

SCIO MAN IS SENT TO JAIL

Charged With a Criminal Assault on a Jefferson Girl

WAS FORMERLY ENGAGED TO BE MARRIED TO THE YOUNG LADY—A BUGGY RIDE AND WHAT CAME OF IT—HELD TO CIRCUIT COURT.

Emery Sharp, a blacksmith of Scio, was brought to this city yesterday from Jefferson, by Constable W. L. Jones, and confined in the county jail, having been bound over to the circuit court in the sum of \$250 to answer to the charge of rape, alleged to have been committed upon Miss Birdie Fuller, of Jefferson, aged 19 years.

According to the information obtained upon the matter from an authoritative source, Sharp and Miss Fuller have been on very intimate terms for about six months and were engaged to be married, but the girl's parents, especially the father, did not approve of the match and were instrumental in having the engagement broken, and the young people had been at outs for some time.

On Monday evening, May 12th, Sharp drove up to the home of the family in Jefferson, where Miss Fuller was employed, and calling Miss Fuller out, told her that her brother had been injured in the woods and wanted her to come to him. Miss Fuller got into the buggy with him and they drove away.

According to some of the evidence produced by the prosecution at the preliminary examination, which was held in Justice of the Peace S. T. Johnson's court of Jefferson, on Monday and Tuesday of this week, Sharp drove out to what is known as the "green bridge" about three miles from Jefferson, where he threatened the young lady with violence and succeeded through force in outraging her. Sharp testified, however, that when they had driven a short distance, he and Miss Fuller had patched up their differences and were once more upon good terms and that he told her that he had deceived her as regards the injury to her brother, and when she asked him why he had done so, he told her that he was contemplating going away on the following day and resorted to that ruse in order to get her out so that he could explain matters and bid her good-bye. He claimed that she begged him not to go away and he consented to stay.

Sharp claims that they became affectionate but, although she objected to his intimate advances, the only threat that he made was to threaten to compel her to walk back to town if she did not submit to his desires, which, she said, was not in earnest. Sharp stoutly declared his innocence of having committed any crime, such as that with which he is charged.

This all happened on Monday night of last week and no action was taken in the matter until on last Saturday when a warrant was sworn out by the girl's father and Sharp placed under arrest.

SCHOOL SUPERINTENDENT MOORES WRITES A LETTER TO MR. WANN.

The following letter has been sent to Mr. Wann, candidate for Superintendent of Public Instruction on the Democratic ticket. The answer is anxiously looked for:

Salem, Or., May 19, 1902.
Mr. W. A. Wann, Eugene, Oregon.
Dear Sir:—In your address at Salem last Saturday you made the statement that a child was required by the state course of study for the Oregon schools to study nine books during the first year of the primary grades. By referring to the course and also the report of the Text-Book Commission I find that only two are required, viz.: Wheeler's Graded Primer and Cyr's First Reader, aside from a drawing and a writing book. Will you kindly inform me and the rest of the voters of Oregon, through the columns of the Oregonian, what the other seven books are to which you referred?

You say that the pupil is required to study 140 books in the eight grades. Is it not a fact that this statement is misleading and that only twenty books, seven of which are readers, are required during the eight years? Is it not also a fact that the remaining 120 books were not ADOPTED by the Text-Book Commission, but were merely suggested by it as suitable supplementary reading and without the least intention that pupils should purchase any one of them, but if the district board desired to purchase a library with school funds, it might have a suitable list from which to select?

Further, can you cite a single school in the state where pupils have been required to purchase these books for use as text-books? You also say there are too many subjects taught. Will you kindly inform us which you would omit from the course?

Believing that you wish to make your position clear on these important questions, I take the privilege of thus addressing you openly. An answer will enable the people of Oregon to vote intelligently on the questions at issue. Yours, truly,

E. T. MOORES,
Supt. Marion County Schools.

EDITORIALS OF PEOPLE

FEES AND PERQUISITES—HOW THE SYSTEM ORIGINATED AND HAS INCREASED.

Editor Statesman:
Will you please publish the following communication which appeared in the Oregonian on Sunday last.

SUBSCRIBER.
Salem, Or., May 21, 1902.

