

CARING FOR FLAX CROP

Harvesting Will Begin in the Course of Three Weeks

MR. EUGENE BOSSE IS ANXIOUS FOR RAIN FOR THE BENEFIT OF HIS LATE SOWN FIELDS—FLAX CULTURE DOES NOT INJURE THE SOIL.

(From Sunday's Daily.) In the course of about three weeks the harvesting of the flax crop will have begun, and a great deal of interest is centered in this new industry which promises so much for the farmers and they are watching the developments with eager anticipation.

Mr. Eugene Bosse is very much pleased with the prospects so far and is only regretting that he was not able to begin sowing two months earlier, which was made impossible on account of his late arrival to this country and the extreme lateness of the season, both of which retarded the planting of the seed and the growing of the flax.

Mr. Bosse said that, in order to obtain the best results from flax, the seed should be sown during the month of February so as to obtain all of the benefits of the early rains and allow it from 80 to 90 days to mature before the dry season sets in. The first sowing of seed was not begun until about April 29th, which consisted of about 100 acres, has attained a growth of 40 inches and will produce an excellent quality of fibre, but the later sowings have been stunted in growth in proportion to the time of the planting and, although it will not yield such a good quality of fibre a great quantity of seed will be obtained which is about all Mr. Bosse expected, some of the seed being sown as late as May 26th.

The impression seems to have been gained by some that the growing of flax is detrimental to the soil but Mr. Bosse denies this most emphatically and states that on the contrary, as it was the shortest crop grown, it was most beneficial to the soil and did not require the great amount of nutrition as has been represented, only that it cannot be produced equally successful in all soils.

He has been busy for the past three weeks, scutching the old stock of flax which was purchased from the Oregon Women's Association, and with the old set of machinery also purchased of that organization but the work is very slow as the machinery is antiquated in pattern, and only about three tons of the original fifty has been finished. He does not expect to get through with this now before the new crop comes on but is awaiting the arrival of a new combination breaking and cleaning machine which has been ordered from Belgium and left the factory over five weeks ago. This machine is a new invention, a vast improvement over all others and Mr. Bosse desires to determine the exact capacity of the machine before he orders the other necessary machinery. The machine has a guaranteed capacity of 1000 pounds per day, of 10 hours, and judging by the samples of work which this machine is represented of accomplishing it is certainly a marvel.

Mr. Bosse is an expert in flax culture. He is greatly pleased with his experiments so far and is satisfied in his mind that the result will be equal and even much better than he anticipated, and that this country has a great future in store for so far as the flax industry is concerned.

STRANGE ANIMAL EATS DOGS.

George Johnson, a well known colored man, who lives on the Chappell Hill road, two miles east of Brenham, attended church in town one night last week, leaving his wife and children at home. During his absence a fierce animal described by the children as being larger than a Newfoundland dog, came into the yard and attacked the dogs, one of which fled to Pennington place and cannot be coaxed to return. The wife and children were too much frightened by the vicious looking animal to go into the yard to learn what had happened. When Johnson returns home from the church about midnight he was informed of the affair and with a lantern made an investigation. He found his dog, a good-sized, full-grown cur, in the back yard with his head severed from his body and all the flesh stripped from both the head and body, and supposed to have been eaten. Johnson offers no theory or explanation of what kind of animal it was, nor where it came from or where it went.—Galveston News.

"NOTHING SUCCEEDS LIKE SUCCESS."

The Oregon Fire Relief Association has been a success ever since it began business in January, 1921, and is now growing faster than ever before. Its annual report of December 31, 1921, shows a net gain in amount of insurance in force of \$2,628,787, which is 50 per cent more than the net gain of any previous year. It paid 125 losses during the year amounting to \$22,400. It is strictly a mutual institution which furnishes the best of fire insurance at cost.

TWO NEW ORGANIZATIONS

FILED ARTICLES IN THE DEPARTMENT OF THE SECRETARY OF STATE.

Two new companies filed articles of incorporation in the Department of State yesterday, and received authority to begin operations. They are: The Watts-Mathieu Company filed articles in the State Department yesterday, and will engage in the drug business in Portland, with a capital of \$5000. F. A. Watts, S. A. Mathieu, K. D. Mathieu and L. R. Waits are the incorporators.

The Bank of North Yamhill also incorporated and will do a general banking business, with a capital of \$20,000. Jacob Wortman, John A. Simmons and Sam Laughlin are the stockholders signing the articles.

ESTATE OF JOHN D. FAIN

Admitted to Probate Yesterday and Administrator Named

C. W. A. JETTE IS APPOINTED TO ADMINISTER THE AFFAIRS OF THE MURDERED CHAMPEOG MERCANT—THE ESTATE IS VALUED AT THREE THOUSAND.

(From Saturday's Daily.)

