ONE MONTH'S RECORD IN THE COUNTY CLERK'S OFFICE.

Hall During December.

(From Thursday's Statesman.) Thirty marriage licenses were issued by County Clerk W.W. Hall during the month of December, seven of which were issued the day before New Year's day, and five on the day before Christmag. Whether the demand upon those particular days was due to any extraordinary climatic conditions or whether it was the natural inclination on the part of the contracting partles to observe these two important holidays, was not clear to the county clerk, but, be that as it may, so anxious was he to break the record on December 31st, that in his desperation he even went so far as to offer one of his brother county officials a marriage license free, if that gentleman would accept and make use of it. The licenses issued during the month follow:

FUNERAL OF

LAID TO REST BY THE SIDE OF HER LATE HUSBAND IN LEE MISSION CEMETERY.

She Comes from an Historic Family, and Has Been a Resident of the Pacific Northwest for Over a Half Century-Worked with the Early Missionaries of the Methodist Church in Oregon.

(From Thursday's Statesman.) The funeral service of the late Mrs. Hannah W. Roberts was held vesterday the First Methodist Episcopal church. It was conducted by the pastor of the church, Rev. John Parsons, D. D., assisted by Rev. D. A. Watters, the Presiding Elder, Rev. Wm. Roberts Winnas, the Sunday school missionary, who was named for the late Dr. Roberts, was one of the pall bearers. The following memorial sketch of

To all our friends and patrons we wish HAPPY NEW YEAR

We wish to thank all for the generous patronage given us during the past year, generous beyond expectation. The relations between our patrons and ourselves have been mutually satisfactory, and we hope they will continue to be so.

With the closing of the old year and the beginning of the new, we hope that friendships will not close, but will remain as warm as in the past, and we invite all to visit our store in the new year as during the past.

lative, and in the midst of polite soclety. "At the age of 15 she was converted and joined the Methodist Episcopal church. She was married to the late Rev. Wm. Roberts, D. D., April 12, 1836. He was a prominent young minister at that time in the city of Philadelphia, and in his appointments he ranked with the Rev, George Cookman, D. D. one of the most eloquent ministers of the Methodist church in that day. But after thirteen years of active work in the ministry he was selected by the Bishops of the M. E. church for the office of superintendent

of the Oregon Mission. "The mission was planted by Jason Lee in 1834, just thirteen years before

Wm. Roberts arrived in Oregon.' They sailed from New York November 27 1846, and they arrived in Portland June 28, 1847, being seven months on the sea. Besides Dr. and Mrs. Roberts the mission party consisted of Rev. Jas. H and Mrs. Wilbur and hree children, two belonging to Mr. and Mrs. Roberts, and one to the Wilburs.

The question is still occasionally asked if these plows will scour in any kind of soil. Our best answer is torefer you to the men who are using them. Among recent purchasers are. Mr. Jos. Darrar, who has a single discin use out south on the Ankeny bot-He has a considerable "white tom/ land" which makes the hardest pulling of any we have struck yet, unless it be the Muck Land. Mr. Darrar intends using three horses on the single disc and will cut 12 inches of soil, 8 inches deep-with much less effort than the same team will draw a 14inch chilled plow, which, as we all know, turns but 12 inches. Then too, as Mr. Darrar says, the ground is turned deeper, and left in much better condition, and boaddes he can get onto the fields in the fall immediately after the harvest, no matter how hard the ground and do good work, without waiting for the rains.

Mr. Clarence Simeral, near Macleay. is using a two disc in the hills and fern roots. He is more than pleased ; with the work the plow if doing there. It makes a complete cut roots and all, leaving no part of the furrow to "break"-and by means of the specially shaped mold-board turns the sbil completely under. Rocks, too, Mr. Simeral says, make no difference, the plow simply pushing them aside, if small, or raising over and going on, if large. We have yet to hear of a cracked or broken disc. Mr. Simeral has had to spend a considerable portion of his "plow days" talking to his inquiring neighbors, who are all interested in seeing how the plow works in the hills. There have been a number of other plows purchased, too-out in the hills, and across in Polk county. In fact, our sales have gone much beyond our best anticipations, and farmers from far and near are becoming interested. The plow sells itself: Every man who has bought has done so only after seeing the work in his own or his neighbor's field.
