

SALEM PUSH CLUB MEETS

Big Rally Has Been Postponed to a Later Date

GOOD ROADS COMMITTEE AUTHORIZED TO SELECT A ROAD TO THE FAIR GROUNDS TO BE OPENED AND IMPROVED—THE FLAX-FIBRE MILLS.

The Greater Salem Commercial Club held a regular meeting in the police court room of the city hall at 8 o'clock last evening.

On account of the date heretofore fixed by the club, Friday, May 14th, for the club rally, conflicting with the dates set for political campaign rallies, it was decided upon motion to postpone the club rally until the anniversary meeting, October 21, 1920.

Dr. E. A. Pierce addressed the club recommending that capital street be opened to travel from the city limits to the fair grounds road in order to provide a more direct road to the fair grounds and to avoid the street car line as much as possible which proposal brought out a somewhat spirited discussion and the matter was finally referred to the committee on good roads for investigation, select the most direct and practicable route for a public drive to the fair grounds and report its findings at the next regular meeting.

Secretary Judah informed the club that manager T. B. Wilcox, of the Portland Flouring Mills Co., with whom the club has been negotiating the lease of the old flouring mill plant on Front street for the new flax-fibre plant, had requested that the club pledge itself to the fulfillment of the terms of the lease, and recommended that the club take some action in the matter.

Mr. Wilcox now has the lease in his hands, as submitted to his consideration, and stated that immediately the club complied with his request, which was made simply upon the ground that while the company of which he was manager knew nothing of Mr. Bossor the company which he represents and preferred a guarantee from the club, the lease would be signed and returned. Some present contended that as the club was not an incorporated body, its guarantee would be of no legal weight except to bind the members individually toward the fulfillment of the pledge and a motion that the club be incorporated under the laws of Oregon was carried.

Secretary Judah moved that the club instruct the president, secretary and the executive committee to frame a guarantee that the club be held responsible for the fulfillment of the obligations to Mr. Wilcox as set forth in the lease which was carried without dissent.

In compliance with the by-laws of the club a notice of the change of the time of the club meetings from 4 o'clock p. m. to 7:30 o'clock p. m. was filed and read before the club.

HAS INVESTIGATED IDE

FORMER GOVERNOR WEST, OF UTAH, HAS COMPLETED HIS MISSION IN WASHINGTON.

TACOMA, May 3.—Hon. C. W. West, special treasury agent, formerly governor of Utah, who has been making investigation of one of the charges against former Marshall Clarence W. Ide, whose name has been prominently brought to public attention because of the refusal, up to date, of the Senate to confirm his appointment as collector of Customs of the Puget Sound district, left last night for San Francisco, where he makes his headquarters. Mr. West mailed his report yesterday on the result of his work here, and it ought to be in the hands of the department not later than Friday next. Possibly it may reach Washington in time for the information of the special Senate committee Thursday. More than likely, however, the committee will not have the information in time to report back to the Senate before a confirmation of President Roosevelt's nomination will be made or a positive refusal to confirm will be determined upon.

Mr. Ide's nomination has been held up now about two months at the request of Senator Foster, who is presently urging B. D. Crocker, of Walla Walla, for the place. Charges of various sorts have been made against Mr. Ide, but, as alleged, all easily explained to the entire satisfaction of the President and all others interested, except Senator Foster and his backers, who are strongly urging Crocker for collector. Mr. West would not talk of his mission here.

A CHURCH ANNIVERSARY

WILL BE CELEBRATED BY THE FIRST PRESBYTERIAN CONGREGATION ON SUNDAY.

Previous to the last communion service of the Presbyterian church April 5, 1920, the pastor suggested that the 25th anniversary of the organization of the Presbyterian church of Salem would occur in May, and the 25th anniversary of his ordination and first installation would occur in June. He also expressed the earnest wish that there might be at least thirty-three additions to the church by the time the

church should celebrate these anniversaries. Since that time twenty-eight have been received on confession of their faith in Christ, three by letter, and four have been restored to membership who had taken their letters out and had never handed them in to any other church.

