Be sure to give it a trial. this character and all contests for state officers must necessarily be settled by the political branch of the Government. That branch had acted in the Kentucky case when the General Assembly took jurisdiction. There was no appeal from the Assembly's decision, which was favorable to Goebel and Beckham, ex-cept to the tribunal of the people, which tribunal, the Chief Justice said, was always in session.

He also said the case was purely a state case—that Kentucky was in full possession of its faculties, as a member of the Union and there was no emergency which called for interference. Chief Justice Fuller said:

"It is obviously essential to the in-dependence of states, and to their peace and tranquility and their power to prescribe the qualifications of their own officers, the tenure of their offices, the manner of their elections and the grounds on which tribunals before which will be, and the mode in which such elections may be, contested, should be excluded and free from external interference, except so far as plainly provided by the constitution of the United States, and where controversies over the election of state officers have reached the state courts in the manner provided and have been determined in accordance with state legislation and laws, the cases must be necessarily rare in which the interference of this court can be properly invoked."

PAYING FOR BUTTER

BIG SUMS OF MONEY.

Yesterday was Pay day at the Commercial Street Factory-Two Valuable Institutions.

The fact that the Salem Creamery Company, which is the one under the management of George D. Goodhue, whose place of business is on Commercial street between State and Ferry streets, was paying off its patrons yesterday, suggested to a Statesman reporter some inquiries in regard to the business so far as it has progressed. Several of these checks were seen past-Creamery Company pays off its patrons three times a month, and that there are about 142 of them now furnishing milk and cream, with the number increasing daily; and that it takes about \$400 a week to pay them off, or over \$1600 a month. The patrons are receiving 14 cents a pound net, for their butter fat, from this company. Besides these 142 patrons furnishing milk and cream, there are about sixty other patrons, living too far away or off the routes, who furnish the butter fat in the granular form, from which two grades of butter are put onto the market by this company. These are not included in the \$400 a week payments, as they receive their money upon the delivery of their

THE OTHER CREAMERY. Further inquiry by telephone, at the White Clover Creamery, belonging to T. M. Townsend, and located on East State street, elicited the information that this institution now has about 175 patrons, and that they are making 300 to 400 pounds of butter's day. They will make 400 pounds today (Tuesday). They pay 15 cents a pound for the butter fat, and their checks are given out on the 10th of each month. A little mental calculation will result in showing that their payments to their patrons for butter fat must run up over \$1500 a

THRESHING OUTFITS SENT OUT.

Farmers Will Have No Trouble in Handling This Year's Grain Crop-Fine Machinery.

The grain growers of Marion county should have no difficulty this year from lack of facilities for handling their crop, to judge from the way that threshing outfits are being distributed from

this point early in the season. Wilcox & Morret of Turner, inst took away a big Buffato-Pitts thresh-ing outfit from the Mitchell, Lewis & Staver establishment, and another outfit of the same kind sits on flat-cars near the freight depot today.

It is a Buffalo-Pitts sixteen horsepower double cylinder engine and separator. The entire outfit shines like a glass bottle, with red paint and fine finish. The drive wheels of the traction engine are 51/2 feet in diameter and 16 inches across the face, and it is said that the engine will climb over a twelve-inch

obstruction with the greatest case. The outfit is destined for the Crenz Bros.' farm in the Waldo hills and is the first one sold in Marion county this season, having been contracted for early in the year.

It will be taken off the cars today, in front of Mitchell. Lewis & Staver Company's headquarters on Commercial street. All interested in up-todate threshing machinery will do well to look the outfit over.
