What Would You Give

To be cured of catarrh? If you or your friends have this disease, you know how disagreeable it is. It's symptoms are inflamed eyes, throbbing temples, ringing noises in the ears, headaches, capricious appetite, and constant discharge of mucus. Fortunately its cure is not a cuestion of what you will give, but what you will take. If you will take Hood's Sarsaparilla, the great constitutional remedy, which thoroughly purifies, enriches and vitalizes the blood, you may expect to be completely and permanently cured. The good blood which Hood's Sarsaparilla makes. reaching the delicate passages of the inucous membrane, soothes and rebuilds the tissues and ultimately cures all symptoms of catarrh.
