

# TO CELEBRATE THE FOURTH

## Committees Held an Interesting Session Last Night

COLLECTION OF SUBSCRIPTIONS WILL BEGIN TODAY - MANY BEAUTIFUL FLOATS WILL BE SEEN IN THE PARADE ON THE NATION'S BIRTHDAY.

The Fourth of July committees held a meeting in the police court room of the city hall last evening at which there was a fair attendance and a number of details of the celebration arrangements, of greater or less importance, were disposed of quite satisfactorily.

Fred Fontaine, the corresponding secretary was instructed to start out with the subscription list this morning and to collect all of the money subscribed so far, and it was also decided to place subscription lists in various business houses in this city for the benefit of those who cannot contribute a large amount and are desirous of helping to the extent of their means which will afford them an opportunity to do so, and as every little helps, the committee has hopes of securing quite a snug lift in this manner.

M. S. Skiff and D. A. Dinsmore, of the float committee, reported that they had met with abundant success and that, according to the interest which has thus far been manifested by all parties solicited the grandest pageant of floats will be on parade this celebration that has ever been witnessed heretofore. F. B. DeParco, chairman of the decoration committee, also reported excellent success and that every business house in the city and the majority of the residences will present such a gala appearance upon that day as never before beheld, and that already many of the business houses had secured their material and were studying out their designs.

Many other matters came up for discussion, of much importance, but it was thought best not to bring them before the public until they had been permanently decided upon. A man will start out this morning to go all over the country and post the advertising posters through the country and in the other towns both in this county and those adjoining.

### The Big Chorus.

Prof. Z. M. Parvin invites all the singers in the city to meet at the auditorium of the Northwest Normal College this (Friday) evening, for practice for the Fourth of July chorus.

## FEDERAL LABOR UNION OPEN MEETING HELD LAST NIGHT - AN ADDRESS BY FRANK DAVEY.

At the meeting of Salem Federal Labor Union last night there was a fair representation of members and many who were not as yet in the union assembled to hear the address of Hon. Frank Davey, as per announcement, and all were abundantly repaid for coming. The other speakers announced, Mr. McMahan and Mr. Horgan, were absent for unavoidable reasons, but will address the union at some future date.

President Miller introduced Mr. Davey in a very complimentary manner, referring to him, in the absence of the other speakers, as the "old stand-by." Mr. Davey's address reviewed past conditions of labor in contrast to those of the present and portrayed the wonderful advancement and rapid and world-wide modification of popular sentiment with respect to trades unionism. He said the sentiment of the civilized world had changed radically within the past 20 years. Many of the earlier difficulties, strikes and incident troubles which had been set down against labor, were now regarded as sacrifices necessary to the accomplishment of their ultimate purposes. No worthy reform is accomplished without sacrifices.

Unions should guard well against agitators and demagogues and not be easily or quickly led to strikes or extreme measures. All grievances should be calmly and deliberately considered and acted upon calmly and carefully.

In an abstract sense men have a right to seek the cheapest goods and to pay any rate of wages they see fit, and working men may work at the rates or not work as they please, but here in the United States a different policy is recognized - viz: the policy of protection. Protective laws have been instituted to maintain the American standard of quality in manufactured goods. The protection policy has done more for all branches of industry, labor included, than many are aware of. The same policy of protection animates the labor union movement. The solution of the great reform questions now confronting the world rests in labor unionism. All activity in fraternal societies, labor unions and various new organizations portrays a common fellow-interest and all are working toward a common end. Organization spirit is permeating every branch of human activity and every one should ally himself with the branch with which his work identifies him. All should join and then all separate organizations should be allied in a common organization. (This is the precise plan of the National Federation of Labor.) In conclusion, Mr. Davey promised his unqualified support in the Legislature to all measures of real benefit to labor and to labor organizations. The address was frequently interrupted by vigorous applause and at the conclusion he was given three hearty cheers and a tiger.

The clerks will organize their separate union tonight in the hall of the First Christian Science Society, over Rogers' book bindery.

The central body, composed of delegates from the various unions of the city will effect permanent organization on Monday night, the charter having arrived.

Portland Trades Council will be notified at once that the planing mills of this city are shipping their products

to Portland, and that they are not union mills. This action is based on a belief, after investigation, that the Salem mills are shipping goods to aid the unfair Portland mills now opposing the striking mill men there.

The charter of Salem Federal Union will remain open for two weeks longer, during which time the vote of initiation will be but 50 cents.

## CASES SET FOR HEARING

## NOTES FROM AUMSVILLE

MOVEMENTS OF THE PEOPLE THERE - SEVERAL NEW FRUIT DRIERS.

AUMSVILLE, Or., June 19. - Mr. Towle is building an additional fruit dryer on his prune farm near here.

Mr. Gooler, of this place is changing the old Bard hop house into a fruit dryer and putting up a wind mill.

Many teams pass through Aumsville daily, hauling lumber to various points. Knight's mill near here, the Stoyton mill and Ameh's mill east of Sublimity, furnish the lumber.

Mrs. W. D. Shaw is visiting at Woodburn.

Mrs. J. P. Murphy and daughter, Ada, are visiting in Missouri where they expect to remain for a few months.

At our school meeting last Monday, John A. Smith was elected director to succeed himself and A. Speer was re-elected for clerk.

About 35 or 40 of the neighbors called on Frank Tucker and his bride one evening last week and a very pleasant time was had. Mr. Tucker owns a nice little farm near here where he has lived all his life. Mrs. Tucker is just from the state of New York.

