ESCAPED FROM THE ASYLUM

Oliver Marshall, a Life Timer from the Penitentiary

WHO WAS SENT TO THE HOSPITAL FOR THE INSANE, ELUDING HIS GUARDS

And Made Good His Escape—He Was Convicted of Murder, in Baker County, in 1898, and Was Transferred from the Prison to the Asylum in December, 1899.

(From Sunday's Statesman.)
Early last evening Oliver Marshall, a patient at the Insane Asylum, managed to escape from that institution, and at an early hour this morning no trace of him could be found, though a search was made. Marshall is believed to have made a key by means of which he managed to let himself out of the ward (ward No. 9), and the building, locking

School Libraries

Just at this time we are kept very busy making out lists and filling orders for the various school district libraries. If your district is contemplating buying new books for the library we shall be pleased to furnish you lists and prices.

The W. H. Burghardt Co.
Booksellers and Stationers
223 Commercial Street

the doors behind him. His absence was discovered within 10 or 15 minutes of his disappearance and a search was at once instituted, but no trace could be found of the missing man.

Marshall was brought to the Asylum from the Penitentiary on December 29, 1899, and has been there since then. He has always been watched closely by the authorities. Once, some months ago, he was found in possession of a partially made aluminum key, and the belief that he made a key this time with which to let himself out of the Asylum, is based upon that fact.

Marshall killed James Reid, near Baker City in 1898, and was sentenced to the Penitentiary for life, having been convicted of murder in the second degree. He has probably simulated insanity with a view to escaping from the Penitentiary.

CANDY CATHARTIC
Cascarets
BEST FOR THE BOWELS
Genuine stamped C. C. C. Never sold in bulk.
Beware of the dealer who tries to sell "something just as good."

LIGHTS REPLACED.—The State Reform School is once more supplied with electric lights. The engine which was badly damaged by the recent fire at that institution has been placed in good repair and the dynamo which was damaged beyond repair has been replaced by a new one. The walls of the industrial building have been roofed over with corrugated iron roofing, and last night, for the first time since the institution was left in the dark, the buildings were brilliantly illuminated with about 200 incandescent electric lights. All of the work shops, located in the industrial building at the time of the fire have been roofed over and equipped and are in as good working order as though the fire had never occurred.

Try Grain-O Try Grain-O.
Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. Grain-O has that rich, real brown of Mocha, or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. At the price of coffee, 15 cts. and 25 cts. per package.

ABUSIVE LANGUAGE.—A. H. Damon, an expressionist of this city, was yesterday arrested on a warrant issued out of City Recorder N. J. Judah's court, upon complaint of F. L. Whiteman, and charged with having used profane and abusive language upon the street and in the presence of ladies. He was brought up before Recorder Judah yesterday afternoon, and his hearing set for 10 o'clock this morning. He was released to appear in court at the hour named, upon his own recognizance.

Mrs. Emma D. Thompson, of Eugene, is visiting with friends in this city.

THE CIRCUIT COURT

NEW PARTITION SUIT FILED IN DEPARTMENT NO. 2.

By Mary A. Sweet, Against Allie G. Farnham and Others—This is the Second Action Brought by the Same Party.

A new complaint was filed in department No. 2 of the Circuit Court yesterday. In the partition suit entitled, Mary A. Sweet, plaintiff, vs. Allie G. Farnham, et al., defendants. This cause was instituted in the same department of the Circuit Court during the month of September 1901, and was brought for the purpose of partitioning a certain 267-acre tract of land, situated in the Joseph Davis donation land claim in township 9 south, range 2 west, valued at \$20 per acre, and owned jointly by the plaintiff and the defendants. It came on for hearing in the above court on Thursday of last week and a decree was entered dissolving the complaint upon a technicality.

Now the plaintiff brings a new action seeking to ascertain the respective rights and interests of the plaintiff and the defendants in the said premises and for the appointment of three disinterested persons as commissioners to examine and report, under the directions of the court, whether the lands can be partitioned without loss or damage, and if so, then to partition same, but if otherwise, then to sell the same and divide the proceeds among the parties in proportion to their respective rights. Plaintiff also seeks to establish an advancement of \$2000 that was made in 1876 to E. R. Osterhout, one of the heirs inheriting this property; asks for the correction of certain deeds of conveyance pertaining to said property, and to recover her costs and disbursements. F. A. Turner is the attorney for the plaintiff.

