

TRADES THAT KILL

Stonecutters who work on sandstone seldom live to be more than fifty years of age and nearly all of them die of lung disease due to the inhalation of mineral dust. Another class of workers who succumb to lung troubles are those who prepare feathers for trimmings and ornaments. They inhale the floating, feathery particles, and in three years disease has a firm hold on them. The grinders and polishers of cut-glass rarely live beyond the age of forty. They too die of lung trouble. The average death rate for consumption is reckoned at about sixteen per cent. of the total mortality from disease. But among flint-workers that percentage leaps from sixteen to eighty per cent.; among needle-polishers to seventy per cent.; and among file-cutters to sixty-two per cent. These are some of the trades that kill.

These facts and figures force upon our attention the delicacy of the lungs and the other organs of respiration. It is impossible to be too careful of the lungs, and the very first symptoms of weakness in these organs should be at once met and overcome by the use of Dr. Pierce's Golden Medical Discovery.

"Four years ago I had a bad spell of sickness," writes Mrs. Mollie Jacobs, of Felton, Kent Co., Del. "Was taken with a terrible cough, coughed and spit blood until I grew weaker every day; had chills and night-sweats; not much appetite; bread tasted like dry wood or no taste at all. I had three doctors in during the time I was sick; they all told me I had consumption. I am of a consumptive family—my father and one brother having already died with it—so I thought I must go the same way. I was in a terrible state of health, and my mind was worked up considerably. I thought I must die soon, but I did not want to—I wanted to live to care for my little children until they were able to take care of themselves. About that time a friend of mine advised me to try Dr. Pierce's Golden Medical Discovery, and so I did. The first bottle did me good so I kept on taking it. Took sixteen bottles altogether, and I believe that God and Dr. Pierce's medicine saved my life. When I commenced to take the medicine I could not pump a bucket of water and could only carry half a bucketful. Was so weak I could not sweep a floor with a carpet on it; in fact, could hardly walk. Since taking Dr. Pierce's medicines I have done the washing and all the work for five in family, picked berries and worked in a canning factory. Any invalid wishing to know about my case may send a stamp for return reply and I will answer."

It is agreed to-day by physicians that consumption is not inherited, but is communicated from one person to another. It is, however, true that in some families there is a tendency to lung weakness, which greatly increases the liability of its members to that dreaded disease. The use of Dr. Pierce's Golden Medical Discovery by those who have "weak" lungs, will result in the strengthening of these organs, and enable them to resist or throw off disease. "Golden Medical Discovery" cures deep-seated coughs, bronchitis, bleeding of the lungs and other forms of disease which if neglected or unskillfully treated may find a fatal termination in consumption.

"I cannot speak too highly of Dr. Pierce's Golden Medical Discovery," writes W. S. Long, Esq., of Frankfort, Sussex Co., Del. "After recovering from a spell of pneumonia, I was taken with a terrible cough, and nothing seemed to do me any good until I began taking the 'Golden Medical Discovery.' Before I took the medicine I was very weak and nervous, with no appetite, and could not sleep at night, and my friends felt sure that I had consumption. Before taking one bottle my appetite improved greatly, and after taking four bottles I was completely cured. I think there is no medicine equal to Dr. Pierce's Golden Medical Discovery, and strongly recommend it to all similar sufferers."

If you are suffering from an obstinate, lingering cough, if your lungs are "weak" or delicate, or if you have developed lung trouble, and are weak and emaciated, you may take Dr. Pierce's Golden Medical Discovery with the assurance that in scores and hundreds of cases like your own the use of the "Discovery" has resulted in a perfect and permanent cure.

Persons suffering from disease in chronic form are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just-as-good" medicine can show; therefore, accept no substitute for the "Discovery."

PETITION IN BANKRUPTCY

In the Gilbert Bank Case Has Been Dismissed

RECEIVER CLAUD GATCH WILL WIND UP THE AFFAIRS OF THE CLOSED INSTITUTION.

He Proposes to Promptly Collect All Outstanding Debts and Settle With the Creditors Under the Orders of Judge R. P. Boise's Department of the Circuit Court.