### At Pleasant Point.

Pleasant Point, June 19. - At the school meeting Monday afternoon, E. S. Tolman was re-elected director and John Girardin elected clerk.

Mrs. P. M. Pehrson and son, Arthur, returned from Portland a few days ago.

Wood is being rapidly hauled from this neighborhood to the Reform School owners wishing to get in by the Fourth. The children of Mr. and Mrs. Geo. Kendall have been ill for the past few days with something resembling scarlet fever. All are better now.

The family of John Girardin have received the sad news from Switzerland of the death of Mr. Girardin's aged father, who fell from a tall cherry tree sustaining injuries as above noted.

Crops are making good growth. Rain would be welcomed by the farmers. The fruit crop will be good in some respects. Cherry crop is light.

Would it not be the proper thing to do to start a subscription for the widow and children of the late S. R. T. Jones who was so foully murdered at the Ferry recently? If found necessary, or should not the coming Legislature appropriate a suitable sum?

# RECRUITS FOR SEA SERVICE

## Naval Officers Open Headquarters Here to Enlist Men

EXCELLENT OPPORTUNITIES OFFERED YOUNG MEN AND BOYS TO SERVE UNCLE SAM IN THE BEST BRANCH OF THE SERVICE AT GOOD PAY.

(From Thursday's Daily.)

A recruiting office for the United States navy will be opened today from 9 a. m. to 4 p. m., and will be kept open during the next four days by Lieut. J. P. Morton, Dr. W. E. Bell and Chief Yeoman, C. A. Bringham. Lieutenant Morton is on his way to San Francisco, after making a successful recruiting trip through Washington, Oregon, Idaho and Montana.

Fred Josephson, Chief Master-at-Arms, who arrived in Salem yesterday, made arrangements for office room in the city hall, where the headquarters of the recruiting officers will be. Mr. Josephson, who comes in advance of Mr. Morton, is posting the city, and he said last evening that he expected a good many enlistments from Oregon, for the navy.

"The good ship Oregon is at Seattle now," he said, "and is waiting to get a crew, and so is the Wisconsin, another big battleship."

Young boys from 15 to 17 years old can, with their parents' consent, enlist as apprentices. They get a complete outfit of clothing at the time of enlistment, the outfit being valued at \$44, and a salary of \$9 per month for the first ten months. After that they have a raise of salary. They are sent to the training school at San Francisco, where they prepare to go on board ship. They also finish their common school education at the training school.

Boys are trained to become petty officers of different branches. They may also become warrant officers, with a salary from \$1800 to \$2000 a year.

A young man from 18 to 25 years, without any knowledge of a mechanical trade, can enlist as landsman. For training they will be allowed to go to the training school at San Francisco, and from there to the training ship Mohican, making a trip as far as Japan and back. On arrival home they go on a regular man-of-war, cruising around the world.

There is a demand for the following men, from 18 to 35 years of age:

Machinist, first-class, at \$55 per month. These men will be promoted, if qualified, in a short time to chief machinist, with a salary of \$70 per month.

Teomen for clerks, men who can write a good hand, and know the use of a typewriter; these receive \$60 per month.

Electrical stewards are wanted, with salary up to \$60 per month, these can work their way up to the position of pharmacist in a few years, with salary from \$1800 to \$2000 per annum. Hospital apprentices are also desired for service in the navy.

Electricians, carpenters, plumbers, coopersmiths, blacksmiths and firemen; at salaries ranging from \$35 to \$60 per month, are needed.

Ex-non-commissioned officers of the army and marine corps can enlist as master-at-arms of the second or third class, and in a short time these can work their way up to chief master-at-arms. A master-at-arms receives a salary of \$65 per month.

The recruiting force is composed of officers who have all seen service, and all are veterans of the Spanish-American war, and they tell interesting reminiscences of that struggle. With them is Harry Stanley, who served on the Nashville at the outbreak of hostilities, and has the honor of having fired the first gun of the Spanish war. During the stay of the officers in this city, they will doubtless make many friends among Salem's business and professional men.

### How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by Dr. Stone's Drug Stores.

## CLEVELAND IS HONORED

A CATHOLIC COLLEGE CONFERS A DEGREE ON THE EX-PRESIDENT.

PHILADELPHIA, June 17. - For the first time in the United States, the honorary degree of Doctor of Jurisprudence was conferred today at the Augustinian College of St. Thomas, of Villanova. The recipient was former President Cleveland, who had already had the degree of LL. D. conferred by the Princeton University. The ceremony of conferring the degree upon Mr. Cleveland was a part of the commencement exercises of the college and followed the dedication of a new monastery, college and chapel.

The Austrian Ambassador, Mr. Ladislaus Hengstl, Baron von Hengstl, received the honorary degree of Doctor of Philosophy. Honorary degrees were also conferred as follows: Rev. William J. Hill, LL. D., rector of St. Paul's church, Brooklyn, and Judge Morgan O'Brien, of New York, Ph. D. Doctor of Laws, former Judge Joseph F. Daly, of New York, and Judge T. F. Fitzgerald, of New York.

The exercises were held in the college, Archbishop Ryan presiding. Previous to conferring the diploma, Mr. Cleveland spoke briefly as follows:

"This incident prominently suggests to my mind the imperious edict of education which forbids the hindrance or disturbance of its high mission by religious discrimination, social intolerance or any of the barriers that to a greater or less extent separate civilized humanity. The republic of education
