SALEM, TAKE WARNING. Editor Statesman:

in a Portland paper is found a report of a meeting of the Salem "Push Club" as follows:

"Hon. E. Hofer addressed the club on the matter of the new charter and the extension of the city boundaries, so in the country in the open season. as to take in the suburbs properly belonging to Salem. He held that the sanitary interests of the suburbs should be the moral grounds for extending the killed. It is dangerous for our child.en city limits. Dr. E. A. Pierce, vice president of the club, reported that the Marion County Medical Association would be organized in this city on next Saturday evening, and that the new organization would ---"ha interests of sanitary improvements, and

would attempt to secure the passage of laws providing for a state board of health, city boards of health and a bureau of vital statistics, and would work in harmony with the 'Push Club' in these matters."

The sanitary conditions of the thinly settled suburbs are quite equal to those of the center; the health of the population fully as good; the air and water better. Salem public business has been sparingly managed in recent years and the grafters are getting savagely hungry. Portland is just now unearthing its health department and at a late meeting of the council ordered an investigation of the office of city physician. It is found that the expense of the health department of the city has steadily grown as follows.

Expense of the Health Department | the port hinted at officials decline to of the city of Portland, Or., since the year 1902:

In addition to the above expenditures for 1902 there are other outstanding bills for about \$200, not yet approved, and which make the total ex-

penditure in excess of \$9,000 for the nine months of the current year ended September 30. A member of the committee on health and police, said: "We have been ap-

palled at some of the bills which have been presented from the city physician's office, and have refused to allow some of them. The matter has been referred to us and I can assure you that it will be fully investigated." Salem should take warning. It may be worthy of note that the east of the

river side of Greater Portland is agitating the question of secession. SUBUREAN.

It has been definitely decided that

the Oregon Short Line will build and

of conditions in the trans-continental

HOPS THREATEN TO GO ABOVE TWENTY-FIVE CENTS BE-FORE LONG.

The Statesman has for some days a pound-23 for prime greenish and 25 for choice.

Some of the Salem dealers have been disposed to criticize the quotation of 25 cents for choice as too high. They have admitted that the growers were asking 25 cents, and holding very firmly, but they have said the dealers had no orders that would justify them in paying that high a price.

But news received last evening by the Statesman from the north end of Marion county serves to fully justify the quotations made by this paper. Indeed, the quotations were made upon the authority of a Salem dealer who generally knows what he is talking about,

There are plenty of cases in the Aurora and Butteville neighborhoods where 25 cents has been offered in the past few days-yesterday and Wednesday and Thursday. Offers as high as 25 cents have been made by H. J. Miller and Mr. Gilbertson, and by Mr. Saunders. The last named gentleman is buying for Lilienthal Bros.

One of the growers in the Aurora neighborhood was offered 25 cents by at least two of these parties and his hops are not exceptionally choice, either. They are not better than the average in that neighborhood.

There was a report of an offer yes terday in that neighborhood of 25% cents, though this report was not confirmed.

It was reported yesterday that hops were being bought by the brewers in New York at 30 cents. This would fully justify a quotation here at 25 centa. So the hop market may be quoted as firm at 23c for prime greenish, and 25c
