

MARTIAL LAW UNNECESSARY

The Governor of Pennsylvania Says He Will So Hold

TROOPS WERE CALLED OUT

To Suppress Riots Where the Civil Authorities Were Helpless

MILITARY WOULD NOT BE ALLOWED TO INTERFERE WITH THE CIVIL OFFICERS—ONE MAN IS KILLED BY A GANG OF STRIKERS.

HARRISBURG, Pa., Sept. 25.—Governor Stone was asked today if he would declare martial law in the coal regions. He replied:

"Without discussing the power of the Governor to declare martial law, it would be wholly unnecessary to resort to that remedy. The National Guard have been sent into the coal regions to suppress tumults, riots and mobs, where the civil authorities are unable to suppress them. They will not interfere with the civil authorities, but are there to aid and assist them."

One Man Killed.

Scranton, Pa., Sept. 25.—James Winston was killed, and his son-in-law, J. Lewis, severely injured by a gang of Hungarian strikers, who waylaid them on the way to work at the Grassy Island colliery today.

Reports Exaggerated.

Indianapolis, Sept. 25.—President Mitchell, of the United Mineworkers of America, in a telephone message to the News today, from Wilkesbarre, said: "The reports of lawlessness in the strike region are greatly exaggerated. There has been no serious outbreak. There have been individual acts of lawlessness, but nothing that has approached a concerted move on the part of the strikers."

Conditions Better.

Philadelphia, Sept. 25.—While there was much disorder and many acts of violence in some sections of the hard coal regions today, lawlessness was not so general as it was earlier in the week. The presence of additional troops and a drenching rain storm assisted greatly in the preservation of peace. The most serious outbreak occurred near Oilphant, where a non-union miner was clubbed to death by a band of Hungarians, and his son-in-law was badly beaten.

Reports from other parts of the regions show that petty cases of violence continue to occur. The lower anthracite region is comparatively quiet, most of the lawlessness occurring in the vicinity of Scranton and Wilkesbarre.

GAMBLING IN PENDLETON

EFFORT TO BE MADE TO CHANGE CITY'S CHARTER AND REDUCE COUNCIL'S POWER.

PENDLETON, Sept. 25.—The agitation of the open gambling proposition goes merrily on, notwithstanding it has been settled as far as Mayor Halley is concerned. The latest sensation to be sprung is the fact that an effort is going to be made to have the city charter amended at the next session of the Legislature. As the city charter has been so frequently amended by previous Legislatures, nothing would be thought of this move at the present time were it not for the ulterior object to be attained.

The self-constituted committee laboring to effect the change in the charter is composed of influential citizens and heavy taxpayers. Nine months ago, shortly after Thomas G. Halley was induced into the office of mayor, to which position he had been elected without opposition, he gave out the order that open gambling must stop. It took a couple of months for the gamblers to tumble to what the order meant, but they then ceased operations. Prior to the last session of the Legislature the marshal and recorder of Pendleton were elected annually by the voters. The new charter provided that the city council should appoint the marshal and recorder, with the consent of the mayor. It has since been discovered that this wording of the charter places the appointing of the council officials in the hands of the mayor, and were unanimous in their choice of a person for either one of the offices, he could not be appointed if the mayor interposed his official objection.

Open gambling here is a thing of the past, except a few small games in some of the saloons. There are no more "high-rolling" games to cause the eyes of the spectators to bulge out with astonishment. No more are the red, blue and yellow checks stacked up on the faro layout and roulette tables "as high as a cat's back." Of course, once in a while some gambler with a combination of money and temerity opens a "flyer" for the boys, but it is not a steady thing. It is presumed that the object of having the change made in the charter is to attain the particular result of taking the appointment of marshal and recorder out of the mayor's hands. Mr. Halley is both mayor and district attorney. He has stated that there will be no open gambling in Pendleton as long as he is mayor. Holding the dual office, he is in an excellent

strategic position to make his remark stick.

