remedies fail, and even the best physicians fail.

Sole Dispensers, Price, Ten Cents, 51 1/2 St. Cor. Commercial and Third Sts., Portland, Ore. CUTICURA Soap, 25 Cents; CUTICURA Ointment, 25 Cents; CUTICURA Resolvent, 50 Cents. How to Cure Humors, 50 pages book, free.

BUILDING IN SALEM.

SEVENTH DAY ADVENTISTS CONSTRUCTING A CHURCH.

Southern Pacific Company Will Erect Another Warehouse—New Cigar Store for Capital City.

Although no extensive building is being carried on in Salem at the present time, yet in the course of each year there is a considerable amount of construction work accomplished.

The Seventh Day Adventists, of this city, are building a house of worship at the corner of Mill and Cottage streets, in University addition. It is a frame structure, 26x40 feet, and will cost about \$500. The building is being constructed by members of the society, about a dozen being engaged in the work. The Adventists have never before owned a church house. When the Cumberland Presbyterian society disbanded several years ago, the Adventists secured that society's church edifice as a temporary church home. They continued to use these quarters until this summer, when the property changed hands and they were obliged to engage another place of meeting. The W. C. T. U. rooms were selected, but the capacity of the building was inadequate to accommodate the congregation finally decided to erect a church home of its own. The work is progressing rapidly and will soon be prepared for the holding of services. The society does not expect to complete the building throughout at the present time, intending to properly enclose the structure, the finishing touches to be applied at a subsequent time.

The society has a membership of about 100 and will have a pleasant and comfortable house of worship when the structure is completed.

The Southern Pacific Company has planned some extensive improvements by which its warehouse capacity in this city will be about doubled. The

PIE EATING A SURE SIGN OF PROSPERITY

We wandered by the river, you and I, In the sweet summer days, long ago; And we nibbled on two slabs of pumpkin pie.

—Very, very Old Ballad.

A curious feature of the prosperous times is the fact that the consumption of pastry has increased largely within the past few years. A Salem baker said yesterday that now he is selling fully 25 per cent. more pies than he was four or five years ago. "To what do you attribute this?" he was asked.

"Well, I think, to put it in a few words, a great many people can afford to eat pie now who could not when the hard times were upon us. The clerk who went to the restaurant and got his lunch would then put up with a sandwich. Now he feels he can afford some dessert, and there the pie comes in."

"A laborer, who formerly was content with the plain fare, now adds a pie to the contents of his dinner pail."

"It is a sure indication of prosperity, although it may be a very homely one, for pie is, in a certain sense, a luxury, and the demand for luxuries is recognized as being regulated by the degree of prosperity which a people or a community enjoys."

work was inaugurated yesterday by the company's construction force.

The company's old warehouse that has been in continuous use for nearly thirty years, which is now stationed between the freight depot and the hop warehouse, is being torn down and removed. In its place will be constructed another warehouse of double the capacity. The structure will be triangular in form and will occupy all of the vacant space that exists between the company's spacious hop warehouse and the freight depot, north of the double switch track. The work is being superintended by L. Kuckartz, superintendent of the construction force, and the building will be completed in time for storing this year's hop crop.

The old warehouse, that is being removed, is an old landmark in the history of the Southern Pacific company's dealings in this city. It was constructed in 1870 near the present site of the passenger depot, being the first depot building erected in this city by the company, and was used as a combination freight and passenger depot for ten years. About 1880 it was removed down town and used as a freight depot until the present building was constructed. For the last several years it has been used exclusively for storing hops and wool.

The Capital City is to have another cigar store. About September 1st, Henry Wyrup will open such a business establishment in the building at present occupied by the Western saloon. The lower floor of the building will be remodeled. A modern front will be put in and a neatly appointed cigar store will be established. The work of remodeling the building will begin within a few days.

MANY ARE PAYING

STATE LAND DEPARTMENT IS BADLY CROWDED.

Receipts from Delinquent Debtors Are Very Heavy—Many Land Sales May Be Cancelled.

The state land office is crowded with work at this time, on account of the rush of the holders of certificates of sale to state lands, who are in arrears, to pay up their indebtedness, thereby securing a reduction in the interest rate, and forestalling forfeitures of their certificates. These payments are coming in so fast, at this time, for the reason that little time is left them in which to take advantage of the law allowing the holders of certificates to pay up arrears, as to seriously crowd the clerical force in the office. The time, during which the payments can be made, expires tomorrow evening, and all those owing more than one year's interest will lose their lands, unless payment is made before tomorrow evening.

ing, and all those owing more than one year's interest will lose their lands, unless payment is made before tomorrow evening.