Upon the petition of James E. Smith, yesterday, the Marion county probate court appointed C. W. A. Jette as administrator of the estate of J. D. Fain, who died at Champeog, on June 24th, by reason of a gunshot wound. The estate consists of both real and personal property and is valued at \$3000 and the administrator's bond was fixed at \$6000. According to the petition for the administrator the only heirs-at-law of said deceased were John Fain, father, Los Angeles, California; Sarah L. Hunter, sister, Henry county, Missouri; and Mrs. Alice Jones, sister, of Leesville, Henry county, Missouri. The court also appointed Jas. E. Smith, W. T. Coleman and W. R. McKay as appraisers of the estate.

Based upon the report of F. M. Brooks, executor of the estate of Platt A. Davis, deceased, the court confirmed the sale of a long list of personal property belonging to the estate, from which sale was realized an aggregate sum of \$3910.

Upon petition of Edna J. Brown, administratrix of the estate of W. F. Eastham, deceased, the court ordered that several articles of household furniture belonging to said estate and valued at \$16, approximately, be sold at private sale for cash in hand. The final account of Lizzie Mauer, upon the estate of Peter Mauer, deceased, and of which she was administratrix, was heard yesterday and there being no objections, the court allowed said account, discharged the administratrix and exonerated her bondsmen from further liability.

SALEM'S BUILDING BOOM

A NUMBER OF EXCELLENT NEW STRUCTURES IN COURSE OF CONSTRUCTION.

Salem's building boom is now fairly on, and the mechanics of the Capital City are busily engaged in construction work. On all sides new buildings are going up, and all business houses in course of erection will be of permanent character.

The Hayne building—a two-story brick—on State street, is being pushed rapidly and the brick walls for the first story are up. Across the alley from this building, Mel Hamilton has commenced the erection of a one-story corrugated iron building, which is to be used as a first-class resort.

The work of excavation for M. Klingner's new two-story brick block on the Gray block on State street, has been completed and the work of laying the concrete foundation is now under way. This building will have three store-rooms on the ground floor, one of them to be occupied as a saloon by Fred Neckerman.

On the adjoining lot, in the same quarter block, A. Schreiber has let the contract for excavation work for a new two-story brick 50 by 100 feet, and Mrs. J. M. Kyle will also erect a two-story brick 50 by 100 feet adjoining Mr. Schreiber on the east, and occupying the southeast corner of the block on High and State streets. For this purpose the excavation work was yesterday commenced, ground being broken yesterday afternoon.

