The Commencement Exercises at Old Willamette This Year

PROMISE TO BE OF RARE EX home in Portland after an over-Sun CELLENCE-THE CHOIR OF THE METHODIST CHURCH WILL OF- day visit to relatives in this city. FER A NOBLE CHORAL- RE-HEARSALS NOW IN PROGRESS.

The musical programs to be given during commencement season will consist in part of the graduates' reckal, a recital by undergraduates, a concert by the ladies' chorus of Willamette University, and the annual sacred conpert by the choir of the First M. El. church.

The cheir, under the direction of Mr. Francesco Seley, will this year offer a noble choral work, Farmers' mass in B flat, accompanied by the pipe organ and an orchestra of ten pieces.

Rehearsals by the chorus are now in progress, and the orchestra parts are being carefully written from the vocal score by M: Seley. The orchestra will consist of the best players obtainable and the program promises to be the most attractive ever given by this popular choir.

Mr. Seley has trained the choir for the past four years, and the excellence of his work is attested by the acknowledged superiority of his chorus. Although the personnel of the choir has changed from time to time by the addition of new singers and the loss of others, yet the improvement has been constant and marked. During the entire period he has been ably assisted by Miss Genevieve Hughes, whose services as organist cannot be overesti-

Public Resital.

The College of Music and Oreatory of Willamette University will provide per public re-finity this month, one of which will occur tomorrow (Monday) vening, and the other in two weeks, adies quartettes will sing: The Cicliinne, the Mendelssohns, and the Mignone. These recitals are held in the chapel of the University and Eways begin promptly at 8 o'clock.

CANCEROUS U

develop sometimes from very trifling causes, and when and where you would least expect them. A boil, or abscess, burn, blister, wart, tumor, mole, or the simplest little pimple may be the beginning point of a malignant, frightful looking Cancerous Ulcer.

Apparently there is no difference between a Cancerous and Common Ulcer when they first make their appearance, and for this reason every ulcer, no matter how insignificant or harmless it may seem, and all slow healing sores should excite suspicion and cause alarm, particularly if any of your ancestors ever had Cancer, or you have good reason to think your blood is impure; for the sore, after all, is only the outgrowth, the external evidence of polluted blood, and nothing can check its progress until the cancer tainted, vitiated blood has been purified. All efforts to heal the ulcer by means of salves or other external remedies will result in failure, for such treatment can have no possible effect upon the deadly germs and morbid matter that form in the blood and are carried through the circulation to the sore.

MOTHER, TWO AUNTS, AND ONLY A SMALL SORE CAME ON THE WOULD SCAB OVER, BUT NOT SISTER DIED OF CANCER INSIDE OF HIS LIP. HEAL. OF THE BREAST.

I had a Cancer on my left breast, which noticed a small lump on the inside of my caused me great pain for three or four lower lip. It annoyed me considerably; the right side of my

tles, was cured. This was several years seven bottles the place healed entirely; curing the Cancer when my attention ago but have seen no signs of the Cancer my general health improved and I am as was called to S. S. S., and after taking a since. I would urge all who are suffering well now as ever and no signs of the dis-

About the first of February, 1899, I pains were deep and the doctor cauterized it and in a few days nose. It grew steadishooting. The ulcer discharged yellow and came and broke into an open sore, and in discharged yellow and rather offensive matter. I had given up all hope, as the doctors gave me no relief.

My mother, two aunts and an only sister died of Cancer of the breast, and I am satisfied that I, too, would have been gone but for S. S. S. I felt some better after the first bottle, and after using only seven botfirst bottle, and after using only seven bot- this soon changed, and after I had taken ulcer. I had almost despaired of ever

Mr. Jno. Massie, Owensboro, Ky., writes: "About three years ago a blister came on

from the disease to give S. S. S. a trial, lease have been seen since. Belton, Mo. Mrs. James Cassell. Hollands, S. C. W. P. Brown. I was relieved of the terrible disease."

Cancerous Ulcers can be reached only by a remedy that acts upon and through the blood system, and this is just what S. S. S. does. It goes to the fountain head of the disease, and drives out the germ producing poisons which cause the ulcer, and purifies and builds up again the deteriorated blood. This is the only true and logical treatment for sores of this character.

By the use of S. S. S. the ulcer is supplied with pure, strong blood, which quickly allays the inflammation. and forces out all the irritating poisons, and allows the sore to heal naturally and permanently. S. S. S. acts also as a tonic, and where the constitution has become

debilitated and weakened, it restores vitality and strengthens the nervous system, and helps the appetite and digestion. S. S. S. contains no Mercury, Potash or other minerals, but is guaranteed purely vegetable.

Those having a chronic ulcer or sore of any kind that is slow in healing, whether located upon the body or internally, will receive medical advice and such special information as they desire free of cost. STOVER GASOLINE ENGINE

What Will

F. F. CARY, Manager.

Gasoline is the most economical power in use today, and on account of its cheapness is rapidly taking the place of both steam and electricity. The farmer remote from an electric plant can use it; the special knowledge of the steam engineer is not required, and it costs nothing when not actually at work, and when it is pumping his water, churning his butter, sawing his wood or grinding his feed it costs less than any other power.

For turning the lathes of the repairman, printing the local newspaper, or making sausage at the butcher shop, the gasoline engine is worth many times its cost. And the STOVER is the BEST engine on the market for the following reasons:

1st. It has less parts than any other, consequently easier to operate and keep in order.

2d. Will last longer than any other because it has less parts to wear out.

3d. Will develop greater power on the same amount of gasoline, for it is heavier and absorbs less power in its working parts than any other.

The object of all makers of engines, viz: -to develop the most power with the least cost and rouble---has been attained in the STOVER to a greater degree than any other.

We carry the STOVER GASOLINE ENGINES in stock from 1 1-2 to 8 horse power, and will quote prices and send descriptive matter on application.

> Investigate the STOVER before you buy a Gasoline Engine.

Mitchell, Lewis & Staver, SALEM BRANCH.
