

THEIR LONG SLEEP

S. P. COSTELLO AND MICHAEL T. HORGAN DEAD.

Both Were Residents of Salem for Many Years—Of Irish Nativity.

Two of Salem's well-known citizens departed this life yesterday, as chronicled in the following:

HORGAN.—At the family home in this city, corner of Union and Twelfth streets, at 2:45 p. m. Monday, October 9, 1899, of paralysis of the brain, Michael Thomas Horgan, aged 65 years.

Mr. Horgan suffered a severe attack of the grippe during fair week from which he had about recovered, when the trouble developed into paralysis of the brain which caused his death.

The deceased was a native of Kenmare, Ireland, where he was born in 1834. When ten years of age he crossed the Atlantic with his father and settled in New York city, where he learned the confectionery trade which he followed as a life trade. He was probably one of the principal and best known confectioners on the Pacific coast. For many years he was employed by J. G. Holbert, formerly engaged in the confectionery business in this city on the site now occupied by the Bush-Brey building.

At the breaking out of the Civil war, he joined Ellsworth's Fire Zouaves, Eleventh New York in which he served until Ellsworth's death at Alexandria and the subsequent disbandment of the organization when he joined the Twenty-third regulars in which he served until the close of the war, when he returned to New York City, where in the same year, 1865, he married Joannah Ryan, who with five children, three daughters and two sons, survive him. The children are: Mrs. O. J. Shirley, of Colton, Washington; Miss Kate Horgan, Miss Emily Horgan, Thomas P. Horgan, and Ed. D. Horgan, all of Salem.

Shortly after his marriage, the deceased came west to Fort McDowell, Arizona, thence to Fort Harney, Harney county, this state, finally locating in Salem in 1870 where he has resided continuously.

Deceased was a member of the G. A. R. and the Union Veteran's Union. While not affiliated with any church he was of the Catholic faith and frequently attended services at that church.

The funeral arrangements have not yet been completed, but burial will probably take place tomorrow.

COSTELLO.—At the family home, at Chemekeeta and 12th streets, Salem, on Monday, October 9, 1899, Sylvester P. Costello, aged 66 years, 2 months and 29 days.

Deceased was a native of county Clare, Ireland, where he was born July 20, 1833, and when 16 years old came to Fall River, Mass., where he learned the trade of a woolen mill operative. Over 40 years ago he came to Oregon and for 25 years he was a resident of Salem, working in the old and new woolen mills. For a few years he was an invalid and he suffered a great deal, the end coming a little after noon yesterday. He leaves a wife and five children.

The funeral will take place from St. Joseph's Catholic church tomorrow (Wednesday) morning at 9 o'clock and interment will be in the Catholic cemetery south of this city.

A MATRON ELECTED.

Mrs. E. A. Holton Will Serve in That Capacity at the Salem Hospital—Among the Sick.

The board of control of the Salem Hospital yesterday employed Mrs. E. A. Holton, of this city, as matron of that institution. Mrs. Holton will enter upon the discharge of her duties this morning.

This appointment relieves Miss Ashtie Mills, superintendent of the hospital, of many cares and will enable her to devote her undivided attention to the unfortunate sick in her charge. The appointment of Mrs. Holton is an excellent one. Having for several years served as matron of the Orphans' Home, she is especially fitted for the place and will prove a valuable assistant in the management of this important institution.

Yesterday there were thirteen patients receiving treatment at the hospital. Miss Winnifred Fennell, the last appendicitis patient treated at the hospital, was yesterday returned to her home in this city, having recovered from the operation she underwent. J. W. Manly, of South Salem, was yesterday operated upon for rupture.

ARE NOW EXCAVATING.

Salem Water Company Preparing for Extension of the Mill Race Flume to the Power Station.

The Salem Water Company has inaugurated the work that will eventually be in the extension to the power house on Commercial street of the mill race flume from the old agricultural works on High street, the abandonment of rope transmission of power and the further enlargement of the plant and the service.

Workmen are engaged at the power station excavating the bed of the mill race, from which the water has been directed, preparatory for the building of a stone foundation upon which to locate the large wheels with which the plant will be operated. It is probable the company will not undertake anything further than the construction of the stone foundation this fall, deferring the extension of the flume and other labor in connection therewith, until next spring.

It is proposed by the company to extend the flume at exactly the same elevation of the race above the old agricultural works, to the power station, where the wheels will be located.

that the water fall may be as great as it is at present. The completion of the undertaking will involve much labor and will require the expenditure of a considerable sum of money.

FARMERS AND PRODUCERS

Not having room in our warehouse at Salem to handle off-grades of grain we have secured space in the Wallace warehouse, corner High and Trade streets, known as "the old agricultural works," now used as a public warehouse and located on the switch of the S. P. railroad, where we will operate storing and buying grain and also acting for your agents in working off-grades of grain. In this each man's crop will be stored in sacks and labeled separately, which will enable him to get the full benefit of all competition and have his grain on the market at all times.

Call at our office for further particulars. No. 250 Commercial street, Salem (upstairs).

A. M. HUMPHREY & CO., 9-19-3t; wlm. Salem, Oregon.

PEST HOUSE BUILT.—On Saturday evening carpenters completed the building of the city's pest house, which is situated on the north bank of North Mill creek, near the Southern Pacific railroad track. Late that evening, Carl Putnam, a patient, was removed to the building by Dr. E. A. Pierce, the city's temporarily appointed health officer. The city has employed a Mr. Sanner, of Yew Park, as special nurse to assist Dr. Pierce in treating the case. Under the direction of Dr. Pierce, the apartments in the house where Putnam was taken ill, were thoroughly fumigated by a number of Chinamen, whose services had been engaged for the work.

A VERY SICK BOY.—Mr. and Mrs. C. N. Tharp, of Independence, were in Salem Sunday to visit their son Floyd Totten, the young man who was sent to the Salem hospital by the city authorities Tuesday evening. Totten had been traveling over Eastern Oregon and Washington, doing farm work and he was en route home when taken sick aboard the steamer Pomona, between Portland and this city. His illness has developed into a genuine case of typhoid fever and the physician in charge pronounces it a very serious case.

"A Heart as Sturdy as an Oak." But what about the blood which the heart must pump at the rate of 70 times a minute? If the heart is sturdy and the nerves strong this blood must be rich and pure. Hood's Sarsaparilla makes sturdy hearts because it makes good blood. It gives to men and women strength, confidence, courage and endurance.

HOOD'S PILLS are non-irritating and the only cathartic to take with Hood's Sarsaparilla.

FARM RESIDENCE BURNED.—The large farm residence on Councilman George Griswold's farm in Spring Valley, was burned on Sunday, entailing a loss to Mr. Griswold of about \$3,000. The origin of the fire is unexplained. Wm. Plumb, who is conducting the place, alleging that there was no fire in the building when the family left the premises, the house having burned during the absence of the family. Unfortunately for Mr. Griswold, the insurance on the dwelling expired last July and was not renewed.

NO ELECTION.—There is apparently a "dead-lock" on in the election of a major for the Second battalion, Oregon National Guard. Two elections have been held without result and a third may be held in the near future. The election of Saturday last was attended by the following result: Captain M. W. Hunt, of Salem; 3; Captain May, Ashland; 3; Captain Williams, of Eugene; 1; Lieutenant Thornton, of Ashland, 1.

Raw as Beef From Eczema.

Eczema is more than skin-deep. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes:

"I had Eczema thirty years, and after a great deal of treatment my leg was so raw and constant pain. It finally broke into a running sore and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse. But I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Swift's Specific is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—the cause of the disease, and will cure what the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be purely vegetable.

S.S.S. For the Blood never fails to cure Eczema, Scrofula, Contagious Blood Poison, Cancer, Tetters, Rheumatism, Open Sores, Ulcers, Boils, etc. Insist upon S. S. S.; nothing can take its place. Books mailed free to any address by Swift Specific Co., Atlanta, Ga.

A Splendid System Connecting Salem

WITH MANY COUNTRY TOWNS

The New Roadways for Bicycles Are Used Extensively—System to Be Extended.

The Marion county bicycle paths, so far as they were constructed last spring and summer, under the law providing the special tax of \$1.25 on each wheel owned in Marion county, proved to be an eminent success, and the system will doubtless be extended further next spring, when a number of new paths will be constructed. The special highways for the bicycles now cover the principal thoroughfares in this county. The first one built, from Salem to Aurora, touches all of the towns between this city and the Clackamas county line, where it connects with the Multnomah-Clackamas path, leading to Portland. This gives the Salem wheelmen a good roadway to the metropolis, which is said to be in such condition as to make it available throughout the year. This path has already been found a great convenience to residents of the northern portion of the county as well as to those residing in Salem, and is constantly in use.

The path from Salem to Silverton is also a great convenience, leading as it does through the best and most populous farming section of Marion county. It is well constructed, high and dry, and will be used more during the coming winter, perhaps, than any other path in the county. As a means of communication between Silverton and the surrounding section with the Capital City, it is proving a great con-

THE TWICE-A-WEEK STATESMAN AGAIN.

In order to secure a revision of the lists as fast as possible, and that the work may not all come at once, we have decided to offer the dollar rate from now on to all of our subscribers who pay up their arrearages and a year in advance. We also make the same rate to all new subscribers. That is, new subscribers sending in their names and cash now will get the dollar rate for the Weekly, and they will be on the list for both the Tuesday and Friday sections of the Twice-a-week paper when it is started, beginning with the new year. Old subscribers, by paying up now, at the old rate, will be entitled to the lower rate on any advance payments they may make. The sooner they make settlement, the earlier they will secure the new rate.

The paper will be much improved in every way after the arrival of the new perfecting press. It will be fully up to the standard of the best twice-a-week papers issued from the big cities.

venience, and those of the residents of that neighborhood, whose business frequently brings them to Salem, are using the wheel as a means of travel far more numerous than was possible prior to the construction of the path.

The roadway from Salem to Mehama by way of Turner and Stayton is completed with the exception of a short section this side of Turner, where a good wagon road admits of the use of the wheel almost every week of the year. This path was found a great convenience by outing parties during the summer, hundreds of them taking advantage of the excellent roadway to utilize bicycles in going to Mehama and other nearby mountain resorts for brief outings. The residents of Stayton and Mehama, and the surrounding country, also made extended use of the paths in coming to Salem to transact business, and all are pleased with the excellent roadway provided. One section of this path does not meet with general approval. The surveyor, in running the line past the reform school, found the hill, crossed by the county road, a difficult one, and in order to make the grade of the path easier for wheelmen the line was run around the hill; it leaves the main road a half mile this side of the reform school, running west, across the Southern Pacific track, thence south three-quarters of a mile along the Mill creek bottom, when it crosses the creek and again enters the county road opposite the L. C. Cavanagh farm. The distance is thus increased by about a half mile, and the path brought down into that portion of the creek bottom, which overflows during times of high water. To prevent interruption of travel in the low portion of the bottom, a board path has been constructed, sufficiently raised to be above high water. This detour is objected to by many on account of the likelihood of the creek bottom overflowing, and the further fact that it leads through the woods along the railroad track, where large crowds of tramps are frequently encamped making the road, at certain times of the year, an unsafe one to a lonely traveler.

The path to the south line of the county, at Jefferson, is a branch of the Mehama line, branching off at Turner. It is not used by tourists as much as are some of the others, but will be used to good advantage by persons riding wheels in passing to and from on business bent.

The total mileage of bicycle paths in Marion county is about eighty-five, constructed at a cost of about \$2,200, including surveying. There is still about \$500 in the fund, and it is estimated that sufficient will be collected, on account of the special tax, next spring, to increase the fund to \$3,000, making that amount available for the extension of the system.

There are still a large number of wheels in Marion county, on which the special tax has not been paid, and, as soon as all those owners of wheels, who have paid the tax, are supplied with the tags evidencing such payment, Sheriff F. W. Durbin will enforce collection of delinquencies, by seizing all wheels found without the necessary tags.

BEECHAM'S PILLS for Stomach and Liver Ills.

The La Grande sugar factory has been running now for two weeks. The men employed number about 120, distributed among the various departments. The La Grande Journal says that the weather for many days past has been all that could be desired. In fact, had it been made to order it could not have been improved upon. The first day's run was commenced on 500 tons of beets at the factory, and since that time the beets have been delivered in regular quantities. The average percentage and purity will exceed that of last year. The reports of the yields per acre from the various beet farms are very good, many fields yielding from 15 to 20 tons per acre, which makes the sugar beet raising industry a success.

RESULTED FATALLY.—Elias Troyer, a young man residing near Hubbard, lost his life Sunday morning about 8 o'clock, the result of the accidental discharge of a shot-gun. Young Troyer was standing on the porch at the family home in company with his father and sister, when the gun slipped from his hands and in falling the hammer struck on the edge of the porch discharging the load which lodged in his jaw from which he died in a few minutes. Funeral services were held yesterday and the remains were taken to Needy for burial beside those of the unfortunate young man's mother.

BIG CORN.—A. D. Pettyjohn brought to the city yesterday from his farm on the river bottom a few miles above Salem, a sample of the corn he has grown the past season. He has several acres of the same kind, in which a stalk twelve feet high is not uncommon. Not only is it high, but the ears are fine and large. The sample may be seen at the Statesman business office. It was admired by a great many people yesterday, both Webfoot and tenderfoot pronouncing it as fine in appearance as they had ever seen in any state or country. A member of the Statesman force, who has seen some 17,000,000 acres of corn, more or less, in the past few weeks, while traveling through the Mississippi valley states, declares that it is as good looking

THE TWICE-A-WEEK STATESMAN AGAIN.

In order to secure a revision of the lists as fast as possible, and that the work may not all come at once, we have decided to offer the dollar rate from now on to all of our subscribers who pay up their arrearages and a year in advance. We also make the same rate to all new subscribers. That is, new subscribers sending in their names and cash now will get the dollar rate for the Weekly, and they will be on the list for both the Tuesday and Friday sections of the Twice-a-week paper when it is started, beginning with the new year. Old subscribers, by paying up now, at the old rate, will be entitled to the lower rate on any advance payments they may make. The sooner they make settlement, the earlier they will secure the new rate.

The paper will be much improved in every way after the arrival of the new perfecting press. It will be fully up to the standard of the best twice-a-week papers issued from the big cities.

corn as any in Kansas, Iowa or any other of the great corn states, where the corn harvest is now in full blast. Mr. Pettyjohn's corn was raised on Willamette river bottom land. He is so well pleased with his success of this year that he will put out thirty to thirty-five acres of it next year. Judging from this year's experience, in a very short season, it is evident that good corn can both be raised and matured in the sandy soil of the Willamette river bottoms, such as Mr. Pettyjohn has on his farm.

A Strike Epidemic.

Strikes are serious things, and in view of the number that have occurred it is well to remember that until the cause be removed, dissatisfaction will perpetuate work and prove a menace to society. But it is not only the commercial life which has its strikes. The whole country is groaning under the strike of the stomach, and many people make the mistake of trying to suppress the symptoms instead of removing the cause. There is but one sure way of curing the ills which arise from a rebellious stomach, and that is by an honest use of Hostetter's Stomach Bitters. Use it for indigestion, constipation, dyspepsia, biliousness, liver or kidney trouble, and see that a private Revenue Stamp covers the neck of the bottle.

ONE PROBATE ORDER.—In the probate court, yesterday, Agnes Harding, administratrix of the estate of Lars Harding, deceased, filed her final account, showing receipts of \$21,712.24, and disbursements of \$2,571.24, and she asked that a date be set for hearing the final account. Judge Terrell fixed the time for Monday, November 13th, at 10 a. m., when the report will be heard.

THAT JOYFUL FEELING.

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered but never accepted by the well-informed. Buy the genuine. Manufactured by the California Fig Syrup Co.

GONE TO IDAHO.—John H. Moir, of this city, for many years bookkeeper in the First National Bank, prior to that institution going into liquidation, has gone to Moscow, Idaho, where he has accepted a similar position in the First National Bank, under Cashier F. N. Gilbert, a member of the firm of Gilbert Bros., of this city.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Maasngill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by J. H. Lunn, druggist.

"No Cure No Pay."

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills, Malaria and Biliousness. If as pleasant to take as Lemon Syrup. For sale at Dr. Stone's drug stores. 50 cents.

It is Childish in Size, and very Gaudy in Color.

Among the interesting trophies soldiers in the Philippines have sent to Des Moines is a uniform which Frank Merrill of company H., son of Jeremiah M. Merrill of No. 1204 East Ninth street, took from a captured Filipino and sent to his parents in this city. The uniform is patterned somewhat after the Spanish uniform, and is quite fantastic for use in war times. The red and yellow combinations so popular with the Spaniards appear on the blouse of the uniform.

Some idea of the inferiority of Filipino and their insignificance as compared with Americans can be had from the size of the uniform. It would be good fit for a 12-year-old American boy, and it is easy to believe all that has been said concerning the diminutive Filipinos after examining this uniform.

The trousers to the uniform are of red calico and are made regular pajama style, being tied at the top with a draw string. Along the outer seam of the legs are stripes of black velvet. The blouse is made of heavy cotton material, which is woven with alternate pin stripes of white and black. The collar of the blouse is of red calico and is adorned in front with two stripes of yellow calico. The cuffs of the blouse are also of red calico and bear three stripes of yellow. The front of the jacket bears six stripes of red and yellow calico combined.

Altogether the costume looks as if it might have been designed by some child who had a fondness for bright colors. The sewing on the garments has been done on a sewing machine and the blouse has been fastened with hooks and eyes and buttons similar to those in common use in this country.—Des Moines (Iowa) Capital.

Good News for Our Readers.

Who have scrofula taints in their blood and who have not? Scrofula in all its forms is cured by Hood's Sarsaparilla which thoroughly purifies the blood. This disease which frequently appears in children, is greatly to be dreaded. It is most likely to affect the glands of the neck, which become enlarged, eruptions appear on the head and face, and the eyes are frequently affected. Upon its first appearance, perhaps in slight eruptions or pimples, scrofula should be entirely eradicated from the system by a thorough course of Hood's Sarsaparilla to prevent all the painful and sickening consequences of running scrofula sores which drain the system, sap the strength and make existence utterly wretched.

SUMMER UNDER THE WATER.

Story Told of the King of Siam and His Glass Palace in the Lake.

The king of Siam is the richest of monarchs, his annual income being about \$4,000,000, and he knows how to enjoy the good things that lie within his reach. His palaces is like a city, as nearly 5,000 persons live in it. It is lighted by electricity and the appointments generally are up to date. The ornamental gardens cover twenty-five acres, and are surrounded by a wall twelve feet high. It is authentically stated that he has a glass pavilion in which he makes descents to the bottom of the lake in summer.

RECENT INVENTIONS.

A Connecticut woman has patented an embroidery hoop which does not have to be stretched over the interior hoop to fasten the cloth, the outer hoop being provided with a pivoted lever, which can be opened to enlarge the diameter of the hoop, being closed again to grip the inner hoop.—Chicago News.

An easily operated bicycle pump has been patented by a New Yorker, having a pair of bars pivoted on one end and provided with handles at the opposite ends, the base of the pump being attached to one bar, and the piston to the other, so that the opening and closing of the bars operate the pump.

FAME'S PATHWAY.

Princess Louise, marchioness of Lorne, is the favorite sister of the prince of Wales.

Herbert Spencer has refused honorary degrees from the dozen great universities and decorations offered by the leading governments of Europe.

Stephen Van Rensselaer, a New York broker and well-known society man, has joined a Wild West show as a bronco breaker. He says that it is his method of enjoying a vacation.

Procrastination says, "The next advantage we will take thoroughly."—Shakespeare.

Washington Lew and Claims Company, Rooms 5 and 7, 473 Louisiana avenue, N. W., Washington, will, on very reasonable terms prosecute land claims, including mineral lands and mines, applications for patents and pensions, and all other claims before congress, the District of Columbia courts, the several government departments, the court of claims, and the supreme court of the United States.

The company will also aid lawyers, at a distance, in preparing their cases for the supreme court of the United States, and for a small consideration will furnish correspondents information concerning matters in Washington that they may desire to know. Send for circulars.

JOHN G. SLATER, President. (In writing please mention this paper.)

People who are called by business or pleasure to tropical countries for the first time invariably lay in a stock of thin gauze and silk underwear. When they arrive at their destination they discover that their clothes are entirely useless. Every one who keeps his health in the tropics wears next his skin thin flannels, which are the best guardian against the various ills due to the climate.

LEGAL ADVERTISEMENTS.

EXECUTOR'S NOTICE OF APPOINTMENT.

Know all men by these presents that the undersigned has been appointed executor of the last will and testament and estate of James S. Martin, deceased, by the county court of Marion county, Oregon. All persons indebted to said estate are hereby notified to make immediate payment to the undersigned, and all persons having claims against said estate are hereby notified to present the same July verified to the undersigned at the law office of Tilton Ford, W. T. Slater, and W. M. Kaiser, at the city of Salem, Marion county, Oregon, within six months from the date of the first publication of this notice.

Dated this twentieth day of September, A. D. 1899.

W. M. KAISER, Executor of the last will and testament and estate of James S. Martin, deceased.

9-25-99.

NOTICE OF FINAL SETTLEMENT.

In the county court of the state of Oregon for Marion county—in the matter of the estate of Leonard B. Judson, deceased:

Notice is hereby given that John A. McIntire, the duly appointed, qualified and acting executor of the last will and testament of Leonard B. Judson, deceased, has duly filed his final account as such executor, and the county court for Marion county has appointed the eighteenth day of October, 1899, at the hour of ten o'clock in the forenoon of said day at the county court room in the county court house in Salem, Oregon, for hearing all objections, if any, to said final account, and passing upon the same.

Dated this twenty-first day of September, A. D. 1899.

JOHN A. McINTIRE, Executor.

John A. Carson, attorney for executor.

9-25-99.

NOTICE FOR PUBLICATION.

Land Office at Oregon City, Or., September 12, 1899.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the county clerk of Marion county, at Salem, Or., on October 21, 1899, viz: Lucinda J. Thomas, guardian of John P. Hendricks, H. E. 10283, for the southeast quarter, section 8, township 9 south, range 2 east.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Lewis Stout, of Mohama, Or.; L. A. Stewart, of Mill City, Or.; Edward Taylor, of Mehama, Or.; George Kunkle, of Mill City, Or.