Salem, Or., May 15.—(To the Editor)—I read your very able editorial in the Oregonian of the 5th inst., urging constitutional objections to the flat salary proposition for all state officials, and also showing that the state system which has grown up in this state of allowing fees and perquisites to the state officials is in direct violation of our state constitution. I have since been look-

ing into the matter somewhat and it seems to me that your argument against the fees and perquisites is unanswerable.

This "perquisite" system originated in 1854, when the Legislature passed an act allowing the Governor an annual salary of \$200 for inspecting the Penitentiary at least four times a year.

This was clearly a "perquisite" and in direct violation of the constitution, but it seems it was such a small sum that the people did not notice it.

This seems to be the only "perquisite" allowed to Governors from that time until Governor Moody's term of office, beginning in 1883, since which time the "perquisites" of the several state officials have been multiplied at each succeeding Legislature until it now requires much time to look them up through the various session laws.

The Governor's "perquisites" have gone up from \$200 until they are now \$2750 a year, in addition to his constitutional salary; the Secretary of State's "perquisites" have gone up until they are now somewhere between \$10,000 and \$12,000 a year above his constitutional salary, and the State Treasurer's "perquisites" have gone up until they are now about \$4500 a year above his constitutional salary.

All the state officials, whether Democrats or Republicans, have accepted the "perquisites" doled out to them at the various sessions of the Legislature except Governor W. W. Thayer. He served from 1878 to 1882, and he declined to receive \$200 a year as prison inspector, which was then the only "perquisite" allowed to a Governor, and I am informed that Governor Thayer refused the "perquisite" on the ground that it was unconstitutional.

This "perquisite" statute was amended in 1901, raising the amount to be annually paid the Governor from \$200 to \$500 as prison inspector. This same Legislature made said amendment retroactive and gave the Governor a "back perquisite" of \$300 for the years 1899 and 1900.

An examination of the records will show that the "perquisites" of the several state officers have increased three-fold since 1883, and in the case of the Governor more than twelve-fold.

With this in view, is it any wonder that the taxpayers are asking that our state officials be placed upon reasonable flat salaries? However, you argue in your able editorial that this would also be unconstitutional, but you admit that if applied to all the officials of the state it would prove a more economical way than the present "perquisite" system.

When the constitutional convention was in session which fixed the salaries of the state officials, an amendment was offered to add the words "and no more" after each official's stated salary, and the amendment was debated and voted down.

Now, it is apparent that the taxpayers of the state of Oregon are sick and tired of our "fees and perquisites" system, and the people of all the parties through their several state conventions demand that our state officials be placed upon reasonable flat salaries by our next Legislature. Herebefore no such general demand has ever come up from the people of the state of Oregon.

When the people unanimously demand that their state officials be placed upon flat salaries, does not that amount to a decision by the people themselves interpreting the amount fixed in the constitution as the minimum to be allowed as salaries to the state officials and that the same may be raised whenever found to be inadequate for the services of any state official?

It seems to me that the unanimous voice of the people enlightened by object lessons operating against their interest should be as the voice of God unto their public servants.

"INCURABLE" HEART DISEASE SOON CURED

During the last two or three years very great improvement has been made in the treatment of diseases of the heart. Cases formerly considered incurable now readily yield to new remedies. The well known specialist in treating heart diseases, Franklin Mills, M. D. LL. B., of Chicago, will send \$3.50 worth of his new special Treatment free to any of our afflicted readers.

This liberal offer is for the purpose of demonstrating the unusual curative powers of his new Treatments for heart troubles, such as short breath, pain in the side, oppression in the chest, irregular pulse, palpitation, smothering spells, puffing of the ankles or dropsy.

They are the result of twenty-five years of careful study, extensive research, and remarkable experience in treating diseases of the heart, stomach and nerves, which often complicate each case.

The Treatments are prepared expressly for each patient, and the result is very much more certain and satisfactory.

Few physicians have such confidence in their remedies. And there is no reason why all afflicted persons should not avail themselves of this liberal offer. No death comes more suddenly than that from heart disease. Thousands die unnecessarily each year because most physicians do not understand these cases.

