WEEKLY OREGON STATESMAN, TUESDAY, MAY 20, 1902.

of state, no man or no power on earth will haul down that flag in the Phil-ippines. "I am in hearty accord with the Re-

publican platform in reference to the recognition of organized, labor. Hav-ing been a day laborer for a great part of my life, I know how to sympathize with the laborer in the unequal strug-

gle for his rights. "I am unalterably opposed to the proposition of the leasing of the public lands, knowing as I do that such a course would give the rich corporations control over large tracts of public lands, thereby retarding settlement by the homeseekers. I believe the pub-lic lands should be held in trust by the Government for the people desiring to use them for the upbuilding of

"I am in favor of the proposed amendment to the Constitution prcviding for the initiative and referendum, and I trust that the people will see to it that there is a large ma orit in favor of the amendment at the coming election

"I am also in favor of placing all public officers of the state upon reasonable and fixed salaries, which, in the language of the Republican plat-"shall not be increased during form, the incumbents term of office, and beyond such salary that they shall receive no compensation as fees or otherwise.'

"I am equally in favor of all of the other principles adopted by the State Convention:

"Now, in conclusion, I desire to thank each and all of you for this handsome reception, and this demonstration of Republican enthusiasm, which I think should be more, correctly termed demonstration of patriotism.

"Now, when I come to Salem to live, trust you will find me an agreeable neighbor, as I know in advance I shall find all of you.

"I thank you for your kind attention."

When Mr. Furnish concluded his address, being frequently interrupted and his strong points emphasized by vigorous applaudings, he was accorded a remenduos ovation which made the nuge roof timbers fairly vibrate. Mr. George Snyder then favored the udlence with a vocal solo, entitled, The Flag That Has Never Known Defeat," in a very touching manner and was given a very enthusiastic encore. Hon. C. W. Fulton, the principal speaker of the evening and one of the ablest orators on the Pacific Coast was next introduced and the mere mention of his name brought forth a great demonstration from the mass of people Mr. Bulton displayed a very hoarse voice when he began to speak and it was delivered through a great effort and ho little distress on his part but, nothing daunted, he launched out upon one of the most interesting and logical addreesses that it has been the good fortune of Marion county people to hear for many a day and it was duly appreciated. Mr. Fulton's address appears in another column of this issue of the Statesman.

At the conclusion of Senator Fulton's magnificent address three cheers were proposed for the Republican party and

The skin is provided with millions of little pores and glands invisible to the natural eye, yet through these tiny outlets the larger part of the deadly matter that daily collects in the body is carried off. But nature never intended that poisons of an irritating or acid

character should be eliminated through the skin, the Liver and Kidneys being their natural outlets, and it is when these important organs fail to perform their functions that these acid poisons are absorbed into the blood and find their way to the surface of the body through the pores and glands of the skin, producing intense itching and burning, inflammation and swelling, and eruptions of every conceivable size, shape and character.

Skin Diseases differ greatly in their general characteristics and degrees of intensity. Red and angry looking spots break out upon some part of the body with a mass of small pustules or blisters, from which is discharged a clear or straw colored fluid, which dries and flakes off in bran-like particles and scales, or forms into hard and painful sores and scabs. The skin often hardens and dries, cracks and bleeds from the effects of the fiery acids,

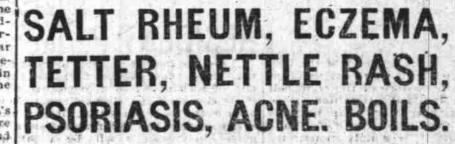

which the blood is continually

throwing off. Pimples, blackheads and blotches are evidences of a too acid blood, which has inflamed and clogged the pores.

Skin Diseases being dependent upon the same causes require the same treatment, which must be constitutional and not external. Nothing applied locally to the inflamed surface can bring much relief. The disfiguring eruptions will continue to annoy and pain

you in spite of soaps, washes or powders. There is no hope of getting rid of a skin disease except through the purification of the depreciated blood and neutralizing and filtering out of the circulation all poisonous substances and acids.

