## THE MAYOR OF ASHLAND HEARS

For Six Years He Has Been Growing Deaf--- Now He Can Hear---All Through Dr. Darrin's Skill.

Those who are disposed to doubt Dr. Darrin's cure will have their doubts shaken on reading the testimonials of Mayor R. P. Neil, Mr. Rhodes and Mr. Matthews. There are no persons in this city or state whose word will go further to substantiate the doctor's skill in treating the afflicted. There can be no doubt or question of the curative powers of electricity, judging from the extraordinary cases of cure performed by Dr. Darrin. The great advance of electro-magnetic treatment is that it brings relief in a large number of cases confessedly beyond the reach of the ordinary remedies of the physicians, and Dr. Darrin has enforced a belief in the curative powers of electricity upon the public by his remarkable cures. It seems that the uses to which electricity is applied is not alone confined to the arts, but is destined to do what medical and surgical skill has failed to accomplish.

#### Mayor Neil's Card.

To the Editor: Six years prior to consulting Dr. Darrin I had been deaf in both ears. One ear was badly affected. One month's electrical and medical treatment had radically cured me. I most emphatically commend Dr. Darrin's new mode of treatment to all similarly affected. Will gladly answer questions as to the treatment and cure.

R. P. NEIL,  
Mayor of Ashland.

#### RHODES' GOOD LUCK!

A Life of Sickness from Inflammation of the Bladder—Restored to Health by Dr. Darrin.

Dr. Darrin: Your treatment for the past eight months has cured me of kidney trouble, inflammation at the neck of bladder and diabetes. For years I have been obliged to relieve my bladder many times a day and night, rendering sleep almost impossible. I now feel like a new man. I shall never fail to consult you when I need medical aid. The treatment you gave me for my debilitated condition from the effects of the gripe was entirely successful. I can be referred to at any time at Pendleton, Oregon.

ERNEST RHODES.

#### CAN HEAR A WHISPER.

Editor Statesman: I came to Salem with my daughter, April 28th, to consult Dr. Darrin, concerning her deafness. After a thorough examination the doctor took the case under treatment, and in one operation and with the use of electricity, restored her hearing, much to our surprise and gratification. I was so much pleased with her cure that I placed myself under the doctor's care. He has already greatly alleviated an almost total deafness of one ear, with which I have been afflicted for twenty-three years. I can be referred to by letter or in person, and will gladly answer all

questions. I reside at Shaw, Marion county, Oregon.

C. K. DUFFEE.

#### Consumption and Tumor Cured.

Eagle Point, Or.—Mr. Editor: I desire to say to you, for publication, that I was treated by Dr. Darrin at Portland, ten years ago, for tumor and consumption. I had a large tumor or abscess growing under my ribs, and it had attained such a growth that my ribs were actually bulged out, and consumption, with corruption and spitting blood, was fast lessening my days of life. I was treated by Dr. Darrin, and a few months thereafter I was a perfectly strong man, and able to do a good day's work. Before treatment I could scarcely walk one hundred yards. I want persons afflicted to personally call upon me at Eagle Point, and learn more of Dr. Darrin and his almost wonderful treatment.

C. B. MATTHEWS.

Dr. Darrin will remain at the Willamette Hotel in Salem, until June 1st. The doctor's charges are low and reasonable, according to circumstances and ability to pay. He gives free and confidential examinations to all, at the office or by letter. He treats all diseases of the eye, ear, nose, throat, catarrh and deafness, as well as all acute chronic, private and nervous diseases of whatever nature, if curable; no cases taken if not. Out-of-town patients treated with unflinching success through correspondence; one visit desirable, but not necessary. Write for symptom blank and circular. Letters of inquiry promptly answered. Eyes tested and glasses fitted.

#### THE VACCINATOR.

When the doctor comes so softly With his little kit of tools— Heaps and heaps of fluffy cotton, Yards of bandages on spools, Such a lot of funny scrapers, Little tiny points of white, Strips of buff adhesive plaster Which stick on very tight, Bottles labeled "antiseptic," Bottles labeled "not at all, And another bottle labeled Ordinary "koko!" When the doctor very slowly, With no purpose to deceive, Says to you in tones persuasive, "Won't you please roll up your sleeve?" Then you know at once that you are up against the vaccination craze.