Mrs. Frank Smith, of Chicago, was cured of heart dropsy, after five leading physicians had given her up. Mr. Keister, of Chicago, was cured after failure of ten able physicians.

A thousand references to, and testimonials from, Bishops, Clergymen, Bankers, Farmers, and their wives will be sent free on request. These include many who have been cured after from five to twenty or more physicians and professors had pronounced them "incurable." Among them are H. A. Groce, 504 Mountain St., Elgin, Ill.; Mrs. Sophie Snowberg, No. 232 21st ave., S. Minneapolis, Minn.; Mrs. A. F. Colburn, Blessing, Ill.; Mrs. M. B. Morelan, Rogers, O., the presidents of two medical colleges, etc.

Send at once to Franklin Mills, M. D., L.L. B., 209 State St., Chicago, Ill., for full treatment before it is too late, and please mention this paper.

WELL KNOWN ATHLETE WEDDED

NEW YORK, May 22.—Dr. Alvin C. Kraenzlein, the well known athlete of the University of Pennsylvania, now a practicing physician in Milwaukee, has just been married at Belmar, to Miss Claudine Gilman, daughter of B. T. DOLLIVER IS COMING HERE

Noted Campaigner of Iowa Will Speak in Salem Monday

HE IS ONE OF THE LEADING STUMP SPEAKERS OF THE HAWKEYE STATE AND IS CAVASSING OREGON NOW—THE COUNTY CANDIDATES AT WORK.

V. B. Dolliver, the noted Republican campaign speaker, of Fort Dodge, Ia., who is in Oregon to make the campaign for the party in this state, began his work in Southern Oregon yesterday and is working this way. He will be in this city on Monday evening next, and will speak at the New Grand Opera House at 8 p. m. Mr. Dolliver is a farmer in Iowa, and was at work in his field when the request came to him to come to Oregon and help in the campaign here. He is one of the leading Republican stump speakers of Iowa, a brother of United States Senator Dolliver, and stands high in the councils of his party.

This meeting has been widely advertised throughout Marion county, and it is expected that a large crowd will be in attendance to hear Mr. Dolliver speak. His discussion of National issues has marked him as one of the leading political orators of the day, and he is certain to say many things of interest to the Republicans and Democrats of Marion county, and all should turn out to hear him.

On Sunday evening Mr. Dolliver will deliver the address on the occasion of the Memorial Sunday services at Woodburn, and on Monday afternoon he may deliver a campaign speech at Silverton, if it can be arranged.

On Saturday evening (tomorrow) Hon. Tilmon Ford and John H. McNary will go to Gervais, where a mass meeting has been arranged, and the two will speak on the political issues, especially on Oregon state politics. A large attendance is assured these two speakers, as politics are warm in that neck of the woods.

The Marion county candidates spent yesterday at Gates and Mehama, and they addressed good-sized audiences at both places. The Republicans of that section were enthusiastic, and the candidates of that party enjoyed a reception seldom received on the campaign. The Republicans are getting decidedly the best of the canvass, and are making votes at every stage of the fight, while in like ratio the Democratic candidates are gradually losing ground, according to reports received from the seat of war. As one of the gentlemen on the canvass expressed himself yesterday, "All the ticket is safe in Marion county."

Following is the itinerary for the balance of the eight days' canvass:

- Friday, May 23—Macleay, 1 p. m.; Silverton, 8 p. m.
- Saturday, May 24th—Scotts Mills, 10 a. m.; Mt. Angel, 2 p. m.
- Monday, May 26th—Gervais, 10 a. m.; Monitor, 2 p. m.; Woodburn, 8 p. m.
- Tuesday, May 27th—Butteville, 10 a. m.; Hubbard, 2 p. m.; Aurora, 8 p. m.
- Wednesday, May 28th—Champoeg, 10 a. m.; St. Paul, 2 p. m.
- Thursday, May 29th—Brooks, 10 a. m.; Howell, 2 p. m.
- Saturday, May 31st—Salem, 8 p. m.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: "Our three children took the whooping cough last summer, our baby being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our