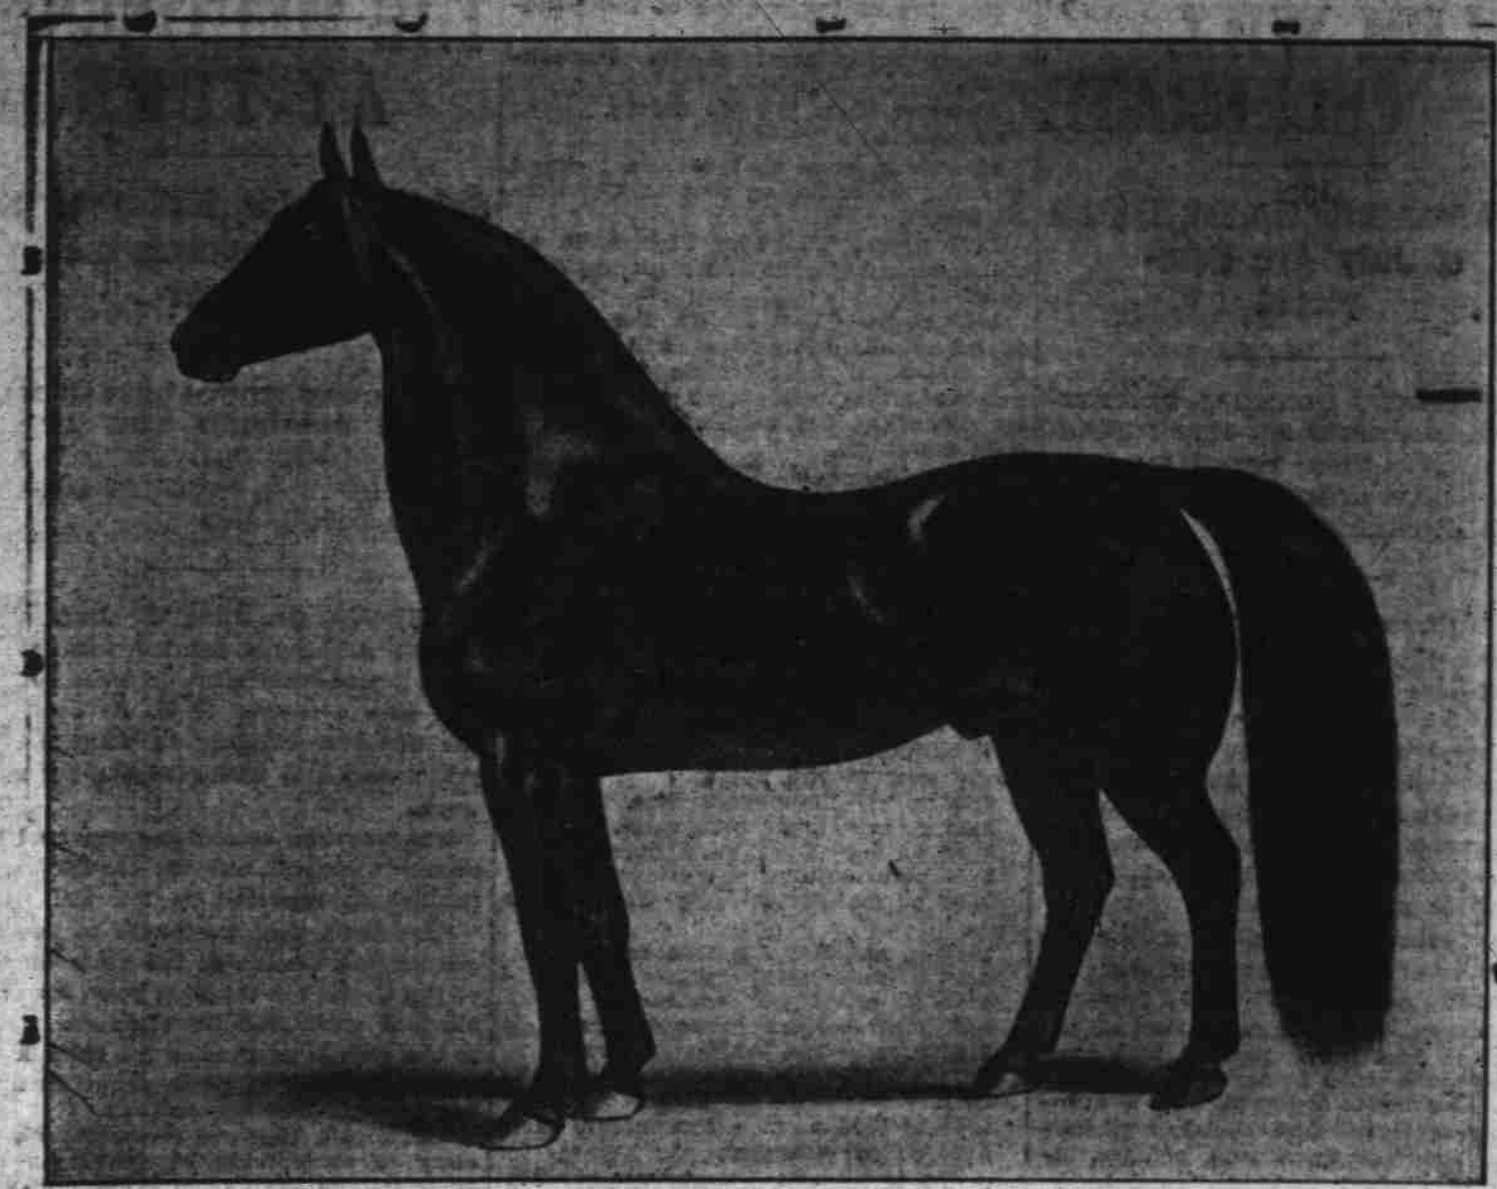

S. W. Thompson & Co., the jewelers, will soon begin remodeling the J. C. Thompson building on State street, now occupied by the Fred Neckerman saloon, the store-room to be changed into a modern up-to-date business house, and to be occupied by the firm with its stock of jewelry. It will be fitted with the most modern and best fixtures and appliances, and add much to the business community on State street.

These are a few of the changes and improvements now being made in Salem's business districts, while a number more are in contemplation. Salem is not standing still, but is steadily forging ahead, and the appearance of the city is being rapidly changed for the better.

ROUGH ON INGERSOLL.

The late Robert G. Ingersoll was once "stopped" in the language of the prisoners, by an old negro employed on the janitor's force in the Capitol at Washington. She kept her Bible by her when at work, and would stop scrubbing and read until she heard foot-steps along the corridors when she would hide the book and begin vigorously to scour the floors. Ingersoll had been watching her, and one morning quietly slipped to her side, when he saw she was reading the Bible. "Mary, do you believe all you read there?" he asked. "Bible words?" "That God made man from dust?" "In coel?" she answered. "Well, Mary, suppose it had rained, and the dust had turned to mud—what then should He have done?" "De good lawd knows 'nuff to know dat's de time to make lawvrs an' infidels."

