

A FORTUNE IN THEIR GRASP

E. C. Herren Interested in a Company Finding a Coal Vein

A TEN-FOOT VEIN STRUCK NEAR HEPPNER AND A LARGE PRICE OFFERED THEM FOR THEIR PROPERTY - THEY WILL GO DEEPER.

(From Thursday's Daily.)

E. C. Herren was showing to some of his friends on the streets yesterday a sample of coal, and also some of the borings of a diamond drill above the point where the coal was struck.

The sample of coal came from near Heppner. Some twenty-two miles east of that Eastern Oregon town Mr. Herren and eleven other people have a tract of 1920 acres of federal land. Mr. Herren has one-tenth interest. They have been drilling there with a \$5000 diamond drilling outfit for two years. Finally their labors have been rewarded by finding a ten-foot vein of coal at 700 feet. The quality of the coal is as fine as any in the United States, and the patient twelve of the company have a fortune. It is understood that they have refused \$250,000 for their property.

They expect to go on drilling until they are down 2000 feet. A ten-foot vein of coal of good quality at 700 feet would be enough to satisfy most people; but these men want to know what else there may be down under the surface of their holdings. At one point the drill brought out a quality of stone such as is used in making whet stones.

Mr. Herren is the hop grower and dealer, and his many friends will be pleased to know of his good fortune. Other members of the Herren family are interested.

The surface croppings of this vein of coal in Morrow county are much the same as those found at the Forward mine in the Waldo Hills where the diamond drill is working, now being at a depth of nearly seven hundred feet; and some of the borings are similar. What a revolution the finding of a ten-foot vein of coal in the Waldo Hills would work in Salem—whether at 700 feet or very much deeper. And much stranger things may happen when people are determined to see what the earth under us is made of.

PRINCE AND PRESIDENT

REVIEW THEIR ROUGH RIDER EXPERIENCES AND ENJOY A DASH ON HORSEBACK.

(From Thursday's Daily.)

During his visit to Washington Prince Henry, of Prussia, expressed a wish to ride an American horse in American fashion. President Roosevelt was only too happy to gratify his Imperial visitor. So these two distinguished men set off together one rainy morning, cleverly evading the guards who were hedging them around. The Prince was seated on Senator Cabot Lodge's steed, and for the first time in his life found himself astride of a McClellan saddle. They took a run of ten or fifteen miles in mud and rain and enjoyed themselves as only enthusiastic riders can.

The incident is simply recalled, because it is one more proof that horseback exercise is the best for health and a splendid accomplishment. It also shows the love of horses as a natural instinct with mankind, and explains why the Buffalo Bill's Wild West and Congress of Rough Riders attracts such large audiences whenever it appears. Here is presented horsemanship of the best types to be found in the world. Americans, Germans, English, Irish, Russians, Arabians, Mexicans, South Americans, South African, Cuban and Roosevelt horsemen vie with each other in exciting, brilliant and fearless deeds in the saddle, while the various Indian tribes show how easily half wild bronchos can be controlled without saddle or bridle.

It is a school in equestrianism such as the world has never seen before, and whose lessons have been a factor in developing and continuing the love for this invaluable primitive necessity and recreation standard. Buffalo Bill will exhibit here on August 25.

FIRST CLOUD APPEARS

PAINTERS' UNION HAS A LITTLE TROUBLE—EFFORTS TO SETTLE THE DIFFICULTY.

(From Thursday's Daily.)

Labor union circles in this city are discussing the first cloud on their horizon since all classes of labor was organized last spring, and some of the union workmen seem to apprehend a little trouble, though the majority think the matter will be amicably adjusted—as it should be. The trouble appeared in the Painters' Union, and it is stated that organization has declared the firm of W. B. Warner & Co., unfair. The report is that this firm is charged with the violation of the Union's principles with respect to the hiring of non-union workmen, and the employment of more than their quota of apprentices. The firm has been declared unfair, it is said, but no further step has been taken by the Painters' Union, except to bring the matter before the Central Labor Union on Monday evening, when, on the showing made by the painters, their action was endorsed. Mr. W. B. Warner, head of the firm, is away at Newport, and during his absence it is probable that no further steps will be taken, and it is to be hoped that on his return an amicable settlement will be reached, as the trouble is doubtless due to a misunderstanding.

