ANOTHER - VICTIM OF THE TRAIN WHECK PASSED AWAY.

Engineer W. H. Drennan's Recovery Is. Despaired of -Crew of the Extra Train . Was at Fault.

(From Daily Statesman Nov. 10.) Another victim of the Roseburg were installed in the spring of 1893, train wreck, Head Brakeman Charles yesterday afternoon. Mr. Campbell ator.

Engineer Walter H. Drennan, another one of the dangerously injured vic- Jones was a kind hearted man and tims of the collision, is tying in the area hospital at Portland, and it is feared that he cannot recover.

George E. Waters, who is at the bedside of Mr. Drennan, last evening telegraphed regarding the man's condition, as follows:

"Portland, Nov. 9.- The physicians attending Walter Drennan, in a consultation this morning, decided it was ne essary to unquitate his right hrm. Owing to his condition be was unable to take an anaesthetic, so, as a last hope, amputation was deferred until tomorrow in hopes he will be able to undergo it then. If not strong enough then to withstand the shock of the operation, he has, in the opinion of the physicians, no show for recovery. Last evening's Telegram in discuss-

ing the wreck and its effects says: Brakenjan Campbell, another of the victims of the Southern Pacific wreck near Roseburg, died last evening at the Good Samaritan Hospital. This makes three dead. Engineer Drennan is at St. Vincent's Hospital, in a critical condition. He has not been conscious since the wreck. His wife is at his bedside. Edward Riddle the injured fireman, is at the Good large church in this city. They found Samaritan, with small hope of recov-

The wrecking crew, under the personal supervision of Superintendent Fields, had the track clear of wreckage by 7 o'clock last evening. The through mail from California was delayed nine hours, arriving here at 4:40 this morning. Trains are now running mon schedule time.

"It is given out from an official source that the cause of the wreck lay with the crew of the extra, which evidently entirely overlooked the schedule time of the regular, the latter having the right of way to Green Roschurg, where the two trains were to pass one another.

Engineer S. Hendricks, of the regular freight, will be buried in Rose the train this morning and was taken be a pilgrim." charge of by the father, who works in the Southern Pacific car shops. The funeral of Brakeman Campbell will be beld this afternoon from Holman's un fald to rest in Lone Fir. present, Engineer Drennan, of the extra, whose recovery is doubtfut has a mother and two brothers residing in Portland. Ed. Riddles, the injured fireman of the extra, has a family residing at Riddle's station, who

make the wreck an unusually disast cornea join, which is a vital part of trous one. It occurred upon a curve and in a fog. where neither of the crews could see the other, until the heavy engines driven forward by the weight bebind crashed into each other jured eye. The eye will be taken out at full speed. Evidences of the wreck showed that the impact must have of the physicians that the patient will been something terrific. The big iron machines literally ground each other other wounds without serious results. to pieces. It seems a miracle that the engineer and fireman of the extra escaped instant death. Twisted and broken fron and steel and splintered wood were piled together in an undistinguishable mass. The wrecking crew did lively work to get the track cleared as quickly as it did. Railroad men look upon the wreck

philosophically. Every now and again it happens that even the most careful men who run upon the road will make a similar fatal mistake. Wrecks have been caused sometimes by an engine r who gets ahead of time trying to reach a siding or station ahead of another train from the opposite direction that has the right of way. And then instances are known of engineers. as well as conductors, who are jointly responsible, receiving and reading orders and forgetting all about them. In the present case it is evident the engineer and conductor thought they could reach Roseburg before the regular pulled out from there, or else they entirely overlooked the schedule time of the regular. An official of the road with apthofity to speak thinks it was of study, confident that conservatism the latter reason."

At Bed Time

I take a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor it acts gently on the stdmach, live and kidneys, and is a pleasant laxative. It is made form herbs and is prepared as easily as tea. It is called Lane's Medicine. All druggists sell it at 25c. and 50c. Lane's Family Medicines moves the bowels each day. If you cannot get it, send for a free sample. Address, Orator F. Woodward, Le Roy, N. Y. 5.