(From Thursday's Statesman.)
The report reached Salem yesterday noon that Judge C. B. Bellinger, of the United States District Court at Portland, had decided the Gilbert case on the petition in involuntary bankruptcy, by dismissing the petition. Inquiry in Portland developed the fact that Judge Bellinger had so decided, finding that A. T. Gilbert, doing business as Gilbert Bros., was not insolvent; that his as-

sets were equal to his liabilities, and that the acts of bankruptcy complained of were not sufficient for the court to take jurisdiction. The attempt to make E. N. Gilbert a partner was a failure. E. N. and A. T. Gilbert dissolved partnership some years ago, and since then have had no connection of a business nature. The decision of Judge Bellinger is given in full in another column of this paper.

The petition in bankruptcy was brought by creditors of the bank, after Judge R. P. Boise, of the second department of the Circuit Court had appointed Claud Gatch receiver of the Gilbert Bros. bank, and was resisted by A. T. Gilbert. The result of the decision is that the receiver appointed by the state court, Claud Gatch of this city, will now begin the work of settling up the estate.

Mr. Gatch has not done much in connection with the adjustment of the closed bank's business, as parties owing the bank were awaiting the decision of the United States Court in the bankruptcy proceedings, and in order to give time to claimants against the bank, after the case should be decided in the Federal Court, Judge C. P. Boise, on November 15th last, extended the time for presenting claims, in the following order:

"It appearing to the court that it is to the best interest of the creditors in said cause that the time be extended, it is therefore ordered, adjudged and decreed that the creditors holding claims against A. T. Gilbert and Gilbert Bros., have until the fifteenth day of May, 1902, to file their claims therein."
Receiver Gatch, in speaking of the case yesterday, said that all parties having claims against the bank would now have to present them, within the time specified by the court. (May 15th) and as much sooner as possible so that

he could pass upon them and make his recommendations to the court. He also stated that all those owing the Gilbert Bros. bank had been notified to pay, that all necessary notices had been given to them, and that all that was necessary for him to do in the premises, was to hand the claims to his attorney for collection or suit; that every dollar due the bank will be collected. Mr. Gatch says he will do his utmost to see that all creditors are paid, and to do this he will be compelled to collect up all outstanding claims; that he will make moderate charges for his own services, and will administer the affairs of the closed bank as he would his own.

J. N. Brown, of Brown & Wrightman, A. T. Gilbert's attorneys, expressed his gratification at the result of the litigation. He does not anticipate an appeal, as all the creditors are anxious to have the matter settled up as soon as possible. He as well as others interested, expressed the belief that there is a good chance for a full settlement of all claims.

GOVERNOR MCBRIDE RETAINS ADJUTANT GENERAL DRAIN

Who Was Appointed by J. R. Rogers, of Washington—A Change in the Board of Control.

TACOMA, Wash., Jan. 29.—Governor McBride announced today that he had decided to retain Adjutant General Drain, Drain was appointed from Spokane, by the late Governor Rogers, in January, 1900, for the term ending January, 1905.

A New Official.

Olympia, Wash., Jan. 29.—Governor McBride announced today that Grant Neal, auditor of Skagit county, would be appointed a member of the Board of Control, the appointment to take effect February 10th. Ernest Lister and Henry Drum, the Democratic members at present, will tender their resignations, to take effect at the Governor's pleasure, but it is not known which one Neal will succeed.

NEHALEM COAL FIELDS.

Development Will Continue, and Coal Placed on Sale This Year.

PORTLAND, Or., Jan. 29.—W. J. Cook, of Astoria, secretary of the Nehalem Coal Company, is in Portland to purchase steel rails for the two and one-half miles of road, to be built to connect the coal deposits at the foot of Necarney mountain, with tidewater, at Nehalem Bay. Mr. Cook said tonight that their coal would be in the local markets by next October.

SEARCH FOR CONDOR.

VICTORIA, B. C., Jan. 28.—The British survey steamer Egeria sailed from Esquimaux this morning to search for the missing Condor. She is the fourth vessel to sail, the Grant, McCulloch and Phaeton being already out. The Egeria is the last of the fleet at Esquimaux, and only two torpedo-boat destroyers, both out of commission, are in port. The only other vessel available for the search is the Canadian steamer Quadra, which is at her wharf here.