#### ARSENAL WON.

NEW YORK, May 2.—Out of a field of twenty horses, Arsenal won the Metropolitan handicap, fully 20,000 persons were in attendance. Metropolitan handicap, one mile. Arsenal won; Herbert, second; Carbuncle, third. Time, 1:42.

### PORTLAND'S EXPOSITION

The Selection of a Site Is the First Duty of the Directors

A NUMBER OF TRACTS AVAILABLE—THE PAST WEEK HAS BEEN AN IMPORTANT ONE IN LABOR CIRCLES IN THAT CITY

PORTLAND, May 3.—In connection with the Lewis and Clark Fair project the selection of a site is now the all absorbing topic among the people. The executive committee of the board of directors of the fair has been given power to select a site, subject to ratification by the board, and will within a short time make known its choice. In order that no offer would be overlooked the committee had planned some time ago to visit all sections of the city and look at all sites offered, but the inclement weather has interfered with this inspection, so that not much has been done. The members of the committee have given out no private opinions as to what section they favor, so nothing is known as to the inclination of the committee. However, the residents of the several districts are not withholding any opinions as to their views on the subject. The people of East Portland are loud in their praise of Hawthorne Park; people of University Park favor the Peninsula, and people in the vicinity of Sellwood think their neighborhood is the only place in which the fair can be held and be made a success. So it can be seen that residence determines choice in most cases, and, besides, selfish interests of property holders and speculators are being asserted, so that each district puts up a strong plea for the site.

The committee had called for bids to be in today (Saturday), and some time this coming week selection of a site will be made.

The past week has been an eventful one among the laboring classes in Portland, particularly the mill workers and laundry workers. Several strikes have been declared by the former, one of which has been settled, while the laundry workers are still out. The sawmill men made a demand for \$2 a day and recognition of the union. The question of wages has been settled in all the mills, and in fact even more than \$2 is paid in some of the mills for ordinary labor on the question of recognition of the union, however, nearly all the mill owners are most obstinate, and so far but one mill has conceded this demand: This was the Jones Lumber Company. The men early last week walked out in this mill, and were out but a day when all their demands were granted, including recognition of the union. The next mill in which the men struck was the Portland Lumbering Company's mill, or Pennoyer's old mill in South Portland. Some 200 men walked out, but the mill has managed to keep running with about one-third of a crew.

Something over a month ago the planing mill men gave their employers notice that on May 1st they would work but nine hours a day or go on a strike. The owners declined to grant this demand, so the planing mills have been barely running since Friday last. The mills refuse to grant the demand for shorter hours on the ground that they are in competition with outside mills—mills in California and on Puget Sound—which are running ten and eleven hours and that their product comes in direct competition with those mills. In all about six mills are affected. The mill owners are said to be organized and better able to hold out against the strikers than the sawmill men. It is not a question of wages with planing mill men. This demand is for shorter hours only.

The Federal Trades Council has declared a boycott on all mills in which there is a strike, and things may take

a serious turn as far as the extent of the strike is concerned. A boycott means a complete tie-up of all work which is in any way being done by these mills. Teamsters will refuse to haul any of the mills' products, carpenters will not use their lumber, plumbers will not work on houses which are being built by it, and a general tie-up will almost surely result unless a settlement is soon effected.

The laundries, some seven in number, have about given in; in fact, one laundry signed up with the union Friday, and many others are expected to give in today. The main question is an increase of 25 cents a day wages and recognition of the union.

On Thursday a mob of between 200 and 300 people became angered at the Union Laundry in Albina, L. T. Gilliland and a non-union driver, J. Burnett, and soon were throwing missiles at the men. A general mix up took place, and the two men were chased down the street into a barn, where they held off the crowd till the patrol wagon and policemen arrived, when they were escorted away, but not until Burnett had been knocked down and cut on the head by a 2x4 scantling. Several other exciting scenes occurred, but no arrests were made. It is said the strikers themselves refrained from taking part in the trouble, but that sympathizers were the principal assailants. Several longshoremen were mixed up in the trouble.