TWO YEARS FOR FORGERY

GEORGE D. YOUNG BREAKS COMPLETELY DOWN WHEN SENTENCED TO PENITENTIARY.

GRANT'S PASS, Sept. 25.—Circuit Court continues here. Yesterday Geo. D. Young was sentenced to serve two years at the Penitentiary. Young was accused of forgery and pleaded guilty. He was taken to Salem today. The crime for which he was convicted was committed in this city last month. He attempted to pass a check at the First National Bank of Grant's Pass, bearing the signature of G. F. Billings. The signature was forged. Young had forged the name of several men before, but was allowed to go unpunished each time on account of the respectability of his parents. His father and mother are esteemed Southern Oregon pioneers. When Judge Hanna pronounced his sentence Young broke completely down and had to be carried from the court room to his cell. He says that if he had never forged another note, he would never have come here.

But little progress has been made thus far in the Griffin murder trial. After much tedious work a jury was selected yesterday afternoon. Much scouting was necessary in the work of selecting a jury, as nearly every one had expressed an opinion in the case. Today the examination of witnesses has been in progress. It will require all of this week to complete this case. The court room is filled to overflowing with a curious crowd. The case is so complicated one and the result is being much speculated upon. Griffin has both a chance for acquittal and a chance to be hanged.

THE FISHING INDUSTRY

DOG SALMON CANNED BY THE LOWER COLUMBIA RIVER PACKING HOUSES.

ASTORIA, Sept. 25.—There is little change in the fall fishing situation, and the two up-river canneries continue operations whenever enough fish are received to justify work. The cold-storage plants are taking much of the salmon caught, which decreases the supply of the packers. Both at the Megler cannery and the combine plant, at Brookfield and Eureka, operations are carried on every other day.

The price of dog salmon has been reduced to 5 cents, which is now paid for each fish. These salmon are very large and two of them are sufficient for a case. They have become quite plentiful in the Columbia this year, and the reduction followed. Dog salmon have been packed in past years, greatly to the detriment of the Columbia river article, but not until this year have the cold-storage plants handled them. Into just what market the fish will be entered is a mystery, but it is probable they will go to supply some new and cheap demand. J. O. Hanthorn, who first packed these fish, found a ready market among the negroes of the South, for whom better grades were too much of a luxury. With 10 cents' worth of dog salmon in a case, the price will be ridiculously low for Columbia river salmon.

BARRETT'S GOOD WORK

ST. LOUIS EXPOSITION COMMISSIONER-GENERAL REPORTS HIS SUCCESS.

WASHINGTON, Sept. 25.—Secretary Hay has sent urgent instructions to all the United States diplomatic officers abroad to do everything within their power to secure displays at the world's exposition at St. Louis in the countries to which they are accredited; both individual displays and national exhibits by the governments. Encouraging reports are coming in now, and one just received from Commissioner-General John Barrett conveys the gratifying announcement that China, Japan and Corea will participate in the fair on a much more extensive scale than they have undertaken in any preceding international exposition. The three countries named have agreed not only to prepare comprehensive exhibits, but to erect buildings on the fair grounds and sending imperial commissioners to represent them.

Commissioner Barrett has started on a tour of Southern China, bound for Australia and New Zealand.

ROUMANIA IS THE SUBJECT

Of World-Wide Interest Since Secretary Hay's Note

WAS SENT TO THE POWERS

Jews in that Country Hail American Sympathy With Joy

FRANCE IS TAKING A GREAT INTEREST IN THE MATTER AND HOPES FOR THE IMPROVEMENT OF CONDITIONS ARE FREELY EXPRESSED EVERYWHERE.

BERLIN, Sept. 25.—The Tageblatt today prints a letter from Bucharest, the capital of Roumania, dated September 22d, saying:

"The Washington note came like a ray of sunshine from a storm cloud for the Jewish people, and especially the laboring classes, who conceived the hope that a favorable turn must result from the interference of Mighty America."

Germany Stands Aloof.

