

CROP REPORT FOR OREGON

Bulletin Issued by the Weather Bureau for Past Week

GRAIN APHIS HAS DONE SOME INJURY—FALL WHEAT IS PAST THE DANGER FROM HOT WINDS—FRUIT OF ALL KINDS DOES WELL.

(From Wednesday's Daily.)

The weekly weather and crop bulletin issued by the Oregon Section of the Weather Bureau Department of Agriculture, for the week ending Monday evening, June 16th, shows all crops to be in good condition, though the weather during the week was not all that agriculturists might have desired. Fruit prospects are very good nearly everywhere, but some of the small grains are not doing quite so well. The general summary of the situation is as follows:

The past week has been dry; its first few days were unseasonably cool and light frosts occurred in many sections of the state. The frosts did no harm to the staple crops, but some tender garden truck was slightly injured by them. During the middle of the week it was unseasonably warm, especially in the western half of the state, and the soil dried out rapidly.

Correspondents generally report that while the crops have made rapid advancement and have not yet been injured by drouth more rain is needed, and the indications are that the showers in the Willamette valley, which began Monday (after most of the correspondents had mailed their reports), will spread to the eastern sections of the state by Tuesday and be of great benefit to spring grain and all the late crops.

The maximum, or day temperatures during the week in Western Oregon ranged between 63 and 88 degrees, and the minimum, or night temperatures between 42 and 70 degrees. In Eastern Oregon the maximum temperatures ranged between 58 and 88 degrees and the minimum temperatures between 36 and 70 degrees, and the week as a whole, while the warmest one of the season, was not sufficiently hot to injure wheat.

Fall wheat continues filling nicely and the bulk of the crop is now too far advanced to be injured by hot winds. Spring sown grain is making excellent progress. The grain aphis is reported as having done some injury to fall wheat in portions of Linn county, but all crops so far this year have been unusually free from insect pests. Oats are heading rather short in some sections of the Willamette valley. Barley is beginning to ripen and turn yellow.

The first crop of alfalfa has been harvested and the second crop is growing nicely. A large amount of clover was cut and safely secured during the week. Pastures and range grass are drying up, but the condition of stock is excellent. Corn, hops, potatoes, onions, garden and sugar beets continue doing well.

The weather has been favorable for fruit of all kinds, and the only complaints this week are from Douglas county, where it is reported that peaches are dropping badly. Strawberry shipments from Hood River have nearly ended.

Coast District.

Hare, Curry county, Joseph Hare.—A very fine week, but ground is getting dry. A good shower is anxiously awaited.

Bay City, Tillamook county, Capt. J. J. Dawson.—The week has been warm and dry, with dewy nights; a large amount of rutabagas, cabbage, beets, celery and sweet corn has been planted. The June cherries are ripening. Tide land hay is being housed; orchard grass is four feet high and in bloom. Grain and hay crops are making rapid growth. Fall sown oats and wheat are four feet high and not headed yet. Some fruit now shows about a half crop.

Willamette Valley.

Gobel, Columbia county, Frank Welter.—The week has been very warm and dry. Everything is growing finely; stock is fat. Farmers are preparing for haying, but none has been cut so far. Potatoes are looking well.

Lents, Multnomah county, C. F. Zinser.—This week has been pleasant and warm. Haying begun; potato planting is about completed. Some spring grain looks poorly; it still shows the effects of the cold, wet spring. Friday there was a very damaging east wind. Rain is needed, especially for strawberries.

Amity, Yamhill county, M. F. Corrigan.—The last three days have been very warm and sunny. Spring grain and gardens are very much in need of rain. Some aphis on grain. Clover is being cut; crop below average; clover which has been pastured shows a great many weeds. Raspberries are ripening. Early potatoes and peas about ready to use.

Sandy, Clackamas county, T. R. Meinh.—Crops are doing well with the exception of the very late sown grain, which is in need of rain. Thursday and Friday there was a very warm east wind.

Southern Oregon.

Glendale, Douglas county, Mrs. Fannie Miller.—Weather during the week has been very favorable for all crops; northwest winds have prevailed; the continued sunshine has benefited all vegetation; some hay is being cut; haying will be general in 10 days; wheat, oats and barley heading out with full heads; gardens are fine; fruit crop promises well. Range stock fat.