The purifying and tonic properties of S. S. S. soon manifest their influence in skin affections; the debilitated system is invigorated and toned up, and the gradual disappearance

In 1883 I broke out with Eczema on my head, legs and arms. The Doctors treated me for about two years without giving relief. I next tried various pintments, soaps and washes, but these did me no good. I finally quit taking medicine, as the physician said the disease had become chronic and incurable. Having endured this tormenting malady for about 16 years, I determined to make another effort to get rid of it and began S. S. S. in July, 1900, and continued it until November, when I discovered, to my surprise and joy, that not a spot could be found on my body, which before had been almost covered with the eruption.

It has now been nearly a year since the disease disappeared, but not a sign of it has ever returned, and I am satisfied the cure is permanent. F. C. NORFOLK, 1017 Hackberry Street.

of the eruptions show that the polluted blood is being brought back to its natural purity and strength. Old chronic skin disorders, which have resisted all the ordinary methods of treatment, readily yield to the curative powers of S. S. S., and there is no reason why the long time sufferer should feel resigned to his fate under the mistaken idea that some skin diseases are incurable, for S. S. S. has cured and is still curing cases perhaps far more desperate than yours. S. S. S. is a purely vegetable remedy, containing no Potash, Arsenic or any of the poisonous drugs which constitute the basis of so many so-called skin cures, Our Medical Department has been of the greatest assistance to thousands seeking relief from blood and skin troubles. Write us fully about your case, and our physicians will help you, for which no charge whatever is made. Our illustrated Book on Skin Diseases will be sent free to all who write for it. Salem last night witnessed one of | become better acquainted with you. the greatest-if not the greatest-political demonstrations ever held in Salem, the occasion being the Republican rally, and the opening of the campaign in Marion county. In spite of the bad weather, the steady falling showers, and the muddy streets, it was one of the most magnificent spectacles ever seen in the Capital City on the occasion of a political rally, and the Republicans of Salem and Marion county. proved beyond the shadow of a doubt that they are loyal to the ticket and propose to support it heartily, and that they are not insurgents. The roin had failen all day, and many farmers were kept away from the city, while many others, who had come in, 'eft for their homes on account of the inclement weather. But this did not cause a failure of the demonstration, nor the interest in it, for the streets were packed with people for an hour before the demonstration, all of Marion county appearing to be out to do honor to

Bearer

FURNISH IS GREETED

Greatest Demonstration Ever Seen in the Cap-

ital City in Honor of the Republican Standard

· 新新市市 (1997年1月1日) (1997年1月1日)

the Gubernatorial Candidate - Address by Mr. Furnish and C. W.

Fulton - Enormous Crowd, Flambeaux, Red Fire and Pyrotechnics -

Regsing Rally of the Party Last Night on the Occasion of the Visit of

Salem Republicans Showed Their Loyalty to Their Leader.

the Republican standard bearer. Hon. W. J. Furnish and Hon. C. W. Fulton, arrived in Salem on the 6;19 p. m. train, and they were met at the station by a reception committee with carriages and taken to the Hotel Willamette, where the visitors were met by a large crowd of Republicans. Here an informal reception was held until the time for the parade. At 6:30 o'clock the four bands - Silverton. Chemawa, Reform School and Salemtook up positions on different street corners, and rendered - musical' programmes until 7:45 when they marched to the Hotel Willamette where the parade was formed, in the order given in the Statesman yesterday.

Promptly at 8 o'clock the parade started from the hotel, down Commercial street, led by Chief Marshal C. A. Murphy, the Salem Military Band and the Flambeaux Club, followed by the party officers, Mr. Furnish, Mr. Fulton, and the county officers, the rest of the procession, six blocks in length, com- ers, as, after all, the duty of your chief Hon. W. J. Furnish which were given ing in the order published yesterday. The procession, a most brilliant spectacle, passed through the streets, amid the cheers of the assembled thousands that lined the sidewalks, amid red lire, the booming of bombs, and the stirfing sound of martial music, to the city hall armory. It was a great demonstration, and one that will long Le remembered by the citizens of Salem as the biggest and most successful rally ever held in the city.

When I come to Salem in January, next will not come with the intention of doing much talking; in fact, I am not much of a talker, either in public or private. But I do expect to come to take up the reins of Government where your own honored citizen, His Excellency, Governor Geer, lays them down. and it shall be my aim to carry forward the good work which he has begun, and to keep up the high standard of Government which the Republican party always guarantees.

