  - \$750**  
Will buy ten acres of land just outside the city limits, that will be worth \$200 an acre in two years.

## SALEM LAND OFFICE

Up Stairs in the Statesman Building.

### FOR MARION COUNTY'S EXHIBIT

Clyde La Follett is installing fine Samples—Bunting and Other Decorations Needed.

Clyde LaFollett, a son of Alex LaFollett of Mission Bottom, is arranging an exhibit in the Pavilion at the Fair Grounds, of the products and resources of Marion county. It is a comprehensive collection of the county's products and reflects great credit on the young man, who, alone and at his own expense, has entered the lists to represent Marion county in the county exhibits at the State Fair. He is now at work installing his collection, paying all the expense himself and hiring men to aid in doing the heavy work.

For purposes of decoration he will require quite a large amount of bunting and other decorations, and it is desired that the citizens of Salem, who have such goods to spare, furnish them to Mr. LaFollett, and assist him to that extent in arranging for a proper display of his exhibit. The work is one purely of patriotism, Mr. LaFollett having undertaken the matter of representing Marion county at his own expense.

All the other counties competing in this class have received aid from their respective county courts, while Mr. LaFollett was even refused a small bill of lumber which he asked at the hands of the Marion county court. If any of the citizens have the desired decorations, they will confer a great favor by taking them to the Pavilion at the Fair Grounds today, where Mr. LaFollett will receive them.

### CHICKEN THIEVES ARE ABROAD.

Farmers Near Macleay Lose Their Feathered Property—Some Poultry Yards Are Depopulated.

Residents of the Waldo Hills, in the neighborhood of Macleay, are complaining of chicken thieves, a number of people having suffered serious losses from among their feathered stock. Mrs. J. P. Waldo mourns the loss of forty young turkeys and three dozen nice Plymouth Rock chickens taken from her poultry yard during the past ten days. Mrs. C. J. Simeral, of Macleay, lost all of her chickens and turkeys. Sol Durbin, living between this city and Macleay, has also been visited by the chicken thieves. All the chickens on Mr. Durbin's farm were taken, even the little chicks, scarcely able to run about, being carried away. It is believed that some of these chickens were stolen by parties who have given a thriving trade in the hop pickers' camps in the surrounding country. The thieves are being watched, and it is likely that, should one of them invade certain hen coops in the neighborhood of those already depopulated, they will find themselves filled with bird shot, and a physician's services may be required to extract some of the little pellets.

### THE MAINE ELECTION.

REPUBLICANS SCORE A BRILLIANT VICTORY.

All Counties but One Carried and the Four Congressmen Are Easily Elected.

PORTLAND, Maine, Sept. 10.—Carrying out its traditions of many years with but one break, Maine went Republican in the state election today, by a good old-time majority.

The Republican state ticket, headed by J. P. Hill for Governor, was elected, as were all four Congressmen, Allen, Littlefield, Burleigh and Boutelle. The campaign throughout the state, except perhaps in Cumberland county, was fought entirely on national issues.

In Cumberland county, with Portland as the center, there was fought one of the most interesting contests in the state. This was solely on the liquor law, its enforcement or non-enforcement. The Republicans representing the latter, and the Prohibitionists the former, issue.

The returns indicate that the Prohibitionists have landed their candidate for sheriff. The returns tonight show that the Republican plurality in the state will be close to 32,000.

### CONGRATULATIONS.

Augusta, Maine, Sept. 10.—J. H. Manley, chairman of the state Republican Committee, sent the following dispatch to M. A. Hanna tonight:

"Maine stands by the splendid administration of William McKinley. The voters of the Pine Tree State have given today the largest Republican majority ever given in the history of the state to any party with the single exception of four years ago when our opponents were completely paralyzed and threw the smallest vote they ever cast in a Presidential year since 1840.

"The Republicans, against a determined and united Democracy, have carried every county save one in the state election, more than 150 out of 180 members of the Legislature. They have elected our delegation to Congress by majorities ranging from 7000 to 10,000. We have carried the state by 31,000 majority, out of a total vote of 115,000."