Sarah Wood, et al., defendants in the action to quiet title to a 140-acre tract of land in the John D. Wood and wife donation land claim No. 57, in township 9 south, range 2 west, which was filed in department No. 2 of the State Circuit Court and wherein Edward Fry was the plaintiff, yesterday filed a demurrer to the plaintiff's complaint for the reasons that several causes have been improperly united; that the complaint does not state facts sufficient to constitute a cause of suit, and that the action has not been commenced within the time limited by the code. Maxwell & Hayden are the attorneys for the defendants.

SOUTH DAKOTA PEOPLE WANT INFORMATION

Regarding Crops Other Matters in This State—A Letter from a Land Company Desirous of Dealing in Oregon Lands.

Appended hereto is a letter from a South Dakota firm. The letter head states that Johnson Bros. & Co have a paid up capital of \$100,000, and that they are dealers in Western lands and mortgages. They are located at Armour, South Dakota. The president is E. S. Johnson, cashier of the Citizens' State Bank. The vice president is F. H. Johnson, of Johnson Bros. bankers, Geddes, S. D. The secretary is H. W. Johnson, president of the Citizens' State Bank.

They will be furnished with a copy of the New Year edition of the Statesman and other printed information. If any of the readers of the Statesman are sufficiently interested to furnish them additional information, or to further answer their questions, it would be a good idea to do it. Following is the text of the letter:

"Will you please furnish us information as to the value of good lands in your state and also state whether or not you are in a sure crop country. We would like general printed information in relation to Oregon with a view to coming there to look the country over. What do the railroads do in the way of homeseekers rates or free transportation to those wishing to investigate the state with a view to engaging in the general immigration business? We have 100 acres of Blount half-breed script, and would like to know what its value is in your state. "Thanking you in advance for full information relative to the country, we are, yours truly."

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

OFFICERS INSTALLED BY TWO LODGES

Valley No. 18, A. O. U. W., and Viola Degree of Honor No. 88, Ready for the Year's Work—Interesting Ceremonies Last Night.

Valley Lodge No. 18, A. O. U. W., and Viola Lodge No. 88, Degree of Honor, held a joint installation of officers in their lodge rooms in the Holman block last night, and a large representation of both lodges was in attendance, besides a number of invited guests, to witness the beautiful and impressive ceremonies. Past Grand Master S. A. McFadden and Mrs. Susie Parmenter were the installing officers for the respective lodges, and both of them deserve worthy mention for the dignified manner in which they conducted the ceremonies, and especially Mrs. Parmenter, who is also the district deputy grand chief of honor. The degree staff, consisting of eight ladies beautifully costumed in lodge regalia and carrying long staves decorated with the colors of the order in long streamers of ribbon,

assisted in installing the officers for both lodges. At the conclusion of the ceremonies all present repaired to the banquet room on the floor below, where refreshments were served, which concluded the evening's entertainment. The officers are installed for both lodges follow:

Valley Lodge No. 18, A. O. U. W.—W. L. Bennett, past master; E. G. Marsh, master workman; G. A. Shultz, foreman; Ira Hamilton, overseer; Fred Anderson, guide; E. S. Seeley, recorder; G. P. Litchfield, financier; H. H. Holland, receiver; H. H. Banty, inside guard, and Wm. Iowan, outside guard. Viola Lodge No. 88, D. of H.—Mrs. Nellie White, past chief of honor; Mrs. Belle Hamilton, chief of honor; Mrs. Mary R. Davis, lady of honor; Mrs. Sarah Donaldson, chief of ceremonies; Miss Louisa Wolff, usher; Mrs. Edith Darr, financier; Mrs. Florence Ristine, receiver; Mrs. Viola Mason, recorder; Mrs. Amanda Anderson, inner watch, and Mrs. Ivetta Smith, outside watch.

DEEDS ARE RECORDED.

