On their arrival, Mr. Bryan talked 20 minutes briefly; he spoke on the income tax, the money question, trusts, and imperialism. LINN COUNTY IS SYSTEMATICALLY "WORKED" BY SWINDLERS.

Inhabitants of Marion's Sister County Are Now Suspicious of All Solicitors and Legitimate Agents.

(From Daily, March 28th.) During the past three months the people of Lina county have been very thoroughly and systematically "worked" by not less than a half dozen sleek operators, each of whom introduces a novel plan that readily finds takers and the confidence operator profits acordingly. Inhabitants of Linn county have been paying so dearly for their experience of late, that they are naturally very suspicious of all solicitors and agents engaged in even a legitimate vocation, unless they are able to produce the goods promptly upon the request of the prospective patron. representative of the Statesman and the Pacific Homestead who recently returned from a partial canvass of Linn of Maieking. county reports these conditions.

riders 350 days out of the 365 in a year. Eleven days have passed since the sheriff opened the bicycle tax books, with a full supply of tags, and announced himself to be in readiness to collect the special assessment, but only thirtytwo wheels have thus far been registered, and so slow are the wheelmen in coming, that is is feared that in the majority of cases the tax will become delinquent, and wholesale seizures of bieycles will be the result. Last year, at the close of the eleventh day of the collection of taxes, 364 wheels were registered, and Sheriff Durbin was crowded by wheelmen who were all anxious to list their wheels and secure the little metal tags.

There is no special reason for this apathy among wheelmen, for there is very little inclination to resist the operation of the law this year, though some of the riders in one or, two country towns threatened resistance last sea-On the other hand, all seem to be pleased with the provisions of the law, and delighted with the results attained last year, when, at comparatively little expense to each wheelman, nearly 100 miles of excellent bicycle paths were constructed in Marion county, connecting the principal points with excellent roadways for use of the wheel-

It is believed that, in the course of a few weeks a rush will begin for the sheriff's office, and the bicycle riders, awakening to the fact that without bicycle tax no wheel paths can be constructed, will hasten and pay their assessments and thus aid the work of exending these roadways.

Following is a list of those who have already paid their tax, together with the make of wheel each has registered: George H. Burnett, Cleveland; H. W .Barr, Cleveland; Annie M. Barr, Cleveland: H. A. They propose carly in April to hold a church fair, at which will be sold at auction a large number of ham some silk handkerchiefs. Each of these represents a state of the Union. The one epresenting Oregon was recently sent to Mr. Charlton. It is large, and of white silk, beautifully embroidered in colors. Mr. Charlton sent the handkerchief to Governor Geer. He had the great seal of the state placed upon the handkerchief, and then sent it back here. It arrived yesterday. Mr. Charlon proposes still further to add to the decorations by having two handsomely embroidered flags, with the staffs crossed, appliqued to handkerchief. Above the flags will appear an eagle, done in embroidery, and below the legend, '2d Ore., U. S. V.,' will appear. 'At the bottom the word 'Oregon' in large leters will be embroidered.

### Lieutenant E. L. Powers. TO AVOID LOSING RINGS.

A good rule to remember when one has costly rings and the habit of taking them off when the hands are washed. which, by the way, should always be done of one wishes to take the proper care of the stones, is always to place them between the lips, says the Criterion. If the habit is once formed it becomes second nature, and prevents adding another item to the columns of loss, relating to the rings left in hotels, strange dressing rooms, and other places. Said a woman who has a magnificent collection of rings, and who has wisely exercised this habit since its inception: "I have never lost one or mislaid it, and, what is just as important, I have never been through all the worrying anxiety of believing I had lost some one or all of them. The woman whose fingers are clothed with flashy denies up to the joint may remonstrate that she has no room between her ruby lips, in which case there are two remedies, one to enlarge the mouth, the other, to reduce the number of rings to that proportion which marks the woman of taste.

A BIRTHDAY PARTY .- Yesterday afternoon Mrs. W. H. Welch gave a birthday party at her home on Winter street in honor of Miss Nellie Casebeer's fourteenth anniversary. About a dozen young friends were present, and a very delightful afternoon was enjoyed. Miss Casebeer had been obliged to remain within doors ever since September, last, when she sustained a fracture of the hip and yesterday was the first day she was able to be out of doors since the unfortunate mishap befell her. It is needless to conclude that the occasion was a happy and joyous one, and that the pleasant recollection of her fourteenth birthday anniversary will never fade from her memory.