### LABOR TROUBLES.

Complaints Against the Military Authorities from Porto Rico.

New York, Sept. 10.—Labor leaders here have reported to the Central Federated Union that they have received a letter from more than 100 representatives of Porto Rican organizations, who have been imprisoned in the municipal prison at San Juan. The letter says that all labor organizations known to exist are being suppressed by the military authorities. Those now in prison include the presidents, secretaries and members of the arbitration committees of all the labor unions of any consequence in Porto Rico.

The labor leaders, in their letter, petition the workmen of the United States to appeal to the Administration at Washington to get the release of these men and that the organization of labor unions may proceed without persecution.

### A Great Deal of Invention has Recently Taken Place in the Field of X-ray Apparatus.

With increasing power, due to the perfection of induction coils, interrupters and static machines, the amount of energy that can be concentrated in an X-ray tube has grown to such a degree that the platinum targets upon which the cathode stream impinges, which are the source of the X-rays, become intensely heated and even melted in a few seconds. A new and highly satisfactory method consists in simply coating the target with platinum black. This substance possesses very high radiating power and the heat generated in the target is thus rapidly dissipated.

concentrated in an X-ray tube has grown to such a degree that the platinum targets upon which the cathode stream impinges, which are the source of the X-rays, become intensely heated and even melted in a few seconds. A new and highly satisfactory method consists in simply coating the target with platinum black. This substance possesses very high radiating power and the heat generated in the target is thus rapidly dissipated.

### TROUBLESOME INDIANS.

Game Warden Quimby has received notice from Joseph, Wallowa county, that the Indians from the reservation at that place are shooting deer out of season, says the Portland Telegram. One was recently arrested, but the authorities at Joseph are afraid to act independently and they have inquired of Mr. Quimby relative to what action to take. The Indians are very troublesome in regard to the observation of the game law, feeling that they can shoot deer whenever and wherever they please. The Indian arrested at Joseph was allowed to return to his tribe pending Mr. Quimby's answer, so that the case is hopeless now, as far as capturing him again is concerned. He should have been tried at once by the authorities at Joseph.

### One of the first links of a possible Trans-Pacific cable will be laid during the first week of September, connecting St. Michael, Alaska, with Cape Nome on one side and Unalaklik on the other.

The primary object of this comparatively short stretch of cable is to put the mining camp at Cape Nome in communication with the rest of the world through a land line and cable system terminating at St. Michael. From the extreme western end of the system of communication thus created at Unalaklik, it is no great distance across the Bering Straits to a point on the Siberian or Kamtschatka coast in communication with the Russian land lines across Siberia.

Pacific Homestead, Salem, Or. Best farm paper. Issued weekly. \$1 a year.

## Market Reports

# PREPARING THE GROUNDS

## Great Activity at the Race Track and in the State Fair Grounds Generally.

Excellent Programs for the Special Days—Interesting Time Promised for the Reunion of the Pioneers on Friday Evening, September 21st—Good Races.

President W. H. Wehrung and Secretary M. D. Wisdom, of the State Board of Agriculture, are in the city to remain until after the State Fair, and they are up to their ears in business. Headquarters have been established at the H. B. Thielsen insurance office, and here Wylie A. Moores, who has been appointed assistant secretary, can be found from now until the opening of the fair, ready to receive entries of exhibits and stock. President Wehrung and Secretary Wisdom will spend a good portion of their time at the fair grounds looking after the new additions to the several buildings on the grounds, and the new horse and cattle stalls.

The new judges' stand, to be built in front of the grand stand at the race track, will be in course of erection by tomorrow, the work having been laid out yesterday. Platforms, sidewalks, horse and cattle stalls and stock pens, have been repaired and put in order, and the entire Fair Grounds presents an appearance of neatness seldom seen a week before the opening day.

The stock show is growing daily, and the indications are the exhibition will be the greatest and best ever seen in the Capital City or anywhere on the Pacific coast. The special days promised to be well attended.

most pleasant one. They will be made to feel at home on the old camp ground as they did long years ago, and will live over again the stirring times when they were younger, and when they risked all in order to found homes in the wilderness, where they and their children are now enjoying the fruits of their labors.

