Office in the City.

The Raid Occurred at the Western Lumber Company's Office Just Before Employees Were Paid.

PORTLAND, Dec. 5.-Six masked men, heavily armed, held up the office of the Western Lumber Company, this evening, secured \$5000, and made their scape in the darkness. The robbery occurred at 6 o'clock, when dozens of men were in the vicinity of the mill, which is located at Front and Seventh streets. Four men guarded the two currances to the office, while the other wo entered with drawn revolvers and ordered the four clerks to hold up heir hands. The money was in gold and silver, was enclosed in envelopes ready to be paid out to the mill hands, this being the regular weekly pay day. One robber, with a revolver in each hand, kept the clerks covered, while the other quickly threw the money packages into a sack. The two then backed out of the office, locked the doors, and the entire gang escaped before it was possible to give an alarm. The police station was immediately notified and a number of officers detailed on the case.

James Lane, one of the runaways, is totally blind, and has an aversion to attending any school. He was raised on a stock ranch in Eastern Oregon. and moved to Linn county a few years ago. He attended the school last year and was bright in his studies, but did not want to remain away from home, and it was found necessary, by his parents, to pay him for remaining in school. This year he refused to come to the school until paid for doing so, and not then until he had been notified by the State Board of Education that he must be in the school by November 15th, if he desired entering at all. He arrived on November 15th, but has repeatedly shown that he wished to return home, and as he had some money, was enabled to leave. He once threatened to run away if a certain teacher, new at the school, should be discharged.

His companion, Robert Riggs, is the on of poor parents; he is not entirely blind, having some vision. He was considered a quiet boy, and it is hought Lane persuaded him to run

THE RURAL MAIL DELIVERY

Both of them have petitions, as it was unusual to establish the free delivery system at inland postoffices away from the railroads. He yesterday received a telegraphic order to treat these two offices in all respects as though they were locatedon the tailroad, and to establish the free delivery system, if, in his judgment, it was required. This is an extension of the system on the part of the Government and indicates the purpose of the Postoffice Department to extend the Rural Mail delivery system to all parts of the country.

Mr. Ormsby thinks he will be able to have the carriers begin their work on January 1st, if the routes are established, and that regular daily trips will be made out of Salem after Department takes favorable action.
