

## A COLLISION IN ARIZONA

Two Passengers Meet on a Curve at High Speed

TANGLED MASS OF RUIN

Fifteen Bodies Taken From Wreckage at Least Ten More Remain

FAULT OF OPERATOR AT VALLS STATION, WHO FAILED TO DELIVER MOST IMPORTANT ORDERS—THE SUNSET LIMITED AND CRESCENT CITY EXPRESS.

TUCSON, Ariz., Jan. 28.—The failure of Night Operator George Clough, at Valls Station, to deliver orders to the west bound train, No. 9, known as the Sunset Limited, caused a head end collision at 5 o'clock this morning between trains No. 7 and 8, fourteen miles east of Tucson.

At last account fifteen bodies had been taken from the mass of burned wreckage, and it is believed this number will be swelled by the addition of at least ten more before the search of the mass of tangled and twisted iron and steel is completed.

Train No. 5, which was several hours late, and running as No. 7, stopped at Valls Station at 2:40 o'clock this morning. It was in charge of Conductor G. W. Parker and Engineer Jack Bruce, one of the oldest and best known engineers in Arizona. The conductor and engineer were furnished with orders to pass an eastbound freight at Wilcox station. There was another order at Valls Station—one to meet train No. 8, known as the Crescent City Express, eastbound, at Esmond. This order, which was the important one, the operator failed to deliver and the limited pulled out with the right of way and with no orders concerning No. 8.

When six miles out of Valls, running at the speed of fifty miles an hour and rounding a sharp curve, No. 9 crashed into No. 8, running forty-five miles an hour. The crash and the scenes immediately following were beyond description. So great was the impact from the two flying trains that the engines reared up like two animals engaged in combat and crushed the boilers like shells. The cars immediately in the rear rushed upon the mass of heated iron and piled up in an indescribable and frightfully tangled mass.

Fire broke out at once and the whole mass was soon in flames. Those who escaped set about immediately at the work of rescue. But all their efforts went for little, as the pile of debris was heated to such a degree that the workers could not approach near enough to do any good. Even in the face of all these obstacles the passengers and the trainmen, who were able to be of any service, whatever, rendered noble aid to the wounded.

It is declared by the passengers who were brought to Tucson on the relief train that the oil from the broken tanks ran in streams down each side of the track. When this inflammable fluid took fire it rendered the work of rescue very difficult and dangerous.

A Pullman sleeper on rear of train No. 8 was detached by the tremendous force of the collision and ran down the grade into Tucson, crashing into a switch engine. Both engine and sleeper were damaged to some extent. The arrival of the runaway sleeper was the first news of the wreck to reach Tucson although it had been authoritatively stated that Operator Clough at Valls, learning of his fatal error when No. 7 had departed, told the dispatcher's office that a wreck would occur.

Soon after the Pullman car ran into Tucson the brakeman arrived from Valls, bringing the news of the wreck. His reports were that the dead would number from twenty-five to fifty.

Engineer to Blame. New York, Jan. 28.—The total loss of life by last night's collision on the Central Railroad of New Jersey, at Grace land, is tonight up to twenty. In addition to these, Engineer Davis and Fireman McCarthy, of the Philadelphia &

Reading express, who are in the hospital at Plainfield, may die at any moment and it is believed that several of the injured passengers cannot recover. The blame for the disaster is placed by the railroad officials upon Engineer Davis.

Another in Illinois. Chicago, Jan. 28.—Four persons were killed, three seriously injured and eight slightly injured in a rear end collision between two stock trains on the Chicago & Northwestern Railway near La Fox, Ill., this morning.

'Tisn't safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

## AS IF NOTHING HAD OCCURRED

Kwong Hing "Slop Tong" Had Exciting Adventure Last Evening

HIS USUALLY DOCILE STEEDS TOOK A SUDDEN NOTION TO SPRINT AND WENT CAREENING UP COURT STREET WITH LOAD OF SWILL.

(From Thursday's Daily).

About the only event that took place yesterday to mar the peace and serenity of the city was a runaway team on Court street. The team was the property of Kwong Hing, the popular Chinese swill-gatherer, who is feeding a lot of hogs out east of the city.

The Celestial had partially made his daily round and in consequence several barrels heaping up with rich refuse from back kitchens testified to his unusual success. He drove the team around on Court street and drew up in front of J. A. Taylor's grocery store, and ran in to purchase some necessary articles for supper, leaving the team standing near the curb. But no sooner was the driver out of sight than the horses took a sudden notion to run, and started up Court street at a mad gallop.

