

Evidence

of the most remarkable nature, from the best known people, attests the power of Dr. Williams' Pink Pills for Pale People.

No sufferer can read it without feeling hopeful, no skeptic can read it without being convinced. Every disease of the blood and nerves is represented from a common rash to scrofula; from neuralgia to nervous prostration; from bone-ache to rheumatism; from ordinary weakness to partial paralysis. Lives are saved by Dr. Williams' Pink Pills for Pale People.

"I suffered for five or six years with the trouble that comes to women at the change of life. I was much weakened, was unable much of the time to do my own work, and suffered beyond my power to describe. I was downhearted and melancholy. I took many different medicines, but nothing seemed to do me any good."

"I read about Dr. Williams' Pink Pills for Pale People, and some of my friends recommended them highly. I made up my mind to try them. I bought the first box in March, 1897, and was benefited from the start."

"A box and a half cured me completely, and I am now rugged and strong. I have not been bothered with my troubles since I began taking the pills."

"I have recommended them to many women who are suffering as I suffered. They are the only thing that helped me in the trial that comes to so many women at my age."

Subscribed and sworn to before me this 23d day of October, A. D., 1897.

O. C. HICKS, Notary Public.

THE DEAD HEROES

REMAINS OF OREGON VOLUNTEERS
NOW IN SAN FRANCISCO.

To Be Returned to This State At Once—
List of the Dead and Dates of
Their Demise.

(From Daily, March 17th.)
Gov. T. T. Geer yesterday received a telegram from Chief Quartermaster Long, United States Army, stationed at San Francisco, to the effect that the transport, Duke of Fife, which arrived a day or two ago from Manila bearing several hundred caskets containing the remains of soldiers who succumbed in that island to wounds or disease, did not bring the bodies of any of the Oregon dead.

Last evening another telegram was received, giving the names of those of the Oregon volunteers, whose bodies arrived on former transports and have thus far been unclaimed by relatives. They will be sent to Portland at once, when a date will be fixed for their burial in the state cemetery plot near that city. Following is the list of those telegraphed:

Michael P. Crowley, company D; died at Manila, February 6, 1899.
Bert Clark, company A; killed in battle of Malabon, March 25, 1899.
George Hichamer, company G; was wounded in battle of Malabon, March 25, 1899; died in hospital, April 26, 1899.
Robert B. Hoffman, company M; killed at Manila, April 11, 1899.
James Kelly, company G; died at Manila, May 11, 1899.
William McElwain, company H; killed near Tay Tay, June 3, 1899.
Ralph A. O'Dell, company A; died in Manila, June 3, 1899.
Henry Payne, company M; killed at Manila, April 11, 1899.
Charles R. Rubert, company L; killed at Malabon, March 25, 1899.
L. V. Strawderman, company L; killed at Malabon, March 25, 1899.

A HOSPITAL.—The Surgical Sanatorium filed articles of incorporation yesterday and will conduct a hospital in Portland. The capital stock is placed at \$5000, divided into shares valued at \$1 each. A. C. Smith, Robert C. Coffey and Harry Lane are the incorporators.

TEACHERS TO MEET

EMPIRE ASSOCIATION TO
MEET IN PENDLETON.

An Elaborate Program to Be Participated
In by Leading Educators of
the Northwest.

(From Daily, March 17th.)
The third annual convention of the Inland Empire Teachers' Association, composed principally of the teachers of Eastern Oregon, Eastern Washington, and Western Idaho, though participated in by the teachers of every portion of each of the three states named will convene at Pendleton, on Thursday morning, March 22d, and continue in session until Saturday evening, March 24th. A large attendance and an interesting session is promised, and great good is expected to result from the meeting. Prof. J. H. Ackerman, superintendent of public instruction, stated yesterday that he would attend the meeting, from which he expected most excellent results.

The railroad companies have agreed to give reduced rates to all attending the session and most of the public schools in the inland empire will close on Thursday and Friday of next week to enable the teachers to go to Pendleton and attend the association meeting. Following is the program for the three days' session:

Thursday, 10 a. m.

Preliminary remarks, President F. L. Forbes.