HOUSEWORK

Housework is hard work under the most favorable conditions. It demands hours of sweeping and dusting, of stooping and rising, of lifting and pushing as the furniture is moved about. Yet housework is healthy work so long as it brings only the natural tiredness due to active exercise. Many a woman can look back to the days when she bustled energetically about her household duties happy in the homewerk. Then there came a time when she worked more slowly and when her task was done sank down utterly exhausted. Later there came a time when slight effort caused excessive fatigue. She had to work slowly and rest often, and to the weariness she felt was added pain. When she stooped it felt as if her back would break. Her head throbbled violently. She suffered from bearing-down pains. Then came a time when to do the housework was impossible, and she must go to bed, or just manage to keep up enough to overlook the work of others. That is a common experience among women. It is told over and over in the letters which grateful women write after being restored to health by the use of Dr. Pierce's Favorite Prescription.

"With pleasure I write to-day in praise of Dr. Pierce and his medicines," says Mrs. Mary Coway, of Appleton, Lawrence Co., Tenn. "I was troubled with female disease; the back of my head hurt me so I could not lie in bed, and I would have to sit up and then I would have such pains from my waist down I could scarcely rise up. My feet and hands would feel almost like ice. Since taking Dr. Pierce's Favorite Prescription I can sleep well all night. Could hardly drag around before I took your medicine, and now can do my housework and help my husband in the field. Had throat trouble and my throat would swell so I could not get my mouth open to eat. Since taking your medicine the trouble has not returned. Words cannot express the thanks that I owe to Dr. Pierce."

Dr. Pierce's Favorite Prescription restores weak and sick women to sound health, by curing the local womanly diseases which are generally responsible for the failure of the general health. A woman's entire being is centered in her womanly nature. When the delicate womanly organism is attacked by disease; when there is irregularity or a disagreeable drain; when inflammation, burns and ulcers gnaw, the general health will reflect the progress of disease, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness. Dr. Pierce's Favorite Prescription cures all these ailments, and cures them perfectly and permanently. It wipes out the record of suffering as a child wipes a sum from a slate. It makes the woman feel like a new woman, and look like one, because it rounds out the form and restores the healthy color to the face.

"With a heart full of gratitude to you for sending out over the land your wonderful medicine I send these few lines, hoping that some other poor suffering women will try Dr. Pierce's medicines," writes Mrs. Cora L. Root, of Greenspring Furnace, Washington Co., Maryland. "I had suffered severely from female weakness and had to be in bed a great deal of the time. Had headache, backache, and pain in left side when lying down. I commenced taking Dr. Pierce's Favorite Prescription, and had not taken two bottles when I was able to be around again and do my work. Can now eat anything and it never hurts me any more. Have taken seven bottles of Dr. Pierce's Favorite Prescription, and one of his 'Compound Extract of Smart-Weed' and several vials of 'Pleasant Pellets.' Feeling better every day. I thank you for your kindly advice. My husband is pleased with the effect of your medicine, and says I look better every day."

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It changes irregularity to regularity. It dries the drains which are so weakening to women. It heals the inflamed and ulcerated organs, and cures female weakness.

Dr. Pierce invites sick and ailing women, especially those suffering from diseases of long standing, to consult him, by letter, free. All letters are promptly read and answered in the strictest confidence. This offer of free consultation by letter places at the disposal of suffering women the advice of Dr. Pierce, a specialist in the treatment and cure of womanly diseases, who, assisted by his medical staff of nearly a score of physicians, has, in a little more than thirty years, treated and cured hundreds of thousands of weak and sick women. Write freely and fearlessly to Dr. R. V. Pierce, Buffalo, N. Y.

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious preparations, will offer a substitute for "Favorite Prescription" as "just as good." Judged by its record of cures of womanly ills, there is no other medicine just as good as "Favorite Prescription."

THIS BOOK IS FREE! On receipt of stamps to pay expense of mailing ONLY, a copy of Dr. Pierce's great medical work will be sent FREE. Dr. Pierce's Common Sense Medical Adviser contains more than a thousand large pages and over 700 illustrations. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

In the old days the trip up and down the great Lakes was the favorite trip of travelers—there were no tourists then. The boats then used did not compare with those on the lakes, and the trip remains the finest one in the world of its sort.
