

PROTEST IS FILED

HON. JOHN MINTO URGES DELEGATION IN CONGRESS

To Secure a Change in the Plans of the Interior Department, Which Contemplate Sending Eastern Students Here to Act as Forest Rangers in the Cascade Reserve.

(From Wednesday's Statesman.)

The matter of a change of policy regarding the manner of guarding the Oregon forest reserves, by displacing the forest rangers heretofore employed for that purpose by a lot of eastern students, has attracted considerable attention, since Secretary of the Interior Hitchcock made the announcement of this plan, and there is widespread criticism of the course outlined by the Interior Department. Petitions are now in circulation, and are being freely signed, to be forwarded to the Oregon delegation in Congress, urging action that will prevent the proposed change, and leave the trained Oregon rangers at the duties which they now thoroughly understand, and which they have so faithfully performed during the past three years. Among those taking an active interest in the matter is Hon. John Minto, one of Oregon's most prominent pioneers, and he has addressed a letter to United States Senator John H. Mitchell on the subject, urging immediate action. Mr. Minto, in his letter, says:

"Information is received here that the Interior Department contemplates changes in the personnel of the superintendency and wardenship of forest reserves within this state. The undersigned feels safe in assuring you, and through you, your associate Senator Hon. Joseph Simon, and Representatives T. H. Tongue and M. A. Moody, that the people of Oregon—at first strongly opposed to the withdrawal of the very large and immensely valuable lands from private ownership and consequently contributing to the support of local government—have since become reconciled to the policy and the means used to guard the wealth of growing timber against fires. They feel extremely doubtful whether any similar number of men could have been in what was to them new duties in 1898.

"It is felt here that the changes contemplated of displacing Oregon men from acting as police guards of the growing timber wealth of their own state is an attack upon, and well calculated to wound a just pride in the state, which their fathers, by patriotic action (which has no parallel in history) redeemed from the occupancy and use of British trade power and held and made an integral state of the Union.

"It is hoped, therefore, that yourself and associate representatives of this state's interests in Congress, will join in an appeal to the Secretary of the Interior (and to the President if need be) against any change throwing out Oregonians as a body employed in the guardianship of these reserves."

MARRIAGES UNDER THE COMMON LAW

Under the act of the last New York legislature, what are called "common law marriages" will not be legal in the Empire state after Jan. 1, 1932, unless they are registered by both parties in the county clerk's office. New York common law marriages have been almost as great a scandal as Dakota divorces, by reason of misconception of the principle by the public, and often by jurors in divorce and inheritance suits. This misconception has been aided by a lot of "problem" novels and plays, both American and English. Many people take their law from Charles Reade, as they take their history from Scott and Shakespeare and their theology from Milton.

The idea that two persons can be forced to assume all the duties and obligations of marriage in Scotland or New York, because they have assumed that relation in registering at hotels or introducing each other, is quite common. There is ample record in court calendars as well as in romantic novels of endeavor by one party to meretricious adventure to make permanent relation assumed by the other for the pleasure of the moment. This is usually done in order to establish a basis for claim upon an estate, either before or after the death of the owner. We don't know much about the Scotch law, but it has never been the purpose of the New York courts to add this kind of mercenary speculation upon passion. The legal union without civil or religious ceremony, recognized by the common law of New York, must be a definite contract, freely and knowingly entered into by both parties.

The essence of the principle is that marriage is a mere contract, to which no special civil or religious forms are needed. The contract can be made by two parties in any way they choose. If it is really made, the courts will hold them both to it. It is not considered a compact of marriage when two persons pretend that the relation exists in order to cover their violation of civil and moral law. One partner to the pretense and crime cannot impose marriage on the other without his will or knowledge. The perplexing cases that have arisen in the courts, like those in the plays and novels, have generally turned on the difficulty of proving a legal contract or intent to make it. The purpose of the new law, requiring that all contract marriages should be registered in the office of the county clerk, is to remove the responsibility of this doubt in all cases.