One United States land certificate, conveying to James S. Lewis, 158 acres of land in township 10 south, range 6 east, was yesterday filed in the Marion county recorder's department, as were also four deeds to other Marion county property, the consideration of the latter aggregating \$1102, and one chattel mortgage for \$45 and a satisfaction of mortgage for \$300. The deeds follow: Ralph Richards to W. W. Percival, 25 acres of land in sections 27 and 34, t. 8 s., r. 4 w., w. d. s. 1000. Christina M. Soesbe to M. S. Norton and wife, lots 1 and 2, block 2, in Cooks addition to the town of Marion, w. d. s. 100. O. A. Waller and wife to C. H. Hall, a small tract of land in Van Dunes addition to Salem, c. c. d. s. 1. C. E. Holt and wife to W. A. A. Piles, 54 acres of land in Thos. Holt and wife d. l. c. No. 62, t. 10 s., r. 3 w., w. d. s. 1. Total... \$ 1102

RETURNING HOME.—Prof. J. H. Ackerman was at Baker City yesterday and is at La Grande today, visiting the public schools. He expects to return home tomorrow night, and will be accompanied by Mrs. Ackerman, who has spent the past two weeks at the bedside of her sick daughter, at Joseph, Oregon, who is now nearly recovered.

A Cure for Lumbago.

W. C. Williamson, of Amherst, Va., says: "For more than a year I suffered from lumbago. I finally tried Chamberlain's Pain Balm and it gave me entire relief, which all other remedies had failed to do." Sold at STONE'S drug stores.

TO THE PRISON.—Sam Peterson, convicted of an attempt to burglarize a store, and sentenced to a term of two and one-half years, and Homer Morelock, convicted of larceny from a building and sentenced to serve one and a half years were brought to the Penitentiary yesterday from Jackson County, Jackson County, by Sheriff Alex Orme and one guard, James Cronmiller. The former prisoner, Peterson, had just completed a term of two years in the Penitentiary only twenty-two days before he committed the last offense.

She Don't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as with all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Bruises. Price 25 cts. at DR. STONE'S drug stores.

MANY NEW COMERS.—The immigrant excursions will start the middle of next month, and there will be a great many new people in Oregon. Some of them will be pleased to find, in Salem such a complete grocery stock as is always kept at the popular grocery store of Branson & Ragan.

For Legal blanks—Statesman Job office.

AT UNIVERSITY.—The Willamette University Colleges of Music and Oratory gave their regular monthly recital in the University chapel last evening, which was attended by a large audience. An excellent program, consisting of thirteen parts, and composed of readings, songs, piano and violin numbers, was rendered and thoroughly appreciated by the audience.

A Deep Mystery.
It is a mystery why women endure Backache, Rheumatism, Nervousness, Sleeplessness, Melancholy, Fainting and dizzy Spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffer from years with kidney trouble," writes Mrs. Phoebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although years old, I now am able to do all my household work." It overcomes Constipation, improves Appetite, gives perfect health. Only 50 cents at DR. STONE'S drug stores.

THE CULTURE OF ONIONS.

The following taken from a bulletin of the Texas Agricultural Experiment Station, covers the main points regarding the culture of onions:

Seeding.—The amount of seed required to plant an acre of onions varies according to the method of planting. It is important that the amount of seed the area of the seed bed and the size of the field to be planted should be rightly proportioned in order that economy of production may be insured. Horse culture, seed planted in the field, rows 30x44 inches, requires 1½ pounds per acre; hand culture, seed planted in bed, rows 14x44 inches, requires 2 pounds per acre. A saving of 33 per cent in amount of seed required per acre is made by planting seeds in beds and transplanting to the field—requiring in the first instance one pound and in the latter two pounds per acre.

About 500 square feet of bed surface is required for each pound of seed. This space can, by careful handling, be reduced to 400 square feet. Therefore, for an acre of transplanted onions to be cultivated in 30x44 inch rows, 500 feet of bed surface will answer, the purpose of each acre, and 1000 square feet for onions transplanted in rows 14x44 inches.

