COYOTES IN JOSEPHINE

BOUNTY LAW HAS NOT LESSENERD NUMBERS OF SHEEPKILLERS IN THAT SECTION.

(From Wednesday's Daily.)

GRANTS PASS, Sept. 23.—While the ranchers of the eastern part of the state are complaining of too many jackrabbits and not enough coyotes, the farmers and stockmen of Western Josephine county are complaining of too many coyotes. This seems to be one section of the state in which the scalp bounty seems to cut little or no figure in the matter of the thinning out of the "sheepkillers." A prominent stockman of Western Josephine county says he has never known the coyotes to be so numerous in that section of the country as they are at the present time. Many stockmen in that part have given up raising sheep in despair because of the ravages of the coyotes. Many have disposed of their sheep and restocked their ranches with cattle, but it is feared that in a few years the coyotes will be bold and numerous enough to get away with the young calves.

STILL UNCONSCIOUS.

BROWNVILLE, Sept. 23.—George W. McComey, of this city, who was so brutally assaulted by J. H. Cooper, is still in a precarious condition. He has never regained consciousness, and there is little hope for his recovery. McComey is a stout man, and may live for some time yet, but the operation reveals the fact that his life may end at any minute. In the meantime, Cooper is awaiting the developments of the case.

Summer Complaint.

is not always brought about by change of air and water. The "stay-at-homes" are just as susceptible to diarrhoea, due, generally, to over eating, as unripe fruits, etc., and drinking ice water; all accompanied by painful bowel discharges; and, if not checked, results seriously. Perry Davis' Peppermint Cure is the only purely reliable remedy. 25 and 50c.

HARVESTING OREGON HOPS

Is About Concluded and Shipments to Market Begin

A CAR AT BROOKS READY TO BE LOADED—ONE LARGE SALE MADE YESTERDAY, AND AN OFFER, MADE FOR AN EXCELLENT LOT, REFUSED.

(From Thursday's Daily.)

The harvesting of Oregon's big crop is about completed, the last of the growers finishing today or tomorrow, and already dealers are beginning to look after the crop, and bids are being made for the holdings of some of the growers. One lot of good quality hops 200 bales, was yesterday sold here for 21½ cents, this practically marking the opening of the market of the valley, and other sales at prices ranging near the above figure are being reported. An offer was yesterday made to a prominent grower of 25 cents for 100 bales of choice hops, but the proposal was declined, as the grower was not ready to sell.

One car load of Oregon hops has already been shipped East from Eugene, and at Brooks a freight car is standing on the sidetrack to be loaded with hops immediately. This shipment of one car load is said to contain contract hops, and they will go to New York at once.

From Brooks yesterday morning 250 hop pickers left on the Southern Pacific Company Albany local, for Portland; they having completed their work in the hop yard of Krebs Bros. This was the last shipment of hop pickers handled by the Southern Pacific this year. Thus it will be seen that before all the pickers had left the yards, the new hops began to move to market.

The annual report of the hop crop of the world, issued by Messrs. W. H. & H. L. May, of London, has been received in this city. The estimate on the English crop places the total yield at 325,000 cwts., or 2,125,000 old duty. In speaking of the world's crop and the prospects of the market, the report has the following:

"The reports from America speak of the Pacific Coast hops as being a fair average crop, but the New York state is variously estimated at a quarter to half of last year, which was a very small crop, and which accounted for the very short supply of Pacific coast hops on this market, their own brewers being obliged to take the Pacific hops in place of the New York hops, which they generally use; this year it will be even more so, the stocks in America are exhausted, and we do not think it possible that England, even with the high prices that are bound to rule here, will draw from this source as many hops as she did last year, which was only 80,000 cwts.

"Our continental reports speak of Austria producing less than two-thirds of last year, and these are the hops usually exported to this country. The Bavarian crop, which was a small one last year, is a good average this. These are the hops usually taken by the German brewers, whose stocks are almost exhausted, consequently a good demand for home consumption will exist on the Nuremberg market. So we think that we are not likely to have an undue quantity from the continent.