On February 25th, Gen. W. H. Odell, clerk of the board, sent out a circular letter to all those in arrears on interest, on account of certificates of sale of lands, urging them to pay up, as not to lose their holdings, and the present rush of work in the office is caused by these delinquents, who have waited until the last week to make their payments, while letters are received from many, asking that the time be extended, which, however, cannot be done, as the law is explicit, and permits of no extension. Following is the circular issued by the board, which quotes a section of the law in question:

"The law of February 17, 1899, provides that the holder of any certificate of sale heretofore issued, desiring to pay up all arrears of interest at the rate of 6 per cent per annum, shall be entitled to do so, provided said arrears of interest and to much of the principal as shall leave only one-third of the purchase price unpaid shall be paid to the state land board within six months from date on which this act goes into effect, and all forfeitures of such certificates of sale are suspended for said period. In case the holder of such certificate of sale shall make the payments herein provided, his note for the purchase money shall bear interest at 6 per cent, and in case the interest is paid promptly, shall be permitted to stand until demand is made by the board." Your attention is especially called to the above provision, and I trust that you will be able to avail yourself of the benefits herein tendered; if not, you will take notice that after the expiration of six months from the seventeenth day of February, 1899, all certificates of sale on which interest payment is more than one year overdue will be cancelled without notice and the lands therein described be held subject to resale."

Yesterday the receipts of the office were \$17,000, and today's payments will doubtless nearly equal that amount. The receipts of the office, for this month, will far exceed those of any

month since the department was created.

The state land board held a brief session at the capitol yesterday, but there was little business to be transacted.

CAUGHT ONE OF THEM.

Deputy Sheriff B. B. Colbath and Constable D. C. Minto Have a Tussle With Reform School Boys.

(From Daily, August 15th.)

Deputy Sheriff B. B. Colbath and Constable D. C. Minto, about 9 o'clock last evening, captured on South High street, in this city, Richard Eley, an escaped charge from the state reform school. Eley was placed in the county jail for the night and will be surrendered to the officers of the school this morning. Harry Wright, Eley's companion, evaded the officers and is still at large.

About 5 o'clock yesterday afternoon Deputy Sheriff Colbath was apprised, by Superintendent H. E. Bickers of the reform school, of the escape from that institution, about the noon hour, of two charges, viz: Richard Eley, who was committed from this city, and Harry Wright, who was received at the school from Eugene. Mr. Colbath immediately called the news to D. C. Minto, the latter young constable of the Salem district, and together they planned for the capture of the runaways.

Thinking the boys might conclude to visit Salem during the evening, Messrs. Colbath and Minto proceeded to the Bush bridge on South Church street, feeling satisfied they might there intercept and capture the escapers. Just before reaching the bridge, however, they detected two strangers leave the path and run hurriedly across some vacant lots towards High street. The officers called to the strangers, but received no response, the persons addressed increasing their gait precipitately. At this Colbath and Minto gave chase. Minto provoked the better sprinter of the two, overtook the strangers, who proved to be the escaped reform school charges, at the agricultural building. He seized both of the full-grown, muscular lads and in the tussle that ensued, threw both to the ground, but released them, allowing them to gain their feet again, when Wright, the larger of the two, struck him a terrific blow over the shoulder with a two-inch club that he carried. Then, producing an ugly looking pocket knife he defied the officer to take him, and ran rapidly out of sight. Not having a pistol or other weapon with him, Constable Minto's persuasive powers and eloquence availed him nothing. By this time Colbath had arrived upon the scene and assisted Minto in landing Eley in the county jail.

Wright is considered a desperate fellow and causes the officers of the school no end of trouble. He has escaped from the school before.

BEECHAM'S PILLS—No equal for Constipation.

WILL SERVE AGAIN

MAJOR PERCY WILLIS HAS BEEN RECOMMENDED

By Governor Geer for the New Army, at the Request of the War Department.

(From Daily, August 15th.)

Major Percy Willis, a well-known resident of this city, and who made so excellent a record as major of the second battalion, Second Oregon volunteers, in the campaign in the Philippines, was yesterday recommended, to the war department, by Governor T. T. Geer, as one of the two officers asked for by that department for the new regiments of volunteers to be called for at an early date. Governor Geer has not named the second officer, but will probably do so in a few days.

The recommendation given Major Willis, which is equal to an appointment in this case, is peculiarly gratifying to the many soldiers of the Second Oregon, who learned to admire this officer during the hard days of the fighting in the Philippines.

Major Willis comes from "Fighting stock." His father, the late Gen. L. W. Willis, of this city, served with distinction in the Confederate army during the long dark days of the war between the states, from 1861 to 1865, as the colonel of a Texas regiment. The subject of this sketch has for years made military science a study, and about eight years ago he joined the militia in this city. He was most successful; was promoted rapidly, and was soon found to be a thorough commander, to whose efforts the efficiency of the Oregon National Guard soon came to owe much. He became major of the second battalion, Second regiment, Oregon National Guard, several years ago, and when, at the outbreak of the Spanish-American war the Second Oregon volunteer regiment was mustered in, he was made major of the second battalion. He made an excellent record in the war with the insurgents in Luzon, and frequently received honorable mention, and was in line for promotion to lieutenant-colonel, when the regiment was ordered home. On his arrival in San Francisco he was tendered a captaincy in the Thirty-fifth regiment, now being recruited at Vancouver barracks, which he declined at that time, for personal reasons. He is now recommended to the war department, and it is expected that he will be promptly commissioned and assigned to duty as a major or lieutenant-colonel.