Table Rock, Jackson county, E. H. Davis.—Frost occurred on the morning of the 16th, considerably damaging beans and garden stuff; since then the weather has been fine; hay is being stacked in good condition; it is a fine crop.

Columbia River Valley.

Arlington, Gilliam county, D. B. Thomas.—We have had a few hot days this week, but no complaint from farmers in regard to grain being injured.

CONDITION OF OREGON HOPS

A Large Crop is Predicted By the Leading Dealers

YARDS ARE IN EXCELLENT CONDITION—PRICES FOR GROWTH OF 1901 ARE STEADILY MOUNTING HIGHER WHILE OFFERS ON CONTRACTS ARE BETTER.

(From Wednesday's Daily.)

The prospects for a fair average crop of hops this season are very bright. The late rains greatly retarded the growth but since the bright warm weather has set in and the recent warm showers the vines are putting out a splendid and vigorous growth and the training is nearly finished in the majority of yards. Some lice have appeared but not enough to cause any anxiety and it is thought that the crop will suffer very little, if at all from this pest.

It is much too early to make an intelligent estimate of the 1902 crop, but some dealers place the probable yield for Oregon at 85,000 bales, but this is considered a rough estimate and not based upon facts or figures.

There is much evidence in a shortage in supply there being about 2200 bales of the 1901 growth stored in warehouses, all of which are in the hands of dealers and one lot of 75 bales of last year's crop, rated as choice, was sold yesterday to Geo. L. Rose, of this city, for 18 1/2 cents per pound, that being the highest price that has been paid for hops in the last ten years. The situation looks very bright to all interested in hops, growers and dealers alike, and especially the former, and great confidence is felt that good prices will prevail this season.

One bill of sale was filed with the county recorder yesterday whereby A. Houston has transferred his 1902 crop of hops, consisting of 12 acres and situated about three miles north of this city, to Geo. L. Rose for a consideration of \$700. This is a purchase on the poles and the purchaser bears all expense of caring for, harvesting and curing the product, the grower furnishing the machinery for cultivation, etc., and the hop kiln for curing.

Several contracts for this year's crop have been filed for record wherein 14 cents per pound has been paid and as high as 16 cents has been offered on contracts, but few growers are accepting this figure preferring to hold out and take their chances with the market.

Two hop contracts were filed in the county recorder's department yesterday representing 40,000 pounds or 220 bales of the 1902 crop of Marion county hops and also the highest price, of record, paid for this year's growth. Both contracts were made with Chinamen growers and by one dealer, as follows:

Sam Kin (Chinaman), of Butteville, to S. and T. Uhlmann, of New York, 20,000 pounds of the 1902 crop, at 14 cents per pound, cents advance for picking purposes.

He Chung (Chinaman), of Fairfield, to S. and T. Uhlmann, of New York, 20,000 pounds of the 1902 crop at 14 cents per pound, 6 cents per pound advance for picking purposes.

H. J. Miller, a well known hop grower and dealer was interviewed in Portland yesterday on the condition of hops and the future of the markets. He predicts good times for Oregon hop farmers this year, as regards yield and price. Mr. Miller is usually very conservative in his estimates, and does not hesitate in off years to give a gloomy view of the situation, when, in his judgment, crops or prices are to be poor.

"This year certainly looks well," he said in yesterday's interview, "and the Willamette valley crop will be of good yield and quality, unless something unforeseen occurs. A little rain would not hurt us at this time, but should we get little or no rain the hops, although light, would be of better quality, thus insuring a top price."

"The crop of 1902, especially in new yards, looks fine. In old yards, where hops have been taken off for 10 to 15 years, the soil shows signs of becoming tired, and unless a very favorable season ensues, the yield will not be heavy. One cannot reasonably expect anything else, as it is not fair to take off crop after crop from a field, without returning anything in the way of fertilizers."

Mr. Miller bases his prediction of good prices on the general prosperity of the beer-drinking countries. "There is no especial failure anywhere," he said, "but people have more money to spend for beer than they had a few years ago, and the demand for hops has been stimulated by the increased consumption of beer."

"The Oregon crop of 1901 has all been disposed of, and very few bales are now in first hands. A sale of 57 bales the other day, at 18 cents, proves that the market is firm. These hops were sold by Charles Wilson, of Aurora, to Phil Neil & Co., for shipment East. Growers find no difficulty in obtaining contracts on the basis of 14 cents, and this is another evidence of a healthy demand all over the world."

