THE FRICTION HAD DISAPPEAR ED WHEN THE STATE CONVEN-ENDORSED.

SARATOGA, Sept. 24.-Completing today in three hours, the state ticket, and promulgating a platform of principles without the least indication of friction and amld much enthusiasm the State Republican Convention adjourned sine die. The candidates with three exceptions are at present state officials. The planks in the platform which attracted the most attention were those protesting against combinations and canals.

The friction which developed yesterday and which threatened to result in a party breach had entirely disappearin the most harmonious way. Senator Platt said that if he had made any aspersions on Mr. Woodruff he had for-gotten them. Woodruff failed to remember any criticism against Senator Platt. Governor Odell left early in the morning, after having effected the retirement of Mr. Sheldon, and the delegates in unit approved of his decision. Senator Higgins, who was noms inated by the convention for Lieutenant Governor, was the original candidate of Senator Platt.

FALLS CITY RAILROAD

MIL

ACTIVE WORK OF CONSTRUCTION HAS COMMENCED-GOOD BUSI-NESS PROSPECTS.

(From Thursday's Daily.)

The Falls City-Dallas Railroad is evidently to be pushed to an early completion, to the great benefit of the farmers of a large section of Polk and adjoining countles. Active work has been commenced, and the indications point to continuous operations until the road is built and running. The Portland Telegram of last evening, in speaking of the road and its

prospects, has the following: "The Falls City-Dallas Railroad, which is being built by L. Gerlinger, of this city, enhances the prospects of the farmers of the isolated section and particularly the lumbermen.

"General Passenger and Freight Agent Coman, of the Southern Pacific. says the new branch road will develop a considerable volume of traffic. There are two saw mills in the hills near Falls City, with a capacity of something like 100,000 feet per day. Flumes between two and three miles long bring the lumber to Falls City, where it is hauled by teams to Dallas, seven miles. At this, there is a big profit in

handling the lumber of that section. "L'Utimately Gerlinger's road will be pushed on out into the woods, where there is still much merchantable timber to be sawed up. The flumes used to convey the lumber to Falls City, where it is loaded onto wagons, are capable of carrying pieces 12x12."

The doctor usually gives it in such doses as can be easily taken in molk, using milk beside as a food for small children.