WITH ENTHUSIASM

"Being accustomed to the manage-ment of business affairs requiring close attention to details, I shall expect to devote a great deal of time and labor to familiarize myself with the details, of all of the state institutions and exercise my influence and power as the chief executive of the state to see that every state institution and every department thereof, as well as every department of the state Government, is managed with the strictest integrity, and with the greatest possible econo-

my consistent with good Government. "We have just witnessed, and are now experiencing a period of prosperity during which all lines of industry and business have grown to a magnitude far beyond anything ever yet known in our country, or for that matter, in any other country; and it is but natural that the business affairs of a great and growing state like ours should grow in like proportion, thus necessitating the expenditure of many hundreds of thousands of dollars annually to maintain the state Government. In the great business affairs of the state, we are all deeply interested. Those who pay the taxes are interested as taxpayers, and all lovers of good **Government and American institutions** are interested in seeing that we have a vigorous, just and upright administration. I think that the people in choosing a Governor should exercise the same care and judgment which they would do in selecting a business manager for a great private business in-stitution of which they were the own-

At the Armory.

The spacious armory hall was completely packed with a more eager and expectant crowd than has been its custom to contain: every seat that could be procured for the occasion was occupied and the crowd was packed like sardines in the aisles, every inch of standing room being utilized, while the stairways were packed to the sidewalk and the street surrounding the building.

The stage, which was occupied by Hon. W. J. Furnish, Hon. C. W. Fulton, Prof. J. H. Ackerman, Hon. Claud Gatch and the Marion county Repubtican candidates, including Squire Farrar, E. M. Croisan, A. M. La Follett, J. D. Simmons, Frank Davey, Thos. B. Kay, J. W. Roland, J. F. Stelwer, Chas Lembcke, B. B. Herrick, Jr., A. M. Clough, and Wm. Miley, was very beautifully and appropriately decorated. Upon one side of the front of the stage was placed upon an easel, a life size portrait of Hon, J. W. Furnish, and upon the opposite side a portrait of Governor T. T. Geer, while suspended overhead at the left front of the stage, was a small American flag in the center of which was another portrait of Mr. Furnish. A large table. upon which was very artistically draped a large flag, which supported a magnificent bouquet of red pinks, formed a very beautiful centerpiece, while the effect of the whole was heightened by a background formed by a huge flag which covered the entire back wall of the stage, and nestling cosily in its graceful folds, was a life. size portrait of President Roosevelt. Hon. Claud Gatch, one of Salem's most patriotic citizens and a stauhch supporter and expounder of Republican principles, and who can be depended upon at any and all times to do and say the right thing at the right time, presided at the meeting, and in a few brief sentences expressed the disappointment which was experienced on account of the absence of Governor T. T. Geer who had promised 'to preside at the meeting but had gone out of the city on business and had not returned.

The first on the evening's programme was a song, "Pale In the Amber West," by the Stalwart Quartette, which so delighted the audience that they were obliged to respond to a rousing encore which they did with a campaign song entitieff, "All On a Bright June Morning," a burlesque on the present campaign which was very amusing and elicited a strom of applanuse.

Mr. Gatch then introduced Mr. Furnish in a few well chosen terms such as Mr. Gatch is capable of, referring to him as the patriotic standard bearer of the Republican party and a man who would not, in the phraseology of President Roosevelt, "allow the Old Flag to come down from where it had been once put;" and when Mr. Furnish advanced to the front of the stage he was greeted with deafening ap; plause which he acknowledged very gracefully, and addressed the audience

executive is to manage the affairs of state, to see that every institution, and every department thereof, is properly equipped and efficiently and economically managed.

"Should you elect me Governor, as believe you will, I shall not attempt to pose as a reformer who already knows more about the affairs of the state, and the management of the various institutions, than all of the tried and experienced officials and employees; but shall take great care to familiarize myself with all of the business affairs of the state, recognizing efficiency and devotion to duty with the good of all the people of the whole state in mind.

"I will make my home with you in Salem and devote my whole time to the welfare of the interests of the state, and to use all my power to enforce and uphold all the laws of the state with perfect justice to each and all classes of citizens, and to every section of the state; in other words, shall use all the power and influence which I may have to give the state a vigorous, honest, upright, business-like administration in every department thereof, and in detail.

