CASES WERE DISMISSED

Assault and Battery and Assault With a Dangerous Weapon

BOTH THROWN OUT OF COURT ON MOTION OF DISTRICT ATTORNEY—FIRST INSTANCE JUSTIFIABLE AND IN LATTER THE GUN WAS NOT LOADED.

Jeese Martin, partner in Gilliam's livery stable, was arrested Wednesday evening, charged with assault and battery upon the person of John Patterson, a bartender in Mel Hamilton's saloon. He was given a hearing yesterday at 2 p. m. before Justice of the Peace E. D. Horgan, and the case dismissed.

The trouble arose over the hiring of a team by Patterson, he saying that he wanted to drive but a short distance, taking the team with that understanding. It was discovered later that he drove to Dallas, and it was over this fact that the altercation arose which led to the alleged assault.

Several witnesses appeared in court upon both sides, but none had a chance to testify, as Deputy Prosecuting Attorney Chas. L. McNary, after consultation with both of the parties interested, asked for a dismissal of the case, and the request was granted by the court.

GOLD EXPORTS POSSIBLE

LONDON MAY DEMAND IT IN PAYMENT OF NEW YORK'S TRADE DEBTS.

LONDON, Oct. 30.—There is undoubtedly a strong movement toward paying off the American indebtedness in London, but whether it can be done with gold and merchandise, or whether it will necessitate the importation of gold, the best posted man in London could not tell at the present moment.

This is the opinion of the head of the best known Anglo-American Bank in London, who, in discussing the financial situation with a representative of the Associated Press, said:

"Of course, bringing gold from New York at this time of the year would not be a normal course of things, but the controlling factor in the situation in the amount of New York's debt to London, and that no one could estimate without going through every bill box in London and also ascertaining the actual amount of stocks held on the Stock Exchange for American commitment. There is no special reason, so far as I am aware, why a large amount of gold should be wanted here now. No large National loans are impending or anything of that sort, but on the other hand there is so much money tied up in profitless investments that really it is a hard job to get cash to pay the butchers' bill."

"Take South Africa, where they have shot away about \$500,000,000. That makes a big hole in the Nation's savings. The list of South African securities on the Stock Exchange represents about \$1,500,000,000 tied up in stock that does not average a half per cent dividend. Consequently ready money is scarce. There is no market here now for anything, and nobody is buying for investment, but whether it will come to taking gold from America, I am quite sure nobody is yet in a position to say."

Bradley Discharged.

Clayton Bradley, who was arrested late Wednesday night for assault with a dangerous weapon upon the person of B. Southwick, a resident of Polk county, had a hearing in the justice court yesterday at 11 a. m. The hearing developed the fact that the double-barreled shotgun with which the assault was alleged to have been made was not loaded, and, further, that Bradley had no intention of in any manner injuring Southwick. After considering the evidence, the court discharged the prisoner, holding that the facts would not warrant binding him over.

AN ANSWER FILED

EDGAR AND OMER-BEWLEY PRESENT THEIR DEFENSE TO A SUIT.

An answer and counter-claim was yesterday filed in Department No. 1 of the Marion county circuit court in the case of J. W. Bewley, plaintiff, vs. Edgar R. Bewley and Omer Bewley, defendants.

The complaint was filed October 20th, and alleges that on June 19, 1900, the defendants gave to plaintiff for value received, their joint promissory note for the sum of \$211 with interest at the rate of 8 per cent. per annum, the note falling due October 1, 1901.

Plaintiff alleges that he is still the holder and possessor of said note, and that only the sum of \$60 has been paid thereon. He further alleges that for further cause of action he holds also a promissory note given by the defendants in the sum of \$200, dated June 19, 1900, the same to become due September 1, 1900. That but \$85 has been paid upon this note and he brings suit to recover the sums due, together with interest upon the same, and asks for costs and disbursements of the action.

In the answer which was filed yesterday, the defendants allege that by mutual agreement with plaintiff they have in work, and by selling him wood and lumber, asking a reasonable price for the same, satisfied the amount of the notes, and bring in a counter-claim for the sum of \$96 due them from the plaintiff and demand judgment in that sum, and for costs and disbursements of the suit.

