## PRIZES

For  
School Boys  
and Girls...

Do you want to earn some money, and something else real nice?  
The Pacific Homestead wants more subscribers and you boys and girls can help get them.  
You know of some of your neighbor who do not take the Homestead. Ask them to subscribe. It is the best farm paper published on the Pacific coast. Comes every week, and contains 24 pages. Is illustrated.  
The boy or girl sending the largest number of new annual subscriptions before October 1, 1902, will have first choice of premiums, the second largest number second choice, and so on.  
Two months subscriptions or four months subscriptions count as

### CASH FOR WORK.

For every dollar collected you keep ten cents and send us 75 cents—will send you an ADDRESS of your subscriber. Be sure and give your name and address and say "PRIZE CONTEST."  
Remembered to you parents, friends assisting you, but send in your OWN NAME.  
SCHOOLBOYS ONLY.  
If you want a few sample copies assist you, ask for them.

### CONTEST CLOS. OCT. 1, 1902.

Heals quickly all cuts or bruises, draws soreness out of lame back, and draws all sorts of flesh which often break off too short to pull. Sticks like sticking plaster. Try it and you will never be without. By mail 25 cents.

**L. M. BARR**  
No. 120 State St., Salem, Or.

## CHINESE Drug Store

I carry all kinds of Chinese drugs and medicines. Roots and herbs—nature's medicine. Good for all kinds of sickness. Cures opium habit. Good for the blood and kidneys.

**DR. KUM BOW WO.**  
264 Liberty Street, Salem, Oregon

Mrs. W. J. Muckle departed for her home in Rainier yesterday afternoon, from a visit to the home of Judge F. A. Moore this city.

## TO COLLECT INSURANCE

### State Reform School Board Has Brought More Suits

THREE FIRE COMPANIES PROCEEDED AGAINST IN AN EFFORT TO SECURE REIMBURSEMENT FOR LOSSES SUSTAINED AT SCHOOL LAST DECEMBER.

In the first department of the State Circuit Court yesterday the State of Oregon, by the Board of Trustees for the State Reform School, began suit against the Aetna Insurance Company, Sun Insurance Office and the Liverpool & London & Globe Insurance Company, demanding judgment against each of these companies for the sum of \$1964 and the costs and disbursements of the action.

The plaintiff alleges that insurance to the amount of \$2000 was carried in each of the defendant companies upon the State Reform School and its additions, and that at 12:30 o'clock on the morning of December 18, 1901, the industrial department of that institution was damaged by fire to the amount of \$13,392 and upon the same occasion the main building was damaged to the extent of \$400; the electric fixtures and lighting system, \$873; the laundry machinery, etc., \$1800; and the steam and water pipes and steam heating apparatus to the extent of \$400. Plaintiff further alleges that a statement of the damages was submitted to these defendant companies who accepted the statement but each would only allow its individual share of the concurrent damages to the main building, or \$26 each, and the State seeks to recover the balance of the amount of the policies. Attorney General D. R. N. Blackburn, District Attorney J. N. Hart and George G. Bingham are the State's attorneys and W. M. Kaiser and W. T. Slater are the attorneys for the defendants.

Stipulations were also filed in these cases wherein the attorneys have agreed that the defendant's time for answering be extended to sixteen days from date of filing.  
E. A. Turner has begun suit in department No. 1 of the State Circuit Court, against Mary A. Sweet, demanding judgment for the sum of \$569.65 and his costs and disbursements in the action. Plaintiff alleges that the sum of \$500 is due him as fees for prosecuting the defendant's interests as an attorney-at-law of her father, H. O. St. Rhaudt, deceased, and in prosecuting two suits for partition, and quieting of title, in the second department of the State Circuit Court, and that in prosecuting said suits the plaintiff expended the sum of \$43.75 for disbursements and in addition thereto has incurred liability in the sum of \$26.20. Plaintiff alleges that he submitted a statement of his charges for services, etc., to the defendant, and, although the defendant received such statement and has not disputed it, has failed to pay any part of the amount. Turner & Inman and Carson & Adams are the plaintiff's attorneys.

### In Supreme Court.

In the Supreme Court yesterday two minor orders were made, as follows:  
M. A. Lawrey, respondent, vs. Henry V. Sterling, et al., appellants, ordered that respondent's time to serve and file his brief be extended fifteen days.  
State of Oregon, respondent, vs. Bradley, appellant, ordered on motion that appellant have fifteen days from this date to serve and file his brief.

### NEW BOOKS ADDED

TO THE MASONIC LIBRARY, EMBRACING MANY OF THE LATEST WORKS.