"I am in thorough accord with the Republican party of Oregon, as defined in its declaration of principles adopted by the State Convention. I stand fairly upon the platform as adopted There is not an unsound plank in the platform; on the other hand, there is not an important issue before the people of the country today which the Repubican party has found it necessary to dodge or straddle. It has taken a positive and aggressive stand on the right side of each and every public question before the people at the present time.

"I not only endorse the platform as adopted, but I am glad to have an opportunity to assist in the advancement of every principle therein enunciated. "The Repunblican party in its plat-form has declared absolutely against all proposals looking to the abandon-ment by the United States of the Philippines. This question is by far the most important question before the people today; and the one in which the people are the most: deeply interested and especially the people of this Coast and this state who have so much to expect from the development of our new-found possessions.

"I am in hearty accord with our party upon this question. I am proud to be identified with a party which has the manhood and courage to declare boldly for the right, and which Insists upon a fight to a finish to uphold our National honor and good name among all the nations of the earth.

"We are proud of our National administration, as administered by our late great and good President, William McKinley, who controlled our destinies through the late Spanish war, having steered our course clear of every breaker to a successful consummation of one of the grandest achievements in history.

"We are also, indeed, a fortunate people to have the strong and vigorous President Robsevelt to shape our destinics, and to assume the responsibilities thrust upon us by the fortunes of wan; and I have great faithethat the people of Oregon, by their votes in June, will show to the world that we appreciate the great services rendered the country by our National adminis-tration, and that the people of Oregon intend to uphold it. Let us by our votes in June inform all the world that MR FURNISH'S ADDRESS. "I do not appear before you to talk to you, but selely to meet you and to

with a vim and ardor that would put a regiment of soldiers to shame, and the crowd passed out while the Chemawa Indian Band discoursed a beautiful selection of music.

An Overflow Meeting

When the spaking began in the Ar mory, it became evident that, though of the crowd were in the hall-not half of the crowd had entered, as there was no available room, and Hon. Frank Davey passed outside, and from the steps of the city hall delivered an address before a couple of thousand people, crowded on the steps, on the sidewalks and in the streets. He discussed the issues briefly, and put some telling blows for the state and county tickets. He was frequently interrupted with cheers, his effort being thoroughly appreciated. When Mr. Furnish had finished his address in the hall, that gentleman joined Mr. Davey on the front steps and the gubernatorial candidate was received with a rousing cheer. He made a brief business talk to the crowd, and at his conclusion he was given three cheers and a tiger, after which the crowd dispensed, and Messrs. Furnish and Davey returned to the hall.

After the meeting several old-time Democrats came up to Mr. Furnish, shook hands with him and assured him of their support.

THE BLIND SCHOOL

PROMINENT EDUCATOR, AFTER A VISIT, URGES ALL BLIND TO ATTEND IT.

A prominent educator of the state recently visited the Blind School and in- Sante Marier and La Trinite are panspected its workings. He wishes first ic-stricken. to commend its management and the care and culture of the children attending there. But he wishes specially to urge parents having blind children to send them when they are young, and let them early in life begin to learn, for they are handicapped badly enough even when offered every possible advantage. Parents of afflicted children doubtless feel for them an especial tenderness, and endeavor by care and loving kindness at home, to make their lives pleasant. While this is meant for the best, it seems to be not fruitful of the results for the best interest and happiness of the child. It should be afforded the adaptages offered by the Blind School at the earliest practical age. Parents may think the children at the school do not receive the loving care, which they feel the afflicted should have, but I wish to assure them that the tact and care exercland by Superintendent and Mrs. G. W. Jones, and the teachers, would meet their heartiest approval if they should investigate the workings of the

school. The patience and sympathy shown the pupils to promote their advancement, increase their happiness and make them satisfied and at home are both remarkable and successful.1

Men Will Be Boys.

In the excitement of a lively exercise like boat racing or ball-paying, they will strain their muscles and go home Hinping and sore. Then they are glad they have Perry Davis' Painkiller on hand to soothe the quivering nerves: to penetrate the muscles with warmth and healing power. It has aclieved the meeting with tremendous success. Re-pain of two generations of Americans, cently he had great meetings at The weed will give back to the land the There are perhaps plenty of States-Large bottles 25 and 50 cents.

It is a noticeable fact that but few farmers seem to care about the apfrom a letter received from Portland than may be necessary to restrain the the night before the Stae Fair in 1870 recently: that has a cleared up appearance, but ber which.