It is stipulated that the plaintiff have until Monday, November 3d, to file his reply to the new matter set up in defendants' answer.

P. L. Frazier and Bonham & Martin are attorneys for plaintiff, and Carson & Adams for the defendants.

THE SUPREME COURT

CALENDAR CONTAINS SEVEN APPEAL CASES FROM MARION COUNTY COURTS.

Clerk of the Supreme Court J. J. Murphy yesterday arranged the Supreme Court calendar for the ensuing two weeks, beginning Monday, November 3d. There are thirteen cases in all, seven of which are appeals from Marion county, as follows:

Monday, Nov. 3.—Edgar Poppleton, respondent, vs. George W. Jones, et al, appellants; appeal from Yamhill county; on motion. 12 m. C. H. Robertson.

LECTURES AT UNIVERSITY

Professor Hawley Delivered the First of Series on Monday

SPLENDID PROGRAM OF EXCELLENT ADDRESSES ARRANGED FOR THE NEXT MONTH—FREE TO THE PUBLIC—ALUMNI ISSUES A CIRCULAR APPEAL.

One of the most important features of the present University year is to be the course of Monday evening lectures. The faculty have decided again to adopt the custom of former years, and have planned more largely than before to present an attractive and interesting course of lectures as possible. The Monday evenings of the year will be occupied by the professors of the various colleges with occasional speakers from abroad.

The plan is to present wide range of scholarly and popular topics, and to make the discussion timely and of a nature to prove attractive, not only to students, but to the public generally.

These lectures and the recitals of the Schools of Music and Oratory are free, and a cordial invitation to attend is extended to the public.

The course was opened last Monday evening by Dean Hawley with a lecture upon the subject, "The Making of the Declaration of Independence." His presentation of this theme was listened to with great interest by an audience which nearly filled the University chapel. The speaker brought to his audience the fruits of a careful study of the times and the men who "built" better than they knew, and his sympathetic interpretation of this building, in terms of the inner life of the people brought out in new and pleasing fashion the events leading up to the great Revolution. English government and governors alike were challenged and overthrown by English philosophy made efficient in the will of a few thousand American patriots.

Following is the program for November:

Nov. 3.—Faculty Recital: Colleges of Music and Oratory.

Nov. 10.—Speaker from abroad (to be announced).

Nov. 17.—Dr. W. T. Williamson, Prof. of Nervous and Mental Diseases; subject, "The Molding of Environment."

Nov. 24.—Professor Dawson, Department of English, subject, "Expression, a Problem for the School and Society."

All programs and lectures will begin promptly at 8:00 p. m.

Great interest in the debt-raising movement is being shown by the Alumni of the University, especially by those who, as residents of Salem and vicinity, have been able to keep well informed concerning the progress of the movement.

For the information and interest of the alumni and former students in general, the Alumni Association is sending out a copy of the following letter:

Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of **Hood's Sarsaparilla**.

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." **SMITH A. HAINES,** Withers, N. C.

Hood's Sarsaparilla promises to cure and keep the promise.

PREACHERS IN THEATRE

WILL ACT AS DRAMATIC CRITIC FOR THE BENEFIT OF FLOCKS.

NEW YORK, Oct. 30.—Members of the Church Club have become affiliated with the Actors' Church, Alliance of America, at a joint meeting in this city. Heretofore membership for the Alliance has included only theatrical folk and clergymen. The members of the Church Club who pledged their support to the movement did so after listening to the story of the Alliance told by the Rev. Dr. Walter E. Bentley, rector of the Church of the Holy Sepulchre and General Secretary of the Alliance. He explained for the first time how the Alliance has planned to "knock out" the immoral plays in America.

A committee of clergymen has been appointed, he said, to visit the various plays and to ascertain which are fit for the religious men and women to see and hear and for the children to know about. That committee, he said, includes several of the foremost clergymen in New York. The information collected by those men will be sent to pastors of the churches in every city in the country, and those men, with sympathetic, influential members of their congregations, will work quietly among the people and induce them not to patronize the plays when they come to town. A similar course will be pursued with plays that are found worthy and elevating, the ministers and laymen asking their friends to attend. It is hoped, he said, that in a few years a complete reform of the stage in America may be brought about.