"Fatigue," P. L. Campbell, president State Normal School, Monmouth, Or. "Story of the Inland Empire," Dr. Richard Foster, principal Weiser Academy, Weiser, Idaho; also of government geological survey.

Enrollment of members and announcement of committees.

Thursday, 1:30 p. m.

"How to Study Seeds," A. B. Leckeb, government expert in Acrostology, United States department of agriculture.

"Some Elements of Good Teaching in History," H. L. Talkington, Professor of History State Normal School, Lewiston, Idaho.

"The Study of English," Walter R. Siders, principal public schools, Pocatello, Idaho.

"The State and Church and Education," F. Pierpont Graves, president University of Washington, Seattle, Wash.

Thursday, 8 p. m.

Invocation, Rev. C. A. Dotson, Pendleton, Or.

Welcome address, Judge S. A. Lowell, circuit judge of Sixth district of Oregon.

Response, Miss Parmelee French, state superintendent public instruction, Boise, Idaho.

Response, J. H. Brown, state superintendent of public instruction, Olympia, Wash.

Response, J. H. Ackerman, state superintendent of public instruction, Salem, Or.

Recitation, Otto Hauerback, Whitman College, Walla Walla, Wash.

President's address, F. L. Forbes, principal Pendleton Academy, Pendleton, Or.

Reception to teachers and visitors by the Women's Clubs of Pendleton.

Friday, 9 a. m.

"Development of Character—Its Place in the Public School," J. S. Landers, principal public schools, The Dalles, Or.

"The Educational Value of Latin," Louis F. Anderson, Professor of Greek, Whitman College, Walla Walla, Wash.

"What the College Owe to the Public School," Thomas McClelland, president Pacific University, Forest Grove, Oregon.

"Land of the School Master," Stephen B. L. Penrose, president Whitman College, Walla Walla, Wash.

Friday, 1:30 p. m.

"Circulating Libraries," Mrs. C. B. Wade, Pendleton, Or.

"Traveling Libraries," Mrs. J. A. Fee, Pendleton, Or.

"Physical Education," Miss Laura Cass, Nampa, Idaho.

"The Art League in Public Schools," Mrs. E. J. Dockery, Boise, Idaho.

"The Public Schools," Mrs. E. A. Ivanhoe, La Grande, Or.

By invitation the convention will attend a brief service and pipe organ recital at the Episcopal church.

Friday, 8 p. m.

Preliminary entertainment, music, recitations, etc.

Lecture—"The Ministry of Woman"—J. P. Blanton, president State University, Moscow, Idaho.

Saturday 9 a. m.

"Applied Psychology," D. V. S. Reid, president State Normal School, Weston, Or.

"More Living Thought—Not So Much Dead Form," J. H. Morgan, vice president State Normal School, Ellensburg, Wash.

"The Twentieth Century Child," Mrs. Irene T. Freeman, Walla Walla, Wash.

Business meeting and election of officers, followed by adjournment.

Note.—Each topic will be open for discussion. Music of a very high order will be interspersed throughout the program.

THE CREATION.

A long time ago, the old Indians used to wonder why they were darker than the white people and lighter than the negroes. So one old chief gave his ideas about the matter. He said when God made the first man, he used mud and clay, and dipped him into water to help in shaping him.

After he was modeled in the proper shape, he was set in the sun to dry. The second man was made in the same way and dipped into the same water. A little time, however, the water was a little dirty, and consequently this man couldn't be as white as the first.

Therefore the Indian is darker than the white man. The third man was very dark, because the water had been used so much before his turn came. For this reason the negro is the darkest.

Folklore in the Red Man.

Millions of acres of fertile land in Hayti remain uncultivated. Sugar, tobacco and oranges of the first quality could be produced there.

Knowledge without justice ought to be called cunning rather than wisdom.

Plato.

Drowsiness is dispelled by BEE-CHAM'S PILLS.

HOP MARKETS DULL

A LARGE QUANTITY STORED IN THE
RAILROAD WAREHOUSE.

One Shipment Made to the Eastern Market
Yesterday—Condition in the Eng-
lish Market.

There was absolutely nothing new locally, regarding the hop market. No sales were yesterday reported.