A large number of new books have been recently added to the Masonic library in this city, and the new additions will be thoroughly appreciated by the patrons of that institution. Among the new volumes placed on the shelves are the following:

- "Sky Pilot," by Ralph Connor.
- "The Man from Gilead," by Ralph Connor.
- "The Capt. Gray Horse Troop," by H. Garland.
- "Methods of Lady Walderhurst," by Mrs. Burnett.
- "Mary Waters," by Shackleton.
- "Dorothy Vernon," by Charles Major.
- "Mississippi Bubble," by E. Hough.
- "Crimson Wing," by H. C. Taylor.
- "Leopard Spots," by Thomas Dixon.
- "Conqueror," by Gertrude Atherton.
- "Hound of Buskerville," by Conan Doyle.
- "Stephen Holton," by Charles Pidgeon.
- "Lone March," by S. R. Crockett.
- "Curious Career," by McIlwraith.

NOTABLE DAYS OF THE WEEK.  
May 11th is the 6th Sunday after Easter. It is also the anniversary of the birth in 1776, of Jane Porter, English novelist.

May 12th is the anniversary of the birth in 1709 of Charles Linnæus, the noted Swedish botanist, and practical founder of the science of botany; of Justus von Liebig, in 1803, the great German chemist and founder of the science of organic chemistry; of Robert C. Winthrop, in 1803, American statesman, orator and author.

May 13th is the anniversary of the organization of Tammany Hall, in 1780, twelve days after the first inauguration of President Washington. St. Tammany's day was formerly a notable one and a formidable rival of July 4th as a public holiday. Tammany was a Delaware Indian chief, of whom many legends exist. Cooper's "Last of the Mohicans," chapters 28 and 29, contains a fine description of him. The organization soon after became a secret political club and has perhaps exerted more influence in New York and even national affairs than any other ever known.

May 14th is the day dedicated in the Catholic calendar to St. Isidore, the plowman, the patron of farmers and of Madrid. The day is a notable one

in the Spanish capital, when the whole city puts on its gayest array. St. Isidore was a native of that city, the son of a laborer, who by his good works became notable and a miracle worker. He was buried in 1172 in St. Andrew's church and in Madrid. As the patron of farmers his aid is invoked in periods of prolonged drought.

May 15th in the Catholic calendar is dedicated to St. Honoratus, patron of bakers. He was a bishop of Amiens, France, in the seventh century. His figure, with the crozier in one hand and three loaves of bread in the other, appears on the banners of French bakers' guilds. St. Brendan the elder is also honored on this day. He was of Irish birth, and abbot of Clonfert in the fifth century. A legend concerning his voyage to discover the island which contained the garden of Eden is said to have had much influence on geographical science, and formed one of the several collateral causes which led to the discoveries of Columbus. Also the anniversary of the birth in 161 of William Henry Seward, American statesman; of Levi Parson Morton in 1824, American banker and statesman.

May 13th is the anniversary of the birth of John Sullivan Dwight, famous American musical composer and critic, of Arthur Seymour Sullivan, in 1842, English musician and composer of comic operas.

May 14th is the anniversary of the birth in 1265, of Dante, the most illustrious of Italian poets; of Gabriel Daniel Fahrenheit, in 1686, the eminent German natural philosopher and inventor of the thermometer bearing his name, the first to use mercury for that purpose and fix the "zero" point; of Timothy Dwight, in 1752, American divine and scholar. Also the anniversary of the organization, in 1783, of the Society of Cincinnati, by officers of the Revolutionary army.

May 17th is the anniversary of the birth, in 1749, of Dr. Edward Jenner, celebrated for introducing the practice of vaccination. He experimented for twenty years under great difficulties. The English parliament rewarded him by a grant of £100,000 in lands and money; of Joseph Locke, in 1836, English astronomer.

### LITTLE SERMONS.

To pity distress is but human; to relieve it is Godlike.—Horace Mann.  
Great success can never come to him who is disturbed at the success of others.—Frank Harrison.

The best thing to give your enemy is forgiveness; to an opponent tolerance; to a friend respect; and to all men, charity.—Mrs. Balfour.  
Men are looking for the idea. Carlyle said: "The idea is in itself. Work out thy condition and working, believe, live and be free."

The helpless man lies on the Jericho road. Who is going to help him. Plenty of priests and Levites pass him by. Is there any good Samaritan who will stop and help him?—Henry Ward Beecher.

"If I can ever get the time," is an expression heard so often. Many of us are too busy to be friendly, hospitable, to visit the sick or sympathize with the unfortunate. In the hurry and rush of living we are losing many of the finer traits that should find expression among us.

Let nothing pass, for every hand must find some work to do; Lose not a chance to awaken love—Be firm, and just, and true; So shall a light that cannot fade Beam on thee from on high, And angel voices say to thee—These things can never die.—Charles Dickens.

### PERSONAL AND GENERAL.

It was said of a Salem man who made a run to the depot, and almost missed his train, that his breath came in knickerbockers—short pants.