Dr. Bentley declared that the stage is a means by which many existing evils might be remedied, but expressed it to be under the present conditions degrading and demoralizing.

EITHER CRAZY OR LIAR.

NEW YORK, Oct. 30.—William C. Johnson, who gave himself up to the Brooklyn authorities last night, declaring he was the slayer of Albert C. Latimer, who was shot at his home in July last, was questioned today by the police. Johnson, when asked to describe the shoes, lantern and cape found on the Latimer premises following the shooting, failed to do so. At the close of the prisoner's examination Detective Captain James Reynolds said to him that he was either crazy or a liar. Johnson told the police he lived at 464 North Eighth street, Philadelphia.

Philadelphia, Oct. 30.—Nothing is known in this city of William C. Johnson, who surrendered to the Brooklyn police, stating he had killed Albert C. Latimer in Brooklyn in July. The address given by Johnson, 464 North Eighth street, is a stable.

Cream Separator Chat

NO. 6

Watch this column for a few days. It will help you decide the separator question.

A SAFE SEPARATOR

Another feature of the Empire which must not be overlooked is the fact that it is absolutely safe. Its safety clutch is an ingenious contrivance, employed on no other separator, by which the entire mechanism of the machine, excepting the bowl and the worm wheel, are brought to a full stop the instant the pressure on the handle is released. When you stop turning, the machine stops running, the bowl alone continuing to revolve by its own momentum.

This not only saves the wear and tear on the machine, but it is also a safety device. If a hand, an arm or the clothing should catch in the gearing or drive wheel no injury would result, for the machinery would instantly stop.

EMPIRE ECONOMY

There may be manufacturers who, to get rid of their stock of out-of-date machines, will sell you a separator a little cheaper than we can sell you an Empire.

The Empire is not a "cheap" separator, but it is the most economical separator.

It is economical because it gets all the cream, saving enough extra butter fat to pay for itself in a short time.

It is the most economical because it takes less time to separate your milk with an Empire and less hard labor.

It saves hours of time in cleaning.

It is the most economical because it has no complicated parts to get out of order and run up a big bill for repairs.

It is the most economical because it will outlast any other separator made. This is because it is so simple in principle and is so well built.

It is absolutely safe. You run no risk of losing a hand or an arm, or maybe a life, when you use the Empire.

In every way, from every point of view, it is the most economical of all separators.

Drop us a line if you're interested. Always ready to mail catalogues and descriptive literature.

WAGES ADVANCED.

CHICAGO, Oct. 29.—Eight thousand shop men employed by the Chicago & Alton Railroad, the Tribune says, are to get an advance in wages of 2 cents an hour, beginning November 1. The increase will approximate \$10,000, and will affect the machinists, boiler-makers, repairers and general handy men in all the shops of the system.

The men filed a demand for an advance a month ago, and asked for a flat increase of 20 per cent. This the road was not willing to grant, but compromised on 10 per cent. This rate gives the machinists 20 cents an hour, the boiler-makers 25 cents and the handy men 25 cents.

While there is life there is hope.

CONTRIVERSY ON DUTIES

GENERAL APPRAISER OF NEW YORK RENDERS DECISION ON STEEL TARIFF.

NEW YORK, Oct. 30.—United States General Appraiser Jewell has rendered his final decision in a steel tariff controversy which has been attracting much attention of late among importers and users of foreign steel billets, and also among customs officials. The decision is regarded as favorable to the importers in that, while the valuation of the billets had been advanced considerably over the figure which the importers contended was the correct market value, the advance will not increase the rate of duty; in other words, Colonel Jewell's decision leaves the merchandise assessable at the rate of three-tenths of a cent a pound, or allows it to come in under the provision of the tariff law, which imposes that duty on steel billets, slabs, etc., valued at 1 cent a pound or less.

The general appraiser's decision, however, accepts the domestic or home market price in Germany, it is understood, as the correct valuation upon which duty shall be assessed rather than the export price actually paid by the importers in the open market, and as this is one of the main points in the controversy, an appeal will probably be taken to the board of three general appraisers, whose decision will be final.

BIG HAUL BY BURGLARS.