Berlin, Sept. 25.—Germany has decided not to associate herself in a formal manner with the American and British protests against Roumania's treatment of the Jews. The German Government adopts this attitude, it is understood, independently of the other continental Powers. No agreement has been reached in the matter among the cabinets of the Continent.

France Interested.

Paris, Sept. 25.—Secretary Hay's note to the Powers on the subject of Roumania's treatment of the Jews, of which notice was at first taken under the impression that it would lead to nothing, is now attracting more attention in the French press, and in official circles here. It is practically certain that the French Government will support the movement among the Powers to put pressure on Roumania in favor of a better treatment of the Jews, and it is believed that Germany will take a similar attitude.

While it is thought the United States will thus be successful in stirring the Powers into seriously considering the matter, and that the Roumanians may be addressed to Roumania not much hope is expressed in the practical and permanent effect within Roumania from such action.

Washington, Sept. 25.—Secretary Moody was more fully advised of the situation on the Isthmus this afternoon by a cablegram from Commander McLean at Colon. It was said at the Department that the commander's report was to the effect that the conditions on the Isthmus, while not seriously disturbed now, are such that the United States forces at present there cannot be withdrawn or diminished.

Roumania Is Anxious.

LONDON, Sept. 25.—The Vienna correspondent of the Daily Mail says that the Roumanian Minister of Foreign Affairs, M. Bratiano, is coming to Vienna to consult Count Goluchowski, Austro-Hungarian Minister of Foreign Affairs, concerning the note addressed by Secretary of State John Hay to the signatories of the Berlin treaty with regard to the Jews in Roumania. King Charles of Roumania, continues the correspondent, will also reach Vienna shortly, on his way to Bucharest, but he is expected to have an interview with Emperor Francis Joseph.

CABLE TO HONOLULU

WILL BE COMPLETED WITHIN THE NEXT THREE MONTHS—THE CABLE STEAMER.

SAN FRANCISCO, Sept. 25.—"Within 90 days messages will pass over the Pacific cable between San Francisco and Honolulu."

This positive statement was made by Richard V. Dey, the local representative of Clarence H. Mackay, son of the late John W. Mackay. The steamer Silverton, with the cable on board, is due at this port in 60 days. There will be no delay here, for the vessel will steam out to the ocean beach, and in a few hours the cable will be brought ashore and safely anchored or fastened to the station. Once the American end of the line is made secure, the steamer will sail for Honolulu. Fourteen days are allowed for the trip, so that the other end of the cable may be carried ashore into the Hawaiian Capital, and dispatches passing over it early in December. The remainder of the cable will be laid as speedily as possible. It will touch at Guam and end at Manila. The cost of the work now projected is about \$12,500,000.

Clarence Mackay left yesterday for London, via New York, but according to Mr. Dey, says he will soon return and will establish a home here, a large part of his father's estate being located in this city and state.

THE NEW CRUISER.

PANAMA, Sept. 25.—The Government entertains great hope of the new cruiser Bogota, recently acquired. It is believed that when the Bogota begins operations, the revolutionists will lose their prestige at sea, which the Government officials declare to be their greatest strength.

The storm came September 11th, the anniversary of the terrible gales which swept Nome harbor in 1900, doing such terrible damage to shipping. About 10 o'clock that night the wind swept down on the harbor and town from the south-east, shaking up the buildings generally.

BUTTE POLICE DUPED

THOUGHT THEY WERE MERELY HELPING MISSIONARIES IN RESCUE WORK.

BUTTE, Mont., Sept. 25.—The Inter-Mountain today publishes a story confirming its statement of several days ago to the effect that the wife and child of Chin Quon, a local Chinese merchant, who were spirited away Monday night, did not steal away, as was said, but were abducted by interested parties from California, who made the Butte police the dupes of their schemes. A prominent San Francisco mission worker, whose name is connected with the abduction, is wanted by the local police, who seem unable to decide the right of the matter.