PREDICTING WEATHER—LOTS OF GUESS WORK ABOUT IT

In a recent magazine article, Willis Moore, chief of the United States weather bureau, gives an account of the work of the bureau, and says, among other things:

"I would especially caution the public against the imposture of charlatans and astrologists, who simply prey upon the credulity of the people. I believe it to be impossible for anyone to make a forecast based upon any principles of physics or upon any empirical rule in meteorology for weeks and months in advance. The weather bureau takes the public into confidence in this mat-

ter and does not claim to be able to do any more than it is possible to accomplish."

"It is to be regretted that the American press, the ablest and most historically honest of any in the world, does in many cases not only print the twaddle of long range weather forecasting frauds but actually pays for the privilege. A large number of our rural press is imposed upon by these forecasts and in publishing them become the disseminators of gross error instead of enlightenment."

The Minneapolis Journal uses this as a text for a little sermon to the people who are guilty of promoting fraud in the shape of weather "predictions" by fakirs who pretend to be able to forecast the weather months in advance. The article is eminently correct, but it will probably do little good, for so long as there are people willing to be fooled, and to pay for the privilege, other people will be found ready to fool them.

A HAPPY MARRIAGE SOLEMNIZED AT BROOKS

Mr. G. A. Moisan and Miss Bessie Stevens United for Life—Both Are Well Known Residents of the French Prairie Neighborhood.

A very happy marriage was solemnized at the rectory of the Catholic church in Brooks yesterday when Rev. P. A. Olivetti, of Salem, united in wedlock Miss Bessie Stevens and Mr. G. A. Moisan, both well known and popular young people of the French Prairie neighborhood.

The bride is a daughter of that respected old pioneer, Ben Stevens, of Gervais, and the groom is a son of Mr. and Mrs. F. X. Moisan, of Brooks. Both are natives of French Prairie and have grown up as neighbors. Mr. Moisan has been for some years and is now employed in the warehouse business with Hon. McKinley Mitchell at Gervais, and himself and bride will make their home there.

The marriage ceremony took place at 10 o'clock a. m., after which the wedding party consisting of relations of the bride and groom, proceeded to the parental home of the latter, where a sumptuous wedding repast was enjoyed and the young couple received the hearty congratulations and good wishes of all the friends for a happy and prosperous life journey.

GLASS HOUSES TO BE BUILT FOR CONSUMPTIVES

Dr. John V. Shoemaker, president of the Municipal Department of Charities and Correction and a member of the faculty of the Medico-Chirurgical college, Philadelphia, has secured from the city council an appropriation of \$80,000 with which he expects to build eight one-story glass houses on a seven-acre tract of land adjoining the almshouse, where consumptive patients will live in an atmosphere of ozone generated by powerful electric appliances similar to the rarified air of high mountains.

In the almshouse are more than 500 persons in various stages of consumption.

The framework of the pavilion will be constructed of steel and the walls and roof will be of glass. Each pavilion will be equipped with the latest devices for maintaining a regular temperature. Ventilation of the glass houses will be an easy problem; the glass walls and roof being high in sections and of pivoted construction, so they may be opened or closed at will.

"The classification of the 500 or more patients is of prime importance," said Dr. Shoemaker. "They will be divided among the eight pavilions according to the stage of the disease. In one will be those in the most advanced stage and the others will be graded down in exact accord with their condition."

"Practical isolation will be effected by the system of ventilation and the constant generation of ozone in the pavilions."

"There will be static electric batteries in all the pavilions, and there will be supplied by wires running from a central station on the grounds. The machines reinvigorate the air and destroy the germs of tuberculosis, with which it is constantly infected by the patients. They generate ozone rapidly and this has a stimulating effect on the patients."

