

WILL HE BALANCE THE ACCOUNT?

NEW DEVELOPMENTS ANTICIPATED MONDAY

Rumored That the Opposition to Fulton Will Arrive at an Understanding the First of Next Week and Settle the Controversy

It Is Said That Hon. Harvey Scott, Who Has Been the Leading Dark Horse in the Contest and the Multnomah Delegation's Choice of Candidates, Will Publicly Withdraw From the Race Monday

EIGHTEENTH BALLOT

FULTON	33
GEER	15
WOOD	16
SCATTERING	15
ABSENT AND PAIRED	3
TOTAL	90

(From Thursday's Daily).

There was no change in the Senatorial situation yesterday, and the balloting was gone through with in the same old droll and uninteresting manner. Representative Jones, of Lincoln and Polk, who was expected to switch from Herrmann to Fulton yesterday, was absent from the arena, but may be on hand to cast his ballot today.

Aside from this change, if he changes at all, nothing more is anticipated this week, and by that time the Fulton forces will begin to look around for other material and they will not have to look far, either, for the great majority of them have picked their man long ago, and it will not take them long to make up their minds when the time comes.

The first of the week, however, some new and interesting developments are anticipated which will tend to release the agony and suspense. It is understood, and from a pretty reliable source, that the opposition forces to Fulton will arrive at some sort of an agreement and settle upon a compromise candidate, but who this candidate will be it could not be learned, as it is evidently not definitely decided. It may be said, however, that if it is not T. C. Geer, it will be a prominent Portland man, but his name is not yet ripe for divulgence.

Another report also gained circulation last night that Hon. Harvey Scott, who is the foremost "dark horse" from Portland, and to whose support, it is said, the Multnomah delegation has been pledged, will publicly announce his withdrawal from the race and will leave the field open for some more favorable candidate who has been keeping in the background.

When these things take place it may be said that the strife will be practically at an end and a caucus of the Republicans between two candidates will settle the difficulty once and for all.

Senator Kuykendall's clerk last week passed the Senate yesterday afternoon, by a vote of 17 for to 16 against, with 3 absent.

Senator Kuykendall made the statement that the measure was so well known that it was unnecessary for him to make a statement of its contents. He knew no reason why the bill should not pass.

Senator Farrar was willing to admit that Kuykendall's intentions were good, but he did not think the Legislature had any right to pass a law to govern the actions of one in the future. Every Legislature should be governed by its own rules and regulations.

Senator McGinn agreed thoroughly with Farrar. He said that the Legislature would not and could not be governed by the actions of this Legislature.

Senator Pierce thought the bill was a good one and should pass. It was a move in the right direction.

Senator Mulkey was not in favor of the bill. He said he could not understand how anyone could vote for the bill who had sworn to support the Constitution, which clearly said that each Legislature should adopt its own rules and appoint or elect its own clerks. He said it was not right for this Legislature to take laws to govern the actions of the next. Senator Fulton was present and he

wished to record himself in favor of the bill. He said all would admit it was a step in the right direction. The people expect some action in the matter. There had been some extravagance in the matter of clerk hire in the past, but not so much as the people generally thought. Since the people wanted the employment restricted as much as possible, it should be done. He believed the people's will should be followed when known, as far as possible. He believed the Legislature should place a proper limit on the employment of clerks.

The bill was placed on its final passage and when the vote had about half been taken a call of the Senate was moved. Senator Fulton asked that the sergeant-at-arms be instructed to make a thorough search for absent members, which he believed had not been done. He said the members should be put on record. Senator Kuykendall said he, too, would like to see a full vote and that each member should be placed on record. He said there seemed to be a disposition on the part of some to prevent a full vote on the measure. He explained that the measure if passed, would not affect the actions of the present Legislature.

The result of the vote was as follows: Yeas—Scott, Carter, Fulton, Hoffman, Johnson, Kuykendall, Marsters, Mays, Miller, Pierce, Bond, Smith of Multnomah, Smith of Umatilla, Stewart, Sweek, Brownell, 17; nays—Croisan, Daly, Farrar, Hobson, Howe, Hunt, McGinn, Mulkey, Myers, Wade, Wehrung, 16; absent—Dimmick, Smith of Yamhill, Williamson, 3.

House Bill No. 215, by Representative Johnson, passed the Senate yesterday forenoon with little opposition. This act provides for the construction of a portage railroad at Celilo above The Dalles, and appropriates \$165,000 for that purpose. Senators Fulton, Pierce and Kuykendall spoke in favor of the bill. There were only four votes against the bill—Daly, Miller, Smith of Yamhill and President Brownell. Carter, Croisan, Howe and Mulkey were absent.

Senator A. C. Smith, of Multnomah county has introduced a bill in the Senate, the purpose of which is to give the Governor power to contract convict labor at a rate per day of not less than 35 cents.

This bill was represented as being especially designed for an emergency existing at the State Penitentiary, which is reported as being badly in need of extensive repairs and that it is desired to contract convict labor upon the work as a great saving to the state.

Senator Smith made an effort to have the bill passed up to its third reading but failed because of some strong misgivings developed principally on the part of Senators McGinn and Marsters. He thought they could detect a "greenish tinge of color in the woodpile" and, thinking that it was an attempt to rest too much power in the Governor in the matter, when it should be left to the State Board, and the bill was referred to the committee on Judiciary and ordered printed.