Chin Quon, the merchant, is very wealthy and influential in the Oriental quarter. He has filed papers against the local police for entering his house without a warrant, and charges that they and Mrs. A. A. Brown, a teacher in a Chinese rescue mission, conducted by the Presbyterian church in San Francisco, forcibly entered his house and carried away his wife and child. The police here were told that the women were mistreated, and upon representations of Mrs. Brown went with her after midnight and made the alleged abduction.

Now the police are anxious to interview Mrs. Brown again, but no trace, either of her, or the missing woman and child, can be found. Chin Quon declares that an old enemy of his in San Francisco bribed Mrs. Brown to come to Butte and steal his wife, with whom the man was in love some years ago.

Chinese Girls Found.

San Francisco, Sept. 25.—Mrs. A. Brown, of the San Francisco Presbyterian Mission Home, who took two Chinese girls from the home of a Chinese girl who have been placed in the mission.

METHODIST CONFERENCE

LARGE ATTENDANCE AT THE GRANTS PASS MEETING—THE CHURCH IS PROSPEROUS.

GRANTS PASS, Sept. 25.—The Oregon annual conference of the Methodist Episcopal church, being held in this city, is proving to be one of the most successful ever held in the state. There are now over 150 visiting ministers and delegates here attending the conference. The meetings are being well at-

tended, and the greatest of enthusiasm prevails.

From the reports received from the churches of the various districts of this conference, it is evident that Methodism has enjoyed a very healthful growth in Oregon during the past year. A number of new churches have been added, and all of the old ones have added to their membership and increased their strength in general. The church of Grant's Pass, under the pastorate of Rev. Mr. McDougall, is one of those that has enjoyed a big growth during the past year. There has been a net increase of 11 to this church; it has paid out \$500 for charitable purposes, and \$500 for improvements upon the buildings and property of the church here.

Last night the auditorium of the church was filled to overflowing with an attentive audience. Dr. W. F. Oldham, of New York, delivered the address of the evening, on the subject of home and foreign missions. Yesterday the examination of under-graduates was concluded by Bishop Cranston, of Portland, and this afternoon a meeting was held under the auspices of the Women's Home Mission Society, Dr. Hilt, of Cincinnati, delivering an address. Dr. Hilt also delivered the address of this evening.

ROOSEVELT RESTS EASY

NO FORMAL STATEMENT ISSUED FROM THE SICKROOM—COMPLYING WITH INSTRUCTIONS.

WASHINGTON, Sept. 25.—The President was resting very comfortably when his physicians called to see him this evening. He is complying with their injunctions to give the leg complete rest, and good results are apparent already. In view of the improvement in the President's condition, no prepared statement was made, Secretary Cortelyou simply saying, when he left the temporary White House at 10 o'clock, that Mr. Roosevelt was doing fair. Dr. Lung, the President's regular physician had left the house at an early hour.

MANY LIVES LOST.

SAN FRANCISCO, Sept. 24.—The schooner Louisa D. has returned to this port after a year's cruise among the Marshall and Gilbert Islands. Twice she was wrecked on coral reefs, and on January 4, one of her crew, Ernest Wenzel, fell overboard and was drowned.

Captain Moore tells of a tidal wave which visited the Marshall Islands and took several lives. A schooner owned by Moses, chief of the Marshall Islands was wrecked, and Moses, his three wives and eight sailors were lost. When the Louisa D. left Jaluit the German gasoline schooner Aedus was long overdue, and thought to be lost with her crew of nine men.

PHILADELPHIA IN DRYDOCK.

SEATTLE, Sept. 25.—The cruiser Philadelphia was put out of commission at the Puget Sound Navy Yard yesterday on telegraphic orders from the Navy Department. It is considered likely that the cruiser will be in ordinary for at least a year. Extensive repairs are ordered, which involve reduction of her considerable height above water. The decks will be cut down to the main deck and every section of rigging and machinery is to be overhauled and replaced when necessary. Work is to begin at once.