"The idea that two persons can be forced to assume all the duties and obligations of marriage in Scotland or New York, because they have assumed that relation in registering at hotels or introducing each other, is quite common. There is ample record in court calendars as well as in romantic novels of endeavor by one party to meretricious adventure to make permanent relation assumed by the other for the pleasure of the moment. This is usually done in order to establish a basis for claim upon an estate, either before or after the death of the owner. We don't know much about the Scotch law, but it has never been the purpose of the New York courts to add this kind of mercenary speculation upon passion. The legal union without civil or religious ceremony, recognized by the common law of New York, must be a definite contract, freely and knowingly entered into by both parties."

"The essence of the principle is that marriage is a mere contract, to which no special civil or religious forms are needed. The contract can be made by two parties in any way they choose. If it is really made, the courts will hold them both to it. It is not considered a compact of marriage when two persons pretend that the relation exists in order to cover their violation of civil and moral law. One partner to the pretense and crime cannot impose marriage on the other without his will or knowledge. The perplexing cases that have arisen in the courts, like those in the plays and novels, have generally turned on the difficulty of proving a legal contract or intent to make it. The purpose of the new law, requiring that all contract marriages should be registered in the office of the county clerk, is to remove the responsibility of this doubt in all cases."

"The essence of the principle is that marriage is a mere contract, to which no special civil or religious forms are needed. The contract can be made by two parties in any way they choose. If it is really made, the courts will hold them both to it. It is not considered a compact of marriage when two persons pretend that the relation exists in order to cover their violation of civil and moral law. The purpose of the new law, requiring that all contract marriages should be registered in the office of the county clerk, is to remove the responsibility of this doubt in all cases."

AFTER JIM LUCAS.—Achilles Hedrick, the state's agent to secure the return of James Lucas, the absconding contractor from the Indian School at Chemawa, left yesterday for Seattle with a requisition on Governor McBride for Lucas' return. It is said that Contractor W. D. Pugh accompanied him. Many express doubt as to Lucas' return.

PRINCE HENRY'S VISIT.

He Will Be the Guest of Chicago and St. Louis During His Tour

WASHINGTON, Jan. 22.—It has practically been settled that Prince Henry of Germany, will visit Chicago, St. Louis, Cincinnati, Indianapolis, Milwaukee and Boston.

SHE STRUCK A SNAG

THE RIVER STEAMER LEONA HAD A NARROW ESCAPE

From Sinking in the Willamette River Above Corvallis—She Was Beached to Save Her from Going Down.

(From Thursday's Statesman.)

The river steamer Leona, which has been plying between this city and upper river points during the past month engaged in transporting wheat, ran into a snag about seven miles up the river from Corvallis, Tuesday evening, and Captain J. N. Graham ran her onto a bar and beached her in order to save her from sinking. She was on her way down to Corvallis from Peoria, with 1000 sacks of wheat and had she sunk where she was snagged the cargo would have been damaged considerably but, on account of Captain Graham's presence of mind and quick action in grounding her, there was only about one foot of water in the hold and the only damage received was the hole in the bottom of the hull. The steamer Pomona went up from Corvallis yesterday morning and relieved her of the cargo and it was then only a matter of a very few hours until the water was pumped out; the rent patched, and the boat off from the bar, when she proceeded to Corvallis.

The Pomona came down on her regular run yesterday afternoon, leaving Corvallis at 1 o'clock p. m. and arrived in this city at 5:30 o'clock p. m., but as the fog was becoming so dense she tied up here and remained overnight. The Mody came up from Portland yesterday afternoon and was also fog bound at this port, and this morning the two boats will exchange cargo and the Pomona will leave at 10 o'clock for Corvallis and the Mody, as soon as possible thereafter, for Portland, therefore there will be no boat up from Portland today or down from Corvallis.

The stage of the river is getting so low, now registering 3.8 feet above low water mark, that navigation is being carried on with extreme caution. As the Leona was not materially damaged as the result of her contact with the snag she will continue in the wheat carrying service.

SICK MADE WELL WEAK MADE STRONG.

