Only American Troops Refrain From Looting the City of Pekin.

New York, Sept. 3 .- The Herald this morning publishes the following dis-DOUBLA-IS:

Pekin, Aug. 20, via Shanghai, Sunday-Three more members of the Tsung Il Yamen have been 'executed by the Empress, They are Hen Tun. member of the Imperial Secretary Ll Shan, it friend of the foreigners, and Li Yien Yuan. They were put to death just before the arrival of the allied forces.

There is no Government in Pekin. The Japanese and Russians for some unknown reason still remain outside the innermost palaces of the Forbidden City. The Germans, on the other hand, desire to burn everything and avenge the death of Baron von Kctteler.

Yesterday was quiet in the section allotted to Americans in the southern part of the city. Its condition is in great contrast to the other foreign section, where thieving still continues. The credit is due to General Chaffee's excellent proclamation, forbidding looting and offering fair pay for provisions.

It has been ascertained that the positions held by the legationers during their slege were undermined by the Boxers, and in a few days more the mine would have been sprung.