There is no desire manifested by the painters to cause the firm any material injury, the entire feeling so far being to do everything possible to get them to abide by the provisions of the union. Mr. Wm. Warner, when seen last

night, stated that there was a disagreement, but they had not been called upon by a committee from the local union to discuss the matter, the only committee calling on them being composed of members of the Albany union, and they did not desire to treat with the Albany people. In view of this condition of affairs, the Statesman suggests that judgment be suspended until Mr. W. B. Warner returns to the city, and the matter may be discussed with him and an amicable settlement can doubtless be brought about, thus avoiding any serious trouble, such as boycotts, strikes and like movements always bring in their train.

REPAIRS TO THE BRIDGE

Excellent Work Being Done on the Big Steel Structure

IT WILL BE IN BETTER CONDITION THAN IN MANY YEARS—GOOD MATERIAL AND WORKMANSHIP USED IN STRENGTHENING THE BIG DRIVEWAY

(From Thursday's Daily.)

The repairs on the big steel bridge are progressing rapidly, and the results attained will be very gratifying, as it will be found, when the work is completed, the bridge will be in far better condition than it has been since first constructed.

The west approach is rapidly nearing completion. This portion of the structure is practically new, and far better than ever in the past. New piling has been used throughout, the very best material obtainable having been provided, and this portion of the structure will be far better able to withstand any strain that may be encountered than the old approach. A good portion of the flooring is also new, while a part of it consists of the 4-inch plank, put down two years ago, only those plank being utilized that showed the least wear.

Yesterday work was commenced on the east approach. This was repaired several years ago, at which time some of the old bents that showed the least wear, were again used. Now all these are taken out, and new bents, of the best material obtainable are being put in, and the construction work is carefully done, not a weak or defective piece of timber being used. When this is finished the east approach also will be far better than ever in its history, and will be capable of withstanding almost any strain.

The footpath alongside the driveway of the bridge will also be rebuilt, and placed in good order, as will the railing over the entire bridge. All the piling driven into the ground has been covered with a preservative, to protect the wood from premature decay, and this preservative has also been used on the timbers of the bridge where they come in contact with other timbers, thus preventing decay and increasing the durability and life of the structure.

To County Judge John H. Scott, and Councilman S. T. Riggs, the latter of whom is superintending the work, the greater credit is due for the care with which the repairs are made. Judge Scott has made bridge-building and repairing a study since he has been in office, and his efforts in this direction are bearing good fruit in the case of the repairing of this important and valuable bridge.

When these repairs are completed, which will be in a few days, probably early next week, and the bridge is again thrown open to traffic, the public generally will be gratified with the excellent work done.

New Crosswalks.

In walking or driving about the city one can observe extensive improvements of a permanent nature being made on every hand, and although opportunities to run up against a formidable obstruction in the shape of planks piled upon barrels making it imperative to walk some little distance out of one's way to get around which is at times somewhat disagreeable, it conveys the intelligence that another cement crosswalk has been made and is being temporarily protected. This is very gratifying, especially since the obnoxious "loose-board sidewalk" nuisance has been endured for so long, and the inconvenience is soon overlooked and entirely forgotten.

For the past two seasons this cement crosswalk improvement has been steadily progressing until, up to the present, the city is equipped with forty-four cement crosswalks and quite a number are in course of construction. The new sidewalk ordinance, which is still in an embryo state, prescribes a certain limit within which it provides that all sidewalks are to be constructed of cement, and it is the city's object to construct cement crossings all over the territory embraced by the ordinance and the work will continue until this end is attained.

A considerable amount of street improvements is in progress also throughout the city, and Street Commissioner Frizzell is employing all the help available in this work. Help is very scarce, Mr. Frizzell says, and on that account the work is being done very slowly.

NO NOTICE TO DELINQUENTS

When Tax Payments Are Due Settlement Must Be Made

THE COUNTY COURT CANNOT HEREFTER EXTEND THE TIME OR ALLOW REBATES FOR PENALTIES—NO PROVISION FOR IT IN THE NEW LAW.

