

TWO RECORDS WERE BROKEN

Splendid Racing Program at Lone Oak Track Yesterday

THE FOUR AND ONE-HALF FURLONG RUNNING RACE RECORD NOW WITHIN ONE SECOND OF THE BEST IN THE UNITED STATES.

(From Wednesday's Daily.)

The racing program yesterday afternoon, at Lone Oak track, was the best ever seen on the second day of the State Fair, and drew a large crowd to the grand stand, fully 5,000 people witnessing the interesting and exciting contests. Two track records were broken during the afternoon, in one case a record being established within one second of the best record ever made on a regulation track in the United States, and all hands are, in consequence, elated. The track is in the best condition ever seen, there are no disputes, the horsemen, showing a spirit of fairness that is refreshing, while the judges are just and fair, and eager to promote the sport in its best form. The races yesterday were:

Pacing, 2:30 Class, Purse \$400.

The 2:30 pace brought out five pacers for the contest, when the bell changed for the opening of the afternoon's program. The horses appearing were Fred Brooker's b. g. Chester Abbott, (Brooker driving), N. K. West's ch. m. Taffeta Silk, (Zibbell); Fred Schtem's black mare Alta Cora (Osmon); E. Blaxier's b. g. Rockford, (Tilden); L. Richard's blk. m. Zu Lu, (Threlkeld). Evangie had been entered for this race but had been withdrawn, and Chester Abbott took her place on the track. They had an excellent start and at the quarter Alta Cora took the lead, until the three eighths when Alta Cora and Chester Abbott took the lead, and swept around to the three quarter post, when Chester Abbott took the lead, and came in under the wire an easy winner with Alta Cora second; Rockford, third; Taffeta Silk, fourth, and Zu Lu, distanced. Time, 2:17 1/2.

When the four pacers came out for the second heat they were in excellent condition and a splendid contest was promised. They scored twice, then got away in good style, amid the cheers of the grand stand. Chester Abbott took the lead easily and at the quarter Chester had a good lead, with Alta Cora second, and Taffeta Silk a bad fourth. At the half, Alta Cora and Rockford were contesting for second place, Rockford taking second at the five eighths, with Chester Abbott having a good lead. Taffeta Silk lost ground steadily. When they entered the stretch they had not changed positions, and Chester Abbott led in easily, with Alta Cora second, fighting with Rockford to keep her place. Chester Abbott won the race in 2:14 1/2, with Alta Cora, second, and Rockford, third, while Taffeta Silk was 1 1/2 lengths beyond the distance flag. The time by quarters was 33 1/2, 1:09 1/2, 1:45, 2:21 1/2. Chester Abbott won the race, Alta Cora taking second money and Rockford, third.

Trotting, 2:15 Class, Purse \$600, Best 2 in 3.

The 2:15 trot, the best harness race up to this time, brought out the three splendid animals entered for this event, and the grand stand showed its approval and greeted the splendid steppers with a clapping of hands and cheers. The horses were: J. A. Baddeley's b. m. Ometa, (Erwin); C. W. Kahler's b. g. Volo, (Clark); Lou Childs' b. g. Chico, (Childs). The latter horse sold a big victory in the betting ring and an easy victory was predicted for him though his opponents were splendid steppers, and showed excellent action in the preliminary work. The horses scored repeatedly, but Volo seemed, for a little time, to be unable to come under the wire on a trot. At last they got the word, Volo getting a slow start, and breaking at the first eighth, with the other two neck and neck to the quarter. On the back stretch Chico drew ahead of Ometa with Volo lost in the dust, far in the rear. At the head of the stretch Ometa and Chico began a fight for place and neck, the contest they came neck and neck, the contest ending in a dead heat. Time by quarters, 34 1/2, 1:09 1/2, 1:44, 2:16 1/2. The second heat of the trot brought out the two contestants, both in good mettle and an interesting contest was on. The horses got a good start, with Chico on the outside at the first quarter. Chico led easily, Ometa striving hard to keep up with her fast rival. On the back stretch, Ometa closed the gap a little but was still two lengths in the rear at the head of the stretch, breaking several times, but quickly recovering, and down the stretch the two were separated by but two lengths. Chico leading under the wire in 2:15 1/2, Ometa two lengths behind, coming easily at the finish. Time by quarters, 33 1/2, 1:07 1/2, 1:44, 2:15 1/2. This is the best record in the 2:15 trot ever made on the Lone Oak track, the best preceding time being 2:16.

