

GREAT SALE OF HEREFORDS

The O. R. & N. Company Brings in Blooded Cattle

TO BE DISPOSED OF AT AUCTION IN EASTERN OREGON THIS WEEK—MAY BRING SOME TO THE STATE FAIR NEXT FALL FOR SALE TO VISITORS.

(From Thursday's Statesman.) The O. R. & N. Co. has brought out to Oregon eighty Hereford bulls, to be sold at auction at Eastern Oregon points. The bulls are furnished by ten prominent members of the Hereford registry association for the United States, which insures the purity of their blood, and the sales are to be held under the auspices of the secretary of that association.

The first sale will be held at Baker City tomorrow and next day, April 18th and 19th; the next at La Grande on the 21st and 22d; Pendleton, 23d and 24th; Heppner, 25th and 26th.

Col. R. C. Judson, industrial agent of the O. R. & N. Co., informs a Statesman reporter that there will be a Shorthorn sale, under the auspices of the American Shorthorn Breeders' association, at Colfax, Wash., May 8th. There will be 100 head offered. Stock will be from the herds of such breeders as G. M. Casey, H. C. Duncan, T. J. Wornall, Jno. C. Mills, Geo. Boshwell, W. P. Harned, Jno. Morris, J. F. Finley and Geo. D. Minor.

All the stock will be registered and good specimens, as good as can be had. Mr. Judson informs the reporter that if these sales are successful it will probably result in several car loads of Shorthorns and Herefords, and also a lot of Berkshire swine, being brought out to the Oregon State Fair and offered at auction.

These sales are for the purpose of furnishing good stock at a reasonable price, that stockmen and farmers may breed up their herds.

A VALUABLE MEDICINE

For Coughs and Colds in Children.

"I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cramer, Esq., a well known watch maker of Colombo, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." For sale by Son's Drug Stores.

SHERIFF DURBIN TRANSFERS A LARGE SUM TO COUNTY TREASURER DOWNING.

Sheriff F. W. Durbin yesterday made the second turn-over of the funds collected on the 1921 tax roll into the hands of the county treasurer, the total amount of which was \$10,489.87. Prior to this turn-over the sheriff had in his possession over \$110,000, which has been collected in the 1921 tax roll, but which, on account of his illness and the great rush of work occasioned by the 3 per cent rebate law on taxes paid on or before March 15th, he has not found it possible to dispose of that money. He has been very busy checking up and balancing his register for the past week and intends to turn over the cash into the county treasury as rapidly as he can segregate it to the different accounts and it is convenient for him to do so.

Of the amount remitted yesterday, \$3,591.11 is credited to the city of Salem and city road tax fund, and \$2,391.92 is credited to school district No. 24 (Salem) fund. The sheriff's report shows the money turned over to be apportioned to the several accounts, as follows:

THE HURRYING HOURS.

How often the thoughts come home to me,
As the moments hurry away,
Of the many things I intend to do
Somehow, some time, some day.
There are promises that have not been kept,
Though I always meant to be true,
But time is too short for all the things
That a body intends to do.

I will write a letter or read a book,
I will do the things that I ought to do,
Some day when I have time,
So I look beyond, as I hope and plan,
For the days that are just ahead,
While the day that is here goes into
The grave
With its opportunities dead.
Today is the only day we have,
Of tomorrow we can't be sure;
To seize the chance as it comes along
Is the way to make it secure.
For every year is a shorter year,
And this is a truth sublime—
A moment misspent is a jewel lost
From the treasury of time.

One hop contract representing the sale of 12,000 pounds, or about 67 bales of 1922 crop of Marion county hops, was filed for record with the county recorder yesterday, wherein W. M. Hough are the incorporators of record.

REMODELING BUILDINGS.

There are many improvements going on in the business center—more of a stir than since the "good times" of 1922 and a few years before. And the end of new and remodeled buildings is not yet. One thing calls for another. The same sort of a stir is on in the residence portions. It is said there are less vacant houses than for years, and more demand for houses for rent in all directions.

PATIENT FROM ALASKA.

A deputy United States marshal and a guard arrived in this city from Skagway, Alaska, last night having in custody Joseph Sandos, aged 33 years, whom they delivered at the Insane Asylum. Levesque for appointment as guardian of the person and estate of Joseph Hendie, insane, was granted, and his bond, which was filed in the sum of \$500, was approved.

LIEU LAND BUSINESS.

State Land Agent L. B. Geer stated yesterday that the inquiry for farms, by prospective purchasers, was far more extensive now than it had been in years, or ever in the experience of the State Land Office. There are many applications for the purchase of farms owned by the state, and acquired through the foreclosure of mortgages, and so great has the rush in this department become, that Mr. Geer has found it necessary to suspend all lieu land business for the present, and devote his time exclusively to the sale of the improved farms owned by the state, the suspension of the lieu land business being fixed for a period of ninety days.

LEAKS AND LOSSES

The grocer thinks he is filling the cask, but he isn't. He has to take account of that open spigot with its steady leakage and certain loss. The man who would ignorantly permit this waste and loss would be simply put down as heedless and careless. But the man who would knowingly permit it, who would continue his efforts to fill the cask regardless of the palpable waste and loss would be considered little better than a madman, and as a merchant on the highway to ruin.