BEVERIDGE IS IN MICHIGAN

The Fall Campaign Opened by the Indiana Senator

FREE SILVER IS IGNORED

By the Democratic State Convention in Connecticut

A STRUGGLE FOR RECOGNITION OF THE KANSAS CITY PLATFORM WAS FUTILE—MONTANA DEMOCRATS TO ORGANIZE NEW POLITICAL PARTY.

GRAND RAPIDS, Mich., Sept. 25.—The Michigan fall campaign was opened tonight by United States Senator Beveridge, of Indiana. The big hall was packed to the doors.

Congressional Caucuses.

Boston, Sept. 25.—Complete returns from last night's Republican caucuses in the Eleventh Congressional District give Eugene N. Foss a total of 56 delegates, and Melvin O. Adams, 50; this apparently insuring the nomination of the former.

Bryanism Ignored.

New Haven, Conn., Sept. 25.—The Democratic State Convention adjourned tonight. A full state ticket was nominated. A strenuous struggle was made in the committee for an endorsement of the Kansas City platform, but the committee refused to mention the Kansas City document, and the fight practically ended there.

For a New Party.

Butte, Mont., Sept. 25.—The followers of F. Augustus Heinze, who were denied seats in the Democratic State Convention in Bozeman, where they appeared as the contesting delegation, held a mass meeting in this city tonight. It was announced that the purpose would be to launch an independent party consisting of Heinze supporters who are opposed to the party leadership of Senator Clark. This faction would succeed in fusing with the Populist and Labor party. Addresses were made denouncing the Democratic convention for not seating the Heinze delegation, and for not giving Heinze an opportunity to speak. The creation of the new party was not accomplished at the meeting, but was left to the action of an organizing committee, which will meet tomorrow.

Heinze in the Fight.

Butte, Mont., Sept. 25.—At an open air meeting held here last night in front of the Silver Bow county court house, F. Augustus Heinze, whose delegation was defeated and turned down in the Democratic Convention in Bozeman, Tuesday, announced his intention of forming a new political party in Montana. He means, it is said, to fuse the Populists, the Labor party, the Socialists, the Heinze Republicans and followers he has in the Democratic party in a grand effort to overthrow Senator Clark in Montana. A meeting to bring about this fusion is to be held at once. Thousands heard Heinze's address in front of the court house last night, and he expressed himself as confident that he can carry Montana in the face of the combined opposition of both the established political parties.

HEARTY LAUGHTER IS HELPFUL.

When the system is nerve and is making conscious or unconscious effort, the nerves that tighten the walls of the blood vessels are hard at work, and pressure in the arteries is great, but a hearty laugh, as Brucke's interesting experiments show, tends to bring the blood over into the veins where there is no pressure, relieves the arteries and brings the exquisite sensations of relaxation of rest. This is favored even by the attitude of a hearty laugh. To draw in a full breath, throw back the head, open the mouth and let the expiration "gurgle forth with sonorous intermittence," to quote a phrase from the "Philosophy of Laughter," and to do it again, and again, slowly draws off the chains of the world's great taskmaster and brings us back toward the primeval paradise where there was nothing but joy, and sin and sorrow were unknown.

Once more optimism is one of the supreme sedatives. There are men who worry because the sun will sometimes go out and the earth grow dead and cold like the moon, or the coal measures be exhausted, or the fertile areas of the world dry up because of the denudation of forests, but the philosophy of health is that the best things have not happened; that man's history has only just begun; that on the whole, there has been steady progress; that in religion and nearly if not quite all the essentials of the further development of man, faith in human nature and belief in a future better than the present is the conclusion of every philosophy of development and evolution.—St. Paul Globe.

GENERAL GOBIN'S ORDER.

Harrisburg, Pa., Sept. 25.—The former order issued by Governor Stone placing troops on duty in Lackawanna and Lebanon counties was made public today at the headquarters of the National Guard.

Dr. W. R. Hunter, late of Queen's College, Canada, arrived on the late overland Wednesday a guest is visiting his sister, Mrs. H. S. Gile.
