

WHEAT IN STORAGE

SALEM FLOURING MILLS COMPANY'S RECEIPTS ARE LIGHT.

The Amount Thus Far Received This Year Is Only One-Fifth of that Stored in 1899.

(From Daily Statesman, Sept. 26.) Wheat deliveries at the Salem Flouring Mill Company's warehouse have fallen to about 150 bushels a day, and the indications are that less than 1000 bushels yet remains to be hauled here for storage this year.

There are several causes for this shortage; the burning of the mill last year just after grain had been stored and the knowledge on the part of the farmers that flour would not be made here during the year caused them to seek other places to store their crops.

SEVERAL SALES MADE

SOME HOPS SELLING AT FOURTEEN CENTS PER POUND.

A Report on the Production of the World Shows a Considerable Shortage in Hops.

(From Daily Statesman, Sept. 26.) Hops are beginning to move, a number of sales having been consummated during the past few days. One dealer purchased 125 bales at 14 cents a pound; these were strictly choice hops and are intended for the export trade.

W. H. & H. LeMay, the London hop dealers, have completed their annual report of the world's hop crop for the year 1900. It was issued under date of September 16th, and a copy of it is in the hands of the Statesman.

"We have made, as usual, a very exhaustive examination of the hop gardens of England, and the conclusion we have come to is that the crop cannot reach, under the most favorable circumstances from now, half of the actual growth of last year.

Table with columns: Cwts., Acres, and other statistics for hop production in various regions like Kent, Sussex, Hampshire, etc.

The Excitement Not Over. The rush at the drug store still continues and daily scores of people call for a bottle of Kemp's Balsam for the Throat and Lungs for the cure of Coughs, Colds, Asthma, Bronchitis and consumption.

THE UPSIDE-DOWN HOUSE. One of the Many Odd sights at the Paris Exposition. A house topsy-turvy is one of the oddities described by Grace W. Curran in an article in the St. Nicholas, entitled "Play Hours, at the Paris Exposition."

It is well known that export and stock beers want at least double the weight it makes 746,378 cwt. required by our brewers, whilst our export trade, yeast makers and non-alcoholic beer brewers require at least 50,000 cwt.

Putnam Finest Dye produces fastest and brightest colors of any known dye stuff. Sold by Dr. Stone's drug stores, Salem, Ore.

X. N. STEEVES HEARD FROM.

He Advertises for an Old Friend Who Disappeared in Manila—Most Peculiar Case.

News that is old in the Philippine Islands but fresh here, concerning a former Portlander, has just been received, says the Portland Telegram.

X. N. Steeves, the lawyer, who was acquitted on a murder charge in connection with the killing of old man Sayres, and went to the islands to begin life anew, is a prominent figure in a peculiar case of disappearance.

According to a Manila newspaper of July 14th, several marked copies of which have been received in Portland, Mr. Steeves met an old and beloved acquaintance of twenty years standing a few days before in Manila.

The friend was Colonel Shinnault, an elderly adventurer who had just returned from a prospecting-tour in Mindanao island. The colonel had outlived terrible experiences and exposures looking for gold in a wild part of the island.

IN SERIOUS TROUBLE.—John Doe was arrested yesterday on a warrant issued by Justice of the Peace J. O'Donnell, upon a charge of assault and battery upon the person of D. S. Richards, who keeps a junk shop on Court street.

The Excitement Not Over. The rush at the drug store still continues and daily scores of people call for a bottle of Kemp's Balsam for the Throat and Lungs for the cure of Coughs, Colds, Asthma, Bronchitis and consumption.

THE UPSIDE-DOWN HOUSE. One of the Many Odd sights at the Paris Exposition. A house topsy-turvy is one of the oddities described by Grace W. Curran in an article in the St. Nicholas, entitled "Play Hours, at the Paris Exposition."

"Not far from Old Paris, in the Rue de Paris, a street crowded with concert halls, burlesque theatres, cafes, and the many attractions and distractions of modern Parisian life, one came unexpectedly upon the amusing Upside-Down House, or Manoir à l'Envers.

A house topsy-turvy is one of the oddities described by Grace W. Curran in an article in the St. Nicholas, entitled "Play Hours, at the Paris Exposition."

while other curious mirrors, convex, concave, and variously curved, show us to ourselves in surprising and distorting shapes and attitudes.