The third heat was slow in getting away, and when the horses were in line on the track they were in poor condition for racing. The horses scored repeatedly, Chico breaking several times when near the wire. At last they got away, with Ometa slightly in the lead and holding his place, Ometa breaking badly at the three eighths and losing ground, until the stretch was reached. Down the stretch Chico had a good lead and was coming easily with Ometa straining every nerve to reduce the gap, when she again broke, and came just inside the distance flag, Chico jogging under the wire in 2:17 1/2. Time by quarters, 33 1/2, 1:08, 1:42, 2:17 1/2. Chico won the race, with Ometa getting second money.

Running 4 1/2 Furlongs, Purse, \$150.

The first running race, 4 1/2 furlongs, purse \$150, sellers, brought out a fine field of runners. The horses were: J. H. Brannen's b. m. Aurora B. (Do J. H. Brannen in the saddle); E. E. Hickox's blk. g. Jim Brownell, (David); Foster Jones' ch. g. Honnell, (John); Williams' Jones' ch. g. Honnell, (John); Williams' Borkley's blk. m. Cora Goetz, (Porter); Klafang & LeFrancis' b. m. Sally Goodwin, (Boynon); Holcomb & McKennit's ch. f. Meteora, (Powell). They went to the post, and some time was spent in starting them, but at last, after considerable trouble, five got away in a bunch, while Cora Goetz remained at the post for a few seconds after starting after the bell, and trailing along 150 yards in the rear to the wire. Honest John quickly took the lead, and held it gallantly, making one of the prettiest runs ever seen on Lone Oak track. When the runners came down the stretch they were closely bunched immediately in the rear of Honest John. Nearing the wire Aurora B. drew near him and when Honest John passed under the wire in 54 seconds, the little bay mare was but a neck in the rear. The race broke the record for Lone Oak track for that distance, and is within one second of the best record ever made in the United States of any regulation track—an achievement of which the management can well be proud.

Running for Three-Year-Olds, Six Furlongs, Purse, \$175.

The six furlong running race, purse \$175, brought out six fine racers, and when they went to the post the grand stand became intensely interested. The horses appearing were: Larson & McBride's b. g. Almoner, (with Harmon up); Wm. Bucholtz's br. g. Modder, (McDonald); C. F. Clancy's b. g. Sallor, (Desmond); John Kane's b. g. The Maniac, (Groves); Wm. Williamson's s. m. Flincy, (O'Leary); J. H. Brannen's b. m. Miss Simpson, (Donovan). The horses were at the post a long time, but this did not cool the enthusiasm of the grand stand, in spite of the cold north breeze, and the number of false starts made only increased the interest. At last the runners got away, in a bunch, Sallor leading at the half mile post, with Modder a good second, and the rest closely bunched. It was a pretty race—for blood—down the stretch, Sallor leading the rest under the wire in 1:15 1/2, with The Maniac, second; and Almoner, third.

A Communication.

Mr. Editor: Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Sagreel, Mo. This remedy is for sale by Stone's Drug stores.

Poultry Notes.
The poultry exhibit this year compares very favorably with preceding years, and Supt. C. D. Minton feels proud of the fact. The poultry pavilion is being kept in a very neat and orderly manner, and is exceptionally free from disagreeable odors.

Four specimens of young fowls, fattened by the English process of feeding were on exhibition at the poultry pavilion yesterday. This process places more white meat instead of fat on the frames and commands nearly double the market price. The birds were fed by Thomas Bondeny, of Corvallis, who served an apprenticeship in fattening fowls in Southern England.

THE CLOUD OF FAKIRS

SOME REVENUE DERIVED FROM THE OPERATORS OF GAMES BY CITY TREASURY.