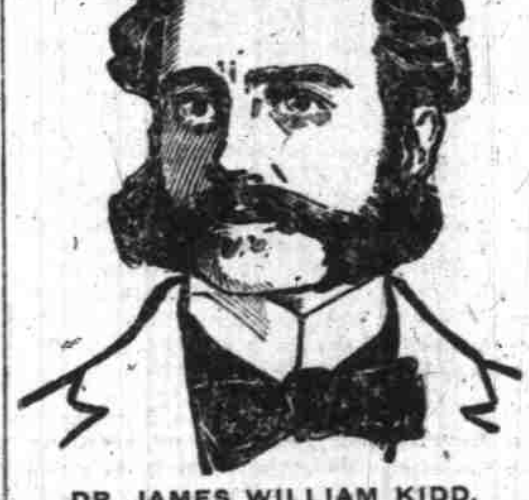

MARVELOUS ELIXIR OF LIFE DISCOVERED BY FAMOUS DOCTOR SCIENTIST THAT CURES EVERY KNOWN AILMENT.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy Is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty record of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 3033 First National Bank building, Fort Wayne, Ind., makes the startling announcement that he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon, to cure any and every disease, that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantity to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures cited are: very remarkable, and but for reliable witnesses would hardly be credited. The lame have been cured, the blind have been cured after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headache, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, sciatica, and piles are cured, and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

DR. JAMES WILLIAM KIDD.

These are the days of colds, sharp and sudden, attacking throat and lungs, and leading to consequences one does not like to think about. Avoid further exposure and fight the enemy of health and comfort with Perry Davis' Painkiller the family stand-by for sixty years. It conquers a cold in a day. See that you get the right article. There is but one Painkiller, Perry Davis'.

CONFERENCE IN SHOP MANAGEMENT.

It frequently happens that the draughtsman who works out a design has had no experience of actual shop practice to guide him, and in other cases he is out of touch—if not out of sympathy—with the shop. Unless the designs of such a one are carefully checked by a thoroughly practical man before being finally passed in, difficulty and expense of manufacture may easily be doubled. Sometimes the pattern maker or moulder finds his difficulties increased by reason of some awkward form of doubtful benefit. The machine shop foreman often has to worry over a needlessly troublesome task, or one perhaps practicable in itself but formidable in the light of the appliances at his command. A plan for the avoidance of this kind of thing has been tried with success in some of the most progressive factories in the United States, in accordance with which the foreman, draughtsman, and head of departments meet together to discuss the details of any new work that may be coming forward. This not only saves much loss and annoyance due to such little points as have been mentioned, but breeds an "esprit de corps" and general good feeling that goes far to insure the satisfactory working of the Engineering Magazine.

CAR BROKE DOWN.

Accident to a Train on the O. C. & E. A Young Man Accused of a Serious Charge Acquitted at Stayton.

STAYTON, Or., Jan. 20.—On the O.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

C. & E. line, last Friday evening, the Albany bound train met with an accident near Breitenbach, which came near wrecking the whole train. A number of cars were loaded with saw lumber bound for the Mill City mills, when one of the cars, an old one, crashed down under the weight of the logs. Other cars jammed into it, but no further damage was done.

Howson Donnelly, a 17-year-old boy, was arrested Tuesday for a criminal offense against the 16-year-old daughter of Wm. H. Hains, all of Mill City. The prisoner was brought before the justice's court in this city on Monday morning, and given a trial. Deputy Prosecuting Attorney C. L. McNary appeared for the state and S. L. Hayden, of Salem, ably defended the case. Several witnesses were examined on both sides, but the evidence furnished was considered insufficient to convict, and the case was promptly dismissed.

Mrs. Joseph Kearns and children left last week for Baker City, where they will spend the remainder of the winter visiting relatives.

Dr. A. J. Richardson, of Salem, was called up one day last week to attend Mrs. A. J. Richardson of this place, who has been seriously ill, but is now rapidly improving.

Henry Keene is remodeling and papering the store building on Water street, formerly occupied by N. Freitag. It is understood it is to be occupied by stayton tailor, John Henkel.