A scene of customary activity exists at the Southern Pacific Company's warehouse in this city where approximately 3000 bales are stored. A carload was shipped yesterday to the Eastern market, in fact shipments for the past six weeks have averaged one carload per day but the storage capacity of the warehouse is constantly pretty well occupied, the receipts from outside points being in excess of the shipments.

Lupulin, in discussing the hop situation in the London Mark Lane Express of February 26th, makes the following statements regarding the markets and cost of growing hops in England:

"The story I have to tell has no more interest and is no more pleasing than that of the few preceding weeks, for a dead level of prices still prevails, with only moderate business passing. Some factors, says that they have experienced a demand which is rather in excess of the average at this season of the year, while others have remained in their offices undisturbed by the footfall of any buyer. Enquiries have evidently been but partial and erratic, and although they may have just about sufficed to prevent reduction of values, they have been in no sense equal to any suggestion of an improved tone."

"The bulk of the hops now on offer are of medium quality, there being an absolute scarcity of good parcels, and the lowest grades having been considerably reduced. It appears to be more than probable that before any new supplies can be brought forward the stocks now in hand will be absorbed by consumers, especially when the important falling off of imports is noted. My confidence in the ultimate future of our market is, therefore, unshaken, although I am bound to admit that the immediate prospect does not present any very encouraging feature."

"A factor's remark published this week leads me to briefly discuss the position of English planters in relation to the cost of growing hops. The factor says 'hops cannot be produced at present values, and growers will not try to do so.' It hardly needed such a pronouncement to establish the too well-known fact referred to in the first paragraph, and I am not aware that English growers have ever anticipated the possibility of bringing about such a result. The average cost of a crop of cured and packed hops in England has been figured out by an eminent authority at about 75d. per lb., or 70s. per cwt. Of course, there are variations in each district, and with each season the skill of the planter will also affect the results to some extent; but I think that, taking all circumstances into consideration, the amount named may be fairly accepted as a representative figure. If this be so, it is impossible to imagine that the returns of the present season, even with the advantage of an exceptional crop, can be in any sense or case remunerative."

"We are informed also by good authority that the average cost in New York state is about 60s. per cwt., and on the Pacific coast about 45s. per cwt. It is absolutely certain that we cannot hope to compete with the virgin soil and the favorable climate of the West coast of America. This district is thus far established as the most economical field for excellence of operations for this special crop. We may therefore as well admit at once that the best energy that attempted to do battle with Pacific coast growers on this platform would be absolutely wasted."

Shake Into Your Shoes

Allen's Foot-Ease, a powder. It cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired aching feet. Try it today. Sold by all druggists and shoe stores. BRIEF SESSION.—Judge R. P.

Boise held a brief session of the second department of the state circuit court yesterday, hearing motions when adjournment was had to next Thursday, at 2 p. m.

UP TWO CENTS.—The quotation

for wheat at the Salem Flouring Mills yesterday advanced two cents and 43 cents per bushel is now being paid in this city for the golden cereal.

The Future of

Children

A child's life may be blighted by the diseases of youth, such as Rickets, which is characterized by weak bones or crooked spine, and inability to stand or walk steadily, or Marasmus, that wasting disease characterized by paleness and emaciation, or Scrofula, a constitutional disease of the glands and neck.

Scott's Emulsion

of pure Cod-Liver Oil with Hypophosphites of Lime and Soda will prevent and cure these diseases. It supplies just the material needed to form strong bones, rich red blood and solid flesh. It will also reach the infant through the mother's milk, and be of the greatest benefit to both.

WILD WIT ECZEMA

One of Pittsburg's Most Estimable Business
Men Certifies to the Wonderful
Efficacy of Cuticura.

I was a sufferer for eight years from that most distressing of all diseases, Eczema. I tried some of the best physicians in the country, but they did me little good. The palms of my hands were covered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire, and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches, not unlike hives, would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and scratch and almost go wild. I got a box of CUTICURA Ointment, a bottle of CUTICURA RESOLVENT, and gave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear; before I had used one box there was not a sign of Eczema left. I can truthfully assert that \$2.00 worth of CUTICURA REMEDIES cured me.