There are more fakirs and games of chance in operation upon the streets this year than for several years past, and all of them seem to be flourishing. This is a source of a pretty good revenue for the city and none of them are being run without a license. City Recorder Judah's books show, for the past two days, that \$30 has already been realized from these games and amusements, whereas, for the whole fair season last year, only \$7 was collected. The spindle-wheel, peddlers, novelty targets and African lodgers, are operated upon daily licenses, and when they fail or neglect to take out a license they are closed up without ceremony.

City Recorder Judah said last night that he had received scores of applications for licenses to conduct gambling games of all descriptions, but that he had regarded them with suspicion and refused them point blank. The "Flash pond" game which was in operation here last year and developed into a "skin" game of the worst type, applied for a license again this year, but Recorder Judah refused the operators' license and forbade them opening the game at all.

Sheriff Colbath made the rounds and closed up all the "sure thing" games, which were running wide open and in full blast on Monday night, and stated that he proposed to keep them closed if he had to resort to seizing their apparatus and prosecuting the operators, but they were reported running again last night.

City Recorder Judah and Chief of Police Gibson were seen last night and when asked what action the city authorities proposed to take in the matter, Recorder Judah said:

"From the very first Chief Gibson and myself have been a unit on the program of flat exclusion of all 'skin games' here this week. Cappers and boosters were to be dealt with promptly and vigorously and their principal shut off from operating any 'chances'; no licenses were to be issued to questionable games, and the program has been adhered to, to the letter. The early intervention of the county officers has made it unnecessary for the city officers to take any specific action in the premises, unless there shall be further infringements of the law."

"Sheriff Colbath was strictly within his prerogative in his action on Monday evening and the effect will, doubtless, be for the good of the city and county, but the results might have been even more far-reaching had he enlisted the co-operation of the chief of police, who was equally ready to act in the matter."

Not Doomed for Life.

"I was treated for three years by good doctors," writes W. A. Greer, McConnellville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks. Cures Burns, Bruises, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Dr. Stone's Drug Stores."

FIGURING IT UP.

The captain strode the quarter deck: The crews were at the guns. The powder flames leaped fiercely cut. Like as the lightning runs. Afar the fortress rose all grim. And bellowed in reply. Till smoke and fire and thunder sound Shook both the sea and sky. And the captain took His little book. And figured away while his fingers shook: "2 into 10 goes 16 times. And the square of 12 is 4; 70 is the cube of a million. And my deck is wet with gore. And my ship is shot to a shattered hulk. And I haven't a man alive!"

The other captain in the fort. Stood sadly on parade; The gatlings, serge and other guns A fearsome racket made. They boomed across the troubled waves Against the swooping ships, within And as their echoes thrilled the air The captain bit his lips. And he also took His little book. And figured it out with a worried look: "6 per cent of a dozen men. And the sine of 18 more. All bisected by 25. And the arc of 34; 3 plus 8, to the decimal. And the late and lost," he said, "Combined with the subdivided sum Shows all my men are dead."

Thus each side lost and each side won. And each side fought the fray. And now they're figuring upon Grim war is awful at its best. But who will lose or lick If he relies entirely on The old arithmetic?

WORK OF INCENDIARIES

FOREST FIRES IN MONTANA WERE SET—PROOF SECURED BY GOVERNMENT AGENTS.

BUTTE, Mont., Sept. 18.—It has developed today that the forest fires in the Northwestern part of the state are probably of incendiary origin. Government agents are said to be in possession of evidence tending to show that the fires were kindled.

Orion City, Or., Sept. 18.—Mrs. R. D. Wilson returned tonight from Springfield, where she has been relieving the fire sufferers. She says that aid is coming so freely that the people will have enough food, clothing and other necessities to last them through the winter. At danger of fire is now past. Rain is falling for the first time in many weeks.

OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandaunt may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

SSS

S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system. Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases. THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.

FROM OREGON EXCHANGES.

Ville Gazette.—The first serious accident to occur in the new Willow Creek mines, happened last Saturday, when James Scanlan was seriously, and probably fatally injured while working in a prospect hole. Scanlan, who is an engineer on the O. S. L. Road, was working in a shaft when suddenly the dirt and rocks from above gave way and falling upon the unfortunate man, knocked him to the ground and covered him with more than a foot of debris. Dr. Hoople, of Vale, was summoned and did all possible for the man's comfort, and has some hopes that he may recover.