PILGRIMS.-There seems to have seen a greater number of street preachers to visit Salem this year than ever before. Just what condition or state of society produces these people is hard to tell, but they are "with us." preaching their varied doctrines with an earnestness that is hard to understand. Yesterday there were two neatly dressed, good looking men on the streets, preaching a peculiar doctrine. If they can demonstrate the practicability of their religion they will no doubt be able to organize a their religion upon a passage in the Bible which reads: "Therefo e take no thought for tomorrow, for the morrow will take thought for the things of itself." This is preached in its literal meaning. The doctrine is further shown by an excerpt from one of the circulars they distribute, which is here reproduced verbatim: "So if sin is the transgression of the law. You had better learn the law of sin and death, and ouit sinning, no man can take usury or increase of his neighbor and be a Christian. All that ever received the Holy Ghost obeyed Christ and sold all their possessions, and no man had station, the next station south of aught that he called his own, so you cannot be above your master, and he had nowhere to lay his head, is not all professors of Christianity, taking just as much thought of this life and burg today. The body of Fireman A. seeking the things of this world just Wilhelm, of the regular, arrived on as much as any one? Learn faith and

YOUNG REFORMERS IN CHINA.

Her Hope Lies in the New Generation.

(I. T. Headland in Ainsler's.) "Some have a tendency to say that the present troubles in China arose out of the missionary question. This is an extremely narrow view, and it indicates that the one who bolds it knows nothing back of what has occorred during the past year. The present troubles are the last efforts of the old Conservatives to preserve the conditions which have existed in China for four thousand years

"I have a number of friends among the young scholars, first, second, third and fourth graduates. They are young men who have studied English, and who have started English schools Their schools have been destroyed by the Conservatives, and for the past two years they have been out of employment. All of them, so far as I know, are still pursuing the same line is a thing of the past, that reform must come and when it does come they will be ready for it. Such men are of the class of Minister Wu Tingfang. Lo Feng-lo and Mr. Yu. Minister to France, who called upon me a few days before be sailed for France, During our conversation I alluded to the attempt be had made to entertain some foreigners on New Year's Day, and to serve them tea, coffee, wine and cakes,

"The Conservatives of the Tsungli Yamen would not allow you to entertain the foreigners on New Year's Day as you wished, I said.

"'No,' he reptied, 'but this thing will not continue. The world is ranidly slipping out from under these old men's feet. There are not any strong men among the young Conservatives. They are simply hangers-on, and when these few old Conservatives die. China can easily be reformed."

The wife of Mr. Yu is a Eurasian woman His two daughters dress in European clothing whe nthey go calling in Peking. They converse freely Japanese, Chinese, French and English, as do also his sons. On one lives went to the Empress Dowager and said to ber:

"Do you know that the man whom von heve had as Minister to Japan. and whom you are about to appoint as Minister to France bas a foreign

"Has he any children? the Downger asked in return. Yes, indeed, he has grown son

and daughters. "Then it is late in the day to report him to me. Why did you not re-

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they fil-ter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheu-

matism come from excess of uric soid in the blood, due to neglected kidney trouble Kidney trouble causes guick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys,

all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases

and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail Home of Swamp-Root. free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

port him before?We cannot separate a man from his wife and family even though she is a 'foreign devil.'

"It could not add much of interest to the readers of this paper to describe in detail the other leaders of the Conservative Party. They are Prince Tuan, Li Ping Heng and Tung Fu-Hsiang. Prince Tuan is the son of the Fifth Prince-that is, the son or the fifth brother of the husband of the Empress Dowager. This husband was never heard of until his son was selected to be the successor to the son of the Empress Dowager instead of Knang Hsu. His greatest virtue is his conservatism, which is a vice. Also his ability as a warrior has been greatover-estimated."

REFLECTIONS OF A BACHELOR

PRINCE MAY BE IMPRISONED Violates Haly's Law in Selling Paint

ing to an American.

The famous painting by Botticelli of the virgin and the child, purchased by P. A. B. Widener some time ago from Prince Chigi in Italy for \$100, 000, seems to be creating much more of a furore in the artistic world than was expected, says a Philadelphia dispatch. Italy has a law probibiting the sale of valuable works of art to foreigners for shipment out of the country, and as a result of his violation of that law Prince Chigi is liable to be compelled to undergo a year's for the offense in Rome

Another subject was painted over the signature, to be washed out after the capyas reached its destination This ruse fooled the customs officers, rendy, the largest creamery in the but when it was discovered Prince Chigi was placed under arrest.

The painting has not yet arrived in this country. Mr. Widener expressed regret and surprise when 'told that Prince Chig! was being tried for the erime of selling the painting to an American.