On Sabbath, May 14th, the pastor announced that in two weeks, May 18th, the church would celebrate the thirty-third anniversary of its organization by appropriate services. At 10:30 there will be a sermon of a historical character. The evening will be devoted to a praise service with a short talk by the only surviving charter member. Special music is being prepared by the choir and a cordial invitation is extended to all members and friends of the Presbyterian church and congregation.

FOR STATE UNIVERSITY

THE BOARD OF TRUSTEES HAS A MAN IN VIEW FOR THE PRESIDENCY.

In discussing the vacancy of the presidency of the State University, in last night's issue of the Portland Telegram says:

There will be another meeting in a few days, of the Board of Trustees of the University of Oregon to elect a president to succeed Frank Strong, who recently resigned to accept the Presidency of Kansas University. The meeting will be held as soon as Judge Bonn, who is now sitting on the Supreme Court bench at Pendleton, finishes his duties there.

The Trustees have practically agreed upon a man, who, it is understood, resides in Oregon. The advisability of calling in Easter a man to fill the chair has been fully discussed by the Board, and while many of the trustees would like to see an Easterner at the head of the university, it is the feeling of the Board as a whole that the salary offered is too small to attract an educator of any great prominence.

The trustees have received a large number of applications, some of which come from professors now serving in responsible positions in Eastern colleges and universities, but whether they would be competent to assume the duties of President is a question with the trustees. All send very flattering recommendations, but Judge C. B. Bellinger says that insofar as he is concerned a recommendation does not carry so much weight today as it did years ago.

"I have found that a friends will say almost anything for friendship's sake nowadays, and unless a man has made for himself a reputation that is generally known to the world, one must not place too much reliance upon the testimonials of friends of candidates for responsible positions.

"I firmly believe, however, that a strong, wide-awake, up-to-date educator from the East would be able to do much for the University of Oregon in advancing its growth and establishing for it a greater prestige among the educational institutions of the Northwest. Other members of the Board feel the same way, despite the contrary feeling on the part of the people of Eugene and surrounding country who think a grave mistake would be made should the trustees go outside the State for a President."

Judge Bellinger says he would like to see the State University and the Agricultural College combined, which would justify the calling of a high-priced President to assume the control of both institutions. So long as they are apart, however, there is not likely to be a surplus of funds available with which to pay the university president more than he is now receiving—\$2000. These two institutions and the four normal schools eat up pretty much all the appropriation now made by the state for educational purposes.

The Oregon man in view, mentioned in the above, is said to be President P. L. Campbell, of the Monmouth Normal School, Vice-President W. C. Hawley, of Willamette University, has also been mentioned for the place.

SICK MADE WELL WEAK MADE STRONG

MARVELOUS ELIXIR OF LIFE DISCOVERED BY FAMOUS DOCTOR SCIENTIST THAT CURES EVERY KNOWN AILMENT.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy Is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty record of the past, as well as following modern experiments in the realms of medical science, Dr. James W. Kidd, 3033 Baltes building, Fort Wayne, Ind., makes the startling announce-

DR. JAMES WILLIAM KIDD.

ment that he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his "Elixir of Life," as he calls it, for he sends it free to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles, disappear as by magic. Headache, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, scrofula, and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation, and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

REPUBLICANS AT BROOKS

A ROUSING MEETING, ADDRESS-ED BY HON. TIMON FORD—LAST NIGHT.

At Brooks, last evening, a rousing Republican rally and political meeting was held, and it was a success. The Red Hall was crowded to the doors by an interested audience. Hon. E. W. Chipman was chairman of the evening, and Hon. Timon Ford delivered an address on the political issues of the day, explaining and discussing the Initiative and Referendum, direct nominations, and flat salaries, and showing the inconsistency of the opponents of the Republicans. At the conclusion of the address he was given a rising vote of thanks.

Hon. A. W. LaFollett, candidate for Representative, was called for, and he made a brief address, endorsing all that Mr. Ford had said, and pledging his support to Republican doctrines and measures, if elected, and he was cheered to the echo.

The meeting was an unqualified success, and the enthusiasm very flattering. A synopsis of Mr. Ford's address will be printed in tomorrow's Statesman.