Several reasons may be given why less seed is required when planted in beds. 1. The soil in the bed is more easily prepared, and moisture conditions are directly under the control of the grower, which is not the case in the field. Consequently a larger per-

cent of the seed germinate into healthy plants. 2. Transplanting from beds, each plant is placed where it belongs, in field plantings thinning is resorted to, which necessitates a loss of many good plants.

The above conditions existing as to the two methods effect a saving of 33-4 per cent in amount of seed required in favor of planting seed in beds.

Seed Beds, Planting and Cultivation.—A piece of rich sandy loam free from weed seeds and convenient to water should be selected for seed beds. Seed may be sown in drills three or four inches apart, or broadcasted. In either case they should be covered with soil only one-half inch deep. If the weather is warm and dry the beds should be sprinkled twice a day until the seed germinate, which is usually about nine days. If moss or other similar material can be had it will be found of value to be used as a mulch on the seed beds until the plants are about ready to come through the ground. It should then be removed. The use of mulch will reduce the number of waterings required and insure a larger percentage of germination. The seed beds should be kept free from weeds and the plants in a thrifty condition until they are about six inches high. They should then be transplanted to the field. Before transplanting the roots may be dipped in a solution of arsenic, this operation renders them more easily handled in the field while transplanting. If the soil to which they are to be transplanted is in proper condition no trowel or dibble need be used, the onion being pressed into the ground by the forefinger. Cultivation should be shallow but frequent, never allowing the weeds to start. In cultivating care should be taken not to work the soil to the onions or to kill them. However, it is not necessary to remove the soil from the bulbs, as is frequently recommended.

Gathering and Shipping.—Onions should not be gathered until they are fully matured, otherwise they will not keep. As they near maturity the tops break and lay down. After pulling they should remain in the fields a few days until dry, and then the tops and roots should be trimmed off. They are then ready to be sacked and marketed, or removed to a suitable place and stored and held until marketed.

FERNERIES.

In almost every section the farmer can get the best of materials, without money and without price, for building many of the special features that lend so much character to the farm yard. Those who live close to the mountains or foothills can get every material needed for the construction of an artistic fernery, ferns, leaf-mold, rocks, and now is the time to build them; now is the time for gathering fern roots. Select a corner on the shady side of the house—anywhere from northeast to northwest. Lay out the shape of your rockery on the ground, using your largest rocks. Don't have it round, square, triangular, or any of the conventional shapes which first suggest themselves. Lay out the plan as irregular as you can; have the base the shape of the base of a mountain, full of little canyons, recesses, prominent points, etc.

Have the stones touch each other, and put your fern roots back of where two stones come together. Then fill up the inside to the level of the rocks with a soil of which one-third should be leaf-mold. If your locality will furnish decomposed granite, add a liberal portion to the soil. Now place your next tier of rocks, allowing them to rest back on the soil somewhat, but not too much or your rockery will draw in too fast and be too flat when finished. Repeat this laying of stones, soil and fern roots until your work comes to a head.

A DECIDED CHANGE.

C. D. Lyon, of Southern Ohio, in a letter to Colman's Rural World, has the following paragraph under the head "Comparing Costs":

"When we began to keep house 23 years ago next March, I paid \$1.25 for a 'Douglass' ax, \$5 for 50 pounds of New Orleans sugar, 8 cents per pound for nails, etc. Last week I bought a better ax for 75 cents, got granulated sugar for 5½ cents, and nails for 4 cents per pound. Then I paid \$4 for a pair of cowhide boots, and \$5 for a pair of Arctic overboots; last week I got a pair of good calfskin boots for \$3 and better articles than those of 1878 for \$1.25. I paid \$32 for my wedding suit, and can get a better one now for \$20, and so on through a long list. We might note a few more prices: Hillside plow, 1878, \$18, now \$12; breaking plow, 1877, \$17, now \$11; double shovel, 1876, \$7, now \$2.50; mower, 1875, \$75, now \$35 to \$40. In 1884 my grandfather paid \$165 for a one-wheel mower, and in 1887 my neighbor paid \$210 for a binder! Now one can get any standard make of binder for \$125. I paid \$2.50 for a pair of jeans trousers in 1878, and now I can buy the same brand for 75 cents. Back in the '60s father paid 50 cents a gallon for coal oil, 50 cents per pound for coffee, a dollar for a pound of gun powder and 25 cents for a box of percussion caps; 200 sulphur matches cost a dime, and soda was 25 cents a pound. Now the matches come 200 for one cent, caps 5 cents a box, soda 4 cents a pound and coal oil 10 cents per gallon. When I was a boy my sister got me to get her some paraffin wax; it cost 25 cents an ounce, and now one gets a piece as big as a brick for the same money. In the '60s mother rode a horse to town and carried the marketing in a basket; now we go in a buggy and we are rather careful to have it and the harness looking bright and shiny. But I am not sure that we would care to go back to the old days."

