

PHILIPPINE BILL DEBATE

Effort to Fix the Time for the Vote Made

NICARAGUA CANAL BILL

And Cuban Reciprocity Measure Are Also Considered

PATERSON CONTINUES HIS ADDRESS AND URGES INDEPENDENCE FOR THE FILIPINOS WHEN THE SHALL ESTABLISH A GOVERNMENT.

WASHINGTON, May 27.—A fruitless effort was made just before the adjournment of the Senate today, to secure an agreement on the time for the vote on the Philippine bill. The discussion indicated that some day next week eventually would be agreed upon, but no time was fixed. During the discussion a proposition was made that the time be fixed on alternate Tuesdays, beginning next week, for a vote on the Philippine bill, the Nicaragua Canal bill, and the Cuban reciprocity bill, and that final adjournment be agreed on for the fourth Tuesday, but it was too starting to be taken seriously, although some Senators regarded it favorably.

For several hours today Paterson discussed the Philippine question, concluding his speech began yesterday. After reviewing and commenting on the general Philippine question, he attacked the pending bill, particularly its provisions regarding the holding of lands, which he declared was monstrous and never should be included into the law. He urged that the Philippines be granted independence, and drew an eloquent word picture of the turning over to the Filipinos, by the United States, of the islands when they had established a Government.

Conferees Agreed.

Washington, May 27.—The conferees of the two Houses of Congress on the river and harbor bill, today reached a final agreement on that bill. The exact figures showing the aggregate result of their work have not been determined, but it can be stated that of the \$5,500,000 appropriations added by the Senate, only about \$4,500,000 was retained. As the bill will be reported it makes a total appropriation of about \$65,000,000 in direct appropriations and for work authorized.

The appropriation for the improvement of the Dulles was amended to reduce the amount, containing the contract, from \$400,000 to \$314,000, and a proviso is inserted at the end of the paragraph that and before entering on any work an examination shall be made by the Board of Engineers, with such a way as to diminish the cost thereof and if the project can be modified the work is to be done in accordance with such modifications. Otherwise it is to go in accordance with the project submitted by Captain Hartz.

The important Senate amendments include following:

Tacoma harbor, \$100,000 continuing the contract, instead of \$222,000; Columbia river canal at Celilo falls, Senate language retained, and an appropriation of \$100,000, instead of \$400,000, as originally provided by the Senate; for preliminary examinations and surveys generally, \$300,000 instead of \$250,000 as provided by the House. Most of the amendments made by the Senate for large improvements were disagreed to, and will go out of the bill if conference report is accepted.

HANNA IS CHEERED

THE REPUBLICAN CONVENTION IN OHIO GREETES THE SENATOR WITH ENTHUSIASM.

CLEVELAND, O., May 27.—The armory was well filled when Hon. P. H. Durr, of Cincinnati, called the Republican State Convention to order this afternoon. The leaders, notably Senator Hanna, Governor Nash, General Grosvenor and visiting politicians, were cheered as they entered. Governor Nash was announced as the temporary chairman. He was tendered an ovation on being introduced. He spoke at length of the action of the State Legislature in regard to taxation and corporations.

After the completion of routine business there were calls for Senator Hanna, until he was compelled to respond, but he refused to discuss public questions in advance of the address of the permanent chairman. After a demonstration in honor of Senator Hanna, the convention adjourned until tomorrow.

MORE BOERS SURRENDER

LORD KITCHENER IS SLATED FOR THE ADJUTANT GENERAL'S BILLET.

LONDON, May 27.—A dispatch to the Daily Telegraph, from Pretoria, reports that 200 Boers have surrendered at Frankfort, Orange River Colony. The statement is issued by a news agency that Lord Kitchener will become Adjutant General to the forces, instead of taking command of the Indian army, as previously reported.

INVESTIGATION IS MADE

OF THE CONDITIONS LEADING UP TO THE DISASTER IN BRITISH COLUMBIA.

VANCOUVER, B. C., May 27.—A special from Fernit, B. C., says: There will be no whitewashed verdict rendered by the coroner's jury, which will recommence the inquiry into the mine disaster Friday. The Miners Union has retained counsel to look after the interests of the miners. The jury is composed of merchants of

Fernit, who are free handed in the matter which they will have to consider. The public demand for an official investigation, apart from the inquiry of coroner's jury, is becoming more insistent, and it is predicted that the verdict of the coroner's jury will be such as to force the Government to act. So far seventy-two bodies have been recovered.

THE CANVASS CONTINUES

REPUBLICAN COUNTY CANDIDATES ARE DOING GOOD WORK.

The Marion county joint canvass goes merrily on, and the Republican speakers are getting by far the best of the bargain. Yesterday the candidates were at Butteville in the forenoon; at Hubbard at 2 p. m., and in Aurora last night. The canvass continues today, as follows: Wednesday, May 28th—Champoeg, 10 a. m.; St. Paul, 2 p. m. Thursday, May 29th—Brooks, 10 a. m.; Howell, 2 p. m. Saturday, May 31st—Salem, 8 p. m. Chairman W. J. Culver, of the Republican county central committee, has arranged to send Hon. Tilmon Ford and John H. McNary to Stayton on Saturday evening, where a large meeting has been arranged for that time. The two speakers will discuss state and county politics, and put in some "good licks" for the entire ticket.

WILL HOLD EXAMINATION

SUPREME COURT TO TEST APPLICANTS FOR ADMISSION TO THE BAR.

The Supreme Court will tomorrow hold an examination of applicants for admission to the bar. The examination takes place from 1 to 5 p. m., in the Supreme Court room. The following minor orders were made yesterday: J. Leve, et al. appellants, vs. Wm. Frazier, respondent; ordered upon stipulation that appellants have until June 7th to serve and file their brief. Tilmon Ford, executor, respondent, vs. A. T. Gilbert, et al. appellants; ordered upon stipulation that H. B. Thelisen have until June 20th to serve and file his brief herein. In the Skinner Estate, George E. Lewis, petitioner, respondent, vs. T. W. Wann, administrator, appellant; ordered upon stipulation that appellant's time to serve and file his brief be extended to July 1st.

HEAVY ORDERS.

OREGON CITY, Or., May 27.—T. W. Clark, general manager of the Bandon Woolen Mills, has just returned from a trip to Chicago, and has orders for work from Eastern firms amounting to \$150,000. This will keep the mill in operation day and night until July 1, 1903.

INJUNCTION IS DISSOLVED

Circuit Judges in Portland Will Not Restrain Strikers

BUILDING TRADES COUNCIL

And Its Officers are Left Freedom of Action

CHICAGO IS FACE TO FACE WITH A MEAT FAMINE—PACKERS AND BUTCHERS ARE UNABLE TO DRIVE WAGONS—ATTEMPTS TO MOVE FAIL.

PORTLAND, May 27.—The injunction against the Building Trades Council and its officers and the Federated Trades Assembly and its officers was dissolved today by Judges Sears, Cleveland, George, and Frazer, in joint session. The injunction against the Amalgamated Woodworkers' Union remains in force.

The Meat Famine.

Chicago, May 27.—Chicago's beef supply from the stockyards has been almost entirely cut off, and unless the concessions demanded by the striking teamsters are granted, the city will be face to face with a meat famine. Not only have the big packers failed in every attempt to smuggle meat out of the yards, but the wholesale and retail butchers, who usually drive their own wagons and take out loads of provisions, have been forbidden to do so in the future.

Sought in Vain.

St. Louis, Mo., May 27.—Deputy Sheriff, armed with a bench warrant issued at the instance of the Grand Jury, searched unavailingly tonight for Charles F. Kelley, a member and ex-speaker of the House of Delegates. The charge against him is misconduct in office. Kelley is alleged to have obtained several contracts for printing from the city, through fictitious concerns.

From Hot to Cold.

Dysentery is prevalent everywhere in summer and is due to miasmatic pollution, and begins abruptly with inflammation of the mucous lining of the large bowel. In America the disease is common, but properly treated does not result as seriously as in the tropics. Ferry's Peppermint Cure is the best known remedy and the most efficacious in the treatment of dysentery.

STAMPEDE OF GOLD HUNTERS

They Enter an Indian Reservation in Washington

TO SECURE GOOD CLAIMS

Belief That the President Would Open the Lands Soon

THEY SECURED ALL THE HORSES AVAILABLE AND RACED FOR A WELL DEFINED LEDGE ON THE SPOKANE RESERVATION—WILL BE EXPELLED.

LONG'S STORE, Cedar Canyon, Wash., May 27.—A stampede today, to the ledge on the Spokane Reservation, caused considerable excitement. Fifteen or twenty men, believing the reservation would be thrown open to settlement by Presidential proclamation before June 1st, engaged every available horse and raced for a point near Sand Creek, about six miles east from Deer Trail, where there is said to be a great mineral showing. It is not known if the Indian police have removed the interlopers from the reservation.

MUST BE RECOGNIZED

LADIES OF THE G. A. R. TO BE TREATED EQUAL TO RELIEF CORPS BY G. A. R.

(From Wednesday's Statesman.) Ladies of U. S. Grant Circle No. 5, Salem, Oregon: I have just received your letter of the 5th instant and hasten to reply thereto. I have supposed that copies of all my orders were sent to the headquarters of the Ladies of the Grand Army, and I have no doubt that is so, as I gave explicit directions that this should be done. However, I enclose you herewith the last two, one concerning the Annual Encampment, and the other in regard to Memorial Day. You will see by these that I have included the Ladies of the Grand Army in all matters where the Women's Relief Corps appears, and I have, in all my orders, made no distinction between them. You are quite right in believing that I am a friend of your organization, and I can see no reason why any Comrade of the Grand Army should be otherwise. You may depend upon it that so long as I am Department Commander I shall give the same recognition, so far as I am able to do, as I have heretofore. I regret very much that Sedgwick Post should have so completely ignored my Memorial Day order, as well as that of the Commander-in-Chief, and I think it would not be out of place for a representative of your order to invite the attention of that Post to those orders, and to that omission. I trust that we shall all have a large representation at Astoria. Very truly yours, J. A. SLADEN, Department Commander.

The above letter is self explanatory. It seems that Sedgwick Post No. 10, G. A. R., of this city, refused or neglected to invite the Ladies of the Grand Army of the Republic to participate in the Memorial Day exercises. This has happened heretofore, so the members of U. S. Grant Circle, Ladies of the Grand Army, say. Hence a letter to the Department Commander of the G. A. R., which brought forth the above reply.

The Annual Encampment of the G. A. R., spoken of above, will be held at Astoria on the 4th, 5th and 6th of June.

The program for Memorial Day in this city appears in another column of this issue of the Statesman. It should have appeared yesterday morning, but was crowded out. It will be seen by the order of procession that the Ladies of the G. A. R. are given a position in the procession immediately following the Union Veterans' Union.

Mrs. R. E. Wands, of the Ladies of the Grand Army, is to deliver the address on Memorial Day (tomorrow) at Cottage Grove. She delivered the address there last year.

PELEE IS IN ACTION

BRITISH STEAMERS PASSING MARTINIQUE REPORT FLAME AND SMOKE THROWN OUT.

ST. JOHNS, Island of Antigua, B. W. L., May 23.—The British steamer Pontabell, from New York for various West Indian ports, has arrived here and reports having passed St. Pierre, Martinique, May 27th, when vast columns of smoke and flames from Mt. Pelee were visible forty miles away. Dust fell on the steamer when fifty miles from the island. The Pontabell had previously landed relief supplies at Fort de France.

Clouds of Smoke.

Roseau, Island of Dominica, May 28.—The British steamer Savan, from London for Barbadoes and West Indian ports has arrived here. She passed Mt. Pelee, Island of Martinique, at 9 o'clock this morning, when a thick black smoke was arising from the volcano, and the officers of the Savan believed from the great quantity of dust which fell on the steamer that another eruption has occurred.

From the Volcano.

Charleston, S. C., May 28.—A considerable quantity of pumice-looking material, believed to be from volcanoes in the West Indies, is drifting on the shores in this vicinity. Fishermen have also brought in pieces from the sea. It is supposed the gulf stream brought it to this region.

THE OREGON PRUNES

MARKET IN THE EAST AS FOUND BY WALTER T. JENKS DURING HIS TRIP.

Walter T. Jenks who has just returned from a nine weeks tour of the North and Middle West in the interest of the Willamette Valley Prune Association, reports a very favorable and

satisfactory condition of the markets there, especially in Canada, Minnesota and the Dakotas.

On the Atlantic Coast, Mr. Jenks reports, there is a considerable stock of California fruit, chiefly of the Petite variety and composed mostly of the 1902 crop, which dealers are striving to get rid of at any price obtainable, but that the stock of Italians was very light, not much of the 1901 crop left, and this variety is growing in favor and the demand increasing.

He brought very encouraging news from all parts of the country. In St. Paul he was informed by several of the most prominent dealers that the Oregon fruit was gradually gaining in favor and that, during the season just closed there were three pounds of Oregon prunes sold to one pound of California, but the principal reason that the prices are kept down is that the growers consign their fruit to the East and, as that is the first marketing point, they stop their consignments there and are forced to close out at ridiculously low prices and the market is swamped, therefore the only way that prices can be fixed and maintained is by the growers standing together, paying more attention to the care of the growing crop, harvesting and above all curing, grading and packing, as there is so much inferior fruit unloaded on the market which tends to discourage the dealers, who have put their faith in the representation of the growers, and the result is that the market is paralyzed. He also realized that, although Oregon fruit is gaining in favor it is not nearly so extensively advertised as the California fruit and in that respect is at a great disadvantage, and he will urge that the Association pay more attention to this matter in the future. Eastern dealers are requesting that advertising matter be furnished them. Of all the fruit which has been shipped through the Association, Mr. Jenks said that it was especially gratifying to him to receive expressions of satisfaction from all dealers and not one single complaint.

Mr. Gile predicts, notwithstanding the reports of the almost total loss of the Italian prune crop by reason of the late rains, that, from reports brought in from different sections of this district, the yield will be much greater than was anticipated by the majority. In the hilly districts the damage to the fruit has been very slight but in the low lands it is more serious yet. He estimates that the yield in those orchards will be from 25 to 50 per cent of a full crop.

Mr. Gile is in receipt of a bronze medal which was awarded the Association exhibit at the Pan-American Exposition which is the second highest, the gold medal being awarded to the state. He is also in receipt of a communication from Supt. H. E. Dorsch, of the Oregon exhibit, at the South Carolina Inter-State and West Indian Exposition, conveying the information that the Association had also been awarded a bronze medal at that exposition.

AGREEMENT IS REACHED

To Vote on the Philippine Bill Next Tuesday

DEBATE IS TO BE LIMITED

During the Last Two Days to Fifteen Minute Speeches

THE SILVER QUESTION COMES UP IN THE HOUSE AND CAUSES SERIOUS DISCUSSION—DEMOCRATS OPPOSE THE RECOINING OF STANDARD DOLLARS.

WASHINGTON, May 28.—An agreement was reached in the Senate today, by which the final vote on the pending Philippine Government bill and all amendments would be taken up next Tuesday, at 4 o'clock p. m. Pending the vote, the Senate will meet at 1 o'clock each day, except Friday, when the Senate will not sit, it being Memorial Day, Monday and Tuesday the debate will be under the fifteen minute rule.

The Silver Question.

Washington, May 28.—The House spent the day debating the bill to increase the subsidiary coinage by coining the silver bullion in the Treasury, and to coin the standard silver dollars as the public necessities may require. The limit of subsidiary coinage is now \$100,000,000. The bill increases this to an indefinite amount in the discretion of the Secretary of the Treasury. The bill aroused the opposition of Democrats, who claimed it was only a step in the direction of the complete striking down of the silver dollar. The debate drifted into a general discussion of the silver question. Newlands (Nev.) finally offered an amendment to make subsidiary silver legal tender, and this amendment was pending when the House adjourned.

Conferees Agree.

Washington, May 28.—The Mercer omnibus public building bill has been agreed on in conference. The bill carried \$15,800,000 when it left the House. The Senate added \$3,200,000. In conference the Senate amendments were reduced about \$1,200,000. The following among the items in controversy, were finally settled: Portland, Or., postoffice, increased to \$604,000; Tacoma, and Spokane, increased for sites, each \$100,000.

No Quorum.

Washington, May 28.—The caucus of the Democratic members of the House was to have been held tonight to consider plans for forcing a vote on the Nicaragua Canal bill, at the present session of Congress. Only fifteen Democrats responded to the call, and as a result it was decided to postpone the meeting indefinitely.

NEW TROLLEY LINE.

RUSSIAN HEAVE POWDERS

THE REMEDY THAT CURES AND PREVENTS THE EPIDEMIC now RAGING among HORSES, and will cure them of Heaves, Cough or Distemper, is Russian Heave Powders—CURED 34 HORSES.

I have been using this Russian Heave powder for the past eight months and in that time have cured 11 horses of heaves, 14 of distemper and 9 of chronic cough.

PREPARED ONLY BY RUSSIAN REMEDY CO., ST. PAUL, MINN.

build a trolley line throughout Shoshone county. The power is to be obtained at Sgkan Canyon, estimated at 25,000 horse power.

HOW THE WEST TESTED ROOSEVELT.

On Mr. Roosevelt's famous campaigning trip across the country in the fall of 1900 it became apparent that some of the painstakers were hardly satisfied that what they had heard of the candidate for Vice President was not too good to be true. So there developed a unique system for the entertainment of the distinguished guest. He was mounted on the most spirited—and not always the most thoroughly broken—horse in the neighborhood, and was invited to go for a ride with a number of eminent citizens who wanted to "show him the country." Sooner or later in the course of this ride he would be decoyed to a stretch of open plain; the pace would be gradually increased until the ride became a wild breakneck race in which only the stoutest-hearted and steadiest-headed riders could hold their own. Time and again did this occur, and no one was less disturbed by the practice than was Governor Roosevelt.—Ladies' Home Journal.

WALLS BUILT DOWNWARD

The monster building now being erected on the flatiron block below Madison Square is the most striking example of modern office construction which people whose business and pleasure keep them above Canal street have had the opportunity to watch in daily growth. One thing about it that impresses those unfamiliar, with present architectural methods is the fact that parts of the outer walls are being built downward from the twelfth or thirteenth story to the fourth. Below the latter there is not yet any exterior wall. It makes a strange sight for those unaccustomed to the curiosities to be seen in far downtown Manhattan, and the fact that it is novel to many is apparent from the comments which one who passes cannot help overhearing.—N. Y. Sun.