J. D. PORTE, 428 4th Ave., Pittsburg, Pa.

used one box there was not a sign of Eczema left. I can truthfully assert that \$2.00 worth of CUTICURA REMEDIES cured me.

J. D. PORTE, 428 4th Ave., Pittsburg, Pa.

CUTICURA THE SET \$1.25

Complete External and Internal Treatment for Every Humor, consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment (50c.), to allay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring skin eruptions, such as eczema, hives, and eruptions, with loss of hair, especially of infants and children, when the best physicians and all other remedies fail. Sold throughout the world. POTTER DRUG AND CHEM. CO., Sole Props., Boston. "How to Cure Every Humor," free.

BAD COMPLEXIONS, pimples, blotches, blackheads, red, rough, oily skin, red, rough hands with shapeless nails, dry, thin, and falling hair, with itching, scaly, irritated scalp, prevented by CUTICURA MEDICINAL SOAP, the most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery. Two soaps combined in one at one price, 25c.

NEW YORK I certainly cannot permit myself to tell a better story about the Philadelphia dog than the editor has already vouched for regarding Leo. However, Minto was one of the most intelligent dogs I have known; and because of the remarkable things I have seen her do, indicative of reasoning powers beyond such as we are wont to attribute to the lower animals, I am quite ready to accept the testimony of her owners concerning things I have not seen. If the facts are called in question by any reader, the editor is in possession of the name and address of the gentleman who owned Minto until her lamented death about a year ago, and the subject is open to the most minute investigation.

SHOULD COME SOON

REGISTRATION OF VOTERS CONTINUES VERY SLOW.

Thirty-eight Hundred Listed Up to Last Evening—The Time for Doing So Is Short.

(From Daily, March 17th.)

Registration of voters continues slowly in the county clerk's office, and as the time for listing them is rapidly passing, it will be necessary for all voters, desiring to be entered on the registry books, to do so at an early date. There is less than two months' time remaining for the registration of voters—the time closes on May 15th—and up to last evening less than two-thirds of the voters of Marion county had been listed by the county clerk, the number registered at the close of office hours last night being at even 3800.

The notaries public and justices of the peace throughout the county are, of course, registering a number of voters, but many of these are sending in no reports. These, of course, will soon be forthcoming, and when all are in, it will probably be found that a good, large percentage of the voters now unrepresented on the clerk's books will have been registered. County Clerk Hall is urging voters in every portion of the county to register early, and the notaries public and justices of the peace are instructed to complete the work in their respective districts as soon as possible, and to send in their reports often, so as to enable the clerk to enter all on his books and close them on May 15th, as by law required. No registrations will be made after that date, and any voters, whose names are not entered on the clerk's book by the closing of the office on May 15th, will be compelled to prove their rights to vote at the polls or lose their franchise for this year.

Mr. Hall says, if there are any residents of Salem, entitled to register, who are unable, by reason of infirmity or illness, to come to the court house, if word to that effect is sent to his office he will call at the house of such citizen and register him.

The number of voters registered up to 5 o'clock last evening, as stated above, was 3800, divided among the various precincts in the county as follows:

TELEPATHIC POWERS IN DOGS.

Says a writer in the New York Times:

It is remarkable that the successive and very interesting notices concerning the telepathic powers of a certain dog which have appeared on the editorial page of the Times have not elicited numerous comments from readers. It is difficult to resist the conclusion that dogs as well as other animals, possess a kind of psychic sense which is not yet understood, or even generally recognized. The incidents related about Leo immediately recalled some stories of a somewhat similar nature about a Philadelphia dog. As a resident of

'Tis with our judgments as with our watches—none go alike, yet each believes his own.—Pope.

Kindness has converted more sinners than either zeal, eloquence or learning.—F. W. Faber.

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scales on the sores would peel off on the slightest touch, and the odor that would arise made the room sickening and unbearable. The disease had attacked the eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave us no opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

MRS. RUTH BECKLEY, Salina, Kan.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

S.S.S. For Blood

is the only remedy equal to such deep-seated diseases; it goes down to the very foundation and forces out every taint. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever.

Books mailed free by Swift Specific Company, Atlanta, Georgia.