AFFAIRS IN CUBA.

COLONEL KINNON REPORTS TO SECRETARY ROOT.

He Thinks the Elections Should Not Be Held Yet—The Question of Suffrage.

WASHINGTON, Aug. 15.—General Brooke will be called to Washington to consult with Secretary Root concerning affairs in Cuba. Colonel Kinnon of the Thirty-fourth infantry, recently appointed, but who has been on duty at Havana as assistant adjutant general, had a long conference with Secretary Root today. As to the elections in Cuba, Colonel Kinnon told the secretary, that he thought the time was still somewhat distant when they could be held to advantage. By a provision in the peace treaty, the Spanish residents in the island were given one year, from the day of the exchange of the ratifications, in which to declare their preference as to citizenship. The elections could not be held, he said, until after a year had elapsed, in justice to this class.

The desirability of leaving the matter open was apparent, said Colonel Kinnon, because a large proportion of the property was owned by Spanish subjects, and if it could be demonstrated to them that their interests would be benefited in becoming Cuban citizens, it would be better for the future of the island. The matter of suffrage is one, the colonel said, that must be universally considered. The disadvantages which a great portion of the people have been under, and which have prevented them from being educated, will make it extremely hazardous to grant universal suffrage when the time comes for holding an election.

SMALLPOX IN LONDON.

Only one death from smallpox has been registered in London during the past twelve months.

Hop Growers..

Here is something you need. The HOP BASKET manufactured by Hansen & Landon. It is light, durable and cheap. Just the thing for your pickers. Call and inspect them. Corner of Mill and High streets, Salem, Ore.

SALEM IRON WORKS

All kinds of machine work done on short notice. Supplies for grubbing machines on hand. We manufacture sledges and wedges for wood choppers. Farm engines and machinery repaired. A liberal share of your patronage solicited.

GEO. E. SLY, Superintendent.

WILHOIT SPRINGS

FINEST HEALTH AND PLEASURE RESORT. Nature's restorative for ailments of the body. A beautiful resort for a summer's outing.

Are you sick? Try nature's remedy—the famous Wilhoit Springs water. It will make you sleep; it will make you eat. You will gain in flesh. It's a specific for Dyspepsia, Kidney and Bladder Trouble, Rheumatism, Malaria, Jaundice, and all Liver troubles.

Do you want a rest? It's an ideal place.

Amusements of all kinds—swings, croquet, billiards, four bowling alleys, etc.

Our bath house is completed and our bath is the finest on earth for he sick or well.

We have a well-filled store; have anything a camper needs, and at reasonable prices as anywhere. No use to load up with provisions to haul so far.

Good stable for horses and carriages; hay and oats for sale at reasonable price.

Finest camping grounds in the state; well watered and fine shade. Always cool in summer.

Rates will be as follows: Board at hotel \$10 per week; children under 13 years, half price, special rates for families.

Campsite or privilege of grounds, 50 cents per week for each person over 12 years old. Rent of cottage \$2.00 per week with stoves, without \$1.50 per week; baths 25 cents each; sweatbaths 50 cents each, 5 for \$1.00.

For further particulars address F. W. McLERAN, Wilhoit Springs, Clackamas County, Or.

Stage leaves Oregon City at 11 a. m., arrives at Wilhoit at 4 p. m.; fare \$2.50 for round trip, \$1.50 one way.

Mail stage leaves Woodburn at 11 a. m., arrives at 5:30 p. m., fare \$1.25 each way.

HOW TO BUILD A WATERPROOF SHOCK.

Dr. J. F. Cook and C. E. Doty, of Salem, offer the following suggestion to those of the Oregon farmers who will accept it.

In checking grain two men can work to an advantage by being together. Let each man pick up a bundle with each hand, then come up facing each other putting the bundles together and firmly clucking them on the ground. Now let them break all the joints by placing a bundle between the others, and by firmly retting them on the ground with a slight push in at the top. Keep this up until eighteen bundles are in the shock, be sure to place your arms around the shock and firmly hug the top together in order to keep the center up. After the shock is completed, place two bundles on for caps, with the heads of each bundle toward the wind. Place the last cap with head toward the strongest wind.

SLAUGHTER SALE OF LUMBER

1,000,000 Feet

Of well seasoned No. 1 merchantable lumber for sale for

\$4 to \$5.50 and \$6.00

Per thousand feet.

SUITOR & THURSTON LUMBER CO.

DALLAS, OREGON.