Geo. W. Kearns, of Grants Pass, visited relatives and friends in Stayton Monday and Tuesday.

Prof. F. E. Moreton and bride arrived home on Tuesday morning, and will make their home in Stayton the remainder of the school year.

The G. A. R. Post, which has been located at Mehama heretofore, has been moved to this city. The first meeting will be held on Saturday evening next, at the city hall.

DEEDS RECORDED.

Six deeds were yesterday filed for record in the county recorder's department, the consideration of which aggregated \$5786, as follows:

A. N. Moores and wife to C. B. T. Odell, lots 2 and 4 and a portion of lot 6, block 31, University addition to Salem, w. d. \$3700
Geo. W. Ashby and wife to C. B. T. Odell, lot 5 of block 31 of University addition to Salem, w. d. 775
Leonard McKee to John H. Hubbard, nine acres of land near Hubbard, w. d. 486
Hattie Goodie to M. R. Barnes, lot 2 of block 13 of Highland addition to Salem, w. d. 325
James B. Putnam and wife to C. B. T. Odell, lot 6 of block 31 of University addition to Salem, w. d. 250
John Hansen to L. F. Marrs, lots 1 and 2, block 2, in Highland addition to Salem, w. d. 250

IN PROBATE.—Upon the petition of Earl Race, administrator of the estate of D. E. Shepard, deceased, the Marion county probate court yesterday ordered that the personal property belonging to the estate, valued at \$155, be sold at private sale in order to procure funds with which to pay funeral expenses. Lizzie Roppel yesterday filed her oath as executor of the estate of John Roppel, deceased, and letters testamentary were issued to her.

LAID TO REST.—The funeral services over the remains of the late Valentine Brauning, who died at his home in this city on Sunday, January 19th, aged 69 years, was held at the home at 1:30 o'clock yesterday afternoon and the burial took place at the City View cemetery.

A NEW COMPANY.—The Will Cleaver Mining Company, of Prairie City, yesterday filed articles of incorporation in the State Department. The company will engage in mining operations. The capital stock of \$250,000 is divided into shares valued at \$1 each. Elmer E. Cleaver, Alonzo Cleaver and W. G. Drowley are the incorporators of record.

Driving Out the Enemy. These are the days of colds, sharp and sudden, attacking throat and lungs, and leading to consequences one does not like to think about. Avoid further exposure and fight the enemy of health and comfort with Perry Davis' Painkiller the family stand-by for sixty years. It conquers a cold in a day. See that you get the right article. There is but one Painkiller, Perry Davis'.

A BIG DAMAGE SUIT

BY AN ALBANY SHIPPER AGAINST THE SOUTHERN PACIFIC

The Plaintiff's Reply Filed in the Circuit Court Yesterday—A General Denial of Defendant's Answer.

(From Thursday's Statesman.)

Madison Scott, plaintiff, in the \$20,000 damage suit brought in department No. 1 of the state circuit court for Marion county, against the Southern Pacific Company, defendant, yesterday made reply to the defendant's answer to the plaintiff's complaint. Plaintiff, in his complaint, alleged that on October 10, 1930, while in charge of a carload of stock and in transit from Albany to Seattle, Wash., at Brooks station, he was riding in the caboose and that another car collided with the caboose in such a violent manner that he was thrown off his feet forcibly and received injuries to his body and limbs, and was damaged in the amount of \$20,000. The defendant, in answer to the complaint, denied that the accident was due to any carelessness on the part of its employees and alleged that the plaintiff was a passenger upon the freight train subject to the regulations which govern the shipment of stock and under the shipping contract assumed all risks as to any bodily injury which he may suffer as the result of any unavoidable accident while en route. The defendant also denies that the accident was the result of a collision between the caboose and another car and alleges that the sudden jar or stop was caused by the application of the air brakes and the taking up of the slack of the train and that, if the plaintiff received any injuries at all, it was due to his own carelessness.