Sufferers from this herrible malady nearly always inherit it - not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs as for the Oregon capitalist. through several generations. REPUBLICANS PROPOSE TO HAVE A GREAT JUBILEE

Over the Victory Won by Them on Last Tuesday - The Clubs Expected to Take Charge.

(From Dally Statesman Nov. 10.) The Salem Republicans feel that tory of last Tuesday, and to do this day. properly, they ought to invite the Republicans from the surrounding towns the music and speeches, and red fire, It is proposed to have the officers of meetings, or a joint meeting of the wo organizations, probably for Monday evening, then to make arrangereats for the ratty and jubilee, to be eld some time next week.

This call will probably be issued today, and so certain are many of the enthusiasts that the ratification will be a fact, that already arrangements are being made for it. Many people from surrounding towns have signified their intention to be present, and, should the weather be at all propitious an immense crowd will present for the ratification.

THE COUNT OF TURIN'S LATEST EXPLOIT.

One of the most famous of Italy's poblemen is the Count of Turin. . He eas a worldwide reputation as a duelist, having figured in a number of "affairs of honor," from several of which be carried little mementos in the shape of sears. The count has also won some reputation in the field of sports, and he prides himself on his achievements in the realm of the chase. He is a lover of horses, and has a stable containing some animals with good records. The count, however, attracts more attention at home by his daring and unusual exploits han by any other o fhis accomplishpents. He is continually springing ome sort of surprise upon his friends, and the public generally learn of his loings. His latest is to swim one of his horses a long distance from the shore and then urge the trained anineal into a race with his master back to the point of starting. It is said this sport with an intelligence that is almost human

Dr. James Wallace, who has been icting as president of Manchester colege in Minnesota for the past six years, and to whose efforts largely has been due the clearing away of debts which had oppressed the college so long, recently offered to step aside in favor of a younger and more active man, but the Presbyterian synod vnanimously chose him as president of the institution.

Synman-So your automobile came n first, ch?

Wynner-Yes. I ran over that nurse and baby I felt to me: "This is no time for pulling sentiment."-Brooklyn Life.

FOR BIG CREAMERIES.

California Will Have Them, and so Should Oregon, Where Conditions Are More Favorable.

J. A. Yoakam, representing the San Joaquin Ice Company, of Fresno, in prisonment. He is now being tried | Cal., is shipping from Roseburg five carloads of heifer calves. The San Joaquin Ice Company has at Fresno what is destined to be, if it is not alworld, and is engaged in gathering up dairy stock wherever available, to sell to the farmers of that vicinity. A year ago this concern started its

reamery with an output of 70 pounds per day, which has been increased to 3500 pounds, with a prospect of a still further increase to 10,000 pounds per day. Between 2500 and 3000 head of dairy cows have been brought into that district from other sections of the coast.

Here is an object lesson for Oregon. not so much for the Oregon farmer creamery was started there were very few cows in that section, but the difficulty was met by a free importation

of stock from other sections. The farmers there depend almost entirely upon alfalfa, grown by irriga-Every one knows what Calition. fornia, especially in the San Joaquin The thermometer goes up to 115 degrees in the shade, and, as compared with Western Oregon, dairying is carried on under many difficulties. But the California capitalist knows a good thing when he sees it and is not afraid to invest his money. Some progress is being made along dairyng lines in Oregon, but the worst difficulty is in the scarcity of cows, added to the still greater scarcity of ready eash in the hands of the small farm- is yours? ers, who are unable to import from other localities where cows are more plentiful.

ways have money in their pockets, and instances are quoted where the income from a single cow has run up as bigh as \$75 for the past year. The central plant is located at Fresno. and skimming stations are situated at different points in the valley, favor-What is being done at ably located. What is being done at Freson can be duplicated, under more favorable circumstances, here at Portland. It is merely a matter of apital.

Capitalists operating large creamery enterprises like that at Fresno have to build up their business; that is, do not find everything ready for them to

open a creamery and make butter in large volume at once. If the condithen it is a matter of establishing the industry. Usually there is a lack of cows, and to wait for the natural increase is too slow. The farmers se dom have the cash to invest in many new cows. So the capital behind the creamery project can with safety import the stock needed, sell'it to the farmers at reasonable prices and take pay as the milk is delivered to the ereamery. This brings rapid devel-opment and on safe business lines. The Oregon field is deemed to be especially favorable for this plan of dal-