Hon. W. H. Hobson, of Stayton, was a Salem business visitor yesterday.

MARRIED.

JONES-IVERSON. In Salem, Oregon, Saturday, January 11, 1902, at 3 o'clock p. m., Miss Carrie Iverson to Mr. Edward Jones, both of Brooks, Justice J. O'Donald officiating.

Money to Loan

On improved farm and city property, at lowest rates.

THOMAS K. FORD.
Over Ladd & Bush's Bank.
Salem, Oregon.

Hon. L. J. Adams, of Silverton, was a Salem business visitor yesterday.

S. C. STONE, M. D. Proprietor of STONE'S DRUG STORES

SALEM, OREGON.
The stores (two in number), are located at No. 235 and 333 Commercial street, and are well stocked with a complete line of drugs and medicines, toilet articles, perfumery, brushes, etc., etc.

DR. STONE
Has had some 25 years' experience in the practice of medicine and now makes no charge for consultation, examination or prescription.
He deals in cash business. He neither buys on time nor sells on time. Ledger, journals, day-books, bookkeepers, bill collectors, and all the modern paraphernalia of credit drug stores, are unknown in his business, hence a full stock and correct prices.

LATE REPORTS OF THE MARKETS OF THE WORLD.

Received by the Statesman Daily from Bolton De Ruyter & Co., of Portland—Fluctuations in the Exchange of Europe and America.

Logan & Bryan's Chicago grain letter and latest market quotations to Bolton De Ruyter & Co., of Portland, sent by telegraph from Chicago, at the close of the market yesterday afternoon, says:

Wheat—Liverpool, 3/6 1/2 lower; Paris, 5/6 1/2 higher; Antwerp unchanged. The visible supply decreased \$52,000, against 600,000 last year and is now 58,000,000 against 61,000,000. World's shipments were 7,300,000, and amount on passage increased 1,352,000. Market opened firm on small decline in Liverpool, but has since turned weak. The selling has been general. The local bear contingent is quite influential and the volume of outside buying seems to have spent its force and the decline is bringing liquidation of long stuff. There is no rain yet in the winter wheat section, but that influence also seems to have a force. There is a moderate export business reported at the decline. A large and unanimous country buying has been the strong feature of the market for several weeks past. A material modification of this is therefore a bearish feature and this seems to be taking place. Outside holdings are large and scattered and the local speculative situation to that extent is not encouraging. We look for an active scalping market with the probable tendency of prices lower.

Corn—Liverpool, 3/6 1/2 higher. The visible increase is \$2,000, against a decrease of 212,000, and is now 11,000,000 against 10,900,000. Considering weakness in wheat, the tone of the corn market is strong. The property is mainly held by outside speculative owners, and liquidation to any extent has not so far appeared. Receipts are fairly liberal, and cash demand poor, but holders do not seem disturbed either by the high prices or poor demand. We are inclined to think profits should be taken on long corn.

Oats—About the same as Saturday's close. Market quiet and steady. The holdings of oats are more concentrated than corn and in hands of strong local people. Cash situation is unimproved, the demand being poor. There was an active trade in July oats and the price is sufficiently active to induce considerable short selling.

Provisions—Market is a shade easier. There is rather more outside liquidation of provisions, but on the weak spots the buying seemed for local account fairly good. Cash demand slow.

CHICAGO MARKETS.

These quotations are furnished by Bolton De Ruyter & Co., S. 9 Chamber of Commerce, Portland, members Chicago Board of Trade:
