

THE WEATHER AND CROPS

Weekly Bulletin Issued by the Bureau Last Monday

CROPS ARE VERY PROMISING AND THE WEATHER CONDITIONS HAVE BEEN FAVORABLE—HOPS ARE MAKING EXCELLENT PROGRESS IN THE VALLEY.

(From Wednesday's Statesman.) The Oregon Section of the Weather Bureau, United States Department of Agriculture, has issued its weekly crop and weather bulletin for Oregon, showing the conditions of all growing crops and the weather prevailing in all parts of the state during the past week. The bulletin in the general summary is as follows:

The rainfall during the past week was light and consisted of small showers along the coast, and over widely scattered areas in the Willamette valley and in the extreme eastern portion of the state. The first of the week was unseasonably cool, especially during the daytime, but the last few days were moderately mild and very favorable for the growing crops. The maximum, or day temperatures during the week in Western Oregon ranged between 55 degrees and 86 degrees, and the minimum, or night temperatures between 42 and 64 degrees. In Eastern Oregon the maximum temperatures ranged between 58 and 92 degrees and the minimum temperatures between 38 and 53 degrees. Light frosts the early part of the week, slightly injured tender vegetation in many sections, but the staple crops escaped unharmed. All kinds of grain continue very promising. Fall wheat is heading very nicely with every indication of making good plump kernels. The reseeded areas have not yet begun to head, but there has been plenty of moisture and the plant is healthy and promising. A few complaints of rust of the wheat stalks falling are made by correspondents in Lane county. Spring grain is growing rapidly; it is well-rooted and has an excellent color. Early oats, barley and rye are also heading nicely. Considerable alfalfa has been cut during the week in Southern Oregon, and the yields appear to be about the same as last year. Range grass in the eastern section is the best in years, but in Southern Oregon it is not as good, and some few reports are to the effect that feed on the summer ranges is still short. The weather has been too wet and cold for timothy and this crop is not as promising as it was a few weeks ago. Clover is doing splendidly. Sheep shearing is nearly completed and the clip is an average one. It has been the best week of the season for gardens, corn, potatoes, sugar beets and hops, and they are all making rapid advancement.

The fruit outlook in Southern and Eastern Oregon is very promising, but in the Willamette valley the conditions are so uneven that it is impossible to arrive at any definite conclusion as to the probable results, except in the case of Italian prunes and cherries, both of which have been damaged to such an extent as to cause the yields to be considerably less than last year. **Coast District.** Toledo, Lincoln county, Otto O. Krosgad—The late warm weather has improved the prospect for fruits and berries. Garden vegetables looking better. The apple crop will be short; cherries falling. Rye headed and looking well. Sheep shearing in progress. Grass making satisfactory growth. Denmark, Curry county, C. W. Zumwalt—The week has been cool and wet; ground is still wet and cold; there was a frost on the low land on the morning of the 4th; all vegetation backward; crops growing slowly; warm weather badly needed; dairying going nicely; range stock improving. **Willamette Valley.** Tahant, Linn county, J. H. Scott—The last few days have been favorable for the growth of all kinds of vegetation. Fall wheat is badly damaged by the late rains and will not recover from the effects of the cool, wet weather; it is now heading out. Spring grain looks well; some of it is hardly up yet. Gardening is not all done, and there still remains the planting of much corn for ensilage; early cherries are ripening. Salem, Polk county, E. F. Clark—The first part of the week was cool, with showers; latter part clear and warm. Sheep shearing in progress since Wednesday; clip, average or above. Spring sown grain looking well; fall wheat is yellow on the low lands, but the warm sunshine will bring most of it back to color; part-lett pears, early apples, Italian prunes and cherries falling badly; hops are growing finely, but are generally weedy. Scholls, Washington county, Jas. H. Jack—Up to Wednesday the week was cold and wet. Seeds placed in the ground refused to germinate. Warm days at latter part of the week have been welcomed and vegetable growth has been accelerated. The fruit prospect is unchanged, and pears are a total failure; petite prunes and cherries will be at least half a full crop. **Columbia River Valley.** Helix, Umatilla county, S. T. Isaac—Weather conditions continue very favorable for growing crops. Fall sown grain will soon head, with fair growth of straw; spring sown a little later, but promises well. Wasco, Sherman county, Clark Dunlap—Weather warm, with west wind; grain growing very fast; some alfalfa cut; plowing completed; indications for large crops. No rain last week; light frost two mornings. Lexington, Morrow county, Edwin R. Beach—Clouds and sunshine alternating during the week. Crops doing well. **Southern Oregon.** Days-Creek, Douglas county, O. T. Cook—The weather still continues cool and showery; corn is suffering for want of warm weather. Small grain looks very well generally. The

prune crop will not be nearly as good as we thought some time ago. Some orchards will bear scarcely any, while others will be full. Cannot tell the cause. Murphy, Josephine county, J. S. McFadden—First of week cloudy, with some rain; remainder of week clear and warm. Fall wheat and rye above the average; oats and barley have made good progress, but are still short; alfalfa fine; pasturage never better; some fruit falling; vegetables doing well. **Plateau Region.** Summerville, Union county, C. T. Colt—Light frost first of week. Very warm, and all vegetation making rapid growth. Cows giving heavy flow of milk. Fruit prospects excellent. Warm Springs, Crook county, Will H. Lee—Weather cool and dry; wind moderate. Spring grain poor; fall grain fair.

FOR SCHOOL DIRECTOR
PETITION OF CITIZENS TO J. B. T. TUTHILL AND THAT GENTLEMAN'S ACCEPTANCE.
(From Wednesday's Statesman.) A petition, signed by a number of citizens, asking J. B. T. Tuthill to run for the office of school director of district No. 24, was yesterday presented to Mr. Tuthill, and the nomination accepted by that gentleman. The petition and acceptance follow:

THE PETITION.
To J. B. T. Tuthill:
We the undersigned residents and legal voters of school district No. 24, in Marion county, Oregon, would respectfully request that you be a candidate for the office of school director in said district, to be voted for at the election to be held in said district, June 19, 1902. C. P. Bishop, W. F. Boothby, Squire Farrar, J. P. Frizzell, W. H. Holmes, F. A. Wiggins, A. N. Moores, E. C. Cross, W. T. Rigdon, P. S. Knight, W. W. Hall, F. Levy David Steiner, J. N. Skaffe, G. P. Litchfield, Wm. Brown, A. O. Damon, Jos. H. Albert, E. T. Barnes, D. J. Fry, Steusloff Bros., J. L. Stockton, Thomas Burrows, J. C. Brown, H. B. Holland, J. H. Haas, John A. Jeffrey, I. W. Berry, G. Steiner, Herman Walker, Walter Steig, H. Patton, Geo. G. Rodgers, Chas. H. Hings, Ott J. Wilson, C. Marsh, O. P. Dabney, J. M. Lawrence, Geo. W. Watt, D. H. James, P. H. Raymond, Savage & Reid, Wylie A. Moores, Max O. Buren, John H. Scott, E. D. Horgan, Ashley White, F. P. Talkington, A. H. Schaefer, Wm. Feldt, C. O. Constable, Theo. Roth, Isaac S. Steiner, M. T. Rineman, H. G. Meyer, J. W. Harritt, Edw. Hirsch, E. F. Osburn, J. R. Fairbank, Geo. G. Griswold, J. Macy, J. P. Rogers, A. M. Hansen, J. M. Bigler, W. W. Skinner, W. W. Walker, C. H. Walker, E. C. Patton, H. P. Chase, W. F. Mohny, S. H. Linton, Thos. Milne, F. Francis, E. H. Pugh, W. M. Slegmund, H. M. Edgar, W. W. Johns, Walter Morley, C. E. Brown, John H. Lewis, Joseph Albright, Geo. B. Gray, W. Merriman, R. J. Hendricks, D. F. Lane, J. J. Dalrymple, Geo. W. Jones, Fred A. Legr, Hofer Bros., Geo. E. Hatch, C. T. Doty, and others.

Mr. Tuthill Accepts.
To Messrs. C. P. Bishop and others, residents and taxpayers:
Your petition kindly requesting me to stand as candidate for the position of school director in district No. 24 having been presented to me, I take pleasure in accepting the said candidacy, and if elected will endeavor to serve the district to the best of my ability.
J. B. T. TUTHILL.

REAL ESTATE TRANSFERS
SOME VALUABLE PIECES OF MARION COUNTY PROPERTY CHANGE HANDS.
Six deeds of transfer to Marion county real estate were filed with the county recorder yesterday the consideration of which aggregated \$7525, as follows:
J. C. McCrea and wife to M. A. and Louis Pulsky, lot 12, section 29; lots 6 and 7, section 30; lot 4, section 31, and lot 4 section 32, t 3 s, r 2 w, 160 acres, w. d. \$3200
W. J. Jerman and wife to Albert Johnson, lots 19, 20, 21 and 22, Allen's Addition to Silverton, and 18 acres in the same addition, w. d. 2500
W. D. Chaggett to H. F. Cameron, east half of lot 5 and southeast quarter of lot 6, block 59, of Salem, w. d. 1250
Mm. Lovelace to Chas. J. Johnson, 15 1/2 acres in section 33, t 6 s, o. Bergseng and wife to Charles J. Johnson, 15 1/2 acres in section 33, t 6 s, r 1 w, w. d. 1000
W. G. Minier to Cyrus A. Jones, 15 acres in t 6 s, r 1 e, w. d. 275
s, r 1 w, q. c. d. 1000
Total \$7525

A LONG LOST UNCLE
WHO KNOWS SAMUEL JENNESS AND DEAD WOOD GULCH?—INFORMATION WANTED.
Postmaster Edw. Hirsch is in receipt of the following letter from Otis S. Jenness, of Rye Beach, New Hampshire, and if any reader of the Statesman can furnish the information desired, no doubt it will be greatly appreciated and thankfully received:
"Postmaster at Salem, Oregon.
"Dear Sir: Would you kindly ask any old miners in your section where Dead Wood Gulch is located, also where Samuel Alba Jenness is at present. He left there about 45 years ago, is a high Mason with no family, an expert in mining matters, a great traveler, always on the move anywhere where there are mining interests. He had many claims and was at one time on the U. P. R. R. Would be very old and bent over now, the only one living now in grandfather's family. Any information will greatly oblige. Respectfully,
OTIS S. JENNESS."
THE HEAVY MAN DEAD.
SAN FRANCISCO, June 12.—Henri Maurice Canon, the heaviest man in the world, died suddenly today in this city, of heart disease. He was 52 years old and developed into a heavy weight athlete. About ten years ago he began to grow stout and at the time of his death weighed 613 pounds.

IDE CONFIRMED.
WASHINGTON, June 12.—Confir- mations by the State today were: W. Ide, Collector of Customs for Pu- get Sound District; Benj. D. Crocker, Collector of Internal Revenue, Dis- trict of Washington.

CULTURE OF OREGON FLAX

Has Demonstrated the Fact That Wealth is Here

WOMEN OF THIS STATE HAVE DONE PRODUCERS A VALUABLE SERVICE—MR. EUGENE BOSSE AND HIS ENTERPRISE IN MARION AND POLK COUNTIES.

(From Wednesday's Statesman.) The women, who a few years ago, undertook to demonstrate the proposition that flax of a superior quality in fineness and length and strength of fibre could be grown in the Willamette valley succeeded well in their undertaking. Mainly through their efforts, Oregon flax has become known to experts in linen manufacture, with results that are promising for this industry in the state. There is no reason to doubt that if flax culture was understood by farmers of the Willamette valley in sections specially adapted to its growth, the industry would soon become profitable, both from an agricultural and manufacturing standpoint. Even in the experimental stage of fibre flax culture here the yield has been two and a half tons per acre against two and a half tons in Belgium, where intensive cultivation and long experience in flaxgrowing have brought the industry to a high degree of perfection. While the Oregon Women's Flax Fibre Association was a failure in a financial sense, it succeeded grandly in demonstrating the main point in its undertaking, and its efforts have left the state richer than before in agricultural, manufacturing and commercial possibilities. The hope of the industry at its present stage is in the education of farmers in methods of growing and handling flax, and to this effort the company that has succeeded in this endeavor will direct its efforts as preliminary to the establishment on a substantial basis of a large linen factory in Salem.—Oregonian, Tuesday.

The inception of the large linen factory is already here, in the work being done by Eugene Bosse. He has now about 220 acres in flax, which will in a few months be harvested and the seed saved and the fibre treated and put in condition to be shipped to the factories to be made into linen manufactures. The business will be built up gradually, the farmers taught to give the plant the proper cultivation and treatment, and in time there will be a factory here for the making of linen. It will in time be one of the greatest industries in the Willamette valley. The natural conditions are here in perfection for the growth of the raw material and for its manufacture into the articles of commerce. Where nature has done much man will finally do this part. The latter part is already begun. Only its gradual development remains. There will be thousands of acres in time for every acre in flax this season, and there will be thousands of operatives here for making it into cloth and towels and all the other articles that are made from the product of the blue-bloomed plant.

A MASONIC CELEBRATION
SALEM LODGE TO OBSERVE ITS FIFTIETH ANNIVERSARY ON NEXT FRIDAY.
(From Wednesday's Statesman.) Salem Lodge No. 4, A. F. and A. M. will hold its first natal jubilee in the lodge rooms in the McCormack building on Friday evening upon the occasion of the celebration of the semi-centennial anniversary of the lodge, being the first lodge to be granted a charter by the Grand Lodge of Oregon. The Grand Lodge convenes in regular annual session in Portland today and an invitation will be extended to that body to adjourn on Friday to meet with the Salem lodge that night and install the grand officers here. The local lodge has been assured of the acceptance of this invitation, at least all of the grand officers are in favor of it, and all preparations are made for their entertainment, and the affair promises to be a gala one for the Salem lodge. An excellent program has been arranged for the evening at the conclusion of which an elaborate banquet will be served for the members and the visiting fraters. The program follows:
Receiving, Grand Lodge.
Address of Welcome.
Response.
Music.
Historical Address.
Music.
Banquet.
Toasts—W. T. Williamson, Toastmaster.
"Their Memory: the Founders of Salem Lodge No. 4." Response by Charles E. Wolverton.
"Grand Lodge of Oregon." Response by W. E. Grace, Grand Master.
"Dawn of the Twentieth Century." Response by J. M. Hodson, Past Grand Master.
"Masonry." Response by F. A. Moore, Past Grand Master.
"Patriotism: Masons as Citizens." Response by J. C. Moreland, Past Grand Master.
"Our Departed Brothers." Response by S. M. Yoran, Senior Grand Warden.
"The Ancient and Accepted Scottish Rite." Response by P. S. Malcolm, 32d degree.
"The Grand Commandery." Response by W. T. Wright, Eminent Grand Commander.
"The Grand Chapter of Oregon." Response by W. A. Cleland, M. E. G. H. P.
"Our Daughter Lodge: Pacific No. 56." Response by J. B. T. Tuthill, Worshipful Master.

COLONEL LYNCH EXPECTED.
NEW YORK, June 10.—Detectives are watching all the steamers from Calais and Boulogne, cables the correspondent of the Tribune, in anticipation of the arrival of Colonel Lynch.

"IT FELT LIKE A HAND CLUTCHING MY HEART."

Many men and women will recognize in that description a sensation which they have experienced, and will recall the terrifying feeling of suffocation which accompanied it. That convulsive tightening about the heart is naturally alarming, because it indicates some form of heart "trouble," and because of the number of those whose sudden deaths are ascribed by physicians to "heart failure." The frequency of the deaths ascribed to heart failure and weak heart is enough to alarm anyone who has even a suggestion of heart trouble.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death. Every half minute or every thirty-second beat the whole of the blood in the body is pumped through the heart, so that the dual heart moves about six tons of blood in each twenty-four hours. On the purity of that blood health depends. On the strength of the heart depends the strength of the body.