WEIGHT OF SHOELSS WOMEN.

Remarkable Discovery of Herr Sultz-er, Berlin Scientist.

A singular discovery has lately been made by the eminent Herr Prof. Sultz-er, of the University of Berlin. Like many other discoveries, it was made by accident. The professor was stopping at a hotel in Naples, where, on the floor above his room, there was also stopping a young lady of rather slight figure.

Thereupon the professor made a series of experiments with a view to ascertaining the nature and cause of the increase of weight which he felt sure, followed the removal of the female shoe. He began the experiments with his wife. That estimable lady weighed, when wearing shoes, only 140 pounds, and her tread was as light as that of the ordinary Alhorney cow.

Remarkably effective as an aid to navigation is a gas buoy which at the same time is a bell buoy. It is likely to play an important part in the protection of the shipping of this port, as well as being a most important factor in increasing and developing the commerce of New York.

OREGON'S BLACK LAW

ANOTHER INQUIRY FROM KANSAS GETS AN ANSWER.

A Colored Democratic Campaign Sheet in Topeka Prefers Tillmanism to Our Statute.

(From Daily Statesman, Sept. 26.) The Democrats, Populists, and other sworn enemies of the Republican party in Kansas appear to be determined to use the obsolete clause in the Constitution of Oregon regulating the votes of colored residents, as a campaign argument, to offset Republican arguments regarding "Tillmanism" in South Carolina, and in other Southern states, where negroes are prevented, by obnoxious laws, from exercising the rights of freemen and citizens.

Yesterday's Statesman, a letter, written by Gov. T. T. Geer in answer to a Kansas man's question regarding this Constitutional provision, was published. In yesterday's mail another letter was received by Gov. T. T. Geer from W. B. Townsend, of Leavenworth, Kansas, asking for information on the same subject.

Governor Geer yesterday answered Mr. Townsend's letter in the following language: "Your letter of the 21st inst., with copy of the 'Colored Citizen' of Topeka, is at hand. I had just received a similar letter from a gentleman in Parsons, Kansas, calling my attention to the desperate straits to which the Democrats of Kansas are reduced for campaign material.

IN A NEW COMPANY.—The Beaver Flume & Lumber Company yesterday perfected its organization, by filing articles in the Department of State, at the Capitol. The corporation will engage in the lumbering and logging business in Columbia county, and will construct, operate and maintain flumes, canals, railroads, skidroads, tramways, dams, bridges, saw mills, steamboats, telegraph and telephone lines, and do a general development business, and engage in general merchandising.

INJURED A LIMB.—George Cobat, a 12-year old boy living with his family in the Bancy house on Liberty street, near Court, had the misfortune to meet with a serious accident while in the hop yards a few weeks ago, from the effects of which he is now suffering. The boy with a number of companions, went in bathing in a small creek, and while in the water he struck a snag, the piece of snagged wood cutting deep into the boys left limb just above the knee, penetrating downward almost to the knee-cap. The boy was brought to this city, and taken to the hospital for treatment. He is now sufficiently improved, so that he could be moved to his home yesterday, where he will receive treatment, unless the setting in of complications should necessitate his removal to the hospital for an operation. It is hoped that the boy's recovery will be but a question of a little time, and that no complications may set in.

A BOAT LOAD. Geo. C. Will received word yesterday that the Oregon City Transportation Co's boat Pomona, coming up today was loaded with pianos and organs shipped unboxed from the East. This is the largest shipment ever received in Salem and a great saving in freight and prices of boxes—a large advantage over individual shippers.

THE PROBLEM. "This is called a problem story, but the problem is not yet apparent to me." "What till you get to the end. You will then wonder why you ever read it."—Detroit Journal.

board they are not in the swim. It's always easy to interest a man in a good money making scheme. Some of the unappreciated people on earth have more money than they know what to do with.

USES OF THE LEMON. Sick headaches may often be cured by taking half the juice of one lemon in a tumblerful of strong black coffee. Headaches from biliousness or torpid liver sometimes yield to the simple treatment of half a lemon squeezed into a cup of hot water without sugar, taken night and morning.