In his reply to this answer the plaintiff denies that he had entered into any contract with the defendant under which he assumed all risk against bodily injury and that, as his fare was included in the amount which he agreed to pay for the transportation of his carload of stock the defendant was responsible for any injury which might happen to himself or stock while in transit. He also denies that the accident was caused, so far as his knowledge was concerned, by the taking up of the slack of the train, but alleged that it was caused by the defendant's employees in switching a car back and allowing it to collide with the caboose and was therefore due to the carelessness of the employees and he denied that he was in any manner responsible for the injuries which he received. He still prays for judgment against the defendant as prayed for in the complaint. H. C. Watson and A. S. Bennett, of Albany, are the plaintiff's attorneys.

Shake Out Your Shoes.

Allen's Foot-Ease, a powder, it cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 25 cts. in stamps. Trial package FREE. Address, Allen S. Olmstead, Le Roy, N. Y.

GONE TO HER REWARD

MRS. JOHN DANCY DIED AT PORTLAND THIS MORNING.

After a Brief Illness of Pneumonia—She Was the Mother of W. H. Dancy of this City—The Funeral Will Be Held in Salem.

(From Friday's Statesman.)

Mrs. John Dancy, of Portland, mother of Manager W. H. Dancy, of the Salem telephone station, died in Portland at 1:20 this (Friday) morning, after a brief illness of pneumonia. Her husband and son were at her bedside during the last illness.

The remains will be brought to this city on the 6:15 p. m. train today, when funeral arrangements will be completed.

Mrs. Dancy lived in this city for many years, where she has a large circle of warm and devoted friends, who loved her for her many noble, womanly qualities, and who will grieve to hear of her untimely demise.

Deceased was 61 years old. Besides her husband and son she leaves a daughter, who resides in Spokane.

The sad news of Mrs. Dancy's demise was received from Portland by telephone at an early hour this morning.

Use Allen's Foot-Ease.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen, smarting feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25 cts. in stamps. Trial package FREE. Address, Allen S. Olmstead, Le Roy, N. Y.

A MILLION DOLLAR CONCERN FILES ARTICLES

Incorporation of a Big Gold Mining Company, and a Liquor House—The Weatherby Creamery Increases Its Capital Stock.

In the Department of State, at the Capitol, yesterday, two new companies filed articles of incorporation. They are:

The Home Stake Gold Mining Company will engage in mining operations with headquarters in Portland. The company has a capital of \$1,000,000. S. E. Nichols, F. C. Thornton and D. H. Stearns are the incorporators.

E. C. Jorgensen & Company, of Portland, will engage in the general liquor

YOUR FAITH

Shiloh's Consumption Cure

and cure is so strong, we guarantee a cure or refund money, and we send you free trial bottle if you write for it. SHILOH'S costs 25 cents and will cure Consumption, Pneumonia, Bronchitis and all Lung Troubles. Will cure a cough or cold in a day, and thus prevent serious results. It has been doing these things for 50 years. R. C. WELLS & Co., Le Roy, N. Y.

Karl's Clover Root Tea corrects the Stomach

business, with a capital of \$50,000. E. C. Jorgensen, F. Bartholoma, and M. Fleischmann are the incorporators.

The Weatherby Creamery Company, of Portland, filed supplementary articles, increasing the capital from \$10,000 to \$25,000.

M. L. Hamilton went to Portland on business yesterday afternoon.

Mrs. John Conner departed on the overland last night for San Francisco, expecting to remain several weeks on a visit to relatives.

Rt. Gulias and little niece returned to their home in Woodburn yesterday afternoon, after a brief visit to Mrs. E. C. Patton in this city.

What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 34 as much. All grocers sell it, 15 cts. and 25 cts.

Capital Normal and Correspondence School

SALEM, OREGON. Winter term opens January 2d. Special classes will be formed for February examination. Send for sample lists of correspondence work. Address J. J. Kraps, First National Bank Building, Salem, Oregon.
