Strictly choice hops are relatively scarce and are inquired for by exporters to an sions. extent that takes the stock up closely; indeed more of that high grade could be sold for shipment than are available. London has shown firmness on top qualities and having so few of these in the home crop, English buyers are seeking supplies here. A fair trade is still in progress with brewers, but dealers are not pleased with the general quality of the hops, and they are disinclined to carry usual stocks. The greatest drawback to the marketing of this year's crop is the dirty picking. 'We have rarely seen' so general complaint on this line, and some of the worst picking was in the best sections. During the last half of the week most of the country markets were reported quieter; the bulk of the finest hops seem to have been picked up, and the lower figures now realized are chiefly because of poorer qualities.

SUPREME COURT.

The Sult of John Savage, Sr., vs. John Savage, Jr., et al., Decided-Birchard Stays in the Penitentiary.

4200

(From Daily, Dec. 27th.)

The supreme court yesterday handed down decisions in nine cases heretofore argued and submitted on appeal, from the state circuit courts, and for once there were no reversals; in every case the judgment of the state circuit court was affirmed. Among the cases handed down were the following two from Marion county:

John Savage, Sr., respondent, vs. John Savage, Jr., and Frank Savage, appellants; appeal from Marion county, Hon. George H. Burnett, judge; affirmed. Opinion by Chief Justice C. E. Wolverton.

The action was brought to recover on two joint and several notes for \$1500 each, signed by the two defendants. The notes were not paki when due, and it was found that the plaintiff and defendant, John Savage Jr., had changed the rate of interest by mutual consent, so as to read 10 per cent per annum, instead of 8 per cent, this change being made without the knowledge or consent of the defendant Frank Savage, the action being brought upon the original debt. The circuit court found that the debt was just, and rendered judgment for the plaintiff, and defendant appealed. The appellate court, after reviewing the case, finds no errors and affirms the judgment.

State of Oregon, respondent, vs. Willard Birchard, appellant; appeal from Marion county, Hon. George H. Burnett, judge; affirmed. Opinion by Associate Justice R. S. Bean.

The defendant, Willard Birchard, was indicted, tried and convicted of a criminal assault upon his daughter, Minnie Birchard, committed on July 10, 1895, the girl being then under the age of 16 years. Birchard was sentenced to twenty years in the penitentiary, from which judgment he appeal-Defendant's counsel contended eđ. that the court erred in limiting the time to one hour after the case was called for trial, in which to submit requests for special instructions. When the case was called defendant's counsel gave notice that they would require the instructions to be in writing. whereupon the court ordered that such special instructions as they desired to be given should be submitted within one hour, to which order an exception was taken. The court holds that no error was committed in refusing to give instructions requested by the defendant, after the time for filing the same had expired. Other errors were assigned, but no error is found by the appellate court, and the judgment is, therefore, affirmed.

The other cases decided by the court were as follows:

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome-always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

George Griswold Placed in Charge of the Salem Truck & Dray Co.'s Business Yesterday.

The case of John Savage Jr., plaintiff, vs. W. D. Mohney et al., defendants, for the appointment of a receiver, and for an accounting, came up for day morning.

After considering the matter Judge Boise granted the prayer of the plaintiff, and appointed George Griswold receiver of the business of the Salem Truck & Dray Company. The request Tuesday morning. for an injunction, to prevent the defendants from interfering with the property in question, was not granted, the to the amount of \$84. court, in view of the fact that the sheriff was in peaceful possession of the property, not considering it necessary.

Later Sheriff Durbin turned the property over to the receiver, and the latter at once began operations, continuing the business of the company at the old stand.