Florence West.—A few days ago fire destroyed B. D. Paine's cabin on his homestead on Knowles Creek. He had some things in the house and went away thinking the fire was out, but it started again in a tree on the hill side above the house. The tree fell and rolling down the hill set fire to the building.

Eugene Guard.—About 3 o'clock Sunday afternoon the alarm of fire was given and the firemen were directed out West Eighth street, where, while passing the residence of J. M. Shelley, a load of straw being hauled by Carson Matthews, was discovered on fire. The horses were unhitched, the straw dumped off, and a stream from the hose soon extinguished the fire. The blaze probably originated from the friction of the rear wheel rubbing on the hub, but it was first discovered in that locality.

Dallas Chronicle.—Just as often come complaints of the work of the fiendish little wire manipulators around the city. Perhaps it is putting it too strong to say "fiendish," for the boys are not nearly so much to blame as their parents who fail to show them the results of this dangerous practice called "pranks." Thursday evening as A. H. Beall and wife were walking along on the center hill they ran across a wire stretched from one side of the walk to the other. Mr. Beall was thrown to the ground and badly bruised about the shins; but his wife fortunately escaped unharmed.

Dallas Itemizer.—That water works proposition is a two sided question. That the town would be better off with them there is no doubt, but whether it can afford it is the point. Many towns in the state, independence among them, are groaning under burdensome taxation, and some of them can never thrive because of a 34 mill tax. Dallas is now paying a 34 mill tax and the proposed bonds will increase it to 38 mill. Will it pay the tax payee to assume the additional burden. As the \$12,000 bonds are to be paid off within twenty years, it would call for raising something like \$1,000 a year above our other expenses. Nor is that all for the cost of procuring water right, reservoir site and right of way would have to be added, and where is the money coming from to pay for it. Calmly discuss these questions with your neighbors, remembering that those who have the most taxes to pay should have most weight. If anybody wants to put in waterworks as a private enterprise, let all say amen.

Albany Herald.—Yesterday a message was received from Brownsville giving meagre particulars of a probably fatal combat, which occurred near that place early yesterday morning. The melee took place in the Gentry hop yard, about 100 yards from the center of Brownsville, and as a result the life of George W. McCaney is despaired of, while J. L. Cooper must answer to the charge of murder in the event of McCaney's death. It appears that J. L. Cooper and Geo. W. McCaney went to the Gentry hop yard together. Yesterday morning about 4 o'clock they became involved in an altercation, which ended in blows being exchanged. During the progress of the fight Cooper picked up a chair, and swinging it through the air, struck McCaney over the head, crushing his skull, and rendering him unconscious. Medical assistance was at once summoned, but at latest report, the physicians had been unable to arouse the injured man from the stupor into which he was cast by the blow. Later last evening the physician re-examined the skull and thought the relief of pressure on the brain might enable the patient to regain consciousness. We can give only the substance of the dispute which is alleged by Cooper. He says that McCaney accused him of spoiling his living from McCaney, and of being a bum. This led to the row, which resulted in the probably fatal blow.

Mrs. McCaney heard the struggle, and hastened to see what was the matter, but when she arrived she found her husband unconscious. She notified the deputy sheriff of the affair, and said that he was ready to give himself up when wanted.

Albany Herald.—Among those returning from the region up the South Santiam, which has been visited by fire are W. H. Worrall, Wm. McKillop, A. M. Ait and N. B. Springer, who came in Sunday evening. They report that although the fire has been near the Big Bottom country, in which Albany people have timber claims, and

some fire in the district embraced by those claims, that very little damage has been done. The worst of the fire has been above that country. They report that Messrs. Freytag and Webb, of Portland, who were camped near them, were forced to flee for their lives in the middle of the night. The fire had approached to close proximity of their camp before it was discovered, and the danger was so imminent that they were unable to save any of their possessions. Among the tracts of good timber land that were destroyed were two hundred acres belonging to the C. A. Smith Lumber Company, of Minneapolis.