The slog wagon two or three times came within a few inches of colliding with passing vehicles, and to make matters worse and more interesting, several well-meaning citizens rushed out and attempted to stop the frightened horses by raising and shaking umbrellas in front of them, which only served to increase their speed. All this time the luckless driver was patterning up the street as fast as his legs would carry him in a fruitless endeavor to overtake his flying steeds, yelling at every step to them to stop.

The team continued to run until reaching the State House when, becoming exhausted from drawing the heavily laden wagon, stopped to rest, whereupon Kwong Hing, panting and exhausted, came up, climbed into his wagon, gathered up the reins and went back to gathering up slop as unconcerned as though nothing had occurred to ruffle the smoothness of his quiet everyday life.

## STAYTON NEWS NOTES

(From Thursday's Daily).

E. Weddle made a business trip to Salem Wednesday. Mrs. Ollie McCulloch is in the city, the guest of relatives. Mrs. John Williams and two sons left Monday for Seattle where they will reside in future.

Mr. White, a resident of Amity, Polk county, was a Stayton visitor Monday.

Grandma Darby, one of Stayton's residents, is very ill at her home on Third street. At last accounts she was slowly improving.

James Brown received a telegram from San Diego, Cal., recently, stating that his son, W. C. Brown, of that city, is quite ill.

The first snow of the season in this section began falling Monday, and continued to fall until a mantle of white covered the ground to the depth of several inches.

The Santiam river was on a regular rampage Saturday and Sunday, and tore things up generally in this section. Besides washing out about fifty feet of the approach to the big bridge, great cavities were dug out in the country road, large drifts washed into the mouth of the millrace, and the underpinning washed from under the dry kiln at the chair factory, leaving that building decidedly toppled over. A temporary foot bridge has been built over the place washed out in the bridge enabling footmen to pass until the bridge can be properly repaired. Stayton, Jan. 28.

## IN REFEREE'S COURT

JOHN BAYNE YESTERDAY HEARD OBJECTIONS TO CLAIMS IN AMEND CASE.

John Bayne, as referee in bankruptcy, yesterday heard evidence in the matter of the objections made by the trustee, Ben Robertson, to the claims of Ben Amend, Jud Amend, Brush Amend and Sara Amend, against Isaac Amend, a bankrupt. The objections were about a claim of \$1800 for wages, and the taking of testimony occupied the attention of the court until 6 o'clock, when an adjournment was taken until 8:30 o'clock this morning. Geo. G. Bingham and L. A. Adams appeared for the referee and L. H. McMahon for the claimants.

## PEARY IS HONORED

NEW YORK, Jan. 28.—At annual meeting of the American Geographical Society, Commander Robert H. Peary, U. S. N., has been elected as president to fill the vacancy caused by the resignation a year ago of Mayor RE PEARY. Seth Low. The other officers of the society were re-elected.

## VENEZUELA'S GREAT DEBT

Minister Bowen Says It Will Amount to \$40,000,000

OFFERS THIRTEEN PER CT.

Of Customs Receipts of All Ports in Payment of Debt

OFFERS THIRTY PER CENT OF RECEIPTS OF TWO PORTS FOR UNADJUDICATED CLAIMS—ENGLAND CONFESSES THE INITIATIVE—IN CONGRESS.

WASHINGTON, Jan. 28.—This afternoon Minister Bowen gave out a brief statement of the diplomatic debt of Venezuela and the methods for its future adjustment. In round numbers this debt amounted, on December 31, 1901, to something over \$14,000,000, and consisted of claims which had previously been adjusted.

Since that date, owing to the almost constant state of revolution which has prevailed in Venezuela, no payments have been made on the debt. Bowen's plan provides that 13 per cent of the customs receipts of the Venezuelan ports should go toward the payment of this debt.

For the payment of the unadjudicated claims, 20 per cent of the customs duties of two ports, Porto Cabello and La Guayra has been offered in pledge by Bowen.

From the highest authority it was learned today that the publication by the London Foreign Office of the fact that Great Britain and not Germany sought the alliance against Venezuela, was brought about by representations from the German Foreign Office. It is said that Germany had threatened to publish the diplomatic exchanges between Germany and the British Foreign Office unless Great Britain immediately should bear the responsibility for the alliance. This threat was induced by the anti-German feeling aroused in the United States by the events in Venezuelan waters.