There will be many campers at the Fair Grounds this year, splendid camp grounds being furnished free to all.

The racing at this year's fair promises to be the best ever seen in Salem. Splendid strings of horses are in the stalls and are in training for the fair, and the management is confident that, at this meet, many state records will be broken.

Some exhibits are now being received, and in a few days many will be placed in position, while horses, cattle, sheep, poultry and other stock will soon be on the ground in countless numbers, coming from every part of the state.

Owing to the fact that the fair opens next Monday, all exhibitors are requested, by the management, to make their entries this week in order to avoid the necessity of working the clerks in the secretary's office on Sunday. The entries will positively close at 10 o'clock on Sunday night, and all exhibits must be in place on Monday morning at 6 o'clock. There will be no extension of time for entries or for bringing in stock for exhibition purposes.

The press throughout the state has been very friendly toward the State Fair this year, as will be seen by the following excerpts:

The Pacific Baptist says of the fair: "Unless all signs are deceptive, the State Fair this year will approach nearer the accomplishment of a comprehensive exhibit of all the industries of Oregon than has been attained in any previous year, and consequently will be of more value to both the visitors and the exhibitors. The directors are making earnest efforts to bring about such a result and the prospects are their work will be crowned with success."

"It is desirable that every county in the state should have a good exhibit. The people of all the counties are taxed to provide the appropriation for the fair, and therefore all of them should take advantage of it to make their resources and their industries known throughout the commonwealth. Certainly they will have only themselves to blame if they do not, for a special appeal has been made to them to profit by the exceptional advantages provided for such exhibits this year."

The Star News, in a recent issue says:

"The Oregon State Fair should be the best this season that it has ever been. There is a great amount of the finest bred stock in the United States to be found in Oregon at the present time. The management is sparing no expense or energy to get the good stock together, and as the prizes are good the farmers should not be backward about placing what they have on exhibition; the man with the push is the man who is going to get there; people do not want to buy stock without a reputation any more than they want to run all over town hunting for an article when it is placed before them for purchase."

Tuesday will be Press Day, and a large crowd will be present. Editors of hundreds of papers will be in attendance and the indications are that they will be astonished at and thoroughly pleased with the great variety and excellent quality of the exhibits, and the splendid horse races.

Wednesday will be Salem Day, and the attendance will doubtless be a record breaker. The special race for this day, for which Salem hangs up a large purse, will add much to the interest in this day's program. It is expected that the business houses of this city will be closed on this occasion, so that the employees of the Salem business firms may attend on this special day.

Thursday will be Portland Day, and Secretary Wisdom has been assured, by many of Portland's leading business men, that the attendance will be large from that city. A special race program of unusual excellence will be among the attractions. A special train will come up from the metropolis on that day, leaving Portland at 8 a. m., and arriving in this city at 10:30; returning will leave the Fair Grounds at 6 p. m. The special rate of \$1.00 has been secured for this train, and doubtless many hundreds will take advantage of this opportunity to come from Portland and see the greatest fair ever held in the Northwest.

Friday will be Pioneers' Day. At this time it is hoped to have the largest possible gathering of the old empire builders, the Pioneers who braved the dangers of the desert and mountain and the warlike Indian tribes to come to this land of Oregon, and build here a state that has attracted the attention of the civilized world. A big camp fire in the evening on the Fair Grounds will be one of the pleasant features of this special day, and no efforts will be spared to make the visit of the old pioneers a

## Hop Growers AND FRUIT RAISERS

We have over 200 empty, solid barrels on hand to pick hops in, and about eighteen or twenty new casks and hogsheads are in good, solid shape to put in grain, fruit or potatoes, etc. VERY CHEAP; and will take fruit or chickens for them.

Will trade until further notice; therefore bring in first time you come to the city, your produce, and get one or two; or else we will cut it up for firewood; we need the room, but will give you all this month's time to secure.