The question then is, how can we keep the blood pure and the heart strong? That question answers itself when we know what is the common cause of the blood's impurity, and whence arises the tendency to heart "trouble." What is blood? Blood is only digested food. In proportion as food is nutritious the blood is rich. In proportion as the food is properly digested the blood is pure. Indigested food clogs and corrupts the blood, and indigestion often precedes or attends the first symptoms of heart "trouble." The first necessity to the production of pure blood is, that the stomach and other organs of digestion and nutrition shall be in the perfect working order of sound health, so that the food received into the stomach is properly digested and perfectly assimilated. For the stomach is the vital center of the body. No man is stronger than his stomach, because physical strength is derived from food digested and assimilated. Deaths ascribed to weak heart and "heart failure," therefore, are more properly ascribed to weak stomach and stomach failure.

It is this dependence of the heart upon the stomach which explains the cures of "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This medicine cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, eliminating from it the substances which corrupt and poison it. Even this alone would take the strain from the overtaxed heart. But Dr. Pierce's Golden Medical Discovery also acts directly upon the heart itself. It strengthens the heart's action. It contains one of the best and most efficient heart tonics known to medical practice, and as a natural consequence the use of "Golden Medical Discovery" has resulted in many notable cures of the heart when it has become involved in disease as the consequence of disease of the stomach and other organs of digestion and nutrition. It removes the predisposing cause of heart trouble and makes the weak heart strong.

Mr. John L. Coughenour, of Galesburg, Somerset Co., Pa., writes: "I had been doctoring for about a year and a half, being unable to work most of the time. The doctor said I had heart disease and indigestion. It began with a choking and oppressed feeling in the chest; later on I was troubled with a hungry feeling, and I seemed to be raw from my throat clear down into my stomach. My appetite was unusually poor, and I was as weak and nervous as though I had been starved out for months, and my heart kept throbbing continually, and I was short of breath. Finally, I wrote to you for advice, and you informed me that I had indigestion and torpid liver. I did not think your diagnosis was right, but I ordered six bottles of 'Golden Medical Discovery,' and began its use. After using three bottles I began to improve slowly and soon went to work, and I have been working ever since. My health continues good. I have no more throbbing or palpitation of heart."

"I had been a great sufferer for several years, and my family doctor said I would not be a living man in two years, but, thank God, I am still living," writes Mr. George W. Trustow, of Lipscomb, Augusta Co., Va. "Dr. Pierce's Golden Medical Discovery is what saved my life. I had heart trouble so bad that I could not lie on my left side without a great deal of pain. I was nearly past work when I commenced your medicine, but I can do about as much work now as any man. I cannot say too much for the benefit I have received."

Not alone the heart, but any organ of the body, may become diseased by reason of disease of the stomach and digestive and nutritive system. By enabling the perfect nutrition of every organ of the body, Dr. Pierce's Golden Medical Discovery strengthens and cures lungs, liver, kidneys, heart, and other organs which have become diseased through disease of the stomach and its associated organs of digestion and nutrition.

DR. PIERCE'S Common Sense Medical Adviser, containing over a thousand large pages, is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

A TEXAS WONDER.

HALL'S GREAT DISCOVERY.

One small bottle of Hall's Great Discovery cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two month's treatment, and will cure any case above mentioned. Dr. E. W. Hall, sole manufacturer, P. O. Box 623, St. Louis, Mo. Send for testimonials. Sold by all druggists, or at DR. S. C. STONE'S drug store, Salem, Oregon.

READ THIS.
Bandon, Ore., Dec. 3, 1901.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir:—I have used your Texas Wonder for kidney and rheumatic trouble. Its effects are wonderful. It has no equal, and I can cheerfully recommend it. Yours truly,
HARVEY HOWE.

CUBAN MINISTER ARRIVES.
WASHINGTON, June 12.—Gonzales D. Quesada, the Cuban Minister to the United States, arrived here this afternoon.

CORNEE STONE LAID.
FORT LANE, O., June 12.—The corner stone of the new Spanish Rite Cathedral was laid today, with impressive ceremonies.

You can ride on street cars in Indianapolis for four cents.