## ANKENY WINS OUT

RECEIVED FIFTY-EIGHT VOTES IN REPUBLICAN CAUCUS LAST NIGHT.

OLYMPIA, Wash., Jan. 28.—In a Republican caucus participated in by 76 members of the Legislature, Levi Ankeny, of Walla Walla, was declared the choice by the following vote: Ankeny, 58; Preston, 13; Wilson, 3; Allen, 2. Necessary to the choice of the caucus, 52. Ankeny will receive a majority of the votes in the Legislature on the joint ballot tomorrow as only 53 are required to elect. Thirty-six Republicans declined to join in the caucus.

OLYMPIA, Wash., Jan. 28.—The supporters of Ankeny at 3 o'clock, announced that they had a sufficient number of signatures to the caucus all to hold an effective caucus. A general caucus will probably be held later this evening and a United States Senator chosen. Ankeny's strength reached 56 on the joint ballot today with one of his supporters paired. This gives him 57 votes or just enough to carry the Republican caucus. His election tomorrow on the joint ballot seems certain.

Denver, Col., Jan. 28.—Governor Peabody this afternoon signed the certificate of Henry M. Teller's election to the United States Senate.

## A FEARFUL SNOWSLIDE

A GREAT AVALANCHE RUSHED DOWN MOUNTAIN AND KILLS THREE PEOPLE.

\*SALT LAKE CITY, Utah, Jan. 28.—A special to the Tribune from Park City, Utah, says:

A snowslide occurred here early this morning that killed three miners outright and injured several others. It swept down from the high mountain that overhung the Quincy shaft house, carrying the structure down into the valley below and in its course wrought untold other damages. The killed: John Gaffney, engineer; E. J. Colter, station tender; Charles Frink, fireman.

The cause for the snowslide is the fact that the heavy storms that have raged during the past few days in this locality have so packed the snow in the mountains that it had to come. The snow has melted considerably around the lower part of the mountains and the slush that was formed in this manner was not strong enough to hold back the tremendous weight of the banks above.

## FREAK OF BOMB

FRAGMENT OF CHINESE BOMB KNOCKS HOLE IN GROCERY DOOR.

When Thomas Hurd, clerk in the grocery store of Steiner & Co., arrived at the store yesterday morning, he was considerably surprised to find a large hole in the glass door at the front of

**Ferrys**

Seeds

are planted by farmers and gardeners who have shipped their seeds to the Ferrys Seed Co. for a long time. The seeds are of the highest quality and are guaranteed to be true. The Ferrys Seed Co. is a well-known and established business. Write to the Ferrys Seed Co. for a list of seeds and prices.

THE FERRYS SEED CO., DETROIT, MICH.

the store about six feet from the floor, and broken fragments of glass scattered the full length of the room. He was at a loss to understand how the glass had been broken until he found at the rear end of the store a part of a Chinese bomb used the night previous by the Chinese on the opposite side of the street in celebrating the dawn of their New Year. The bomb was made of small bamboo splints woven into the form of a basket, and was about six inches in length by perhaps three in diameter, and must have been sent with considerable force to go through the door after crossing the street, and it was well that it occurred at night instead of in the day time when the store was full of people, for in the latter case some one might have been seriously injured.

## SENSATION AT PENITENTIARY

Female Convict Reported to Be in Delicate Condition at Prison

GOVERNOR CHAMBERLAIN AND SUPERINTENDENT LEE WILL MAKE THOROUGH AND IMPARTIAL INVESTIGATION TODAY—NO NAMES GIVEN.

There are some rather sensational surprises in store for the public if the reports in circulation last night concerning one of the two female inmates confined in the State Penitentiary prove to be correct, and it is understood that Governor Chamberlain will go to the prison today to make an investigation of the report which is to the effect that one of the women convicts is in a delicate condition.

As above mentioned, there are but two women in the State Penitentiary—Mrs. Carlisle, sentenced from Jackson county to serve nine years for the crime of arson, who already has served two and a half years; and Mrs. Crockett, sentenced for life from Umatilla county, charged with homicide. It could not be learned last night which of the unfortunates is in trouble, but this fact will be revealed and made public after the investigation today. There have been but two men at the prison who had legal access to the cells of the women, and one of these was the man, White, a trusty, who acted as the prison nurse and who, it will be remembered, made his escape from the prison about ten days ago. There will probably be evidence brought to show that White is the guilty man.

The other is an officer of the prison, but no connection with the scandalous case has yet been attached to him.