"The requirements of our brewers, exporters, manufacturers of non-alcoholic drinks and yeast makers are at least 800,000 cwts.; now, if we put our estimate of the English growth at 325,000 cwts., and the possible import from continent at 100,000 cwts., and from America at 50,000 cwts., it will give us a total of 475,000 cwts., showing a deficiency of 325,000 cwts. The stocks to cover this vast deficiency held by all hands outside actual consumers are the smallest on record since the great blight of 1882, and it is our opinion that the hop markets of the world will be more bare of hops before another crop can be gathered than ever before. This being the position of affairs, hop growers are warranted in their expectations of realizing such a price for their crop as will fairly pay them for all the trouble they have had during one of the most trying seasons ever known. They have had to fight one of the most serious aphid attacks, with a low temperature, and only a few have been successful in securing a fair crop."

TALKED TOO MUCH

AN ESCAPED CONVICT SUCCEEDS IN LANDING HIMSELF BACK IN THE PENITENTIARY.

Most people are familiar with the story of the fellow who, as a corpse would have had a first class funeral if he had only kept his mouth shut. The following story from the Malheur Gazette illustrates how a fellow over in that county spoiled his enjoyment of a good thing through the same failing: "Had August Kangas not fallen from over-confidence and kept his secret to himself he might have remained in the country for many years without being detected as an escaped convict from the State Penitentiary at Salem. As it was he lived here for six years, came to town whenever he felt like it, shook hands with a number of sheriffs when they were campaigning and after they had been elected without ever exciting their suspicion or in any way intimating that his picture was in the rogues' gallery—although the sheriff is supposed to keep a rogues' gallery and look at it once in a while. "August grew confidential and the secret leaked out that he had at one time worn the stripes without any stars to

THE WOMAN WHO WAS LOST

To Wellville

Mrs Richard Roe had started for Wellville, and had missed the way.

She had been wrongly directed by well-meaning friends. While she was pondering the situation, she saw a fine healthy woman coming toward her, and asked her: "Do you know where Wellville is?" "Of course I do," was the answer, "I live there." The stranger gave Mrs. Roe exact directions as to the way to Wellville and passed on. But Mrs. Roe stood still. "Suppose," she said to herself, "that this woman is deceiving me. Perhaps she doesn't live in Wellville or know the way." And while she was still pondering, another woman came by and Mrs. Roe accosted her. "How can I get to Wellville?" she asked. Again the way was pointed out and the stranger passed on. But Mrs. Roe still stood in the road, wondering whether the directions given her were trustworthy.

One would say that Mrs. Roe must be a very singular woman. She wanted to go to Wellville, could not find the way, and yet doubted the information given her by two of her own sex who had no motive in the world for deceiving her. But Mrs. Roe is not at all singular. There are many like her. They are sick and want to be well. Not two women, but scores and thousands, say, "We know the way to be well. We are well after years of sickness, and we can tell you, as a matter of experience, that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well." But still the Mrs. Roes stand hesitating, wondering whether they are being deceived by the women who point the way to health.

Often there is a natural reason for this doubt and hesitancy. Directions given by friends have been perhaps followed without result. Perhaps the local physician has said there is no way by which you can regain health. But a large number of the women who have been cured by the use of Dr. Pierce's Favorite Prescription have gone through the same experience. Friends advised this or that medicine, but it failed to cure. Doctors said: "There is no hope of health for you," and at the last, the use of "Favorite Prescription" healed disease and restored perfect and permanent health.

"You have my heart-felt thanks for the kind advice you sent me," writes Mrs. Florence Archer, of Eason, Macon Co., Tenn. "Words fail to express what I endured for about eight years with female trouble. The awful pain that I had to endure each month, no tongue can express. These bearing-down pains, backache, headache, distress in my stomach, and sores in my breast, cramp in limbs—they have all left me and health has taken place of these distressing troubles. What caused them to leave? It was the best medicine on earth—Dr. Pierce's Favorite Prescription. For the first three or four days after taking the medicine I got worse. Had you not told me that I should be apt to feel worse I never would have taken another dose; but in one week's time I began to feel better. After taking six bottles of the 'Favorite Prescription' and using the local treatment you advised I felt like a new woman."

Dr. Pierce's Favorite Prescription cures womanly diseases. Hundreds of thousands of women testify to that fact. It has cured in cases where every other available means and medicine had utterly failed to give more than temporary relief. "Favorite Prescription" establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. For expectant mothers it has no equal. It prevents or cures morning sickness, tranquilizes the nerves, encourages the appetite and induces refreshing sleep. It gives great muscular vigor and elasticity and so makes the baby's advent practically painless. It is the best known tonic for nursing mothers.