For years past it has been customary, although the law did not provide for it, for the county court to make an order and publish a notice to the effect that taxes for the preceding year would become delinquent upon a certain date as prescribed by statute.

The present law, however, does not provide that the tax rolls remain open until the court makes an order declaring the taxes delinquent and in the future the county court will take no action whatever in the matter. The tax law as passed by the last Legislature provides that if a person shall pay his or her taxes on or before March 15th of each year, he or she shall be entitled to receive a 3 per cent rebate of the taxes, and this year, it being the first year the law became effective, and as it was pretty generally misunderstood, the court made a special order allowing all those who made application at the sheriff's office, upon the day of the expiration of the rebate period and were unable to be waited upon, their rebate. All those who paid one-half of the amount of their taxes had their time extended until the first Monday in October before the remaining half of their taxes was declared delinquent, but all those who failed to pay any part of their taxes before the first Monday in April became delinquent upon that date and a penalty of 10 per cent interest was attached.

The court has decided that, in the future, no order even will be made, either declaring the taxes delinquent or allowing anyone the privilege of paying taxes after the time prescribed by law has expired, for the reason that the law is quite well understood and, as all have had ample time in which to pay their taxes, if they fail to do so on or before the first Monday in October, they must abide the consequences.

The court is not at all arbitrary in this matter, for the law plainly provides this course to be pursued, and County Judge Scott says he has no right to set aside the plain provisions of the law. The matter is not left to the discretion of the court, but the provisions of the law are so plain and explicit, providing the exact dates when taxes become delinquent and penalties are attached, that all are expected to know it, and no authority express or implied, is given the county court, or any other tribunal, to extend the time in which payments may be made, or to allow rebates for penalties or costs. This new provision of the law, dividing the tax payments into two equal installments, is a boon, however, as all tax-payers can now postpone paying half their taxes to October 1st, when the crops are all garnered and sold, and when all are supplied with funds.

WILL STAY IN SALEM

GENTLEMANLY TREATMENT OF HIS PATIENTS HAS MADE DR. DARRIN VERY POPULAR.

(From Thursday's Daily.)

On account of many earnest personal requests from people desiring to avail themselves of the benefit of his services, Dr. Darrin has finally decided to remain in Salem two months longer. He had already extended his stay two months. This latest decision will keep the celebrated physician here during the months of September and October. During the visit of Dr. Darrin he has made many friends by his generous and gentlemanly treatment of his patients and his constant solicitude for this welfare. He has refused none who have come to him needing his services and he has been perfectly frank in telling each one the true condition of his or her case, and just what might be expected as the result of treatment, or whether any treatment would do good. The rooms of Dr. Darrin at the Willamette Hotel are often crowded, and he is kept constantly busy. There are a great many people who will be glad to know that the doctor has been prevailed upon to remain two months longer.

TWO NEW CORPORATIONS

FILED ARTICLES IN THE STATE DEPARTMENT YESTERDAY—INCREASED ITS CAPITAL.

In the State Department yesterday, two new companies filed articles of incorporation, as follows:

The Western Improvement Company will deal in real estate, oil lands and other property and do a general development business, with headquarters in Portland, and A. C. O'Neill, E. M. Rowley and L. F. Schule are the incorporators of record. The company is a capital of \$2,400.

The Methodist Episcopal church of Mitchell will build and maintain a church in Mitchell, Oregon. John L. Hollingshead, Ellen Keyes and Rena Waterman are the incorporators and the trustees of the church.

The Portland Seed Company filed supplementary articles, increasing the capital stock from \$25,000 to \$50,000. M. A. Poppleton, A. H. Harding and B. L. Bancom are the directors signing the articles.

"I Never Knew Painkiller to Fail before, what can the matter be? Where is the bottle? There, I thought so; it is not Perry Davis' Painkiller at all, but something the druggist must have made himself and I did not notice it; I have used Painkiller for years for diarrhoea, cramps and stomach aches and it never failed."

Legal Blanks, Statesman Job Office.