"The production of hops is not increasing, as a good many growers plowed up their vines during the depression, and very few new fields have been set out. So now, when the demand has become good, the acreage in hops is limited to that of poor financial years."

Big Figures.

100,000,000 bottles of Perry Davis' Painkiller sold in 60 years. Just think! Nearly enough placed end to end to reach around the world. What other remedy can boast such a record of services to humanity in curing stomach and bowel complaints and the many other ailments and accidents constantly occurring even in the most careful homes. There is only one Painkiller. Perry Davis' Beware of imitations.

EDINBURGH, Scotland, June 25.

Daniel McClellan, a porter at Surgeons Hall, in a fit of insanity has shot and killed Dr. Curson McAdam, professor of chemistry, and James Forbes, the proprietor's assistant.

SWEET-MORRIS WEDDING

TWO PROMINENT YOUNG PEOPLE OF MARION UNITED FOR LIFE—A HAPPY EVENT.

The marriage of Miss Edith Elizabeth Morris to Homer Everett Sweet was celebrated Wednesday evening, June 25th, at the home of the bride's parents, Mr. and Mrs. Nathan O. Morris, of Marion, Oregon. The wedding procession opened at 8 p. m., the way being cleared by four little girls, nieces of the bride and daughters of Mr. and Mrs. Joseph C. Morris, of Newberg, carrying a chair of periwinkle and mock-orange, forming an aisle. The bridesmaid, Miss May Rutherford, and best man, Mr. George Hinshaw, were followed by the bride and groom, and last but not least, came the sweet, little four-year-old flower girls, Elizabeth Morris and Margery, daughter of Mr. and Mrs. Levi M. Gilbert, of Rosedale, college friends of the bride.

Rev. B. F. Hinshaw, of Marion, officiated, using the beautiful but simple ceremony of the Friends, after which was served a grand dinner, to the goodly number of forty. The house was tastefully decorated in pink roses and lilacs and ferns.

The bride and groom were residents of many valuable and useful presents including a beautiful display of silverware and china.

After a pleasant evening spent in social intercourse and merriment, the guests departed, with the benediction of the pastor, wishing the couple a happy useful life, being responded to by the bride and groom, that in the near future they might have the pleasure of receiving their guests into their own "Sweet" home.

Mr. Sweet, son of Mr. and Mrs. Wm. A. Sweet, of Eaton Rapids, Mich., has been a resident of Marion for nearly two years, where he and his wife expect to make their home, during the coming year, he being employed as a teacher of the Marion school, where he is much liked by pupils and patrons.

IN PROBATE COURT

LAST WILL OF NICHOLAS REISCHMANN, DECEASED, ADMITTED BY COUNTY JUDGE.

The last will and testament of Nicholas Reischmann, who died on June 3, 1902, was filed in the Marion county probate court yesterday, in which it is stipulated that his estate consisting of real and personal property, situated in Marion county, valued at \$400, and real property situated in Kansas, be divided among the following named heirs at law: Clara Reischmann, wife of Mt. Angel; William, Peter, George and Joseph Reischmann, sons of Chinoak, Wash.; John Reischmann, son of Guild, Oklahoma; Rosalie Reischmann, daughter, Nerine, Kentucky; Adam C. Reischmann, son, Cathlamet, Wash.; Arnold P. Reischmann, son, residence unknown, and Eva M. Mess, daughter, of Mt. Angel. P. W. Mess was named in the will as executor of that document.

The final account of Jacob Stauffer, administrator of the estate of Peter Gerig, deceased, was heard in the court yesterday and the court allowed said account and discharged the administrator from his trust and his bondsmen exonerated.

TWO CASES ARE HEARD

SUPREME COURT LISTENS TO ARGUMENTS IN AN ESCHEAT CASE.

(From Wednesday's Daily.)

In the Supreme Court yesterday two appeal cases of the State of Oregon, respondent, vs. Thomas O'Day and L. H. Tarpley, appellants, were argued and submitted by Attorney General D. R. N. Blackburn and C. V. Dolph, for respondent, and W. W. Cotton and Thomas O'Day for appellants. The first of these was an escheat case, and the second involved contempt of court.