"Without solicitation from you I feel it my duty to suffering women, to make known the virtues of your 'Favorite Prescription' in curing me of a complication of diseases," writes Mrs. Mary J. Weida, of Allentown, Pa., 391 Oak Street. "I had heart trouble for about three years and was so weak and run-down that I had to force myself to attend to my household duties. The least excitement would cause my heart to flutter, and during its normal periods it would every now and then seem to lose a beat, which affected me through my whole system, even the raising of my hands above my head, would make me so weak that I had to sit down while I recovered myself. All these ills have given way to the curative power of your 'Favorite Prescription.' The greatest relief was received prior to the coming of my little one; during the six previous experiences I was afflicted with morning sickness from beginning to end of each period, but after using your remedy for one week, I was entirely relieved of that distressing affliction. No one can appreciate what a relief that was, save those who have actually experienced it."

Sick women are invited to consult Dr. Pierce by letter, free. All letters are held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

If you are led to the purchase of "Favorite Prescription," because of its remarkable cures of other women, do not accept a substitute which has none of these cures to its credit.

THE WAY TO WELLVILLE, or, in other words, the way to be pointed out in Dr. Pierce's great work, The People's Common Sense Medical Adviser. This book contains over a thousand large pages, and more than 100 illustrations. It is sent absolutely FREE on receipt of stamps to pay expenses of mailing ONLY. Send 21 cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume.

THE COUNTY EQUALIZERS

GRANT A SMALL REDUCTION ON ASSESSMENT TO THE TELEPHONE COMPANY.

Yesterday proved a dull day to the county board of equalizers, only one case of interest in which action was taken having come up for hearing, and that was an application from the Pacific States Telephone & Telegraph Company for a comparatively small reduction of the increased amount of the assessed valuation of its property in Marion county. This company has 151 miles of lines in this county which has heretofore been assessed at \$20 per mile, but this year the assessment was increased to \$40 per mile. The only objection which the company made to the increased valuation was in respect to 40 miles of its line which Mr. Dancy, the local manager, represented as being strung on fire poles, which were in a badly decayed condition, and, inasmuch as the poleage of this character is not assessed above \$30 per mile in any other county in the state, the company asked that the assessment be reduced to its former valuation, to which request the board acceded.

The company offered no demonstration whatever to the increase of \$10 per mile in the assessed valuation upon the balance of its mileage which is strung upon cedar poles.

A COMMUNICATION.

Mr. Editor: Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. E. Brockman, Bagnell, Mo. This remedy is for sale by Stone's Drug stores.

MATCH MAKERS QUIT.

NEW YORK, Sept. 23.—The British match-making industry has been reduced by American competition to a deplorable condition, cables the London correspondent of the Tribune. Several British firms have determined to quit the business rather than manufacture at a loss.

his credit. A sheriff always likes to keep a weather eye on convicts and for that reason while Sheriff Taylor was down at the Penitentiary the last time he looked up Mr. Kangas and was surprised to learn that that gentleman had taken leave of absence from the prison walls by his own orders. As soon as the sheriff returned he went out to John Hagan's ranch where the escaped convict was working and arrested the man. Chief of Police Bixley left yesterday morning for Salem with Kangas.

Kangas has been living in this vicinity ever since he made his escape and it was purely accidental that his secret became known. He was sent up from Clatsop county in 1895 for burglary and escaped in July 1896, when he had but three and one-half months yet to serve.

NEW OFFICERS CHOSEN

BY THE STUDENT BODY OF THE WILLAMETTE UNIVERSITY LAST NIGHT.

On yesterday afternoon the annual election of officers for the Student Body was held. E. K. Miller, '05, was chosen president, Miss Louise Van Wagner, '04, vice president, and W. C. Winslow, secretary and treasurer. On account of other duties H. W. Swafford placed his resignation as football manager before the Student Body. Upon the acceptance of this resignation, R. C. Glover, '07, was selected to fill the vacancy. This choice insures the friends of football a capable and energetic manager. The matter of finances was referred to the executive committee which consists of one member from each college and academy class.

A REDUCTION IS MADE

BY THE SOUTHERN PACIFIC ON THE FREIGHT RATE OF OREGON'S APPLE CROP.

PORTLAND, Sept. 24.—The Southern Pacific today announced a reduction of 25 cents per hundred, in the rate on apples from Portland and all points south, to the Missouri river and Texas. The new rate is 25 cents per hundred. The new rate to Chicago and St. Louis is 85 cents per hundred, a reduction of 15 cents.