WILD WEST IS COMING

A SPLENDID EXHIBITION OF WESTERN PIONEER LIFE BY MEN WHO LIVED IT.

Buffalo Bill's World Famous Wild West will appear in Salem on August 15th. Though organized in the West and wholly Western in its basic and distinctive components, this is the first season in which the route of the show has been extended so far toward the setting sun, going clear to the Pacific Coast. In many respects Buffalo Bill's Wild West is sui generis. Colonel W. F. Cody, in forming it, had the great advantage of such personal experience in every phase of frontier life, exceptional influence through his inestimable service as Chief of Scouts in the army and individual capacity as organizer and disciplinarian, as probably no other man in the country possessed. With him in the enterprise was associated a veteran manager, Mr. Nate Salsbury, whose genius and training enabled him to combine the widely diversified elements brought together by Colonel Cody (Buffalo Bill) and present them to the public in a series of episodic presentations of real life on the Western frontier.

The perils of the pioneer, ever threatened by the merciless red men; the thrilling incidents of the war path and the chase; the reckless sports of the toughest of "rough riders" with the most vicious of all animals ridden; the hazards of travel and the marvelous service of the mail riders; with much more that need not be recounted here, all were vividly, even thrillingly, shown in the Wild West's arena, not by a few trained actors, mere imitators of the deeds of others, but by hundreds of strong, forceful men who had gone through all those things in real life as part of "the day's work."

Upon all these as it went along, the Wild West has built up many more novel and quite distinctive features, not wholly Western, but illustrative of the sturdy deeds and gallant lives of virtuous men in all parts of the world, until it is the greatest exhibition of mankind as well as the most exciting and interesting entertainment ever offered to the public.

THE PAINTERS' UNION

DIFFICULTY NOW EXISTING—NO ALBANY MEMBERS ARE TAKING PART.

The trouble in the local Painters' Union, mentioned in the Statesman yesterday morning, was pretty generally read and discussed yesterday, among union men, and the hope is generally expressed that the difficulty may be amicably adjusted. A member of the local Painters' Union, in speaking of the case, said yesterday afternoon, that Mr. Wm. Warner was in error regarding the committee that was sent to see the alleged offending firm regarding a settlement of the difficulty. He stated that the committee consisted of members of the local Painters' Union and not of the Albany Union; that one member of the committee had formerly belonged in Albany, but since moving to Salem, had transferred his membership to this city. This gentleman further stated that every effort had been made to bring about an amicable arrangement, and he hoped to see it succeed; that all of this occurred before Mr. W. B. Warner went to the coast, with the exception of submitting the case to the Central Labor Union for endorsement. He was desirous, he said, of adjusting the difficulty, and did not wish to see anything done that would cause Mr. Warner or the firm any trouble or result in loss to them.

BOUGHT THE EARLY FARM

A SOUTH DAKOTA MAN WILL STOCK IT WITH FINE FINE CATTLE.

G. G. Tooker, of West Port, S. D., has purchased the old Early place, near Macleay, and will take possession of the farm about September 15th, when he will arrive here with his family, having started back to his old home yesterday to make preparations to move here. Mr. Tooker will, on his return here, bring out three car loads of Shorthorn cattle, and will make the raising of fine stock a specialty on the newly acquired property. He is a man of means and enterprise, and of the kind of material that will make Oregon's rural sections, in the course of the next few years, the peer of those of any part of the world. More men of the same kind are invited to settle near Salem—there is room for them and a hearty welcome.

A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady 16 years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by Stone's Drug Store.

All Were Saved.

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnston of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma till it cured her, and all our experience goes to show it is the best Croup medicine in the world." A trial will convince you it's unrivaled for Croup and Lung diseases. Guaranteed bottles for \$1.00. Trial bottles free at Dr. Stone's Drug Store.

JOHN H. COLEMAN, President, Salem, Oregon.

WILL TEACH DEAF-MUTES

Supt. and Mrs. Thos. P. Clarke of Flint, Michigan, Are Here

AND WILL TODAY TAKE CHARGE OF THE INSTITUTION—A BANQUET AND FAREWELL PARTY TENDERED THEM BEFORE LEAVING THEIR OLD HOME.