THE STATE'S EDUCATORS Adjourment of the Teachers' Association Yesterday

THE ATTENDANCE WAS GOOD AND THE MEETING A GREAT SUCCESS—OFFICERS ELECTED FOR THE NEXT YEAR—NEXT MEETING IN PORTLAND.

EUGENE, June 28.—The closing session of the State Teachers' Association was held in Villard Hall this morning. The attendance was not quite up to that of yesterday, quite a number having gone to their homes by the early train this morning. On account of the failure of trains to connect, those living along the West Side line and the C. & E. could not wait until this afternoon without delay at Albany. The attendance has to some extent been stimulated by the following provision of the state school law: "At the same time the County Superintendent shall apportion to each district in his county \$5.00 for each teacher employed by such district during the twelve months immediately preceding such apportionment who has attended, for a period of at least sixteen hours, an annual county institute, or state teachers' association held during the twelve months immediately preceding the time of making such apportionment. The County Superintendent shall take as evidence that such district has employed a teacher or teachers who have attended an institute or association as above described a certificate properly signed by the secretary of such institute or association, or a certified copy thereof."

The annual business meeting of the association was held this morning and officers were elected for the ensuing year as follows: President, E. D. Reesler, of the Month Normal School; First Vice President, D. A. Grout, of Portland; Second Vice President, Supt. E. V. Littlefield, of McMinnville; Secretary, G. W. Jones, of Salem; Treasurer, Bertha M. Slater, of Eugene. The executive committee now consists of Dr. H. D. Sheldon, of Eugene; C. H. Daly, of Jackson county, and R. F. Robinson, (the latter two having been elected to succeed C. A. Hitchcock, who resigned, and J. C. Zinner, whose term expired) together with the president of the association, and the state superintendent of public instruction, who are ex-officio members of this committee. On motion H. D. Sheldon, C. H. Daly and R. F. Robinson, of the executive committee were elected to serve as auditing and finance committees. The general program was then taken up and papers were read on "Hygiene, What It Is, and Why We Need It," which was somewhat abbreviated in order to listen to the lecture of William I. Crane, of Ohio, whose subject this morning was "What Is History."

BROADHEART Sire of Lady Jones 2:46 (in the mud.) Sired by McLANAHAN 2348 7, on of Roy Wilkes 2:05 1/2. First dam, MIRA GOLDDUST, by Pedro 2904 2:25, son of Idol 44, sire Fidel 2:04 1/2, etc. Second dam FANNY GOLDDUST, by Guide 1197, sire of 15 dams of 17 in the list. Third dam KIT, by Goldust 150, sire of Lucille Goldust 2:16 1/2, Fleety Goldust 2:20, etc. BROADHEART is one of the finest stallions in the state, and with but little handling shows himself to be a very promising trotter. He will be allowed to serve a few mares at \$20 BY THE SEASON, WITH USUAL RETURN PRIVILEGE. I invite breeders to come and see this horse before breeding their mares elsewhere. W. O. TRINE, FAIR GROUNDS, OR.

CAPTAIN JONES 29666 Sire of Lady Jones 2:46 (in the mud.) WINNER OF THE TWO-YEAR-OLD TROTTING STAKE AT THE STATE FAIR LAST YEAR. Sire of 4 in the 2:10 list, 49 in the 2:15 list, 28 in the 2:20 list, at 14 years of age. Unequaled by any sire of his age. First dam MIDDAY BELLE, by Gosper, 2:14, sire of Gazelle 2:11 1/2, Miss Jennie 2:12, and others. Second dam BIRAE BELLE (dam of McBrier 2:14, sire of Don Wilkes 2:24 1/2, son of Aleycon. Third dam by Mambrino Patchen, 68, the great brood-mare sire. Fourth dam by Amos 28, founder of the Almont family. CAPTAIN JONES is a black stallion foaled in 1905, stands 15 1/2 hands, weighs 1500 pounds, has perfect trotting action and promises to be a great sire of high class horses. He is McKlincy's best bred son and a pronounced sire of uniform lot of colts. Captain Jones will make the season of 1922 as follows: LEVINGTON PARK, PORTLAND, FEB. 1 TO APRIL 1, FAIR GROUNDS, SALEM, APRIL 1 TO JULY 1. Terms, \$25.00 Season. \$10 payable at time of service, balance at end of season. JOHN PENDER, Fair Grounds, Salem, Or.

Holmdel 5290 Seal Brown Stallion; star, near hind foot white, and a very few white hairs on right front foot; 15 3/4 hands high. Bred by C. F. Emery, Forest City Stock Farm, Cleveland, Ohio. Foaled June 1, 1885. Will make the season, 1922, at the Red Front Barn, corner Trade and Commercial Streets, Salem, Oregon. His colts may be seen at the State Fair Grounds.