SOLID SILVER.

NIEHART, Mont., Jan. 28.—Two prospectors, Dave Llewellyn and W. H. Harmon, who are leasing the O'Brien mine have struck what is believed to be a mine of pure silver. They have secured thirteen tons of the ore, which is almost malleable. An average assay is 18,000 ounces, which gives a value to the ton of nearly \$8000, in the white metal.

THE EARTH TREMBLED.

And the Mountain Top Slid Off, Say the Indians.

PORT TOWNSEND, Wash., Jan. 30.—According to a report reaching here today, an earthquake and landslide occurred in the Olympic mountains in the western portion of Jefferson county, just prior to the big storm of last week.

The Indians report that a number of earthquake shocks were felt, followed by a crashing noise. The next day Indian hunters reported that one of the peaks in the Olympic range had broken off and slid into a small valley, almost filling it with dirt and snow.

A Minister's Mistake.

A city minister was recently handed a notice to be read from his pulpit. Accompanying it was a clipping from a newspaper bearing upon the matter. The clergyman started to read the extract and found that it began "Take Kemp's Balsam, the best Cough Cure." This was hardly what he had expected and, after a moment's hesitation, he turned it over and found on the other side the matter intended for the reading. 2

PROSPEROUS' EUGENE.—Some parties are trying to open a roller skating rink in Eugene. They are up against a serious difficulty, however. All the buildings in Eugene are rented, and they cannot find a place for their establishment. By the time that the immigrant excursions for March and April pour in their great throng of home seekers all the live towns of the Willamette valley will be in the same condition, and there will have to be a big building movement to provide houses and places of business for the new comers.

THE PRUNE SITUATION.—Following is a dispatch in last night's Portland Evening Telegram: "According to W. K. Allen, a prominent fruit dealer of Salem, Or., who is in this city, stocks of prunes on the coast are light, particularly the Oregon product. 'These stocks are pretty well concentrated and in strong hands,' said Mr. Allen. 'Early sales of Oregon prunes were satisfactory, but later there was some pressure among holders to sell, and the free-on-board market declined. There has been some improvement in conditions, and while stock is offering freely at 2 1/2c f. o. b., four-size basis, there are holders who ask up to 2 3/4c four-size basis. The present market conditions are regarded as favorable, stocks being in good control, both in Oregon and California.' Mr. Allen is one of the gentlemen interested in the big cannery and evaporator near the Southern Pacific passenger depot in this city. The buyers of fruit, both green and dried, are even at this early date busily occupied in laying their plans for handling the crop of 1902. There will be more people look-

Rheumatism

This disease generally begins with a slight pain in the joints and, if proper treatment is begun in time the agonies that would otherwise follow can be averted. Even in cases that have become aggravated a remedy now exists that promises a certain and lasting cure, as will be seen by the following sworn statement. Mr. Frank Remmel, 709 McGee Street, Kimbra, N. Y., was laid up with rheumatism which resulted from standing, during his work, upon a damp floor. He says:

"About a year ago I was attacked with rheumatism in my feet and legs, chiefly in my legs. They swelled greatly and became very stiff and sore. Whenever I attempted to walk the pain was awful. I had been suffering in this way for about three months when someone handed me a pamphlet advertising Dr. Williams' Pink Pills for Pale People. I read it through carefully and made up my mind to give them a fair trial, for not only was I anxious to be relieved of my sufferings, but I knew that unless I could get relief I would soon have to give up work altogether and this I could not afford to do. I got two boxes at first and by the time the second one was used up I began to feel decidedly better. The swelling was going down, and the stiffness and pain were much less and I found I could get about much better. I got three more boxes and by the time the last of them had been taken I was entirely free from the swelling, the pain and the stiffness. In fact I was cured, and I am glad to say that I have had no return of the trouble since."
(Signed) FRANK REMMEL.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAK, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 25, 1901.
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I had no hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent eye specialist of this city, who told me that only an operation could help me, and even that would be temporary, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidently in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and today, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
F. A. WERMAK, 720 1/2 Broadway, Baltimore, Md.