One minor order was also made as follows: German Savings & Loan Society, respondent, vs. Sarah M. Kern, administrator, appellant; ordered on motion that appellant have until July 6th to serve and file her brief.

"NOTHING SUCCEEDS LIKE SUCCESS."

The Oregon Fire Relief Association has been a success ever since it began business in January, 1895, and is now growing faster than ever before.

Its annual report of December 31, 1901, shows a net gain in amount of insurance in force of \$2,523,787, which is 50 per cent more than the net gain of any previous year. It paid 135 losses during the year amounting to \$23,606. It is strictly a mutual institution which furnishes the best of Fire Insurance at Cost.

For further particulars, address A. C. Chandler, secretary, McMinnville, Oregon, or if you reside in Marion county, call on or address H. A. Johnson, (agent) Salem, Oregon.

MANY KILLED.

MADRID, June 24.—While a funeral was being held in a church at Pinar, in the Province of Orense, today, the building was struck by lightning, as the result of which twenty-five persons were killed and thirty-five injured.

GRIP

A great many people will be interested in seeing the form of the grip bacillus which appears in the border of this article. In the ten years or more since the Russian grip first invaded this country, it has proved fatal to hundreds of thousands of people. From 1889 to the date of the present epidemic, it is said that in New York State alone more than 52,000 deaths have been caused by grip. The present epidemic seems to be more disastrous in its results and even more wide spread than that which introduced the disease to this country and added a new word to the popular vocabulary. "What is grip?" people asked when the term first came into use. It took little time for the public to realize that this disease was more fatal than small-pox and more to be dreaded by reason of its after consequences. Small-pox scars the skin, but leaves the body strong. Grip leaves no outward scars, but so undermines the physical strength that it leaves the system a prey to any chance disease. It commonly results in chronic debility and frequently is followed by insanity.

The use of Dr. Pierce's Golden Medical Discovery will not only result in a quick cure of grip, but will generally prevent the disastrous after effects which are often more to be dreaded than the disease itself, painful as that is. Persons suffering from grip need to build up the body and fortify it against the after consequences of this peculiar malady. This can be effectually done by the use of "Golden Medical Discovery." It restores the vigor and vitality of the body—gives new blood and new life.

"Last spring I had a severe attack of La Grippe," writes Miss Emily M. Van Wey, of Mitchell Creek, Tioga Co., Penn'a., "and was under treatment of one of the best physicians in this part of the country from March until in July, and although greatly benefited by his treatment yet I was left in a miserable condition. Nervous prostration seemed to be the leading trouble; was very despondent; would awake mornings with a dull, heavy pain over my eyes; had bilious headache a great share of the time; great distress after eating; stomach would bloat and I was very weak. The least exertion would completely tire me out. I was advised to try Dr. Pierce's medicine. I wrote a letter of consultation to the Doctor and received a prompt and very satisfactory reply. I immediately bought a bottle of 'Golden Medical Discovery' and one of 'Favorite Prescription,' also a vial of Dr. Pierce's Pleasant Pellets, and took them as directed. By the time I had taken two-thirds of these medicines I felt such a decided change for the better that I bought half-a-dozen bottles more—three of 'Golden Medical Discovery' and three of 'Favorite Prescription.' I can truly say that I feel better than in five years before. One by one my symptoms gradually disappeared. No more weakness, despondency, nor blues. Am well and happy, and I truly thank God that Dr. Pierce has been permitted to live to prepare and send out such valuable medicines for the relief of suffering humanity. I would say to all sufferers, 'Write to the World's Dispensary Medical Association, then give Dr. Pierce's medicine a thorough trial, and it is my sincere belief that you will just as sure get your health as that day follows night.'"

The source of all physical strength is food, which after digestion is converted into nutrition and in the form of blood becomes the sustenance of the body. When disease attacks the stomach or other organs of digestion and nutrition, or when the stomach is "weak," as it is after an attack of disease like the grip, the whole body is weak because of lack of nutrition. The only way to gain strength is by nourishing the body, and the only way to nourish the body is to enable the assimilation of food by strengthening the "weak" stomach and curing the diseases of the stomach and digestive and nutritive tracts. This is perfectly accomplished by Dr. Pierce's Golden Medical Discovery. It does not make strength, no medicine can do that, because all strength is made from food properly digested and assimilated. It is by enabling the perfect digestion and assimilation of food that "Golden Medical Discovery" restores physical strength and sound health. No matter what organ is affected by disease through stomach weakness and lack of nutrition, whether heart, lungs, kidneys, liver, or any other organ, Dr. Pierce's Golden Medical Discovery may be relied upon in almost all cases to give strength and health. It always helps. It almost always cures.