A Statesman reporter called upon Superintendent J. D. Lee at his home near the Penitentiary last night, but was unable to learn the particulars regarding the case as Mr. Lee was absolutely non-committal in regard to the case, preferring to investigate thoroughly, and learn the exact facts before making the matter public. Mr. Lee said, however: "An unpleasant rumor has reached my ears which will be thoroughly and impartially investigated; that when the facts are known they will be given to the public. Any attempt at this narration at this time is liable to do injustice to parties whose names are used in connection with it."

## WOULD ABOLISH DRUNKS

REPRESENTATIVE HINES WILL TRY TO ENACT LAW COMMITTING TO ASYLUM.

(From Thursday's Daily).

Hon. Charles Hines, of Washington county, a member of the House thinks he has hit upon a plan whereby inebriety may be reduced to a minimum, and, perhaps, abolished altogether, in this state at least. With this object in view Representative Hines has introduced a bill into the Legislature which provides that all inebriates shall be examined by the county court, in the same manner in which the insane are now examined, and committed to the Insane Asylum for a term of not less than one year nor more than five years.

After being committed and having been detained at the Asylum for thirty days, if a patient appears to be cured, the superintendent of the institution may parole him; provided that such patient shall pledge himself or herself to refrain from the use of all intoxicating liquors as a beverage during the remainder of the term for which he may have been committed and shall also avoid the frequenting of places and the association of people tending to lead them back to their inebriety, and shall also make a report once each month to the superintendent to the effect that he has kept faith with all of the conditions of the parole, this report to be heard the affidavit of the county clerk.

In the event that he fail to make his report duly and regularly the sheriff of his county is empowered at any time to take him in custody and return him to the institution.

So far this bill has only been up for introduction and first reading.

## TO WHOM IT MAY CONCERN.

There having recently appeared in some reputable publications certain advertisements of Catalogue, Bowers, etc., offering for sale Wheeler & Wilson Sewing Machines, we desire all to understand that such advertisements are not agents for the sale of our machines, that we do not furnish machines to any but our authorized agents for resale, that such concerns cannot obtain the sale except as they may pick up one now and then in some surreptitious manner, that the object of such advertisements is not to promote but to prevent the sale of Wheeler & Wilson machines by representing to customers that some cheap machine of theirs is just as good as ours, and that, so far as our machines are concerned, the effect of such advertisements is to mislead the public.

WHEELER & WILSON MFG. CO. Geo. C. Will, Salem representative.

## NEWS FROM WEST SIDE

Dallas School Board Levies One Mill Tax to Pay Interest

NO FLOATING INDEBTEDNESS—YOUNG MAN MEETS WITH SERIOUS ACCIDENT AT FLOOD GATE—TAKE NO STOCK IN COUNTY SEAT FIGHTS.

DALLAS, Jan. 28.—(Statesman Special.)—At a regular meeting of Dallas public school board last night a levy of one mill was made to pay the interest on school bonds. The amount of bonds of the district is \$7,500. The district has no floating debt. The board also gave all the teachers, except the principal, a raise of \$5 per month.

## Was Seriously Injured.

Dallas, Jan. 28.—(Special.)—Floyd Blake was seriously hurt last Sunday while operating a flood dam gate, on the La Creole Creek above town. He allowed the windlass lever to slip from his hand, when the return action of the lever came in contact with his head with such force that he was rendered unconscious, and was found in that condition some hours afterwards. He was brought to Dallas for treatment and is now doing well and will recover.

## They Cause Strife.

Dallas, Jan. 28.—(Special.)—The people of Polk county are now looking on complacently at the utter folly of some of the Eastern Oregon county seat fights, realizing that these contests are a detriment to every county that indulge in such a luxury. Polk county has in the past had the sad experience of one of the most bitter and prolonged contests of this kind in Oregon, and as long as it continued it brought nothing but injury to the business and development of the county, and disappointment to its citizens. It was continually a source of great expense, and worse than all, the embitterment of its citizens with local strife and misrepresentation on the part of rival towns. The people of this county, in every locality, bless the day that the county seat question was finally settled. And now the rivals can, and are, with commendable energy, pushing the business and manufacturing interests of their respective towns without the fear of jealousy on the part of him "who was once their mortal foe."