The candidacy of Mr. Furnish is gaining in favor in Multnomah county. This is admitted there on all sides. It is probably doing the same all over the state. With the big Republican majority in this state, and with the growing sentiment in favor of keeping Oregon in the Republican column, it is a pretty safe guess (or bet) that Mr. Furnish will be the next Governor. Mr. Chamberlain is having fair sized crowds at his meetings—some newspaper reports to the contrary notwithstanding. But crowds at political meetings do not make votes.

If you have not registered, do it today. This is the last day. If you fail to register, you can vote in June only after going to a good deal of trouble.

After all the notices public are heard from, the registration of voters will not look as small as it appeared a few days ago.

### Lockjaw from Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of Wounds, Ulcers, Sores, Skin Eruptions, Burns, Scalds and Piles. It cures or no pay. Only 25c at Dr. Stone's Drug Stores.

### FAME'S PATHWAY.

Prince and Princess Albert of Belgium have been enjoying a quiet visit at Torquay, England, where nothing was known of their visit until after their departure.

Comparative charts of the navies of the powers, drawn by the Kaiser himself, have been presented to the emperor of Austria by the German military attaché at Vienna.

English Roman Catholics are raising a fund for the purchase of a gold tiara to be presented to the pope at his silver jubilee. The Duke of Norfolk is among the latest subscribers.

Colonel W. F. Switzer of Columbia is called the greatest scrapbook man and collector in the world. During each presidential campaign from 1844 to 1900 he made an exhaustive political scrapbook and indexed it. The books embrace the platforms and current literature of 15 national campaigns, covering a period of 56 years.

The personal household of King Edward consists of 12 persons, whereas Queen Victoria had 20. The 12 are Sir Dighton-Probyn, Sir Francis Knollys, Captain Ponsonby, the commissioner at Balmoral, land stewards at Windsor and Osborne, the secretary, assistant secretary, and three clerks, the privy purse, and the head keeper at Windsor Castle.

### Smith's Dandruff Pomade.

stops itching scalp upon application three to six removes all dandruff and will stop falling hair. Price 50c, at all druggists.

## PAY ENVELOPE

5 Days

Every hour of time he loses figures in dollars and cents in the comfort of his home and in the well-being of his family.

Those figures on the pay-envelope that represent a "lay-off" enforced by sickness have their own story of suffering and struggle. Many times when the man does work, he works in suffering, for he cannot face an altogether empty pay-envelope, because that would mean an empty larder and hungry little ones at home. Very often the figures that represent the loss of time do not represent the total loss of money which has been spent on medicines that did not cure, or been paid to doctors who did not seem to understand the case. Here is a working man's story as he tells it himself, which will appeal to every other worker who knows what it is to "lay off" quite often two and three days in a week" on account of sickness.

"About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connolly, of 535 Walnut St., Lorain, Ohio. "It got so bad that I had to lay off quite often two and three days in a week; my stomach would bloat, and I would belch up gas, and was in awful distress at such times. I have employed and been treated by the best doctors in this city, but got no help whatever. Some said I had cancer of the stomach, others catarrh, others dyspepsia. I have bought and tried everything I saw advertised for dyspepsia and stomach trouble, but continued to get worse all the time. About twelve months ago I was in such a condition that my friends had some fear about my recovering. I called a doctor and he found me, in very bad shape. Hands and limbs were cold and dripping with a cold sweat. He told me that I had a very bad case of chronic indigestion, and ordered an injection of hot soap suds every two hours. I followed his directions and it seemed to relieve me. I was under his treatment until this spring, but did not improve any. By some way or other I happened to get hold of a vial of your 'Pellets,' and I thought they helped me. It was then I wrote to you for advice. You told me that by my symptoms you thought I had liver complaint, and advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets' in connection. These medicines I have taken as directed, and am very happy to state that I commenced to get better from the start, and have not lost a day this summer on account of my stomach. I feel tip-top, and better than I have for ten years."

There are two or three statements in Mr. Connolly's letter which are almost identical with statements made by thousands of others who have been cured by the use of Dr. Pierce's Golden Medical Discovery. This shows that his experience is a common one among working men, and his cure and the means by which it was accomplished are, therefore, matters of interest to every fellow-worker.

"I have employed and been treated by the best doctors in this city, but got no help whatever."

"I have bought and tried everything I saw advertised for dyspepsia and stomach trouble, but continued to get worse all the time."

"These medicines ('Golden Medical Discovery' and 'Pleasant Pellets') I have taken as directed, and am very happy to state that I commenced to get better from the start, and have not lost a day this summer on account of my stomach."