The secretary of the Republican State Central Committee, Herbert C. Smith, has filed the nominations of the state officers with the Secretary of State, the county ticket with the county clerk and the city ticket with the city auditor. The citizens' ticket was filed some time ago.

The Portland Board of Trade at a special meeting on Thursday afternoon decided to incorporate a company which will run steamships to Alaska from this city. Steamships are to be chartered, and the secretary was instructed to communicate with steamship companies and ascertain what steamships are available. Seneca Smith was appointed to form plans and draw up incorporation papers for the proposed company, which will be known as the Portland & Alaska Trading Company. The board will probably send a man to Alaska to advertise the steamship route and solicit trade for the merchants of Portland and generally to look after the interests of Portland in Alaska.

Work has begun on the building of the Portland Free Baths. The contract was let for \$3433. The structure will be a floating bath house supported by three pontoons on each side, and one at one end. The side pontoons will each be 100 feet long by 12 feet wide. Over them will be built dressing rooms, and between them will be the swimming pool, 100 feet long by 20 feet wide. The end pontoon will be 27x54 feet, and it will support the structure, containing the office and "refreshment room." The baths will be surrounded on the outside by a two-foot walk. It is expected that the work will be done by June 1st, in plenty of time for this season's use. There is a fund of some \$5000, now drawing interest, with which to support the baths.

**A SUNDAY EXCURSION**—J. E. Cuniff and L. D. Keyzer, representing the Brotherhood of Railroad Trainmen, were in Salem yesterday to arrange for an excursion, to be given under the auspices of that order, from Albany, Salem and other points in the Willamette valley, to The Dalles, on Sunday, May 25th. This excursion two years ago, came to Salem, and brought the largest crowd here ever seen in the Capital City on a similar occasion. The trainmen had planned coming here again this year, but changed their minds when it was found that two other excursions would come to Salem—the Railroad Firemen on Sunday, May 18th, and the Order of Railway Conductors a couple of weeks later, with a possibility of the Federated Trades coming on some Sunday in June.

**STEINER'S MARKET.**  
Chickens—10 cents per pound.  
Spring chickens—12½ to 15c.  
Eggs—12c cash.

Wool—12@13c.  
Mohair—22@23c is offered.

**FOR OREGON ROADS**—Governor T. T. Geer yesterday received a notice from the Auditor for the Interior Department at Washington, D. C., to the effect that the 5 per cent of the net proceeds of the sales of the public lands within the State of Oregon during the fiscal year ending June 30, 1921, accruing to the State, amounts to \$15,112.55. This sum will be received from the Treasury in a short time. The money so received will be apportioned among the several counties for road purposes, in proportion to the acreage contained in the several counties.

J. E. Allison yesterday received a letter from Dr. F. E. Brown, of Council Bluffs, Iowa, bringing the news that Mrs. Brown, who was lately reported as being seriously ill, is now improving, and is expected to be out of danger in a few days. Mrs. Brown was suffering from a severe attack of pneumonia.

### MANHOOD RESTORED "CUPIDENE"

This great Vegetable Purifier, the prescription of a famous French physician, will quickly cure you of all nervous or diseases of the generative organs, such as Loss of Manhood, Impotence, Pains in the Back, Seminal Emissions, Nervous Debility, Pimples, Eruptions on the Face, Itching Bristles, Varicose and Constipation. It acts all issues by day or night. Prevents quickness of discharge, which if not checked, leads to spermatorrhoea and all the horrors of impotency. It restores the vitality of the kidneys and the urinary organs of all impurities. CUPIDENE restores manly vigor. The reason sufferers are not cured by Doctors is because 90 per cent are troubled with Prostatitis. CUPIDENE the only known remedy to cure without an operation. 500 testimonials. A written guarantee given and money returned if a box does not effect a permanent cure. \$1.00 a box, 6 for \$5.00. Send for free circular and testimonials. Address: MAYOL MEDICINE CO., P. O. Box 2074, San Francisco, Cal.

FOR SALE BY Z. J. RIGGS, DRUGGIST, SALEM, OREGON.