"I feel very grateful for the home-treatment given me by the World's Dispensary Medical Association," writes T. J. F. Brown, Esq., of Sands, Wagon Co., N. C. "I had catarrh for several years, then took Grip, and had hemorrhage from the lungs. I had the best medical attention, but only to bring partial relief. I got up for a few months, but had more hemorrhages. I took Dr. K.—'s Discovery (twenty-five or thirty bottles), but in a few months I had more spells of bleeding. I wrote to Dr. Pierce and received directions what kind of medicine to use; I commenced taking his 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy. I had only taken one bottle when I could see I was improving. I used three bottles of Dr. Sage's Catarrh Remedy, and five bottles of the 'Discovery.' I have been able to do any kind of labor for more than twelve months. Well, I just simply owe my life to the World's Dispensary Medical Association."

Sick people are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The dealer who tries to palm off a substitute for "Golden Medical Discovery," does so in order to make the little more profit paid by the sale of less meritorious preparations. Insist on having Dr. Pierce's Golden Medical Discovery, and take nothing else.

21 CENTS' WORTH OF STAMPS

Will pay the postage on a FREE copy of Dr. Pierce's Common Sense Medical Adviser. This great medical work contains more than a thousand large pages and over 700 illustrations. It is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume.

Address: DR. R. V. PIERCE, Buffalo, N. Y.

FEDERAL LABOR UNION

WILL INVITE PRESIDENT GOMPERS TO COME TO SALEM THIS SUMMER.

The Salem Federal Labor Union met in regular session last night, and discussed several matters pertaining to local labor matters.

President Gompers, of the A. F. of L., will be in San Francisco at the labor convention in July and an effort will be made to have him speak in Salem subsequently. On Hon. Mr. Chase, ex-mayor of Haverhill, Mass., is announced by the labor bureau to be on the Coast next month and Salem unions will endeavor to have him come to Salem.

The Portland street car strike was discussed and the following resolution passed:

"We, the members of Salem Federal Labor Union, send greeting to the street railway employees of Portland, and extend hearty encouragement to them in their present strike, believing their demands to be only just and for the reasonable safety and dignity of the car men and traveling public. We assure them our hearty good-will and pledge financial support to the extent of our ability, if the same becomes necessary."

FOR NORMAL GRADUATES—

The State Normal School at Monmouth reports that the demand for its graduates during the past year has been much beyond the supply. Graduation from the Normal practically assures a place worth from \$40 to \$100 per month. The students take the state ex-

aminations during the regular course and are easily able to pass on all subjects required for state teachers before graduation. The school has a well equipped Training Department consisting of a fine grade town school and a typical country school.

ADMINISTRATOR'S FINAL NOTICE

Notice is hereby given that the undersigned has this day filed his final report as administrator of the estate of Fred Steusloff, deceased, with the County Court of Marion county, Oregon, and said court has set the time for hearing said final report on Saturday, the 26th day of July, 1902, at 10 o'clock a. m. of said day, in the county court room in Salem, Oregon, at which time the same and any and all objections thereto will be heard by said court. Dated at Salem, Oregon, this 26th day of June, A. D. 1902.

F. W. STEUSLOFF, Administrator.

Turner & Inman, Attorneys.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by Dr. Stone's Drug Store.

CASTORIA.

The Kind You Can See Bears the Name.

Chas. H. Fletcher

Barr's German Salve

Heals quickly all cuts or bruises, draws soreness out of lame back, draws sinners out of flesh which often break off too short to pull. Sticks like sticking plaster. Try it and you will never be without. By mail 25 cents.

L. M. BARR

No. 120 State St., Salem, Or.

CHINESE

Drug Store

I carry all kinds of Chinese drugs and medicines. Roots and herbs—nature's medicine. Good for all kinds of sickness. Cures opium habit. Good for the blood and kidneys.
