TWO GRANT COUNTY MURDERERS RECEIVED AT PENITENTIARY.

Sheriff Newt. Livingstone and three guards arrived in the city last evening from Grant county with three men for the state penitentiary. Two of the been convicted of murder, while the third will serve five years for horse stealing.

The life-timers are Ole Turner and Al. Keeton, who murdered Tom Eagleton at Granite on March 22d. On the first ballot, seven of the jurors were for conviction as indicted, for murder in the first degree. After six hours the jury reported a compromise verdict of life imprisonment.

years ago, and was engaged during all that time in prospecting and mining, except during the six months preceding his death, when he was a partner of Mr Paul Wilson in the livery business. The deceased owned a number of

good prospects in this district, as well as one-third interest in 80 acres of land immediately adjoining the new and growing town of Lawton, and on the day of the fatal affray he had just purchased ground at Alamo, with the in-tention of engaging in the livery busiress at that point. THE USE OF THE CORSET

It Should Be Supple, Not Stiff, and Laced Tight Only at the Waist.

Stiff corsets are unknown in France, French corsets are always supple and bendable, and this much accounts for the ease of French figures, which are never tightened excepting at the waist, leaving the bust and hips quite free. In England the figure is usually tightened in too much at the bust and hips, which gives too straight a look to the figure and makes it stiff and uncomfortable, movement being rendered ungraceful by this stiffness.

Let any girl try to lace her stays only at the waist, and let her select her stays as soft and light as possible, and then see if her figure be not as graceful in shape and as elastic as the most graceful and elastic French figure. No tight straight-down even lacing will ever make a pretty figure:

If the corset cannot be made expressly to suit the figure, then let it be laced only in the middle at waist. Even then no real corset should be worn by girls until they are well in their teens. Remember, the softer the corset is the easier it will be, and the tighter it may be laced at the waist without feeling uncomfortable. This is the only way to mould the figure, it is said, without injuring the health.