NEW YORK, Oct. 30.—Burglars have succeeded in entering the apartments in a hotel in this city occupied by J. B. Lewman and his brother, of Louisville, and Judge Van Epps, who was for many years trial judge in the Supreme Court in Atlanta, Ga. A valuable split-second watch belonging to the Lewmans, who own a string of horses, and money said to amount to several thousand dollars, was secured. It is supposed the burglars chloroformed the Lewmans. Judge Van Epps, who occupied a connecting room, was not aroused, and the property was not missed until several hours later. The burglars are supposed to have climbed the fire escape to effect an entrance.

MEXICO WANTS BOERS.

PUEBLO, Mexico, Oct. 30.—The people of Mexico are extending every hospitality to those who are here looking for a suitable location for a colony of Boers. Officials all over the Nation would result in the country from the immigration of the thrifty South Africans. While the Boers are clannish, there is every indication that they would give respect and obedience to the laws of Mexico, and it is earnestly hoped they will come. Englishmen who own interests here are particularly anxious to see the Boers become citizens.

DIAMOND ROBBER SUSPECT.

CHICAGO, Oct. 30.—Phillip Lambele, alias Phil Bailey, was arrested last night on suspicion of having stolen unset diamonds to the value of \$8,000 from the firm of Wechter & Weinman in the Masonic Temple last Saturday. Members of the diamond firm recognized a photograph of Lambele as that of a man who had been seen on the sixth floor of the Temple, building on the afternoon of the robbery. Several detectives were detailed on the case, and it was soon learned that Lambele was in Chicago after having been absent several months in the East.

FOR KILLING FRIEND.

CHICAGO, Oct. 30.—After brooding for 15 years over the accidental shooting of a friend, Henry Sweet, a farmer living in Bloom township, near East Glenwood, has killed himself with the same shot gun that had ended the friend's life. The accident, for which the farmer apparently desired to atone, occurred while Sweet and his friend were on a hunting trip. No blame was ever attached to Sweet. The suicide leaves a widow and five children.

MAD IN THEATER.

SEATTLE, Oct. 30.—An unknown Alaska miner went mad in a local variety theater this morning, presumably from a mad-dog bite. He was sitting down, when suddenly he sprang at the crowd like mad, with mouth foaming, and barking and biting like a dog. Six strong policemen bound him and sent him to the county jail, where he was placed in a strait-jacket. At noon he was sleeping, under the influence of chloroform.

MARRIED.

DICKINSON-CHAMBERS—At the residence of Mrs. A. N. Chambers, Albany, Oregon, Wednesday, October 29, 1902, at 1 p. m., Mr. Albro Dickinson, of Salem, Oregon, and Miss Sarah H. Chambers, of this city, Dr. M. C. Wire officiating.

Mrs. Dickinson, formerly of Albany, is connected with the House Furnishing Company of Salem, and is well known here, while Miss Chambers is one of the select and popular young women of this city. The wedding was a quiet one. An elegant lunch was served. Many beautiful presents were received. Mr. and Mrs. Dickinson will begin housekeeping in Salem, at once, where a cottage, nicely furnished, is awaiting them.—Albany Herald.

PREDICTS PROSPERITY

BRITISH INVESTORS IN CUBA SATISFIED WITH WHAT AMERICANS HAVE DONE.

LONDON, Oct. 30.—At a meeting of the Cuban Central Railways, Limited, the chairman, J. White Todd, spoke encouragingly of the political and economic prospects of Cuba in spite of the present depression in the sugar trade. He said the new Government inaugurated in Cuba under American auspices was proceeding most satisfactorily from the standpoint of the British investors. Perfect quiet and confidence prevailed. Assuming the passage of the American reciprocity bill, coupled with the favorable influence of the Brussels sugar convention, there was every reason to expect a great business revival in Cuba and an era of general prosperity. The best information now pointed to the sugar crop being at least equal in quantity to that of last year.

Referring to the promulgation of the new railroad laws, prior to the American evacuation of the island, the chairman said the American authorities had shown every disposition to act fairly toward the interests of the railroads. He thought the revised laws were not only not prejudicial to the company, but that they constituted additional protection for the companies' interests.