Prof. and Mrs. Thos. P. Clarke, of Flint, Mich., the newly elected Superintendent and Matron, respectively, of the Deaf Mute School, arrived here yesterday, and went at once to the school, where they will today formally take charge of the school, succeeding Superintendent and Mrs. Clayton Wentz.

The retiring Superintendent, Mr. Wentz, will again assume the position in the store of Woodward, Clarke & Co., of Portland, in the photographic department, which position he held before coming to the Deaf Mute School several years ago. He will leave today for his new field of work.

The Flint (Michigan) Daily News of last Friday, August 8th, gives an interesting account of a farewell banquet tendered Prof. and Mrs. Clarke at their old home on the preceding evening, and shows the great popularity of this excellent couple where they are best known. The article from the Flint newspaper follows:

"It seldom comes to man whereby he learns the esteem in which he is held. It has been said that to learn his faults he should run for office and to learn his good points he would have to look at the inscription on his tombstone. But in this banquet and reception accorded last night to Mr. and Mrs. Thos. P. Clarke it was not necessary to do either of these things. It was a spontaneous outpouring of words of affection and best wishes for their happiness in their new far off home in Oregon that greeted the guests of honor."

"The chapel of St. Paul's church never presented a prettier appearance than it did upon this occasion. Flowers were arranged in profusion all over the room; goldenglow, nasturtiums, sweet peas, balsam and ferns all cast their brightness over the room and added materially to the enjoyment of the occasion."

"The banquet was set for 6:30 o'clock and before that hour many had gathered to greet Mr. and Mrs. Clarke, to grasp them for the last time by the hand and wish them godspeed. The long tables were arranged in the form of a St. Andrew's cross, the emblem of the Brotherhood of St. Andrew, Mr. Clarke having been director of the chapter since its inception nine years ago. Great masses of flowers were on the tables, nasturtiums scattered on the linen and on the sides of the room large bunches of the goldenglow were placed."

"The banquet was served by the young ladies of the Junior Aid society and was a dainty affair, being served in three courses. The menu was a pleasing one and formed a distinct feature of the festive occasion. One hundred sat at the tables."

"After the discussion of the viands, Mr. Samuel Elston, acting as toastmaster, called upon Rev. G. N. Kennedy, pastor of the Gariand Street M. E. church, who in the name of his people, expressed the sense of loss so soon to be felt. Mr. Harry W. Studley, of Detroit, a member of the state council of the Brotherhood of St. Andrew, of which Mr. Clarke is president, followed with his thoughts on his friend's life and career in Flint. Mr. Frank M. Howard, ex-Mayor M. C. Pettibone, Mr. C. J. Haas, Rev. G. W. Grimes, Stuart Hoyt and Rev. C. A. Lippincott also made short responses. In the name of the vestry, Mr. Fred A. Aldrich read the resolutions which the vestry had adopted concerning the departure of Mr. and Mrs. Clarke."

"Rev. and Mrs. R. E. Macduff arrived from Carp Lake just after 8 o'clock, being greeted with a tremendous ovation. Mr. Macduff had several incidents to relate during his short address and regretted the call which took two of his strongest workers from the parish."

"Dr. C. B. Burr was the last speaker and to him had been delegated the pleasant duty of presenting to Mr. and Mrs. Clarke with a token of the esteem in which they are held. After an introduction witty and bright, Dr. Burr tendered them a handsome solid silver loving cup. On the side was engraved the inscription from the vestry and doctor, on another that of the Brotherhood of St. Andrew, and on the third the Junior Aid and Daughters of the King."

"Mr. Clarke was completely overcome by surprise and when he arose to express his thanks could scarcely find his voice. It affected him to be made the recipient of such a gift

from his friends of St. Paul. Afterwards a general reception was held and the best wishes for health and happiness in Oregon extended to the guests of honor."

EDITORIAL ENDORSEMENTS

The following is from the editor of the Gold Hill News, and goes far to substantiate the remarkable cures of deafness performed by Dr. Darrin. The case created great excitement among the deaf and afflicted in Ashland. Mr. Carey's cure was witnessed by Mayor Neil, of Ashland.

