PRESIDENT ROOSEVELT

Forced to Submit to an Operation in a Hospital

LATE TROLLEY ACCIDENT

The Cause of His Present Indisposition--Abscess Formed

RESULTING FROM A BRUISE SUS-TAINED AT PITTSFIELD, MASS .-WAS TAKEN FROM INDIANAPO-LIS TO WASHINGTON LAST

INDIANAPOLIS, Sept. 23 .- President Roosevelt's Western trip came to an untimely end in this city today. He was found to be suffering from a swelling of the left leg, between the knee and ankle, that required immediate surgical attendance, and he was conveyed to St. Vincent's Hospital, where he was operated on. The operation lasted only a short time. At 7:30 p. m. he was conveyed on a stretcher to the train and left for Washington.

was wrong came in rumors to the great crowd that was patiently waiting at the club for the President to appear. . It was about 3:30 o'clock, a half hour after the time set for the President to On the Candidate for Lieutleave the city, that a few of the favored ones in the crowd received the int formation that the President was sick and that the rest of the trip would be abandoned.

Finally it was noticed that a movement of some kind was on. The President's carriage stood in front of the entrance of the club, with Colonel Wilson, the Governor's Private Secretary, inside. The command was given to "make room" and a path was cleared from the club to the carriage, and the President, accompanied by Senator Pairbanks, hastily entered the carriage. Colonel Wilson got out, and Senator Fairbanks, Secretary Cortelyou, and Governor Durbin took seats in the carriage with the President.

Amid the sound of many horses trotting upon the asphalt, and a rattling of carriages, could be heard the cheers of the people who thought they were bidding the President "good bye." In a few minutes St. Vincent's Hospital was reached, and the operation began without delay. The swelling of the Pre-ident's leg, which made the operation necessary, was occasioned by a bruise received at the time of the trolley accident at Pittsfield, Mass. Besides being injured in the face and across the eye the President received a blow upon the inner part of the left leg, between the ankle and knee, but he paid no attention to it, ignoring it as being a slight bruise not worth talking about.

Under the Knife.

Indianapolls, Sept. 23, 2 p. m .- "As a result of the trolley accident at Pittsfield, Mass., the President received several bruises. One of these on the left leg, between the knee and the ankle, has developed into a small abscess. The President is entirely well otherwise, and has continued to meet the engagements of his itinerary, but in view of the continuousness of the abscess, Drs. Collier and Cook, of Indianapelis, were requested to meet Dr. Lung, the President's physician, at Indianapolis; Dr. Richardson, of Washington, D. C., also being one of the number. In the opinion of the doctors the trouble necessitates an operation, which they think should be performed at once at St. Vincent's Hospital, in this city. After the operation the President will require complete rest, probably for 10 days or two weeks. It has been necessary to cancel all the remaining engagements. of his trip, and he will go directly from Indianapolis to Washington this even-

"The physicians say that the case is not in any way serious and there is no danger whatever. This statement is made that no false rumors may disturb the people, and that they may be authoritatively advised of the exact nature of the case

Oliver, of Indianapolis, after a consultation with the President's physician, Dr. Geo. A. Lung, and Dr. Geo. J. Cook, Dr. Henry Jameson, and Dr. J. J. Richardson. At the conclusion of the operation the physicians authorized the following statement: 'As the result of traumatism (a bruise) received in the trolley accident in Pittsfield, the operation was necessarw. An examination of the wound shows a circumscribed collection of serum in the middle third of the left anterior tibal region, a sac containing about two ounces which was removed. The indications are that the President should make a speedy recovery. It is very importquiet and refrain from using the leg. The trouble is not serious, but tempor-