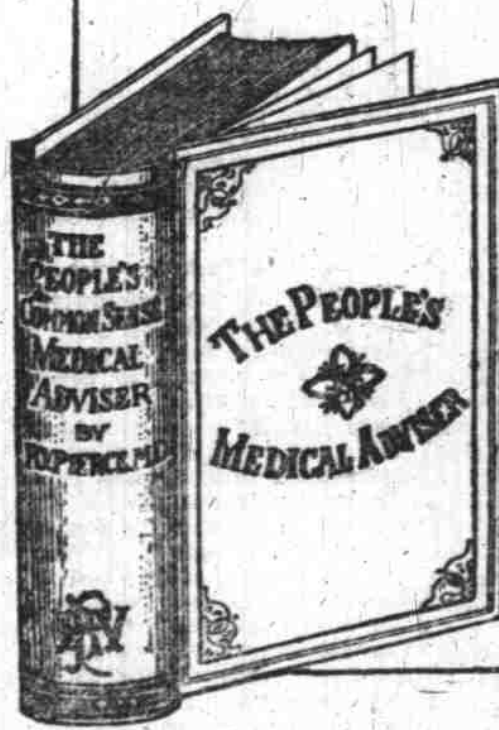

These three facts in Mr. Connolly's experience are borne out by the experience of thousands of others. Doctors employed without benefit. Many medicines used and the condition growing worse instead of better. Finally the trial of Dr. Pierce's Golden Medical Discovery, with improvement from the start and in a short time a perfect and a permanent cure. You have a working man's word for these facts, and the word of thousands of fellow-workers to back him up.

"Have purchased some of your valuable medicines of L. B. Spencer, of Blackstone, Va., and they helped my wife and myself so much that we do not know how to praise them enough," writes Mr. Victor L. Hayden, of Blackstone, Nottoway Co., Va. "I cannot express my gratification in words. I had been suffering from indigestion so badly that I could not work half the time, but now can work every day and eat anything I want. Why? Because I took Dr. R. V. Pierce's Golden Medical Discovery. It has put new life and energy in me, restored my health and made a man of me once more. I used to weigh 170, but had gotten down to 144, now I am back to 160 and will soon be back to my old weight. Your medicine has done it all. I cannot thank you enough for your advice, and think if it had not been for your medicine neither my wife nor myself would have been here many years."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures liver "complaint," heart "trouble," kidney "trouble," and "weak" lungs, because the diseased condition of these organs is frequently only a consequence of disease of the stomach and its allied organs of digestion and nutrition.

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just-as-good" medicine can show.

## YOU CAN'T PAY for Doctor Pierce's

Common Sense Medical Advisor, because it is given away and never sold. This great medical work, containing over 1000 large pages and more than 700 illustrations, is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

## A RALLY AT SILVERTON

CLAUD GATCH ADDRESSED THE REPUBLICANS OF THAT CITY LAST NIGHT.

Hon. Claud Gatch addressed the people of Silverton last night, on the political issues of the day, on an invitation of the Silverton Republican Club, and the rally had in that town was a complete success. Mr. Gatch drove to Silverton last evening accompanied by R. A. Crossan, J. W. Roland and George P. Hughes, and on arrival there the party was met by a brass band, and a committee of the leading citizens of the city. The party was escorted to the hall, which was filled to the doors by the citizens of that place.

Mr. Gatch delivered the address of the evening, and he was listened to with rapt attention from the beginning to the end. He discussed the issues of the day and the principles of the Republican party from an unpersonal standpoint, and he avoided personalities. He argued for Republican control of the state and the Nation and showed that the party's administration had always been followed by prosperity.

The speaker was given flattering recognition by his audience, and at the close to the address it became evident that the feeling among the Silverton Republicans was unanimously for the support of the ticket from top to bottom, that there are no insurgents among the Republicans in that city, but that all will be loyal to the ticket and work for its success.

### CASTORIA.

The Kind You Have Always Bought

## DOWN THE GREAT LAKES

In the old days the trip up and down the great Lakes was the favorite trip of travelers—there were no tourists then. The boats then used did not compare with those on the lakes, and the trip remains the finest one in the world of its sort.

The Northern Pacific, via Duluth, connects with the Lake Steamers, and a trip on the "NORTH COAST LIMITED"—in service again May 5th—and these steamers, to the Pan-American Exposition at Buffalo, will be something to recount to your children's children.

Send six cents for "Wonderland 1901," ready May 1st, to CHAS. S. FEE, St. Paul, Minn.

Any local agent will quote rates.

### AN ASPHALT WELL.

AUSTIN, Tex., May 15.—In the oil fields near here yesterday the drill in a well at a depth of 142 feet dropped into a lake of liquid asphalt which is so thick and heavy that further drilling is almost impossible. The heavy, black stuff oozed up into the well for quite a distance. It is said that liquid

asphalt has been found heretofore only in Trinidad.

The negroes from the Tuskegee Institute who were engaged in 1900 by the German government to teach the natives of Togoland, German West Africa, how to grow cotton have succeeded in producing cotton which is graded above American middling.