## Rented the "Gale."

Dallas, Jan. 28.—(Statesman Special.)—Moss Walker, of Lebanon, has rented the Gale Hotel in Dallas. This hotel is the property of Mrs. Ebert Thompson, the widow of Ebert Thompson, deceased. Mrs. Thompson holds this house in partnership with J. B. Thompson, father of Ebert, who died in Portland a short time since, where he had gone for medical treatment.

## Rabbi Wise Lectures.

Dallas, Jan. 28.—(Statesman Special.)—Rabbi Wise, of Portland, last night delivered to a crowded house the first lecture of a series under the auspices of the "Ladies Professors" of Dallas College. "The Ladies Professors" is the name of an organization whose purpose is to maintain a lady professor in the faculty of Dallas College. The subject for this lecture was "What Israel Has Done for the World."

Rabbi Wise is an intensely interesting lecturer, learned, polished and eloquent and held the audience in rapt attention from start to finish.

## Was Seeing Things.

Dallas, Jan. 28.—(Statesman Special.)—It is reported today that Dick Daniels' wall paper and picture frame establishment was burglarized last night to the amount of \$11 in cash and a diamond ring valued at \$70. Some say that the report arose from what the proprietor saw through the bottom of a glass.

## Smith's Dandruff Pomade.

stops itching scalp upon application three to six removes all dandruff and will stop falling hair. Price 50c, at a druggists.

## DID MUCH DAMAGE

FLOUR MILL ADDITION A TOTAL WRECK AND WILL BE REBUILT.

The river is falling even more rapidly than was expected, and will soon be at the normal winter stage again.

Yesterday at 4 o'clock p. m. the water stood 14.7 feet above low water, showing a fall of 14.8 feet since Tuesday morning. Laborers were at work yesterday repairing the walk leading from Front street to the O. R. & N. Co's dock, which was torn out by the high water.

At the Salem Flouring Mills Co's warehouse, more damage has been done than was at first realized. The building added on the south side for unloading wheat from steamers and containing the large elevator for conveying it to the warehouse, is totally wrecked, and will be torn away as soon as low water permits, and a new building erected and securely anchored. The damage done to the fill at the Polk county end of the steel bridge is being repaired, and caused little inconvenience in crossing.

In order to correct some misunderstanding of the height of water during the floods of recent years, the figures are here given.

During the recent flood the water reached its highest point at 11:30 p. m. Monday, registering at that time 25.5 feet. In the spring of 1901 the water was about 15 inches higher than this time, and in the great flood of 1890 the water registered a height of 26.5 feet, or about 7 feet higher than in the recent high water, instead of one-half foot higher, as has been stated.

The precipitation for the past 24 hours preceding 4 p. m. yesterday was .29 of an inch, and for the same period, the maximum temperature was 50 degrees Fahrenheit, and the minimum 35 degrees.

**HOSTETTER'S**

CELEBRATED

STOMACH BITTERS

To Cure Sick Headache, Sour Stomach, Indigestion, Constipation, Malaria, Fever and Ague, you should take the Hostetters at once. No other remedy is so effective or has such a record of cures back of it. Give it a trial.

## NO NEW DEVELOPMENTS IN SENATORIAL GAME

(Continued from page 1.)

ment changing general elections from June to November; favorable. Education, H. B. 83, by Galloway, amending section 3569, relating to establishment tax; favorable.

Claims, H. B. 105, by Hale, to reimburse W. H. Hampton; favorable. Roads and Highways, H. B. 189, by Hayden, authorizing county courts to order construction of flume ways on county roads; favorable with amendments.

Cities and Towns, H. B. 230, by Galloway, amending chapter of North Yamhill; favorable. H. B. 236, by Test, incorporating Cantario; favorable.

S. B. 43, by Pierce, incorporating North Powder, with amendments.

Agriculture, H. B. 188, by La Fayette, creating office of hop inspector; favorable with amendments.

Health and Public Morals, H. B. 114, by Hutchinson, regulating pursuit, business and avocation of a barber; favorable with amendments.

Fisheries and Game, H. B. 102, by Hahn, protecting boat pullers and fishermen; favorable.

H. B. 32, by Test, for protection of salmon industry; favorable with amendments.

H. B. 88, 89, 90, and 91, relating to killing of deer; referred to committee on game.

Labor and Industries, H. B. 53, by Banks, to regulate and limit the hours of employment for females; favorable with amendments.

H. B. 73, by Shelley, to regulate and license warehousemen; favorable with amendments.

H. B. 136, by Bailey, to prevent blacking of mechanics, unskilled laborers, etc.; favorable with amendment.
