

# EFFORTS TO END STRIKE

## President Roosevelt Has Appointed an Early Meeting

### FOR CONTESTING LEADERS

## Coal Barons and President Mitchell to Meet in Washington

WHEN THE NATION'S CHIEF WILL ATTEMPT TO BRING ABOUT A COMPROMISE OF THE VARIOUS INTERESTS — ARRANGEMENTS COMPLETED FOR THE MEETING.

WASHINGTON, Oct. 1.—President Roosevelt will make an effort to bring the anthracite coal mine owners and their striking employes together in the interests of the public good. This conclusion was reached after a series of conferences with his cabinet advisers yesterday and today. This decision was arrived at when the lawyers of the cabinet informed the President that there was no way under the Constitution and Government of the United States for Federal interference to end the strike. Every phase of the situation was canvassed, and a determination to have the mine operators and President Mitchell meet the President was reached when it was found no other method was open.

At the meeting Friday, a line of approach toward a settlement of the strike will be detailed by President Roosevelt to have both sides come together as men and not allow false pride or feeling of obstinacy to stand in the way of a termination of the great strike which is fraught with such threats of misery to thousands of people. It is stated by one of the President's advisers, that beyond this the President cannot go; he has no powers of compulsion to bring into play against either side, and must rely upon his persuasive abilities or his appeals to their sense of humanity if anything tangible is to be accomplished. The President intends to lay before his hearers the situation as it appears to him with all the prospective horrors that will follow a fuel famine, and will urge them in the interests of humanity to open the mines and supply the demand for coal. The President has taken this action because he feels it to be his duty to do so, as the executive head of the nation threatened with great peril. Just how, no one can say, though there is a suggestion of a temporary arrangement which will tide over the cold weather. It is stated by members of the cabinet that there is no political purpose in this effort. There will be no one present at Friday's meeting but participants. Absence of the cabinet will give the President an opportunity to do just what he wants, namely to have a heart to heart talk with the operators and Mr. Mitchell, and to induce them to talk to each other freely, and to reopen fairly, and finally, to agree if possible, to make concessions on each side which will terminate the strike.

### Warrants Sworn Out.

Pottsville, Pa., Oct. 1.—One hundred and twenty-seven warrants were served this afternoon on strikers and their sympathizers at Centralia, and the prisoners were taken to Bloomsburg for hearing at that place, on charges of various nature.

### Roosevelt's Telegrams.

Washington, Oct. 1.—The following was made public at the White House this afternoon. The telegrams are the result of conferences between President Roosevelt and members of his Cabinet, which were held yesterday and today: "White House Washington, Oct. 1, 1902.—George F. Baer, President of the Reading System, Philadelphia: President Tuesday, Delaware, Lackawanna & Western Railroad Company, New York; Ed. Thomas, Chairman of the Board, Erie Railroad Company, New York; Thomas P. Fowler, New York, Ontario & Western Railroad Company, New York; R. M. Oilphant, President of the Delaware & Hudson, New York; John Markley, 527 West Thirty-fourth Street, New York:

"I should greatly like to see you on Friday next, October 3, at 11 o'clock a. m. here in Washington. In regard to the failure of the coal supply, which has become a matter of vital concern to the whole Nation, I have sent similar dispatch to Mr. John Mitchell, President of the United Mineworkers of America, 'THEODORE ROOSEVELT.'"

"John Mitchell, President of the United Mineworkers of America, Wilkes-Barre, Pa.: I should greatly like to see you on Friday next, October 3, at 11 o'clock a. m. here in Washington. In regard to the failure of the coal supply, which has become a matter of vital concern to the whole Nation, I have sent a similar dispatch to the presidents of the anthracite coal companies, 'THEODORE ROOSEVELT.'"

### Denied in Wall Street.

New York, Oct. 1.—The report that President Roosevelt had been in communication with the presidents of coal roads, who represent the operators in the present strike in the anthracite district, was denied today by President Oilphant, of the Delaware & Hudson Company.

"There is no truth in the story," he said, "and there will be no conference between the operators and the miners, even if President Roosevelt should make the request. The situation is unchanged. We have received no advances from President Roosevelt nor from any one representing him so far as I know."

## BOER GENERALS

### EMPEROR WILLIAM DOES NOT WISH TO RECEIVE THE SOUTH AFRICANS.

BERLIN, Oct. 1.—The Boer Generals' request for an audience of Emperor William remains in abeyance until Germany learns the British Government's views on the subject. Foreign Secre-

tary von Richthoff has notified Ambassador Lascelles of the Boers' application with an annotation that if the British Government chooses to recommend the Generals to the British Ambassador and he presents them, His Majesty will receive them as he would other notable British subjects. It is possible, though the British Government may refuse to make the recommendation referred to, that some way might be found to grant the Boers an audience and yet keep within the precedents, for it is obvious from the form in which the question was brought to Ambassador Lascelles' attention that Emperor William desires to receive the Generals.

Nothing would have been made of His Majesty receiving the Generals in audience a few days ago, but since their appeal for funds, partly for Dutch can not pass nets schools, and as their visit to Berlin is wholly in the interest of that fund, the British diplomatic introduction of the Generals would have been construed as support of the appeal. Whatever be the disposition of the subject, it is understood to be annoying to the Emperor as it will tend to overcloud his visit to England.

## ENGLAND IS HAPPY

### HAS MADE ARRANGEMENTS WITH THE STEAMER COMBINE AND THE CUNARDS.

SHEFFIELD, England, Oct. 1.—Gerald Balfour, president of the Board of Trade, speaking at the Cutlers' Feast, referred at length to the Atlantic shipping question. He said his department had opened communications with Baron Iverclyde, chairman of the Cunard Steamship Company, and with J. P. Morgan, representing the shipping combination, and it was the barest justice to both the gentlemen to say they had shown the utmost readiness to meet the wishes of the Government. Mr. Balfour then announced the details of the agreement with the Cunard Company.

With regard to the shipping combination, Mr. Balfour said he believed Mr. Morgan had no intention of injuring British interests, and proof of this was found in Mr. Morgan's readiness to meet the Government on all points upon which Great Britain's interests might seem to be endangered. Mr. Balfour said an agreement had been arrived at with Mr. Morgan, under which British vessels in the combine would remain British, not in name merely, but in reality. A majority of the directors of the new combine were to be of British nationality, the vessels were to fly the British flag, their officers were to be British, and a reasonable proportion of their crew would be drawn from the same nation, while the combine had undertaken that at least half of the tonnage hereafter to be built for it should be British-built and fly the British flag. Further, in the event of the combine upraising a policy hostile to the British mercantile marine, Mr. Balfour said, the Government was empowered to terminate the agreement, which was for twenty years' time and renewable by five years' notice from each party to it.

When Ambassador Choate arose to respond to the toast, "Kindred Beyond the Seas," he received an enthusiastic reception. His remarks were loudly cheered.

This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by Stone's drug stores.