HE CAN HEAR A WHISPER.

(Gold Hill News.)

One of our friends and subscribers, Mr. C. Carey, of Sam's Valley, has been losing his hearing for about a year. He visited the "News" office a few months ago and the subject of treatment for his malady came up, when we recommended Mr. Carey to wait for Dr. Darrin's visit to Southern Oregon. Last week Mr. Carey visited the doctor at Ashland, and was so much benefitted that before leaving the doctor's he could hear a whisper. Such cures are wonderful, yet this one is undoubtedly true. Mr. Carey said he had taken treatment from a number of physicians and spent all he had in paying doctor bills, and so informed Dr. Darrin, who kindly consented to treat him free of charge, which was magnanimous of the doctor.

A HAPPY MAN.

The following is an extract of a card from Mr. Austin, of Portland, Or., telling how his wife was cured of total blindness:

"I wish to make known what Dr. Darrin has done for my family. Eight years ago my wife was totally blind, from what doctors called 'nervous abhorrence of light.' In that condition she visited him, and was cured, so she could see as well as ever in her life. I know of hundreds who have been, as miraculously cured. I am employed on the O. & N. Railroad, and can be referred to at any time. I most earnestly recommend the afflicted from whatever cause to consult Dr. Darrin."

W. STUB AUSTIN.

ANOTHER SALEM TESTIMONIAL.

Mr. Editor: Thirteen years ago Dr. Darrin visited Salem and cured my daughter, Martha Dove, of diabetes. She was unable to retain urine and had to get up many times night and day. Dr. Darrin cured her so she never had any return of the symptoms. I reside three miles south of Salem on Route 2, and can be seen by any one. My daughter resides in West Salem.

B. G. DOVE.

Dr. Darrin gives free examination to all, and when necessary gives medicine in connection with electricity. The poor treated free from 10 to 15 daily, except medicines. Those willing to pay, 10 to 5; evenings, 7 to 9; Sunday, 10 to 2.

Errors of youth, blood taint, gleet, impotency, varicocele, deafness, catarrh and stricture a specialty. All chronic male and female diseases treated at \$5 a week, or in that proportion of time, as the case may require. No cases published, except by permission of the patient. All business relations with Dr. Darrin strictly confidential. Letters of inquiry answered. Circulars and question blanks sent free. Eyes tested and glasses fitted. Dr. Darrin's offices are at the Willamette Hotel, Salem, until November 1st, only.

"NOTHING SUCCEEDS LIKE SUCCESS."

The Oregon Fire Relief Association has been a success ever since it began business in January, 1901, and is now growing faster than ever before.

Its annual report of December 31, 1901, shows a net gain in amount of insurance in force of \$1,215,747, which is 50 per cent more than the net gain of any previous year. It paid 135 losses during the year amounting to \$13,000. It is strictly a mutual association which furnishes the best of

The Insurance at Cost.

For further particulars, address A. G. Chandler, secretary, Multnomah, Oregon, or if you reside in Marion county, call on or address A. A. Johnson, (agent) Salem, Oregon.

BULLETIN—PROOF SENT.

BLOOMINGTON, IN, Aug. 14.—At the session held today of the Police Jury and Sheriff's Association of Illinois, a test of a bullet-proof vest was made. Phil Hoffman, editor of the Chicago Detective, wore one of the vests and allowed a service to be fired at him. The bullet did not penetrate the garment.

A NEW REMEDY.

REINHOLD, W. J., Aug. 14.—A mortgage for \$15,000 was placed on record today. It was given by the United States Shipbuilding Company to the Mercantile Trust Company, of New York. The mortgage covers all the plant owned by the Shipbuilding Company, whose capital is placed at \$10,000,000.

Stone's Heave Drops cure hay fever.

Soft Harness

You can make your harness soft as a glove and as tough as iron by using EUREKA HARNESS OIL. You can keep it as soft as butter as long as it is used.

EUREKA HARNESS OIL

makes a poor looking harness like the best. It keeps the leather from cracking, keeps the harness from getting stiff, and keeps it from getting dry.

Sold everywhere in cans—all sizes.

Made by STANDARD OIL CO.