Every time man or woman puts food into a diseased stomach there is a repetition of the folly of the merchant in his effort to fill his leaking cask. We eat to live. Physical life is sustained by food and by food alone. But in order to sustain life the food eaten must be digested and its nutrition extracted and assimilated. So that it is not by the food eaten that we must reckon sustenance, but by only so much of it as is properly digested. When there is disease of the stomach and other organs of digestion and nutrition there is failure in the digestive processes and a consequent loss of nutrition. That is what makes dyspepsia dangerous. We think of it as affecting the stomach only. But it affects the whole body and every organ of the body which depends for life and strength upon the nutrition derived from food.

The proof of this loss of nutrition when the stomach is diseased, is that it is generally accompanied by loss of weight. It naturally would be. If life is sustained by the nutrition derived from food, and part of this nutrition is being lost and wasted, there will be a corresponding waste of flesh and loss of weight. And as nutrition is the source of physical strength, when there is loss of nutrition there is a loss of the strength contained in that nutrition.

If you are weak, run-down and losing flesh, the most probable cause of your condition is disease of the stomach and digestive and nutritive tract. Probably this cause of disease has not occurred to you. You have had heart "trouble," liver "trouble," kidney "trouble," as a consequence of diseased stomach and innutrition and have "doctored" for these organs, naturally with very little success, because the loss of nutrition which is a loss of strength is going on all the time.

The simple, sensible thing to do is to stop that leak and loss of nutrition, then the logical result should be the regaining of lost flesh and lost strength. This is just the result that follows the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, stops the leak and loss of nutrition and builds up the body with sound flesh and strong muscle. The scales prove it. There's no guess-work about such cures. If you are weak, run-down, and losing flesh, nervous, irritable, and generally miserable, you can make yourself healthy and strong again by using "Golden Medical Discovery" to stop the loss of nutrition which is a loss of physical sustenance and physical strength.

"I was weak, nervous and dizzy, with a fainting sensation when walking," writes Jesse Childress, Esq., of Samuel, Sullivan Co., Tenn. "Could not walk any distance; always felt bad after eating; felt as though something was sticking in my throat, always uneasiness in stomach. Was taken down in January, 1898. Doctored with two or three physicians, but they did not relieve me any. I grew worse and used everything I could think of; was nearly ready to give up and then some one told me that Dr. Pierce's medicine was good, so I began taking his 'Golden Medical Discovery.' I have taken seven bottles of that now and am as stout as ever, and am enjoying health as much as ever before. I worked all summer and this winter as much as anyone. My case was nervous dyspepsia and liver disease of which your medicine has cured me. In September, 1898, my weight was about ninety-five pounds, now it is one hundred and ninety-five. Please accept my sincere thanks."

"I wish to say to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass. "Prior to September, 1897, I had doctored for my stomach trouble, for several years, going through a course of treatment without any real benefit. In September, 1896, I had very sick spells and grew worse; could eat but little. I commenced in September, 1897, to take Dr. Pierce's medicine, and in a short time I could eat and work. I have gained twenty pounds in two months."

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others and which you believe will cure you.

FRANK DAVEY IS ILL.

Hon. Frank Davey is ill in Portland, where he went on Wednesday morning on business. For several days Mr. Davey had suffered with slight attacks of chills. He had a hard chill while going down on the train Wednesday morning, and on his arrival in the city, he at once secured medical treatment. The physician consulted declared that Mr. Davey had a fever and was threatened with typhoid, and the patient was put to bed, the plan being to bring him to Salem yesterday morning, but at that time his condition was so serious that it was thought best not to send him home, and he was accordingly transferred to the St. Vincent's Hospital, where the best of care is given him. The physicians in charge hope to break the fever in four or five days, and it is to be hoped they will succeed. Meanwhile there is no cause for alarm, as the disease, taken in its incipency, will doubtless promptly yield to treatment.

RIDING WITHOUT LIGHTS.

Three arrests were made by the officers last evening of bicyclists who were riding without lights. The first victim was A. H. Steiner who was caught early in the evening and he at once appeared before the city recorder and paid a fine of \$2.50; the next was a young lad by the name of Chester A. Mee who was riding a wheel belonging to Otto Wilson and, upon the latter's promise to call this morning and settle the matter, the boy was released. Later in the evening Dr. F. E. Smith was held up for the same offense and was also released upon his promise to call and pay his fine this morning. The officers have strict orders from Chief of Police D. W. Gibson to arrest all offenders of the bicycle ordinances, not only those who ride without lights, but those who ride above the speed limit, who encroach on forbidden sidewalks, or who persist in riding without bells. The bicycling season is here now, and all riders should take warning, and live up to the provisions of the city laws, as, in the long run, it will be the cheapest for them.

MISS CASE'S RECITAL.

At the M. E. church on Monday evening, a delightful program was given by Miss Mary Case, vocalist, and Miss Lucy Edwards, reader, under the auspices of the Epworth League. Miss Case has just returned from Boston where she has studied under several excellent teachers among whom may be mentioned Homer A. Norris, the well-known American composer, who was so pleased by the rendition by Miss Case of some of his songs that he immediately offered his services as teacher. Her voice is a full rich contralto under perfect control throughout a range of over three octaves, and her interpretations were very artistic, showing true musicality. The program, although short, was enjoyed by all. The best vocal numbers were: "O Mother Mine," by Norris; "The Rosary," and "The Angelus," with Nevin's "Mighty Like a Rose" and "Little Boy Blue," as encore. Miss Case was ably assisted by Miss Edwards, who graduates this year from the College of Oratory. She gave Burdette's "Railway Matinee" and several short selections by Ben King and others, which were well received. Miss Genevieve Hughes gave excellent support to Miss Case, by her accompaniments.