Governor Chamberlain reported to the Senate the appointments which were made by Governor Geer since the session of 1901, which appointments were ratified by the Senate after an effort

on the part of Senator McGinn, who thought, in substance, as he expressed it, that the appointments may not have been in due form and according to the principles of the Republican party, to refer it to the Judiciary committee, possibly for amendment, was defeated. The appointments referred to, follow: Hon. J. W. Hamilton, of Roseburg, as member of Board of Regents of State University at Eugene, for twelve years; Hon. R. P. Neil, of Ashland; Hon. A. J. Sherwood, of Coquille City, April 11, 1901, Board of Regents of Southern Oregon State Normal School, at Ashland, for six years; and Hon. J. A. Black, of Drain, to fill unexpired term of Hon. C. D. Drain, resigned; Hon. W. W. Kent of Drain, to succeed Hon. R. A. Booth, resigned; Hon. B. D. Boswell, of Boswell Springs; Hon. Robt. Veatch, of Cottage Grove; Hon. Jos. Lyons, of Drain, as Board of Regents of Central Oregon State Normal School, at Drain, for term of six years.

Representative Davey has introduced a bill in the House which provides an amendment to the new Salem charter, which has but recently become a law, by request of some of the residents of the suburbs, who had but one objection to being incorporated in the city and that was the prohibiting of the establishment of saloons in their neighborhood.

This bill amends the charter to the extent that it establishes a saloon limit and provides that no saloon shall be permitted to establish south of Mission street and north of the North Mill creek. This amendment is a very meritorious one and Mr. Davey does not anticipate any antagonism.

Sheriffs from all parts of the state held a meeting at the State House last evening and formed an organization to fight Senate Bill No. 65, which provides for the transportation of patients to the insane asylum from all counties by an attendant or nurse from the insane asylum.

The best at one-half price

It takes five of the ordinary "quarts" to make a gallon, but a HAYNER QUART is a full quart, an honest quart of 32 ounces, four to the gallon. Now, you pay your dealer at least \$1.50 a bottle for whiskey that cannot possibly be any better than HAYNER, if as good, or \$1.50 a gallon. If you buy HAYNER WHISKEY you save at least \$1.00 on every gallon. We sell two gallons for about the same as you pay for one gallon of probably poorer whiskey. Just think that over and remember that HAYNER WHISKEY goes direct from our distillery to you, carries a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY and AGE and saves you the dealer's enormous profits. That's why it's so good and so cheap. That's why we have over a quarter of a million satisfied customers. That's why YOU should try it. Your money back if you're not satisfied.

NEW ALARM GONG

FIRE CHIEF JOHNSON AND ENGINEER DE LONG EXERCISE MECHANICAL INGENUITIES.

(From Thursday's Daily).

Fire Chief Johnson and Engineer Walter De Long have been engaged for several days in rigging an alarm to arouse the members of the fire department when an alarm is turned in at night while the boys are asleep. The only alarm heretofore was a small bell which made about as much noise as an ordinary alarm clock, and the boys thought this was not sufficient.

The new arrangement is a large gong fastened to a board about three feet square and made fast to the wall in the engineer's room on the second floor. Two small cog wheels are bolted to the board about eighteen inches apart connected by an ordinary bicycle chain. A cord is wound on the hub of one of these cog wheels, and to the cord is attached a four-pound weight. When the cord is wound up the wheels are held by a catch. The new arrangement will be connected with the regular alarm bell and when that is set in motion the catch is withdrawn which allows the weight to fall and this sets the cog wheels in motion. The wheels in revolving set a hammer in motion which strikes the gong with each revolution of the wheels, making noise enough to awaken the soundest sleeper. The machine is quite an interesting affair and a great improvement over the old system.

Catarrh Cannot Be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Cancerous Ulcers

At first have nothing about them to indicate their true nature. They look like ordinary sores and are usually treated as such, some simple salve, wash or powder being used in the hope of drying them up and stopping the discharge, but while the place may temporarily scab over, it again inflames and festers, becoming as bad or worse than ever. After awhile the deadly poison begins to eat into the surrounding flesh and the sore spreads with frightful rapidity. Then the sharp shooting pains, which distinguish the cancerous from the common ulcer, are felt, and the unfortunate patient is brought face to face with the most dreaded of all maladies, a cancerous ulcer.

Whenever an ulcer of any kind is slow in healing it should be closely watched, particularly if there is an inherited predisposition to cancer. Often times a malignant, stubborn ulcer starts from a boil, wart, mole, bruise, blister or pimple, for when the blood is tainted and the germs and seeds of cancer are implanted in the system, you cannot tell when nor where the deadly poison is going to break out.

S. S. S. cures these cancerous ulcers and chronic sores, by driving out of the system all the morbid and unhealthy matter that keeps the ulcer irritated and discharging. It purifies and strengthens the blood, enabling it to throw off the germs and poisons, thus checking the further formation of cancer cells, and when all impurities have been removed from the blood and system the ulcer heals naturally and permanently.

All ulcers, even the smallest, should be looked upon with suspicion and treated promptly before they become cancerous. S. S. S. is a purely vegetable remedy, a perfect blood purifier, and an invigorating tonic. Write for our free book on Cancer.
